UNIVERSITY MISSION STATEMENT

Troy University is a public institution comprised of a network of campuses throughout Alabama and worldwide. International in scope, Troy University provides a variety of educational programs at the undergraduate and graduate levels for a diverse student body in traditional, nontraditional, and emerging electronic formats. Academic programs are supported by a variety of student services

which promote the welfare of the individual student. Troy University's dedicated faculty and staff promote discovery and exploration of knowledge and its application to life-long success through effective teaching, service, creative partnerships, scholarship and research.

WELCOME TO TROY UNIVERSITY

Troy University's history of teaching excellence dates to its founding in February 1887 as Troy Normal School. From the outset, the institution quickly earned a reputation for innovation and accessibility. Troy Normal became Troy State Teacher's College in 1929, Troy State College in 1957, and Troy State University in 1967.

The Montgomery Campus earned independent accreditation in 1983, as did the Dothan Campus in 1985. The Phenix City Campus and the locations around the nation and the world administered by the Troy Global Campus have always operated under the accreditation of the Troy Campus.

In 2005, the separately accredited campuses were merged into a single university structure forming Troy University. This name change represented the fifth major advancement in the storied, dynamic rise of the University to national and international prominence. Today, Troy University serves students in Alabama, throughout the United States and around the world.

The Troy University calendar may be found at www.troy.edu/calendar.

GENERAL INFORMATION

For information about the features of each Troy University location, please consult the university website. Students may also contact their academic advisers or registrar.

Academic Support

Troy University offers students a variety of academic support services, including resources to assist students in areas such as technology, career planning, study skills, academic planning, and tutoring in selected subjects. Students at the Troy Campus may also participate in the First-Year Studies Program geared to the needs of students making the transition to college from high school or post-high school experiences.

Students should contact the registrar or an academic adviser at their campus locations for more information about available resources.

Alumni Association

The Troy University Alumni Association's sole purpose is to establish mutually beneficial relations between Troy University and its alumni. Alumni Affairs coordinates the activities of this association, promotes alumni services, and establishes scholarships. In addition, Alumni Affairs broadens communication between alumni and the university. Through these activities and services, the university is able to respond to the needs of its constituents thus enabling alumni to respond to the needs of the university. Additional information regarding these activities and services can be obtained by calling Alumni Affairs at (334) 670-3318 or 1-877-487-6978.

Centers and Institutes

Center for Design, Technology and Innovation

Better known as <<dti>>, the Center for Design, Technology and Innovation is a design think tank housed within the Department of Art and Design at Troy. Synthesizing an aggressive, multi-disciplinary design education with the varied visual communication demands of the global marketplace, <<dti>> is responsible for developing design strategies for qualifying businesses, industries and not-for-profit organizations.

Center for International Business and Economic Development

The Center for International Business and Economic Development (CIBED) is an administrative unit of the Sorrell College of Business. The CIBED coordinates the outreach and research activities of the college and directs the economic development undergraduate and graduate programs. CIBED offices are located at all Troy University campuses in Alabama to enable personnel to be involved in the economic and community development of the region and to extend assistance to existing small businesses, industries and governmental agencies.

The Center for Business and Economic Services (CBES) within the CIBED was established in 1974. CBES activities include applied research, educational activities and management consulting. The CIBED also publishes the "Troy University Business and Economic Review" and co-edits the national "Journal of Applied Research in Economic Development."

CIBED supports the economic development of small businesses through its Small Business Development Center (SBDC). The SBDC offers one-to-one consulting, training, information and government bidding opportunities to small businesses in a ten-county area of southeast Alabama.

Center for International Programs

The Center for International Programs at Troy University promotes international education for all students. It works to help prepare students with the necessary knowledge, skills, and attitudes to be responsible and concerned citizens in the 21st century. It actively supports international students attending Troy by providing counseling, orientation programs, travel opportunities, assistance with visas and other governmental requirements. In

addition, it works to create a bridge between the community and the international students. It coordinates degree programs offered in Malaysia, and Vietnam. The Center for International Programs also develops and encourages study abroad agreements and activities in order to assist all students at Troy University with invaluable experience in international education. The Center for International Programs offers instruction in English as a Second Language (ESL) to ensure that all international students studying at Troy University have the necessary English language skills to be successful in their chosen academic programs.

Confucius Institute

The Confucius Institute at Troy University is a non-profit institute aiming at sharing Chinese language and culture through affiliated Confucius Institutes worldwide. Its headquarters is in Beijing, under the Office of the Chinese Learning Council International (Hanban). The CIT provides non-academic university credit in conversational language instruction to the community in addition to serving as an informational resource. For more information about the CIT, please visit troy.edu.

Institute for Leadership Development

The Institute facilitates development of ethical, responsible leaders who want to use their leadership abilities at school, on the job and in various sectors of society. The Institute promotes servant-leadership; that is, leading to serve others and the organization. Servant Leaders must demonstrate character (who they are), competence (what they can do), and confidence (belief in themselves and their ability to lead). The Institute facilitate leadership development by:

1. Administering and teaching courses that are open to all students. These courses develop knowledge and leadership skills. Furthermore, the Institute offers the Minor in Leadership Development.
2. Instituting, attracting, administering, and coordinating leadership conferences, including the Alabama HOBY (Hugh O'Brien Youth Leadership Seminar), Alabama Lions High School Leadership Forum, and the African American Leadership Conference. These conferences each attract hundreds to the TROY campus. The Institute also hosts County-wide Youth Leadership Programs where high school students spend a day on the TROY campus.
3. Cooperating with various academic departments and student programs to enhance LATC—Leadership Across The Curriculum. A study of LATC was the project of the 2018 Chancellors Fellows.
4. Directing the Chancellor's Fellowship program which enables full-time faculty and staff to develop increased knowledge and understanding of the programs and operations of Troy University. Furthermore, fellows are mentored by the Senior Vice Chancellors, and receive executive leadership, management, and communication skills training and they complete a project beneficial to the university. Participants are selected by the Chancellor based on their leadership potential and service to the University. Previous Fellows have risen to positions of Vice Chancellor, Academic Dean, Graduate Dean, Dean of Library Services, as well as Directors and Chairs of many academic and support programs.

Institutional Research, Planning and Effectiveness (IRPE) Office

The IRPE office provides required services for institutional research, planning, and effectiveness. In the area of research, the IRPE office prepares analyses, surveys, and reports regarding numerous University areas for federal agencies, state agencies, non-governmental external agencies, and the University. In the areas of institutional planning and effectiveness, the IRPE office coordinates activities which include providing information to the various divisions and units of the University; maintaining the

HOMER system, which documents program-level institutional effectiveness activities; surveying students, alumni, and employers; and reviewing the effectiveness and planning documentation for existing, new and revised programs. The IRPE office publishes the results of online surveys and provides the TROY Fact Site of demographic information online. In addition, the IRPE office assists the University liaison with the Alabama Commission on Higher Education (ACHE) and the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).

International Center for Collaboration and Creativity (iC3)

The International Center for Collaboration and Creativity (iC3) fosters and facilitates intercultural, international and interdisciplinary ventures. The central catalyst for and the expected results from this center will intrinsically be collaboration and creativity. Cultures and disciplines are converging. As a result of this convergence, there is a new emergence of discoveries and hybrid disciplines. The creation of the iC3 not only develops hybrid academic ventures but provides impetus for attracting new interdisciplinary programs and instructional models in higher education. The iC3 is housed within the College of Communication and Fine Arts.

Endowed Chairs and Professorships

Five endowed chairs have been established by the Troy University Board of Trustees and endowed with funds from Mrs. Anise J. Sorrell and others. Some of these chairs have full-time occupants; others provide visiting lecturers and enhancements.

Sorrell Endowment

The Adams-Bibby Chair of Free Enterprise

The Adams-Bibby Chair of Free Enterprise was made possible by a gift from Mr. and Mrs. Walter Berry Bibby and a bequest from the estate of Mrs. Anise J. Sorrell. The chair is named in honor of the Bibbys and Mrs. Bibby's father, Mr. Eason Young Adams.

As an incentive to encourage private donations to the state's public universities, the 1985 Alabama Legislature established the Alabama Endowment Trust Fund for Eminent Scholars. This trust provides \$400,000 to the Troy University Foundation for each \$600,000 donated to the foundation for the Eminent Scholar Endowment.

Eminent Scholars

- ALFA Eminent Scholar in Environmental Management and Agriculture
- Eminent Scholar of Computer and Information Science
- HealthSouth Eminent Scholar in Sports Medicine
- Troy University Foundation Eminent Scholar Chair in Banking and Finance.

Professorship

- The E. H. Sherman Professorship in Accounting
- The Sherman Professorship was established by gifts from alumni and friends of the Troy University accounting program.

Graduate School

A student with a bachelor's degree from an accredited college or university may apply to the dean of the Graduate School for admission. The Graduate Catalog should be consulted for detailed information on the regulations of the Graduate School, the programs and courses offered for graduate credit, the requirements for degrees, financial aid and other matters pertaining to graduate study with Troy University.

Information and Technology

Broadcast and Digital Network

The Broadcast and Digital Network provides for Troy University Television (TROY TrojanVision), and Troy University Public Radio. The Troy University Public Radio Network includes WTSU-89.9 FM serving Troy/Montgomery; WTJB, 91.7 FM serving Columbus/Phenix City; and WRWA, 88.7 FM serving

Dothan. The network broadcasts diverse international, national and local news and cultural and entertainment programs. The network is affiliated with the Corporation for Public Broadcasting, National Public Radio (NPR) and American Public Media. TROY Public Radio operates the Radio Reading Service for the sight-impaired and handicapped.

The Broadcast and Digital Network also gives "hands on experience" to broadcast majors of the Hall School of Journalism and for other qualified students in studios in Troy and Montgomery. TROY TrojanVision is an educational access cable station received by viewers in central and south Alabama and Columbus, Ga. Students and staff produce regular news programs and a variety of musical programs, lectures, sports and community/university events for delayed airing

Information about Troy University Public Radio and TROY TrojanVision is available at their website on <https://www.troy.edu/student-life-resources/campus-media/troy-trojanvision/index.html> and at (334) 670-3555.

Intercollegiate Athletics

The Troy University Department of Athletics is affiliated with the National Collegiate Athletic Association (NCAA) and competes at the Division I-A level. Troy sponsors nine women's sports and seven men's sports. The men's sponsored sports include baseball, basketball, cross country, football, golf, outdoor track & field, and tennis. The women's sponsored sports include basketball, cross country, golf, soccer, softball, track & field (indoor and outdoor), tennis and volleyball.

Troy has been a proud member of the Sun Belt Conference since 2005 when all of Troy's athletic programs began competing in the league, which will soon comprise 14 schools from Alabama, Arkansas, Georgia, Louisiana, Mississippi, North Carolina, South Carolina and Virginia.

The Troy football program moved to the highest level in college football in 2001 and made a statement with a 21-9 victory at Mississippi State out of the Southeastern Conference and eventually finished the season 7-4 playing as an independent. In their years playing among the nation's elite programs, Troy has nationally ranked victories over Missouri, Oklahoma State and LSU plus wins over the United States Naval Academy and Nebraska to earn the nickname the "Giant Killers."

In 2006, the Trojans earned their first of five consecutive Sun Belt Conference championships and were winners of the R+L Carriers New Orleans Bowl. The team also appeared in the New Orleans bowl in 2008, losing in overtime to Southern Miss. In 2009, the Trojans earned their fourth straight league title and became the first team in Sun Belt history to go through a season 8-0 in league play. In 2010, the Trojans once again appeared in the New Orleans bowl

The football program just completed the most successful three-year period in school history as the Trojans won 10 or more games in three straight seasons for the first time in program history and tied a school record with 31 wins over those three seasons. Additionally, the Trojans have won four straight bowl games—2010 New Orleans Bowl, 2016 Dollar General Bowl, 2017 New Orleans Bowl, and 2018 Dollar General Bowl. Troy won its Sun Belt-record sixth football conference championship in 2017 and finished as Sun Belt East Co-Champions in 2018.

Success on the field is not only limited to the Troy football team, as the Trojans have been widely successful across all of its athletics programs.

The Troy baseball team captured conference titles in 2005, 2006, and 2013 and advanced to the Division I Regional Tournament in '95, '96, '06, '07, '11, '13 (where Troy beat the University of Alabama not once, but twice) and '18. Troy's softball team won the conference championship, defeated the Ohio Valley Conference champions in a play-in, and advanced to post-season play in 1996, the first softball team from the state of Alabama ever to do so. Troy returned to the NCAA Tournament in 2021, receiving the program's first-ever at-large bid in the process and capturing

the program's first-ever NCAA Tournament victory.

Further, the men's basketball team dominated the Atlantic Sun Conference by capturing the regular season conference championships in 2000, 2002, 2003, 2004 and were back on top in the Sun Belt Conference in 2010. "March Madness" invaded Troy in 2003 and 2017 when the Trojans won the Atlantic Sun and Sun Belt Conference Tournaments and advanced to participate in the NCAA Basketball Tournament. The Trojans also competed in the National Invitation Tournament (NIT) in 2004 and in the College Basketball Invitational (CBI) Tournament in 2009.

The Troy women's team has turned into a dynasty in the Sun Belt Conference, winning the league title in four of the last six years and advancing to its third NCAA Tournament in the last five years that the event was held. In 2016 the women's basketball team won the Sun Belt Conference Tournament and participated in the NCAA Tournament facing the Oregon State Beavers. In 2017 the Trojans won the Sun Belt Conference Tournament again and participated in the NCAA Tournament competing against Mississippi State. Troy won the Sun Belt regular season crown in 2020 but was unable to participate in the NCAA Tournament as it was canceled due to COVID-19, but the Trojans made their return in 2021 after winning the Sun Belt Tournament and nearly shocked the world as their upset bid over No. 2 Texas A&M came up just short.

The Troy women's golf team also built a mini-dynasty in the Sun Belt Conference, winning the league title three times over a four-year period in 2014, 2015 and 2017. On the other side of the links, the men's golf team made three straight NCAA Regional appearances from 2015 to 2017.

University athletic teams have a history of success at every level. In all, Troy has won 11 NCAA National Championships in four different sports. The 1968 football team earned notoriety by winning the NAIA national championship with a wide-open passing attack that was years ahead of its time. The men's golf team won NCAA Division II national crowns in 1976, 1977, and 1984, while the Lady Trojan golfers were national champions in 1984, 1986, and 1989. In addition, the football team won Division II championships in 1984 and 1987, and the baseball team won the 1986 and 1987 Division II National Championship.

Troy University's athletic facilities are among the finest in the nation. The Tine Davis Field House is home to the administrative staff. It features a newly renovated 140 seat auditorium (the Elizabeth Mills Rane Football Team Room) and the Ben F. Beard Executive Conference Room.

The Troy football program moved into the state-of-the-art North End Zone Football Facility in the fall of 2018. The three-story facility is more than 70,000 square feet includes a 35-by-90 foot video board, 400 additional club seats, coaches offices, weight room, locker room, and multiple player lounges.

Adjacent to the Davis Field House is Veterans Memorial Stadium, which includes the Douglas Hawkins Press Box, home to a 10,000 square foot strength and conditioning center, state-of-the-art athletic training center, and Student-Athlete Academic Support Center as well as a Stadium Club and 29 private suites for fans to enjoy home football games.

Next to Veterans Memorial Stadium is the soon-to-be newly renovated Riddle-Pace Field, home of the Trojans baseball team. The facility includes the Lott Baseball Complex, which houses coach's offices, locker rooms, meeting rooms and covered practice facilities. Recent stadium renovations included the addition of an artificial turf playing surface, a 30-foot wall in right field and a new scoreboard that includes video replay capabilities.

Other nearby facilities include the new Golf practice facility and clubhouse (2015), Troy Softball Complex (2014) and soccer/track complex. Also, the state-of-the-art Lunsford Tennis Complex was completed in the fall of 2001, doubling the number of courts available to TROY students and the Troy community.

Additionally, construction was completed in 2012 on a state-of-the-art multi-purpose Trojan arena, which is home to the men's basketball, women's basketball and volleyball programs. The facility is located directly behind the Tine Davis Fieldhouse adjacent to the track/soccer complex. On its inaugural night, the men's basketball program initiated the first win in Trojan Arena, beating SEC opponent, Mississippi State, 56-53.

Department of Athletics Mission Statement

The Troy University Athletics Department is an integral part of the University. Its mission is to assure a balance between the desire to win and the desire to facilitate positive growth of student-athletes. The Athletics Department will strive to graduate student-athletes who will make significant contributions to society, view their experience in athletics as rewarding and who will be proud alumni and advocates of the University.

Vision Statement

Our expectation is to be a model program reaching the highest level of success in all NCAA measures in each sport program both on the fields of play and in the class-room. We expect to advance Troy University Athletics to be the premier program in the Sun Belt Conference while maintaining viable candidacy for future conference expansion and/or realignment. We also expect to be among the top institutions in NCAA academic measures such as the student-athlete graduation rate, the Academic Progress Rate (APR) and the Graduation Success Rate (GSR).

Libraries

The Troy University Libraries hold a wide variety of resources in multiple formats, including print, multimedia (DVDs, CDs, and streaming video) as well as a vast array of online databases. These resources allow the libraries' staff to ensure that students and faculty have access to the information they need to fulfill their educational and research goals.

The libraries' networked system consists of the on-line catalog, numerous general and subject oriented databases including many with full texts of journal articles, and other services including tutorials to help individuals use library services more efficiently. The libraries' homepage is constantly developing to provide more sophisticated and user friendly access to the resources in the library and around the world. The libraries' faculty and staff are continually developing quality collections, facilities, and services to assist students and faculty in their educational journeys. The libraries' faculty and staff provide professional and technical assistance and instruct users in the best methods of utilizing the libraries' resources. Through this instruction and assistance, students learn information literacy skills that will support lifelong and continuing education.

Office of Development

The Office of Development strives to build and foster positive relationships with our alumni, donors, friends and corporate and foundation partners as well as with our deans, faculty, staff and students to secure private philanthropic support for all of the campuses of Troy University that reflects the institutional goals and priorities of the University.

We strive to be good stewards of the University's resources as well as of those who support us with their time, money and resources. With a decrease in stated funding over the years, support from private philanthropy will continue to be important to future growth and expansion at the University. We are responsible for Annual Giving, Faculty/Staff Giving, Major Gifts, Planned Giving, Donor Events, Advancement Services (including updating alumni records) and Stewardship of all gifts, as well as Foundation Scholarships (both current and endowed).

Sponsored Programs

The Office of Sponsored Programs (OSP) is responsible for

facilitating the activities of faculty, professional staff and students in seeking external support for research and creative projects. This includes, but is not limited to, grants, contracts, cooperative agreements, and other types of awards. Our office can provide search for funding possibilities, assist with budget preparation, form completion, proposal review, editing and submission. Sponsored Programs is here to assist the principal investigator from a project's development through submission to the funding agency.

Additional information about Sponsored Programs can be obtained by contacting OSP by phone at (334) 670-3102, email osp@troy.edu or visiting the Office of Sponsored Programs website at <http://www.troy.edu/osp>.

TROY Online

TROY Online is responsible for the delivery of educational programs outside the state of Alabama, and internationally. Our courses and delivery method is designed to meet the needs of civilian working adults, military and government agency civilians, and other adults seeking degrees. Courses and degrees are delivered at a time and in formats to fit the needs of adult learners who have full-time employment, work shifts, and are prone to short notice moves. Adult learners generally have education needs different from those catered to by traditional colleges and universities. On military bases, guidance is worked cooperatively with the base education services personnel. In addition, the military usually provides classroom and office space, utilities, and local program support.

Academic programs and courses offered through TROY Online are the responsibility of the deans of the academic colleges. Troy University faculty and administrative oversight functions include, but are not limited to, academic oversight and control, new site approval, monitoring institutional effectiveness, faculty selection, certification, evaluation and graduate faculty status determination. The administration of TROY Online is the responsibility of the three Associate Vice Chancellors of TROY Online.

All student services functions are provided and monitored from the Troy Campus. Student service reviews include, yet are not limited to, admission activities, maintaining the official academic records, providing transcripts, and issuing degrees for all students enrolled in the component units of TROY Online Troy University Support Center sites.

All of the degree programs offered at Troy University Support Center sites or campuses are approved programs in the Undergraduate Catalog; however, not all degree programs are offered at every location.

Troy University's TROY Online was established as a comprehensive, educational unit of Troy University to allow and provide any student, regardless of location, the opportunity to earn a Troy University degree online. Since its inception, TROY Online has expanded to include different programs and methodologies to reach local and distant students, working adults, and the military. TROY Online offers students the opportunity to obtain both undergraduate and graduate courses, certificate programs, and degree programs online. The online courses integrate textbooks with online materials, graphics, audio, and video, and facilitate faculty and student interactions. Specialized software is utilized. For more information on undergraduate programs offered via this format, visit TROY Online at <http://www.troy.edu/online/>.

State Authorizations

Information on state authorizations is located at: <https://www.troy.edu/about-us/fast-facts/state-authorization.html>

Troy University Foundation

As authorized by the Board of Trustees, the Troy University Foundation was established in 1968. The Foundation is a permanent, non-profit organization created to attract private support for the Troy University system. The Foundation is governed by a self-perpetuating board of directors. The University, through its Foun-

ation, seeks to gain meaningful financial support from private sources as an essential supplement to legislative funds, students' fees and federal grants. It is, therefore, committed to an active program to attract contributions from foundations, corporations and individuals. The Foundation accepts gifts of cash, real estate, securities, life income gifts, bequests through wills, life insurance policies, charitable trusts, life estate agreements, named funds and approved gifts-in-kind. For more information, please contact the associate vice chancellor for development at: (334) 670-3608 / fax (334) 670-5855 / email bvwatson@troy.edu.

University Relations

University Relations provides information to the university's various audiences and supports a number of university and community events. University Relations generates news and feature story releases, provides student achievement releases to hometown media, prepares media kits for special events, responds to media requests for information, maintains news media contacts, provides content for and oversight of the University's official social media accounts, and provides necessary events coordination.

University Relations also maintains a news presence on the University's website and produces or assists with production of a variety of special publications including the Troy University Magazine. For more information, contact University Relations at (334) 670-3196.

DIVISION OF STUDENT SERVICES

The Division of Student Services provides services and support for students at all campuses and sites, assuring a wide range of opportunities for a diverse student population. Students, who come to Troy University with hopes and high expectations, face choices and challenges which can be channeled into positive directions or which can prove to be overwhelming. The Student Services staff believes that educators both within and outside the classroom can make a positive difference in the lives of students. Education of the whole person, which is the purpose of the programs and services offered, helps students meet their expectations and expand understanding of themselves and their world. Staff members may guide many students' experiences but the student is ultimately responsible for personal choices and decisions. As educators, the staff strives to assure that those choices are sound and the decisions are well-reasoned. When things go well for students, staff builds on that experience, first providing recognition and acclaim and then challenging them to seek new experiences. In times of disappointment, staff members provide support and then gentle prodding to move past the disappointment.

The Student Services staff is also responsible for operating facilities, running businesses, supporting programs, and providing cost-effective services to meet the needs of our students. As good stewards of the resources at Troy, the staff strives to respond to changing interests and remain student centered in all we do.

Through Student Services, Troy University seeks to prepare

students for full citizenship in a global community, at work, at play, in fellowship, and in personal fulfillment. The following are the campus offices that are a part of the Division of Student Services: Dean of Student Services, Housing and Residence Life, Student Center and Conference Services, Student Involvement and Leadership, University Health Center, Personal Counseling, Student Recreation and Intramurals, Transportation, Security Access and CCTV and University Police. For a more detailed description of services, please refer to the student handbook, *The Oracle*.

Troy University Student Creed

I allow Truth and integrity to guide my goals.
 I persevere by Remembering my predecessors.
 I acknowledge that Openness promotes new concepts and ideas.
 I celebrate our differences Justly and respectfully.
 I strive for continued success by Aiming for excellence.
 I will contribute to the Troy University legacy, Now and forever.

STANDARDS OF CONDUCT

By publication of these "STANDARDS OF CONDUCT," the University calls to the special attention of students and organizations the standards by which they are expected to abide. Students and organizations should be aware of the STANDARDS and should know they will be held accountable for their provisions.

Student Conduct Office General Philosophy

Troy University emphasizes a developmental approach toward discipline that is educational and proactive and allows for maximum student growth. The Office of Student Conduct embraces the concept of a student-centered University. Troy University is committed to developing and establishing programs designed to enhance lifelong learning opportunities, foster a climate of personal growth and development, set high expectations for personal integrity, and assist students in the development of an informed set of values, ethics, and beliefs. Troy University embraces a campus climate in which civility and respect among members of the campus community is viewed vital to the overall ethical development of its students.

Authority for Rules and Regulations

The Board of Trustees of Troy University is vested with the authority to promulgate rules and regulations regarding the conduct of students while enrolled at Troy University by Title 16-56-6, Code of Alabama, 1975. The University Trustees have delegated full authority to the University administration to prepare and administer rules and regulations for the welfare and discipline of its students.

Administrative Responsibility and Authority

The Student Services Division of the University has primary authority for the supervision of student conduct and administration of discipline. The Senior Vice Chancellor for Student Services and Administration and campus staff are responsible for working with students and student organizations to encourage support and compliance with University standards. The Senior Vice Chancellor may delegate specific responsibilities to members of his respective staffs, and in some instances, to student government agencies. It is permissible for the Student Services Conduct Officers on each campus to handle disciplinary decisions administratively if both the student or student organization and the Conduct Officer agree to an administrative hearing. The Student Services Conduct Officer is responsible for coordinating all disciplinary procedures and maintaining appropriate records of student conduct and disciplinary actions.

Statement on Student Conduct

Troy University students are expected to obey national, state, and local laws, to respect the rights of members of the campus community, and to accept responsibility for the consequences of their behavior. In the event students fail to demonstrate such behavior, Troy University reserves the right to take necessary and appropriate action to protect the safety and well-being of the campus community. Such action may include pursuing disciplinary action for violations of University rules and regulations, policies, violations of national, state, and local laws that occur on-campus, off-campus, or on the internet that adversely affects the educational interest of the University.

Troy University's student conduct system is not a court of law. The Student Conduct Code is not written with the specificity of a criminal statute. In cases where civil or criminal proceedings also involve a violation of the Student Conduct Code, the University reserves the right to take appropriate disciplinary action against the student. Such action will be regarded as separate and distinct from proceedings in criminal or civil court and may be scheduled according to timelines that serve the interest of the University.

The Trojan Way

To live and perform "The Trojan Way", we are expected to:
 Be Respectful

Speak Appropriately
 Dress Properly for the Occasion
 Behave as a Responsible, Kind Person
 Adhere to Applicable Laws and Policies

Misconduct Defined

By enrollment at the University, a student or organization neither relinquishes rights nor escapes responsibilities of local, state, or federal laws and regulations. The "STANDARDS OF CONDUCT" are applicable to behavior of students and organizations on and off the university campus if that behavior is deemed to be incompatible with the educational environment and mission of the university. A student or organization may be disciplined, up to and including suspension and expulsion, and is deemed in violation

TOBACCO POLICY

Introduction

Troy University is committed to providing a healthy and safe environment for all students, faculty and staff. The University's Board of Trustees demonstrated this commitment with the approval of a resolution designating Troy University as a tobacco-free institution. This policy prohibits smoking and the use of all tobacco products within all University buildings, parking lots, structures, walkways, indoor and outdoor athletic facilities, University vehicles, worksites and grounds and any vehicles on campus regardless of ownership. The health care and health education programs of the University perform an important function by demonstrating and promoting healthy lifestyles through activities such as curtailment of the use of tobacco products.

Definitions

- "Smoking" means inhaling, exhaling, burning or carrying any lighted or heated cigar, cigarette or pipe.
- "Tobacco Products" such as all forms of tobacco, including but not limited to cigarettes, cigars, pipes, water pipes (hookah), electronic cigarettes and smokeless tobacco products (e.g. chewing tobacco and snuff).
- "Members of the University Community" include its faculty, staff, students, volunteers, vendors, customers and visitors.

Policy

This policy applies to all Troy University employees, students, contractors, vendors, recruits and visitors.

The use of all tobacco products is prohibited on all property that is owned, operated, leased, occupied or controlled by the University. "Property" for the purposes of this paragraph includes buildings and structures, grounds, parking lots, non-public walkways, sidewalks and vehicles, as well as personal vehicles in these areas. These same policies apply for all TROY campuses and locations.

Troy University will provide a variety of wellness initiatives to assist students, faculty, and staff to achieve nicotine independence

and smoking cessation.

Implementation Authority

Authority for enforcement of this policy is vested in the Deans of Colleges, Department Chairs, Supervisors or the Dean of Students and Athletic Director or their designee, in conjunction with the Senior Director of Human Resources.

Compliance

Violation of this policy may result in corrective action under the Student Code of Conduct, Human Resources Policies and Procedures or other applicable University Regulations or Policies. Visitors refusing to comply may be asked to leave campus.

COMMITMENT TO FREE EXPRESSION

Students at public universities enjoy robust speech rights under the Constitution in order to contribute to the marketplace of ideas, learn from each other, and freely discuss and debate a wide range of issues. Troy University is committed to protecting the freedom of speech for students, faculty, and staff, and will not infringe on speech that may be considered to be an unpopular or inconvenient expression of ideas.

CAMPUS FREE SPEECH AND ASSEMBLY POLICY

Adopted by the Troy University Board of Trustees on August 26, 2020

I. Background

Alabama State Legislature Act 2019-396 enacted in June 2019 mandated certain free speech and assembly actions applicable to state universities and concurrent with other state and Constitutional freedoms. Complying with provisions of this new law, Troy University fully supports a campus environment that promotes, protects and upholds intellectual freedom of expression contributing to the marketplace of ideas to include those expressions that some may consider unwelcome, unpopular or disagreeable.

II. Policy Statement

Troy University recognizes and supports the role of a university as a marketplace for ideas. Freedom of expression and public assembly are essential components of the education process. Troy University is committed to its function as an institution in which stakeholders discover and disseminate knowledge by means of research and teaching. Further, Troy University supports the rights of students, employees, and visitors to speak in public and to demonstrate for or against actions and opinions with which they agree or disagree.

Such freedom comes with a responsibility to welcome and promote this freedom for all, even in disagreement or opposition. The responsibility of the University to operate and maintain an effective and efficient institution of higher education requires regulation of time, place, and manner of assembly, speech, and other expressive activities on the grounds and facilities of the University. In keeping with this responsibility, students, faculty, and staff are free to exercise the rights to assemble and engage in expressive activity in a constitutionally protected manner subject only to the content-neutral regulations necessary to fulfill the mission and obligations of the University, preserve the rights of others, coordinate multiple uses of limited space, assure preservation of the campus facilities and grounds, and assure financial accountability for any damage caused by these activities.

It is not the proper role of the University to shield individuals from speech protected by the First Amendment of the United States Constitution and Article I, Section 4 of the Constitution of Alabama, including, without limitation, ideas and opinions they find unwelcome, disagreeable, or offensive.

The University will at all times strive to remain neutral as an institution on the public policy controversies of the day, except as far as administrative decisions on the issues are essential to the day-to-day functioning of the University. The University will not require students, faculty, or staff to publicly express a given view of a

public controversy. However, 2 students, administrators, faculty, and staff are free to take positions on public controversies and to engage in protected expressive activity in outdoor areas of the campus, and to spontaneously and contemporaneously assemble, speak, and distribute literature.

In all cases of expressive activity, university employees must be mindful such expression should be in keeping with the mission of the university and do no harm to the university or others.

III. Definitions

Amplified Sound is sound that is increased or enhanced by any electric, electronic, or mechanical means, including handheld devices such as megaphones and sound trucks.

Campus Grounds means all outdoor areas owned, leased or controlled by the University that are common accessible to all students and employees such as sidewalks, lawns, parking lots, and promenades.

Demonstration action by a mass group or collection of groups of people in favor of a political or other cause or people partaking in a protest against a cause of concern; it often consists of walking in a mass march formation and either beginning with or meeting at a designated endpoint, or rally, to hear speakers.

Debate is a discussion in which opposing sides of an issue are advocated and/or presented by differing speakers.

Expressive Activity is the verbal or symbolic expression of an idea, thought or opinion and may include speeches, assembly, marches, parades, rallies, picketing, distribution of literature, graphic or pictorial displays and other similar activities intended to communicate an idea or opinion. Expressive Activity does not include speech that is likely to incite or produce imminent lawless action, expression that consists of fighting words or threats of physical harm or expression that is defamatory, obscene or commercial in nature.

Literature is any printed material that is produced in multiple copies for distribution or publication to an audience, including but not limited to flyers, handbills, leaflets, placards, bulletins, newspapers, and magazines, but does not include the Trojopolitan or official University material.

Official University Function is all activities, events and programs sponsored by an academic or administrative unit of the University.

Outdoor Forum is a designated area on campus not confined by walls or a roof. Within this designated area, individuals or groups are encouraged to openly discuss, express, and/or exchange ideas on topics in accordance with university policies.

Outside Group/Individual is an organization or group of people not registered with or recognized by the Dean of Students or, if a nonstudent group, another University division. An Outside Individual is any person not enrolled at or employed directly by the University.

Registered Student Organization is an organization that has been approved and recognized by the Division of Student Affairs in accordance with the ORACLE.

Sponsored Activity is any expressive activity that is presented by a sponsored guest under this policy.

Sponsored Guest is any person or organization invited to engage in expressive activity on campus grounds by a sponsoring organization in accordance with this policy.

IV. Policy

A. General. Troy University is committed to providing an educational environment that is conducive to the development of each individual. As a public institution, the university provides formal and informal forums for the expression of ideas and opinions as long as it is done within the context of university policies and does not impede pedestrian and/or vehicular traffic, disturb or interfere with normal academic, administrative or student activities, or involve coercive behavior.

B. Application. This policy applies to all University students, employees, organizations, and sponsored guests. This policy does not apply to official academic activities and official functions of the University. For Faculty policies, refer to the Faculty Handbook.

C. Outdoor Forums

Nothing in this section shall be interpreted to limit a student's right to free expression elsewhere on campus so long as the expressive activities or related conduct do not violate any other applicable university policies.

1. An outdoor forum area is designated in the Quadrangle area adjacent to the student center on the Troy campus.
 - For Dothan- the quadrangle between the three main buildings is so designated.
 - For Phenix City- the southside of the Riverfront building is so designated.
 - For Montgomery- the paved walkway to the west main entry to Bartlett Hall is so designated.
2. The University reserves the right to define, redefine or re-designate outdoor forum locations at its sole discretion.
3. These forum areas provide an area for free exchange of ideas and do not have to be pre-scheduled. However, sponsors/participants are encouraged to schedule with the Dean of Students to minimize possible conflict.

D. Free Expression Responsibilities

Freedom of expression at the university includes organized demonstrations or events. At the same time, the university has long recognized that this right does not include the right to engage in conduct that disrupts the university's operations or endangers the safety of others. Expressive activity may not create a vehicular or other safety hazard or constitute disruptive activity, defamation, riotous conduct or obscenity as defined by federal or state law and may not impede access to other expressive activity, such as blocking the audience's view or preventing the audience from hearing a speaker. Displaying a sign, gesturing, wearing symbolic clothing or otherwise protesting silently is permissible anywhere unless it is a disruptive activity as defined by federal or state law.

E. Expressive Activity and Use of Campus Facilities

1. Campus Events

- Campus large scale events defined as events attracting 50 or more people require coordination with either the Senior Vice Chancellor for Academic Affairs (for academic events) or Dean of Students (for student organizations) for speaking events or demonstrations outside the outdoor forum.
- Such events may include: invited speakers, use of amplified sounds, marches etc.
- Only campus recognized organizations may sponsor such activities and must request authorization to use a university controlled building or campus area.
- Such requests must be submitted seven working days in advance to Dean of Students using the online event management request system.

2. Organization Responsibility. Organizations inviting outside groups or speakers to campus will ensure that a safe, non-disruptive environment exists for free expression. In turn, speakers "expressive actions" must avoid defamation, threats, obscenities or conduct not conducive to good order and discipline. The University will not charge security fees based on anticipated speech content requiring the need for additional security.

3. Reservation Denial.

- The University will not deny a registered student organization any benefit or privilege available to any other registered student organization or other wise discriminate against the organization based on the expression or beliefs of the organization.
- Requests to reserve a designated area, to use amplified sound, or to register a route for a parade, march or rally may not be denied based on the content of the proposed expressive activity.
- Requests may be denied for the following reasons:
 - Scheduling conflict with another group;
 - the designated area or an adjacent area has been reserved for an official University function or the designated area is no longer

suitable for use due to a conflict with a nearby official University function;

- the reservation or registration form is incomplete; or the request exceeds more than fifteen days in a semester or is for more than five consecutive days;
- the proposed event or activity will substantially interrupt the safe and orderly movement of traffic or create a safety hazard; or
- the request was submitted by an individual or organization that is not permitted to reserve space on campus under this policy.

4. Expressive Activities Relocation

Individuals and organizations engaged in expressive activity on campus may be required to relocate to other areas by the Dean of Students or, when immediate action is necessary, the University police department, under the following circumstances:

- a. the noise generated by the activity disrupts an official University function or substantially interferes with resident housing life and activities (e.g. the activity is too close to an academic, administrative or residential building);
- b. the location does not safely accommodate the number of participants;
- c. the number of individuals participating in or attending the activity creates unsafe conditions for vehicular or pedestrian traffic, parking, or blocks the ingress or egress to buildings or official university activities;
- d. the space has been reserved for an official University function, has been reserved in accordance with this policy, or a reserved location is needed for an official University function; or
- e. the activity creates a health or welfare hazard, such as interfering with fire, police or emergency services.

5. Distribution of Literature

Students, employees and sponsoring organizations may distribute literature on campus grounds. Sponsored guests may distribute literature only in the designated area reserved for their use. If no Registered Student Organization will sponsor an outside individual or organization to distribute literature on campus grounds, they may file a request with the Dean of Students seven business days before the requested event or activity. If an outside individual or organization does not reserve an area at least seven business days before they intend to distribute literature, they must use a designated outdoor forum defined in Section IV. C of this policy.

Students, employees, sponsoring organizations and sponsored guests who distribute literature should be responsible for refraining from littering on campus grounds.

It should be understood and presumed that all literature distributed by students, employees, sponsoring organizations, or sponsored guests does not represent the views and opinions of Troy University. If literature could be reasonably mistaken as taking an official position on behalf of the University, a disclaimer statement should be added to the literature.

This policy does not apply to attempts to distribute literature that is commercial in nature (i.e. information about goods or services offered for sale).

6. Responsibilities of Individuals, Sponsoring Organizations and Sponsored Guests

Sponsoring organizations are responsible for ensuring that sponsored guests read and understand all obligations set out in this and all other applicable University policies. Members of the University community may be held individually responsible and sponsoring organizations may be held collectively accountable for any violations of University policies, including the Code of Student Conduct and personnel policies, as applicable. Sponsored guests who do not comply with this or other applicable University policies automatically forfeit their reservations and must immediately vacate University property. Repeat violations of this policy by a sponsored guest may result in loss of privilege for the sponsored guests as determined by the Dean of Students.

7. Appeal of Decisions Related to Expressive Activity

Students, employees and organizations whose requests

for use of campus grounds for expressive activity are denied may appeal the decision to the Dean of Students no later than two business days after the decision that is being challenged was made. The appeal must be made in writing and state the specific reason(s) the individual or organization disagrees with the decision. The appeal should include all information the individual or organization believes will assist the Dean of Students to decide the matter. The Dean of Students will issue a decision on the appeal within three business days of its receipt. The decision is final.

V. Sanctions

Anyone under the jurisdiction of the University who materially and substantially disrupts the free expression of others is subject to a range of disciplinary sanctions per Alabama law. For students, see the Student Code of Conduct. For employees, see Staff and Faculty handbook.

VI. Event Termination/ Postponement

In addition to the forgoing stipulations in this policy, the University reserves the right to cancel, relocate, postpone, or take protective measures with respect to proposed or ongoing expressive activity if the speech or conduct in question poses an imminent threat of unlawful action, violence, or disruption of University activities or operations.

VII. Implementation and Reporting:

- A. This policy will be incorporated as follows:
- Publish annually in student handbook- The ORACLE
 - Include with Human Resources materials for new faculty and staff orientation
 - Post on TROY website
 - Share annually with Student Government Association
- B. Troy Board of Trustee Reporting
- On implementation, Troy Board of Trustees will report initial action to the Legislature and Governor no later than September 28, 2020.
 - Annually, by August 1, the Senior Vice Chancellor for Student Services will provide a 12 Month report (August 1-July 31) to Chancellor who will submit to the Board, information as follows:
 - Violations of policy with dates/ description.
 - Outcome of violation-administrative, punitive
 - Describe challenges/ successes in supporting administratively or maintaining institutional neutrality
 - Any other information Board feels necessary to report
 - Board, in turn, must submit an annual report to Governor and Legislature beginning September 1, 2021.
 - Troy University will submit Board report to ACHE and post on its university web site.

ADMISSION REQUIREMENTS

Troy University seeks to admit students who possess the intellectual capacity, maturity, previous training, and motivation necessary for success in educational programs. Troy University welcomes applications from a variety of students including traditional college age students, adults who will combine their educational pursuits with work, or life-long learners who are simply seeking enrichment. Programs and courses are offered for full-time and part-time students, and are offered in a variety of formats and times including traditional day classes, night classes, and weekend classes. Programs or classes are also available online and through other alternative methods of educational delivery.

Students are encouraged to apply well in advance of proposed start dates. The University reserves the right to investigate and review the records of any applicant to determine the applicant's eligibility to enroll.

If fraudulent information is discovered during the application process, including transcripts and test scores, the University reserves the right to deny admission. If the discovery occurs after admission and class registration, the student may be administratively withdrawn.

Incoming students should consult with the Office of Enrollment Management for information regarding any revisions to or additional requirements in the admissions process.

Beginning Freshmen

Beginning freshmen are defined as high school graduates who have attempted less than 12 credit hours of coursework at other colleges or universities.

All Freshman applicants who are graduates of accredited high schools must submit an official transcript showing graduation and a minimum of 15 Carnegie units, with three or more units in English. Of the units presented, 11 must be in academic courses.

- Troy University will accept both the old SAT-1 and the realigned SAT scores. The realigned SAT scores are tests taken after March 2016 and are noted as RSAT in the below requirements.

A. Unconditional Admission

Beginning freshmen who are graduates from a regionally accredited and/or state approved high school (or the General Education Diploma* (GED) may be granted unconditional admission with proof of an acceptable test score (20 on the ACT or 950 on the SAT-I or 1030 RSAT and a minimum high school GPA of 2.00. The writing component on either test is not currently required or assessed in the evaluation for admission. Students who meet one of the following criteria are considered Adult Student status and are not required to submit ACT/SAT scores unless the high school GPA is below a 2.00:

1. Active duty military member/veteran, or
2. A full-time employee, or
3. Assumed adult responsibility (parent/guardian/spouse), or
4. Be 21 years of age or above

*GED Requirements:

- After January 1, 2014 – score of 150 for all test subjects
- Before January 1, 2014 – cumulative score of at least 500 (or equivalency outside AL)

B. Conditional Admission

Any applicant who does not qualify for unconditional admission may enroll at Troy University as a conditionally admitted student by meeting the following criteria:

- If the high school GPA is less than 2.00 (on a 4.00 scale), the applicant must have a minimum composite score of 20 on the ACT or 950 on the SAT-1 or 1030 RSAT.

- If the applicant's composite score on the ACT is less than 20 (but at least 17) or less than a 950 on the SAT-1 (but at least 830) or less than 1030 on the RSAT (but at least 910), the cumulative high school GPA must be at least 2.50 (on a 4.00 scale).
- If the applicant, who does not qualify for adult student status, has earned a state issued GED (see required above) and has a composite score on the ACT of less than 20 (but at least 17) or less than a 950 on the SAT-1 (but at least 830) or less than 1030 on the RSAT (but at least 910)

Conditional admission must be cleared at the campus/site where conditional admission is granted.

The conditionally admitted student will be permitted to carry a maximum course load of 14 credit hours per semester (seven hours per Term) for a maximum of 24 hours of Troy University work., Concurrent enrollment in the semester and any term(s) may not exceed 14 hours.

Conditionally admitted students will be granted unconditional admission status upon completion of 24 semester credit hours at Troy University with an overall 2.00 GPA. Credits earned by a conditionally admitted student are recorded on the permanent record of the student and will apply, if applicable, toward a regular undergraduate degree program. Any conditional student who fails to attain a 2.00 GPA upon completion of 24 hours attempted at Troy University will be dropped from the program. However, a conditionally admitted student earning a 0.00 GPA on the first six hours will be dropped from the program.

A conditionally admitted student whose academic performance results in being dropped from the program may appeal for readmission to the University, after a period of 12 months, through the campus-specific Conditional Appeals Committee (CAC) where the original conditional admission was granted. Upon being approved for readmission as a conditional student, the student will be granted unconditional status upon the completion of another 12 to 24 semester credit hours at Troy University with an overall 2.0 GPA. Any conditional student who fails to attain a 2.0 GPA upon completion of the additional 24 semester credit hours at Troy University will be dropped from the program. Students who have transferred to regionally accredited universities after being dropped from the program and wish to return to Troy University must apply for admission as a transfer student through the Office of Enrollment Management. In order to qualify for admission, these students must meet the unconditional admission requirements.

C. Other

• Early Admission

Admission is granted to the University concurrent with secondary school enrollment where academic credit is awarded only by the University. Applicants desiring early admission should be at least 10th graders in high school with at least a 20 ACT/ 950 SAT-1/1030 RSAT and a 3.00 GPA. Additionally, applicants must submit a letter from a school official authorizing their enrollment under this status.

• ACCELERATE Dual Enrollment

High school students may enroll in college courses in an attempt to concurrently receive college and high school credit for equivalent coursework. This program is a cooperative effort on the part of the various high schools and Troy University. Applicants desiring admission should be at least 10th graders in high school with at least a 20 ACT/ 950 SAT-1/1030 RSAT and a 3.00 GPA. Additionally, applicants must submit a letter from a school official authorizing their enrollment under this status.

• Unclassified Admission

Limited to active duty military, National Guard, or Reserve, unclassified admission allows a student to enroll with the University in their initial term/semester of enrollment without submission of transcripts and/or test scores. Submission of the application for admission is required. Additionally, students apply-

ing for this status must submit **one** of the following as proof of military status at the time of application:

- Leave Earnings Statement
- DD Form 2A
- Letter from commanding officer

The maximum credit hour load for a student under unclassified admission is six credit hours (for a nine week term) or 12 credit hours (for a 16 week semester). No federal financial aid (Pell Grant, student loans, etc.) will be awarded to students under this status.

Students enrolling under this classification must provide all official transcripts from previous institutions attended prior to completing the first term of enrollment. Once all appropriate documents have been evaluated, a decision regarding regular admission to the University will be made. Students not meeting the undergraduate admission requirement will not be permitted to enroll in subsequent terms or semesters.

Transfer Applicants

Transfer applicants must have attempted at least 12 credit hours of coursework, excluding developmental/remedial courses, at other regionally accredited colleges or universities.

Academic credit and/or degrees accepted by Troy University must be earned at regionally accredited U.S. institutions or at foreign universities whose academic credit and/or degrees have been evaluated and determined to be equivalent to that awarded by a U.S. institution. All transfer credit is evaluated in terms of level, content, quality, comparability, and degree program relevance.

Transfer applicants must have official transcripts from each college or university they have previously attended sent directly to 100 University Park, Troy University, Troy, AL 36082.

Official digital transcripts must be submitted through:
transcripts@troy.edu

A. Unconditional Admission

Transfer applicants will be granted unconditional admission if they are in good standing at the last college attended and if they have an overall GPA of 2.00 (4.00 scale) or better on all college/university work attempted. Technical and developmental/remedial work is not considered in determining grade point average. Applicants who have been suspended from the last institution they attended for any reason must be eligible to return to that institution before being considered for admission to Troy University. No conditional admission provision is available for transfer students. Applicants not meeting the unconditional admission requirement who demonstrate significant potential for success and have perhaps overcome legitimate and extenuating circumstances, may be granted admission by appealing to the Associate Vice Chancellor for Enrollment Management or designee.

B. Unclassified Admission

- Unclassified Admission

Limited to active duty military, National Guard, or Reserve, unclassified admission allows a student to enroll with the University in their initial term/semester of enrollment without submission of transcripts and/or test scores. Submission of the application for admission is required. Additionally, students applying for this status must submit **one** of the following as proof of military status at the time of application:

- Leave Earnings Statement
- DD Form 2A
- Letter from commanding officer

The maximum credit hour load for a student under unclassified admission is six credit hours (for a nine week term) or 12 credit hours (for a 16 week semester). No federal financial aid (Pell Grant, student loans, etc.) will be awarded to students under this status.

Students enrolling under this classification must provide all official transcripts from previous institutions attended prior to completing the first term of enrollment. Once all appropriate docu-

ments have been evaluated, a decision regarding regular admission to the University will be made. Students not meeting the undergraduate admission requirement will not be permitted to enroll in subsequent terms or semesters.

The Associate of Applied Science Degree (AAS) may be considered for admission to the University.

Contact information for international applicants:

Center for International Programs

014 Hawkins Hall

Troy University

Troy, AL 36082

USA

(334) 670-3335

intladm@troy.edu

Application for admission should be made at least three months in advance of the proposed term of Troy University. The admission process begins with an online application located at <https://www.troy.edu/applications-admissions/> Questions may be addressed to the International Admissions Office by telephone at 1-334-670-3335.

Additional Requirements for a Student Visa

The following documents must be submitted to the Center for International Programs:

1. International Admission Application
2. Official secondary school transcript or mark sheets including notice of graduation.
3. English proficiency* requirements—One of the following tests are accepted:

TOEFL

IELTS

SAT

ACT

iTEP

PTE

Duolingo

(minimum score requirements can be found at <https://www.troy.edu/applications-admissions/admissions-process-requirements/international-student/index.html>).

4. A current passport.

5. Proof of financial support sufficient for 2 semester of study.

* *Students can obtain conditional admission without the listed test scores. These students must take ESL placement test and pass its requirements in order to matriculate into academic programs.*

Transfer Credit from Universities in the United States

International students transferring from universities in the United States must submit the following documents in addition to the ones listed above:

1. An official transcript, including all work completed at other U.S. universities. Minimum GPA 2.00 (4.00 scale).

International students transferring from universities outside the United States must submit the following documents in addition to the ones listed above:

- An official transcript, including all coursework completed at all other universities attended, along with an official English translation. Minimum GPA must be equivalent to a United States GPA of 2.00 on a 4.00 scale.

Transfer Credit from Foreign Universities

Depending on home location and/or immigration status, stu-

dents seeking transfer of credits from regionally recognized foreign institutions may pursue one of the following two methods for the official International Transfer Credit Evaluation.

1. Students who hold F/J visas AND are attending one of Troy University campuses located in Alabama (Troy, Dothan, Montgomery, and Phenix City) will be required to present to the Troy University International Admissions Office (IAO) original transcripts including an English translation and university prepared course descriptions for processing through the Academic Evaluation Center.
2. Students who are **not** attending TROY on F/J visas, but who have international credits they wish to have evaluated (**i.e. non-partner TROY Online / military affiliated students, or students holding other visa types**), must request an official course-by-course evaluation from any evaluation agency which is a member of NACES (<http://naces.org/members.htm/>) or a copy of AACRAO evaluation if one was completed prior to September 2016 to be sent to the following address:

Troy University
TROY Online Student Services
100 University Park
Troy, Alabama 36082

Students must also request official transcripts and course descriptions to be sent to the above address at Troy University directly from the issuing institutions and submit the online request form for academic evaluation located at:

<https://my.troy.edu/records/>

English Proficiency Requirements for Admitted Students

An ESL placement test will be administered to admitted students who do not meet English proficiency requirements for first-time and transfer students.

Placement in English as a Second Language classes or into academic classes will be based on attainment of identified cut-off scores on this test. Contact the Center for International Programs at esl@troy.edu for specific information.

To admit students from ESL to academic programs based upon their achievement in the Intensive English Program, the following process will be used.

- Initially arriving international students who do not meet the English proficiency requirements will be administered an ESL placement test. Attaining a passing score on that test above placement into Level VI will be eligible for full-time study in their academic program.
- Students placed into advanced level ESL classes who earn a 3.0 GPA in ESL courses in their final term shall then meet the University's English language proficiency standard for admission. Students will take a final examination, which will count for 30% of the final grade, in each of the four ESL courses. Each final examination will be prepared by a committee made up of the Troy ESL faculty who teach the upper-level ESL courses.

Undergraduate "advanced-level" ESL students may take academic classes at the same time as ESL classes if they meet the specific criteria in the ESL Student Handbook. Students who achieve a GPA of at least 2.0 in each non-ESL course and 3.0 or higher in ESL courses will be eligible to be fully admitted. Any "advanced-level" student not achieving admission during his or her first semester will be required to repeat the part-time academic/part-time ESL enrollment in the next semester or to take only ESL classes, at the discretion of the ESL Director.

Place in an English composition course, ESL 1100 or ESL 1101.

English Placement for Non-native Speakers of English

Any student whose first language is not English must submit an official score report for the Test of English as a Foreign Language (TOEFL), the International English Testing System (IELTS). Students who do not meet the minimum English proficiency requirements specified for the TOEFL, IELTS or ACT Compass ESL test will be placed at the appropriate level in the Troy University English as a Second Language (ESL) program. The ESL program is available on the Troy Campus.

Audit

Students may audit any Troy University course by indicating audit at the time of registration. No credit will be given, no hours attempted will be earned, and fees will be assessed based on the audit credit hour rate. Audit hours are not counted in maximum or minimum credit load limits and no credit will be earned.

Students may change from audit to credit or from credit to audit within the designated drop/add period the first week of classes, a period allowing students' flexibility to change classes without academic or financial penalty

Transient Status

Student from another institution wishing to enroll at Troy University as a transient student (Transient students are not eligible for financial aid.)

A student enrolled at another institution who is in academic good standing may wish to study at Troy University and then return to the original institution. The student should make application as a transient student with appropriate transient authorization. In order to complete this process, students desiring to enroll at the Troy Campus must submit the completed Medical History Form. Students granted transient admission should request that official Troy University transcripts be sent to the home institution.

Troy University student wishing to enroll as a transient student at another institution

A student receiving prior Troy University transient authorization does not need to be readmitted if the absence does not go beyond the term authorized. Troy University transient authorization assumes the student remains in good standing and has not officially withdrawn from the University for the term that authorization was granted. The student must provide an official transcript from the institution attended. A student returning beyond the approved transient authorization must reapply under the readmission rules.

Returning to Troy University

Students in academic good standing with the University who have not been enrolled for two years (from the last term/semester for which grades were received) must submit a new application for admission at www.troy.edu/applications-admission.

Former TROY students who enrolled at another institution since their last term/semester of enrollment must submit a new application for admission. Transcripts from that institution(s) must also be submitted at www.troy.edu/applications-admissions.

Students who have not received a grade at TROY within two years and have not attended another institution must contact the Office of Admissions at 800-414-5756 for further guidance on registering for classes.

This action should not be confused with the "Readmission" policies under Academic Regulations, regarding students "suspended" from the University— found on page 22 of the current Undergraduate Catalog.

Receiving transient authorization

Students receiving prior Troy University transient authorization do not need to be readmitted if their absence does not go beyond the timeframe authorized. Troy University transient authorization assumes that the student remains in good standing and has not officially withdrawn from the University for the time period

authorization was granted. Students must provide official transcripts from the institutions attended.

Post Degree Status

Students who have earned baccalaureate degrees or higher degrees from the University or from other institutions may enroll for additional undergraduate coursework as post degree students.

Transcripts with posted degree must be submitted.

Temporary Admission

Temporary admission may be granted to an applicant who has submitted incomplete information or documentation for full admission to the University. Temporary admission may be granted for one term/semester. Students granted temporary admission must submit all complete and/or official records before the end of the term/semester for which the temporary admission was given. With the permission of the Associate Vice Chancellor of Enrollment Management or the campus/site designee, a second temporary may be extended for the subsequent term. In the event the final records indicate that the student is not eligible for admission, the student may be administratively withdrawn with no refund issued.

Admission for Students Graduating from Non-Accredited Institutions (Including Home Schooled Students)

Students attending institutions which are not regionally accredited may submit transcripts for review to determine admissibility. The regional accrediting agencies are as follows:

- Higher Learning Commission
- Middle States Association of Colleges and Schools
- New England Association of Schools and Colleges
- Northwest Commission on Colleges and Universities
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges

Students graduating from home-school programs must comply with the same requirements as students graduating from traditional programs.

Provisional Credit:

If a student meets regular admission standards and has earned college level courses at an unaccredited institution of higher learning, the student may be given provisional credit. However, the credits will not be considered for acceptance until the student has attended Troy University as a full-time student for two semesters and has met the grade point average necessary for good standing. Credits will be reviewed by the dean of the discipline and the Records Office. A determination will be made based on (1) the unaccredited institution's affiliation with the Commission on Recognition of Post Secondary Accreditation; and/or (2) acceptance of credit by at least three other accredited institutions located in the area of the unaccredited institution. Contact the dean of enrollment management or the Global Campus site director for more information.

Additional Admissions Notes

Active duty military, National Guard, Reservist, and veterans may be admitted on the basis of an exempted ACT or SAT score requirement, regardless of age. These students will be required to present a military ID or DD 214 as part of their application submission in addition to the high school transcript or GED score.

Also, Students who are certified as "qualifiers" through the Eligibility Center of the NCAA are eligible for admission. Students who have been certified by the NCAA must submit required test scores and transcripts to the Office of Admissions. Evaluation of credentials determines the enrollment status: unconditional or conditional.

The following individuals shall be charged a rate of tuition not to exceed the in-state rate for tuition and fees purposes:

- A Veteran using educational assistance under either chapter

30 (Montgomery VA Educational Benefits– Active Duty Program) or chapter 33 (Post-9/11 VA Educational Benefits), of title 38, United States Code, who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge or release from a period of active duty service of 90 days or more.

- Anyone using transferred Post-9/11 VA Educational Benefits (38 U.S.C. § 3319) who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor's discharge or release from a period of active duty service of 90 days or more.

- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three-year period following discharge or release as described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.

- Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence).

- Anyone using transferred Post-9/11 VA Educational Benefits (38 U.S.C. § 3319) who lives in Alabama while attending a school located in Alabama (regardless of his/her formal state of residence) and the transferor is a member of the uniformed service who is serving on active duty.

- Anyone using benefits under the Dependents Education Assistance (DEA) program (38 U.S.C. 3679[©] (2)(A)) chapter 35 who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence).

- The policy shall be read to be amended as necessary to be compliant with the requirements of 38 U.S.C. 3679[©] as amended.

ACADEMIC REGULATIONS

Academic Year

Troy University operates on the semester system. Some courses are offered on an accelerated semester schedule/term.

Associate Degrees

Degree Requirements

In order to receive the associate degree, students must complete all course requirements for the degree. An associate degree cannot be declared if a baccalaureate degree has been awarded in the same program.

Credit Hours

The student seeking an associate degree must meet the following requirements:

1. A minimum of 60 semester hours.
2. At least 50% of the degree program must be traditional academic credit (excludes credit by correspondence, challenge exams, CLEP, DSST, Military, ACE, etc.).
3. No more than 25% of the degree may be earned using portfolio-based credit. (*See Specialized Curricula-Experiential Learning Credit.*)
4. At least 25% of the credit hours required for the degree must be completed in residence with Troy University. See the Academic Evaluation available on Student Planning.
5. Nine semester hours must be completed in residence at Troy University in the major area of concentration. See *Residency* for additional information.
 - *Note: This does not apply to the Associate of Science in General Education and the Associate of Arts in General Education degree.*

Grade Point Average

1. A candidate for graduation must have an overall institutional average of C (2.0 GPA).
2. A candidate for graduation must have an overall cumulative average of C (2.0 GPA).
3. A candidate for graduation must have an overall average of C (2.0 GPA) in the major
 - *Note: This does not apply to the Associate of Science in General Education and the Associate of Arts in General Education degree.*

Second or Subsequent Associate Degrees

The following policies apply:

1. No more than one Associate of General Education degree may be earned.
2. Credit earned in a concentration or major may be used to meet the requirements of only one associate degree.
3. Credit earned in a concentration or major may not be used retroactively to satisfy the requirements of another associate degree.
4. Only one degree will be conferred on a student for any term/semester.

Requirements

1. Complete the first degree as certified by the Registrar.
2. Declare a new program of study after the first degree has been certified as completed by the Registrar.
3. Earn an additional 15 semester hours in residence in the declared program (see residency credits under residency).
4. File a Graduation Application through Student Self-Service in Trojan Web Express in accordance with the published deadlines.
5. Meet all current requirements for the second or subsequent degree. An associate degree cannot be

declared once a baccalaureate degree has been awarded in the same program.

Attendance Policy

Students receiving financial assistance are required to attend classes according to the regulations for financial assistance benefits in addition to those regulations required for the course.

Faculty members may levy academic penalties upon unexcused absences. However, such penalties for unexcused absences will be a part of each course syllabus and will be distributed to each class at the beginning of the term and a copy filed in the departmental office.

Auditing a Course

A student may audit any Troy University course by indicating audit at the time of registration. No credit will be given, and fees will be assessed based on the audit credit-hour rate. Audit hours are not counted in maximum or minimum load limits. Students are not permitted to change from audit to credit hours after the last day to add a course, or from credit to audit after the last day for dropping a course.

Baccalaureate Degrees

Note: Students earning a degree in the College of Education should refer to the *Education* section for additional requirements.

Degree Requirements

In order to receive the baccalaureate degree, the student must complete all requirements for the degree.

Credit Hours

The student seeking a baccalaureate degree must meet the following requirements:

1. A minimum of 120 semester hours.
2. At least 50% of the degree program must be traditional academic credit (excludes credit by correspondence, challenge exams, CLEP, DSST, Military, ACE, etc.).
3. No more than 25% of the degree may be earned using portfolio-based credit. *See Specialized Curricula-Experiential Learning Credit.*
4. At least 25% of the credit hours required for the degree must be completed in residence with Troy University. (See the Academic Evaluation available on Student Planning.)
5. Twelve semester hours of work in each major field must be completed in residence with Troy University. See *Residency* for additional information.
6. A course may be used to satisfy only one requirement. For example, if the same course is required for both the major and minor selected, it may be used to satisfy only one of these requirements. An additional course or courses must be completed to satisfy the remaining requirement.

Grade Point Average

1. A candidate for graduation must have an overall institutional average of C (2.0 GPA) (unless the academic program specifies a higher GPA for licensure or certification purposes—See College Dean) *Example: The School of Education requires a 2.75 GPA for any degree program that must meet TEP requirements. See Teacher Certification for additional information. Other programs may have a GPA requirement for graduation. See the Dean of the College.*
2. A candidate for graduation must have an overall cumulative average of C (2.0 GPA) (unless the academic program specifies a higher GPA for licensure or certification purposes—See College Dean)
3. A candidate for graduation must have an overall average C (2.0 GPA) in each major field (unless the academic

program specifies a higher GPA for licensure or certification purposes—See College Dean)

Second or Subsequent Baccalaureate Degrees

In order to earn a second or subsequent baccalaureate degree, a student must:

1. Complete the first degree as certified by the Registrar.
2. Declare a new program of study after the first degree has been certified as completed by the Registrar.
3. Earn an additional 30 semester hours in residence in the declared program (*see residency credit*).
4. Earn a minimum of 12 semester hours (beyond the previously earned degree) in the major field.
5. File a Graduation Application through Student Self-Service in Trojan Web Express in accordance with the published deadlines.
6. Meet all current requirements for the second or subsequent degree.
7. A course may be used to satisfy only one requirement. For example, if the same course is required for both the major and minor selected, it may be used to satisfy only one of those requirements. An additional course or courses must be completed to satisfy the remaining requirement.
8. Only one degree will be conferred on a student for any term/semester.

Students With a Completed Associate of Science/Arts Degree

Some or all General Studies requirements may be waived for the TROY **bachelor** degree programs for students who have earned previous Associate of Science (or Arts) (A.S. or A.A.) degree **in transfer** from a regionally accredited institution provided the General Studies courses are not direct prerequisites for courses needed at TROY for the selected degree program or are not directly specified for the student's major/program. Regardless of any waived coursework, all residency requirements for TROY (minimum 25% of degree hours) and in the major/concentration area (minimum 12 hours) must still be met. In general, completion of the A.A. or A.S. will fulfill the General Studies Program, Areas I-IV as well as TROY 1101 and IS 2241 in Area V, with exception of any major-specific courses/prerequisite courses in Areas I-V. All requests for waivers must be communicated to the appropriate Troy University Campus Registrar prior to beginning any Troy University course work toward this bachelor's degree.

Students With a Completed Bachelor's Degree

Some or all General Studies requirements may be waived for the TROY **bachelor** degree programs for students who have earned a previous bachelor's degree **in transfer** from a regionally accredited institution provided the General Studies courses are not direct prerequisites for courses needed at TROY for the selected degree program or are not directly specified for the student's major/program. Regardless of any waived coursework, all residency requirements for TROY (minimum 25% of degree hours) and in the major/concentration area (minimum 12 hours) must still be met. In general, completion of the previous bachelor's degree will fulfill the General Studies Program, Areas I-IV as well as TROY 1101 and IS 2241 in Area V, with the exception of any major-specific courses/prerequisite courses in Areas I-IV. All requests for waivers must be communicated to the appropriate Troy University Campus Registrar prior to beginning any Troy University course work toward this bachelor's degree.

Institutional Assessment of Student Academic Performance

Troy University is committed to the continual improvement of its educational programs. The University periodically conducts assessments of student outcomes; therefore, a student can expect to participate in academic outcomes assessment activities during his or her time of enrollment.

Class Section Cancellation

The institution reserves the right to cancel any class section due to insufficient enrollment.

Classification

<i>Hours Earned</i>	<i>Classification</i>
Less than 30	Freshman
30-59	Sophomore
60-89	Junior
90 or more	Senior

Good Academic Standing

A student is considered in Good Standing when the overall cumulative GPA is 2.00 or greater

Credit Definitions

Regular Credits

College credits are expressed in semester hours or credit hours.

Credit Hour Equivalency

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15 weeks (does not include final exam time) for one semester or the equivalent amount of work over a different amount of time; or
2. 50 minutes of classroom instruction plus additional out of class work (the general expectation is two hours) for 15 weeks is the basis for a credit hour; or
3. a minimum of 2,250 minutes per three semester hour course of instruction, which does not include final exam time; or
4. an amount of work represented in intended learning outcomes that are at least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

Laboratory Credits

Two hours of laboratory work are usually accepted as the equivalent of one hour of regular class work. The actual number of hours is determined in order to satisfy the course objectives.

Credit by Examination

Credit is allowed for CLEP, General and Subject Examinations, the Advanced Placement program, IB, GCE-A/AS, and DSST examinations as approved by the Academic Council and department chairs. The number of credits allowed for satisfactory performance on the general examinations may be reduced by the amount of credit the student has previously earned in the subject matter areas covered by the examinations.

Some departments of the University have developed challenge examinations in areas which, with approval of the Academic Council, can be used in lieu of certain required courses. Consult the appropriate department chairs for additional information.

Experiential Credit

Troy University recognizes that learning equivalent to the college level can occur outside the formal structure of accredited colleges and universities. Policies and procedures have been established for the assessment of this learning based upon the "Principles of Good Practice in Assessing Experiential Learning" recommended by the Council for the Adult and Experiential Learning (CAEL).

In addition, credit as recommended by the American Council on Education may be granted for learning acquired through military, industrial, or regionally accredited technical school training programs where the learning is applicable to the student's

degree program. Experiential credit is considered non-traditional credit.

Provisional Credit

If a student meets regular admission standards and has earned college level courses at an unaccredited institution of higher learning, the student may be given provisional credit. However, the credits will not be considered for acceptance until the student has completed 24 credit hours with a cumulative GPA of 2.0 or better at Troy University. Credits will be reviewed by the Dean of the Discipline and the Record's Office. A determination will be made based on (1) the unaccredited institution's affiliation with the Commission for Higher Education Accreditation; and/or (2) acceptance of credit by at least three other accredited institutions located in the area of the unaccredited institution.

Transfer Credit

Transfer credit is defined as college credit that was earned at a regionally accredited institution and is transferable and accepted for credit toward degree programs at Troy University, and credit recommended by the American Council on Education.

In addition, credit as recommended by the American Council on Education may be granted for learning acquired through military, industrial, or regionally accredited technical school training programs where the learning is applicable to the student's degree program.

See the *Admissions* chapter of this catalog for more information regarding transfer credit.

Transient Credit

A currently enrolled student who wishes to study at another institution for a term should consult with the Record's Office concerning procedures and required approvals. Any courses taken by a student after the initial registration with Troy University must have prior approval by the University, and transient hours must be included with the student's semester load for load-limit purposes. If a student takes coursework at another institution without proper transient authorization, the University reserves the right to deny credit for these courses. No more than six semester hours of credit may be taken as Transient after the last term of enrollment with Troy University.

Course Sequences

In general, students should take all required courses in their plan of study in the appropriate numeric sequence when possible, unless otherwise stated in this catalog or by the student's assigned academic advisor. Courses and programs that have prerequisite requirements must not be attempted until the necessary prerequisites have been satisfactorily met.

Advanced Courses

Advanced courses are courses at the sophomore level or above.

Upper level courses

Upper level courses are courses at the junior level or above.

Numeric course sequencing

- 0090 sequence: Developmental/remedial courses (*do not count toward degree requirements*)
- 1100 sequence: Freshman level (*exceptions noted in course descriptions as related to developmental/remedial course work*)
- 2200 sequence: Sophomore level
- 3300 sequence: Junior level
- 4400 sequence: Senior level
- 5500 sequence: Graduate courses (*open to seniors by permission*)
- 6600 sequence: Graduate students only
- 7700 sequence: Education Specialist students only

- 8800 sequence: Graduate students only—doctoral level

Credit Load Calculation

Definitions

- A "semester" is defined for hour limit purposes as 16 weeks of class meetings.
- A "term" is defined for hour limit purposes as up to a nine week period of class meetings.

Fall, Spring, and Accelerated Semesters/Terms

- Minimum Full-Time Undergraduate Load: 12 semester hours (six semester hours for accelerated semester/term schedules).
- Maximum: 18 semester hours (10 semester hours for accelerated semester/term).
- Overload: 19-21 semester hours (11-13 semester hours for accelerated semester/term schedules). Credit overload requires unconditional admission status, a minimum institutional GPA of 3.5, recommendation from the student's academic adviser, and signature of the dean or designee. Undeclared majors requesting an overload must have the signature of the Associate Provost/Dean of Undergraduate Studies or designee.
- Students on academic probation: Limited to 13 semester hours (seven semester hours for accelerated semester/term schedules)

Summer Semesters (Alabama Campuses)

- Minimum Full Time Undergraduate Load: 9 to 12 semester hours (over the entire summer). Students are advised that full-time status for federal financial assistance is 12 semester hours.
- Maximum: 13 semester hours
- Overload: 14-15 semester hours. Credit overload requires unconditional admission status, a minimum institutional GPA of 3.5, recommendation from the student's academic adviser, and signature of the dean or designee. Undeclared majors requesting an overload require the signature of the Associate Provost/Dean of Undergraduate Studies or designee.
- Students on Academic Probation: Limited to 10 semester hours.

Important note regarding concurrent enrollment: Within the beginning and ending dates of a fall or spring semester, concurrent enrollment in the semester and any term(s) may not exceed 18 hours. Enrollment in more than 18 hours requires a student to meet the University policy for an overload.

Concurrent enrollment in the summer semester and any term(s) may not exceed 13 hours. Enrollment in more than 13 hours requires a student to meet the University policy for an overload.

The maximum number of overload hours for any fall or spring semester block of time is 21.

Drop

A student who wishes to reduce, but not entirely eliminate, his or her credit load may drop a course. Students may drop a course or courses online via Student Planning, or submit a request in the Record's Office.

The last day to drop a course will be assigned for each term, session or semester based on 65% completion of the length of the course. Dates will be published in the Academic Records web page (www.my.troy.edu/records). The 65% rule also applies to international teaching locations.

- **From Early Registration through Late Registration-Free Course Schedule Adjustment Period**

Students may drop a course or courses during the Free Course

Schedule Adjustment Period. Tuition and refundable fees will be returned.

- **From the end of Late Registration (Free Course Schedule Adjustment Period) through the last day to Drop**

A non-punitive grade of DR will be assigned up until the last day to drop, as posted in the Schedule of Classes and on appropriate web pages. **Students may not drop after the deadline.** Any student who fails to do so will be assigned a grade.

Extenuating circumstances such as military deployment must be properly documented before an exception will be considered.

Grade Appeals

Faculty members have the authority to grade student work and to assign grades, these are academic judgments. A faculty member's syllabus enumerates student academic performance expectations and consequences. Faculty members render academic judgments when a student's academic performance violates established standards or fails to meet stated expectations. Academic judgments, made by faculty, are based on academic content, course requirements, and student performance. Students may not appeal grades based on allegations concerning the competence of a faculty member, the fairness of examinations, the difficulty of a course, or other matters of a purely academic nature. Grades for individual assignments and exams may not be appealed. While it is recognized that faculty hold the right and responsibility to grant a grade, a student who receives a course grade that he or she believes to be unwarranted for reasons other than those listed above may appeal that grade using these stated procedures:

Step 1. Within the first four weeks of the start of the following term or semester in which the grade is received, the student shall have informally appealed the grade to the instructor. If that instructor is not teaching at Troy University during the term following issuance of the grade, the student will make contact with the instructor through the department chair to informally appeal the grade. In the case of a course taught through TROY Online, students should contact their home campus or site to determine the person designated by the appropriate college dean to assist the students with their appeals.

Step 2. If the issue is not resolved at this informal level and the student wishes to pursue the appeal, the student shall request in writing a meeting with the respective department chair. This request shall be addressed to the department chair and shall be received no later than the end of the fifth week of instruction for the term or semester following issuance of the grade. The request must summarize the student's complaint and the student's informal appeal to the instructor. In the case of a course taught through TROY Online, students should contact their home campus or site to determine the person designated by the appropriate college dean to assist the students with their appeals.

Step 3. Within two weeks of receipt of the request, the department chair shall discuss the appeal with the student and with the instructor, separately or at the same time. If the department chair upholds the decision, the matter is closed. The decision is final.

Step 4. If the department chair does not support the decision of the instructor, the matter shall be appealed within two weeks of the department chair's decision to the designated associate dean or dean of the college. The department chair will forward the appeal package to the designated associate dean or dean. The designated associate dean or dean will empanel three full-time faculty colleagues from the department and/or discipline to review the matter. *The decision of this panel shall be final and binding on all parties.*

Note: Students may not use this procedure to appeal grades resulting from violations of academic honesty. Students should refer to the *Oracle*, the University's official student handbook, for those appeals.

Grade Point Average (GPA)

The grade point average is computed by dividing the number of credit hours attempted into the total number of grade points earned. The official transcript displays two GPA types: (1) The institutional GPA is based on hours attempted with Troy University only; (2) the Cumulative GPA is based on hours attempted with Troy University *and* transfer institutions.

Grading System

Grade	Description	Credit	Grade points per credit hour	Calculates in GPA
A	Excellent	Yes	4	Yes
B	Above Average	Yes	3	Yes
C	Average	Yes	2	Yes
D	Below Average	Yes	1	Yes
F	Failure	No	0	Yes
AU	Audit	No	0	No
DR	Dropped course prior to the published deadline	No	0	No
FA	Did not attend any classes	No	0	Yes
I	Incomplete	No	0	No
FI	Course requirements not completed by end of time limit for course assigned an Incomplete. Assigned by registrar. (Same as F)	No	0	Yes
NG	No grade reported by faculty at end of term (assigned by Registrar)	No	0	No
P	Pass	Yes	0	No
W	Withdrawal prior to the published deadline	No	0	No

Graduation

Students must complete degree requirements within eight years after first entering Troy University or student will be moved to the current catalog. Students not attending Troy University for two consecutive calendar years must meet all degree requirements of the current Catalog at the time of readmission.

Filing for Graduation

A Graduation Application must be filed according to the published dates.

Degree Plans / Academic Evaluations

Academic evaluations are available to students online through the Student Planning module. However, evaluations are not considered official unless issued by or stamped by an academic evaluator or designated representative of the University Registrar's office. Notation of this official review can be found under the "Show Program Notes" section of Student Planning/My Progress

Honors and Awards

Chancellor's Honor List

Full-time undergraduate students who are registered for 12 semester hours and who earn a grade point average of 4.00 qualify for the Chancellor's List, which is published at the end of each term. A Troy University part-time student who earns a 4.00 grade

point average on 12 consecutive semester hours of credit will also be named on the Chancellor's List.

Provost's Honor List

Full-time undergraduate students who are registered for 12 semester hours and who have a grade point average of 3.65 or higher qualify for the Provost's List, which is published at the end of each term. A Troy University part-time student who averages 3.65 or higher on 12 consecutive semester hours of credit will also be named on the Provost's List.

Graduation with Honors

To be eligible for graduation honors, students must have earned a minimum of 30 semester hours of non-pass/fail work at Troy University prior to their final registration. Honors will be calculated based on the average of all hours attempted at Troy University and transfer credit, excluding any remedial courses.

Please note: Due to the unavailability of grades for the final semester during the time commencement programs are printed, honors designations are based on the grade point average earned through the previous academic term. Final academic honor designations are determined after grades have been posted. Final, official honor designations will be printed on the transcripts. Diplomas will be reprinted for students whose last term alters the honors designation.

Undergraduate honor students are awarded differentiated diplomas as follows:

- Cum Laude: Grade point average of 3.40
- Magna Cum Laude: Grade point average of 3.60
- Summa Cum Laude: Grade point average of 3.80

Incident Weather and Emergency Situations

Both faculty and students are responsible for meeting all assigned classes. In the event of inclement weather, faculty and students will be expected to attend classes as usual as long as they may do so without risking peril to themselves or to others. During periods of inclement weather, faculty and students will not be penalized for absences dictated by perilous conditions. In severe cases of inclement weather or other emergency conditions, each campus or site will announce cancellation of classes through local and regional media as well as through the University's website.

As part of Troy University's efforts to provide accurate, timely information to our University community, the SOS communication system delivers emergency notices to a variety of electronic devices. To subscribe to SOS visit the SOS– Emergency Information web page at <http://my.troy.edu>.

Incomplete Grade

This incomplete grade policy replaces all other incomplete grade policies as of August 9, 2012.

If a student is unable to complete all course grading requirements, the student may be eligible to request the assignment of an incomplete grade. An incomplete grade is not automatically assigned by the instructor, but must be requested by the student and approved by the instructor. The decision to approve or reject a student's request for an incomplete grade is at the discretion of the instructor using the following criteria:

- Student submits a completed "**Petition for an Incomplete Grade**" form prior to assignment of a course grade.
- Student's progress in the course is deemed satisfactory.
- Student is passing the course when the request is made.
- The circumstances that prevented the student's completion of course requirements are beyond the student's control, and adequate documentation is provided.

Time limit for removal of incomplete grade

Any student who receives an "I" must adhere to the deadlines set by the instructor for when required assignments must be received. The deadline must not exceed 9 weeks from the date of the end of the term that the "I" was awarded. All set deadlines apply whether or not the student enrolls for the semester or term

following the assignment of the incomplete grade. Work received on or before the instructor set deadlines will be graded and computed into the final course grade. The instructor will submit a "**Change of Grade**" form to the registrar on or before the last day to remove an Incomplete from the previous semester or term published in the University's master calendar. Student assignments not received by instructor deadlines will not be graded and a "Change of Grade" form will not be submitted. If a "Change of Grade" form is not submitted by the appropriate time, the "I" will automatically be converted to an "FI". An "FI" is calculated as an "F" when determining grade point average.

Placement in Academic Courses

A student may be placed in an advanced section of a given subject area if the student's record indicates a high degree of achievement or if it indicates the student has successfully completed studies that should not be duplicated. Troy University does not accept placement exemptions granted by other institutions. Students are allowed one subsequent retest in both Math and English after their initial attempt at placement testing. Students must wait a minimum of 30 days before being allowed to retest. Any placement exams taken within the 30 day wait period will not be accepted. All placement test scores must be less than three (3) years old to be accepted by Troy University. For more information, students should consult their academic advisers and/or their respective academic departments.

ACT (English): with ACT (English) score of 30-34, student will receive three hours credit for ENG 1101.

ACT (English): with ACT (English) score of 35-36, student will receive six hours credit for ENG 1101 and ENG 1102.

SAT (Verbal): with SAT (Verbal) score of 680-710 or new SAT 720-740, student will receive three hours credit for ENG 1101.

SAT (Verbal): with SAT (Verbal) score of at least 720 or new SAT 750, student will receive six hours credit for ENG 1101 and ENG 1102.

Readmission

1. Former Students in Good Standing:

-Students in academic good standing with the University who have not been enrolled for two years (from the last term/semester for which grades were received) must submit a new application for admission.
www.troy.edu/applications-admissions

-Former TROY students who enrolled at another institution since their last term/semester of enrollment must submit a new application for admission. Transcripts from that institution(s) must also be submitted.

-Students who have not received a grade at TROY within two years and have not attended another institution must contact the Office of Admissions at 1-800-414-5756 for further guidance on registering for classes

2. Students Suspended from Troy University:

Students who have been suspended from Troy University must apply for readmission and may be readmitted under probation after serving suspension. However, students may appeal to the Senior Vice Chancellor of Academic Affairs or designee for readmission under certain mitigating circumstances to avoid suspension. Appeal forms are available in the Registrar's Office.

3. Academic Bankruptcy:

Undergraduate students who are returning to the university following an absence of three years or more have the opportunity to petition for an Academic Bankruptcy of one academic reporting term if the appropriate criteria are met.

Eligibility

Student must be eligible for enrollment at the time a petition for Academic Bankruptcy is filed.

Student must be absent from TROY a minimum of 3 consecutive years to qualify.

Student must have a term GPA of 1.75 or lower in the requested term.

Application of Academic Bankruptcy Terms/Limitations

Complete term forgiveness may be applied only one time during the student's academic career at Troy University.

The application of the academic bankruptcy will apply to ALL coursework in the bankrupted term. (Credit attempted or earned for ALL courses within the term will display as zero credits, regardless of awarded grade.)

Term for bankruptcy consideration can be up to one "Reporting Term".

Two Accelerated Terms and/or the corresponding Traditional Semester

Academic bankruptcy can only apply to undergraduate coursework.

An academic bankruptcy cannot be applied once a baccalaureate degree is earned.

Transfer and placement credits are not eligible for academic bankruptcy.

No financial forgiveness will apply. No financial obligation will be lifted or refunded. Money owed will still be owed.

If Business office hold is in place, it must be cleared prior to any Academic Bankruptcy forgiveness request is considered.

If Academic Bankruptcy is approved, registration upon enrollment will require advisement through one of TROY's assigned Centers for Student Success.

For any additional questions, you may contact the University Registrar's Office.

Registration

Students should register during designated registration times. Once students have registered for a course or courses, they have incurred a financial commitment which must be met. Students can pay their tuition online by accessing the View Account and Make Payments tab on Trojan Web Express.

Students must be registered for all classes prior to attendance in these classes. If a student's name does not appear on a class roster, they may not sit in or otherwise attend the course.

Students who fail to attend a class without following drop/withdrawal policies will receive a grade of "FA" and still be charged full tuition and fees. Students with an outstanding balance will not be permitted to register for future terms.

Registration in Special Programs**1. Contract Program**

Entering students who do not find a stated program which meets their specific needs should consult the department chair to discuss the possibility of a contract program, which normally consists of at least 30 hours of a regular academic major and 36 hours of agreed upon electives that contribute to the student's program of study, not to exceed 77 semester hours. All General Studies requirements must be met. See the appropriate department chair for additional information.

- **Contract Minor** - Students in certain programs and/or with a significant amount of transfer credit in an area of study not offered by TROY may consult their advisor and/or department chair to discuss the possibility of a contract minor, which normally consists of at least 18sh in a related field.

2. Accelerated Study for Superior Students

This opportunity permits enrollment in an accelerated or broadened program through registration for credit hours above the normal load. For specific credit loads permitted, see *Credit Load*.

3. Independent Study and Research

This program consists of several special study and research courses. Guided Independent Research, Guided Independent Study, and Honors Independent Study are offered in various departments.

Guided Independent Research (course numbers 4491 and 4492, one to three credit hours per course): Undergraduate research with attention to critical evaluation of research techniques, methods and procedures. Prerequisite: Junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of the department chair and dean. A written request must be submitted to the department chair at least two weeks in advance of the term the research is to be undertaken; application forms are available in the Registrar's Office. Guided Independent Research may be taken only in the applicant's major or minor field.

Guided Independent Study (course numbers 4493 and 4494, one to three credit hours per course): Supervised study through internship, field or laboratory projects, guided readings, creative endeavors, or achievement in specific skills. Prerequisite: Junior or senior standing, permission of guiding professor, approval of the department chair and dean. A written request must be submitted to the department chair at least two weeks in advance of the term in which the study is to be undertaken; application forms are available in the Registrar's Office.

Honors Independent Study (course number 4498, one to three credit hours per course).

4. Non-Traditional Study

See Credit by Examination and *Experiential Credit*.

5. Off-Campus Courses

Courses offered to groups of a minimum of 20 students, prepared on demand with approval of the provost. Students admitted to a Troy University off-campus course will be admitted on a conditional basis and must earn a minimum of 20 semester hours with a grade point average of 2.0 or better to be admitted as a regular student to the campus.

Repetition of Courses

Troy University courses may be repeated once for grade forgiveness, if the course is repeated at Troy University. Only the first grade earned for a course may be forgiven (not calculated in the GPA). The grades of courses repeated more than once will be calculated in the GPA. If the course being repeated is required for the program, then the last grade for that course must meet the program requirements.

Residency**Residency Credits**

Effective Fall 2005, credit taken through any Troy University location will be counted as residency credit for graduation.

Residency Requirements

A candidate for graduation must have attended Troy University for at least two semesters and must have earned at least 25% of the degree in residence. This may include the semester in which graduation is scheduled. Certain exceptions may apply to RN-to-BSN students. These students should contact the Registrar for further information.

Any Troy University course for credit counts toward residency (excluding developmental / remedial courses and institutional credit English as a Second Language [ESL] courses).

Responsibility

It is the responsibility of every student to follow the standards and expectations contained in this catalog, as well as those in the student handbook, *The Oracle*. Failure to follow these standards and expectations may adversely affect student success and academic progress as well as their standing within the University.

Retention

Conditionally Admitted Students

These students must earn a 2.0 or higher grade point average on the first 24 semester hours attempted or they will be dropped from program.

Unconditionally Admitted Students

Probation

A student must earn or maintain a 2.0 grade point average or higher or will be placed on probation for one semester/term. A student on probation is limited to 13 semester hours (seven semester hours for accelerated terms) and must earn a minimum of a 2.0 grade point average each subsequent term until the overall (i.e. institutional or cumulative) grade point average reaches the 2.0 level.

Suspension

A student on probation who fails to earn a term grade point average of 2.0 or higher will be suspended. A student's first academic suspension will be for one semester/term; the second suspension will be for two semesters/terms; and a third suspension will be for an indefinite period. Suspension Period Regulations

Courses completed at any institution during a suspension period will not be accepted for credit. Students placed on indefinite suspension may petition for readmission following a period of 12 months.

Readmission after Suspension

A student returning from academic suspension will be readmitted on probation. A student must earn or maintain a 2.0 average or higher while on probation. A student on probation is limited to 13 semester hours (seven semester hours for accelerated terms) and must earn a minimum of a 2.0 average each subsequent term until the overall grade point average reaches the 2.0 level. Failure to meet the 2.0 term/semester GPA requirement will result in further suspension. Suspension from all other colleges will be honored, including all Troy University locations.

Withdrawal

Also see "Drop."

Withdrawal from the University is defined as a removal or withdrawal from all courses for the current semester and/or term. The student is no longer enrolled in any course(s).

The last day to withdraw will be assigned for each term or semester based on 65% completion of the length of the course. Dates will be published in the Schedule of Classes and on the Academic Records web page (www.my.troy.edu/records). The 65% rule also applies to international teaching locations.

From Early Registration through Late Registration-Free Schedule Course Adjustment Period

Students who wish to withdraw from all classes prior to the last day of late registration must CANCEL their registration in writing through the Designated Withdrawal Officer (DWO) listed on the Academic Records web page (www.troy.edu/academics/academic-resources/records-office). Written cancellation does not require the completion of the withdrawal form or an exit interview. Tuition and refundable fees will be returned.

From end of Late Registration (Free Course Schedule Adjustment Period) through the last day to Drop

A student who wishes to withdraw from all courses for a current semester/term may withdraw without academic penalty with a non-punitive grade of **W** until the last day to withdraw (posted in the Schedule of Classes and on appropriate web pages). Tuition and refundable fees **will be** charged during this period.

Students may not withdraw via Student Planning. An official withdrawal form must be completed and processed before the student's withdrawal is considered final. The form may be accessed at <http://www.my.troy.edu/records/>.

Students may not withdraw after the withdrawal deadline. Any student who fails to withdraw by the deadline will be assigned a letter grade (check with the Financial Aid department to determine how financial aid is calculated prior to withdrawing).

Extenuating circumstances such as military deployment must be properly documented before an exception can be considered.

DANTES SUBJECT STANDARDIZED TEST (DSST)

ELIGIBILITY FOR CREDIT: Troy University will grant appropriate credit for acceptable scores on DSST Exams listed on this chart. Acceptable scores are based on ACE recommended scores which are subject to change without notice.

STUDENTS MUST WAIT 90 DAYS (3 MONTHS) BEFORE RETAKING THE SAME DSST EXAM.

INTERNATIONAL BACCALAUREATE (IB)

Troy University awards International Baccalaureate credit with the appropriate higher-level (H-L) examination score. After official scores have been received, evaluated and certified, eligible credit will be posted to the student's transcript. Credit is granted only for degree-seeking students at the undergraduate level. For more information, contact the appropriate campus registrar. IB credit will appear on the University transcript as a grade of P. Credit for IB credit is not calculated in the grade point average.

**GENERAL CERTIFICATE OF EDUCATION FOR ADVANCED AND
ADVANCED SUBSIDIARY LEVEL EXAMINATIONS (GCE A/AS LEVEL)
(Also, referred to as AICE/Cambridge International Exams/etc.)**

Examination scores for A/AS Level Examinations are A, B, C, D, E and U/O. Scores of A—E are passing and credit can be awarded. Scores of U/O are not passing and no credit will be awarded. Official score reports must be submitted to the University in order for credit to be placed on the student's transcript. Credit will be awarded only once for the same subject, whether from credit by examination, dual enrollment, transfer credit or credit granted by Troy University.

Students are not required to earn the full Advanced International Certificate of Education (AICE) Diploma as individual GCE subject certificates for A/AS Level examinations passed are considered for transfer credit purposes.

GCE A/AS Level examinations are offered by a number of Examining Boards (Assessment and Qualifications Alliance (AQA): Edexcel; Oxford, Cambridge, and RSA Examinations (OCR); Pearson; Council for the Curriculum, Examinations and Assessment (CCEA) in Northern Ireland; Welsh Joint Education Committee (WJEC); Cambridge International Examinations (CIE): Oxford International AQA); subjects not presented in the table below will be reviewed on an individual basis.

TUITION AND EXPENSES

For a complete listing of current registration and related fees, visit the Finance and Business Affairs website at <https://my.troy.edu/student-financial-services>

Payment of Registration Expenses

The payment of charges for tuition, fees, room, and board is part of the registration process. Troy University encourages full payment of all tuition and related fees by the first payment due date for the current semester or term. Payment of fees may be made on-line using Student Self Service or at the office of the Student Financial Services. Troy University accepts Visa, MasterCard, Discover, American Express, money orders, checks, and cash.

Payment Plan (Troy Campus Only)

Troy University offers a tuition and fees payment plan which helps in budgeting college costs but requires financial planning by students and their families.

Students are required to pay all bills by published deadlines. One-half of all semester charges are due by the first payment due date. Students with an account balance after the first payment due date will be assessed a \$25.00 payment plan fee. To meet the one-half requirement, students may apply the following:

- Awarded institutional scholarship
- Awarded financial aid
- Payment by cash, check, money order, or credit card

Students with an account balance after the first payment due date will be assessed a \$25.00 payment plan fee.

The remaining semester balance must be paid by the final payment due date. Failure to pay the entire balance of tuition and fees by the final payment date will result in a late fee of \$50.00. Failure to satisfy financial obligations to the University will result in restrictions placed on future class registrations, possibly having the account assigned to a collection agency with the student responsible for collection costs, and non-release of transcripts and diplomas. *The essential ingredient for a successful registration is for students to plan early.*

Clearance of Obligations

It is the responsibility of the student to check, confirm, and pay account balances by the established payment due dates even if third party payments and/or financial aid and scholarships are anticipated to pay on the account. All financial or other obligations to the University must be cleared prior to the end of each semester or term. An outstanding balance for a prior semester or term must be paid before the student will be allowed to register for subsequent semesters or terms. Transcripts and Diploma will not be issued if financial obligations have not been satisfied. Failure to meet financial obligations to the University could subject the student to additional late payment charges, as well as collection costs.

Miscellaneous Expenses

In addition to registration expenses, miscellaneous expenses may be incurred by students. These charges are payable when incurred.

Offset of Funds

If there is an outstanding account balance, and the University has in its possession any funds payable to the student, the University reserves the right to withhold funds necessary to pay the outstanding balance and cover any collection costs incurred. Once accounts are paid, any remaining balance will be refunded to the student.

Change in Regulations or Expenses

All financial regulations, fees, or charges are subject to change as conditions warrant.

Direct Loans

Direct loans are disbursed each semester or term. Direct loans are disbursed electronically. All loan applicants are required to complete an entrance counseling and MPN on the web at www.studentaid.gov concerning their financial obligation as recipients of loan funds.

Student Refunds

To receive any refunds from the University, a student must select his or her refund preference with BankMobile. For more information about BankMobile, visit this link: <http://bankmobiledisbursements.com/refundchoices/>.

First, check your email for your Refund Selection instructions upon registration. This will be sent to the Troy email address on file with the University. Once it arrives, simply follow these steps to make your refund preference selection:

1. Visit Refundselection.com
2. Enter your Personal Code
3. Select how you would like to receive your money

Your options for receiving your refunds are:

- **Deposit to an Existing Account**—Money is transferred to an existing account the same business day BankMobile receive funds from your school. Typically, it takes 1-2 business days for the receiving bank to credit the money to your account.
- **Deposit to a BankMobile Vibe Account** - If you open a BankMobile Vibe checking account (upon identity verification), money is deposited the same business day BankMobile receives funds from your school.

Funds Held

Troy University acts as an agent holding miscellaneous scholarship funds from donors to be applied to the accounts of students. All transactions relating to a funds-held account must take place at the office of Student Financial Services, pursuant to completion of applicable paperwork in the Financial Aid office.

Drops, Withdrawals and Refunds

See the index for additional information regarding drop and withdrawal.

Course Drops — Contact the Registrar for drop/add procedures.

Administrative Drops: The provost or his/her designee will determine whether an administrative drop/add is appropriate. No administrative drop/add will be processed without the signature of the provost or his/her designee. Requests for administrative drops will be handled on a case-by-case basis.

Non-administrative Drops: Student charges are not reduced for non-administrative drops. A drop fee will be charged for non-administrative course drops.

Withdrawal — Contact the Registrar for withdrawal procedures.

Official withdrawal will result in 100% refund of charges for tuition, laboratory fees, technology fees and student activity fees through the first week of classes (five calendar days from the term's class begin date.) No refund of these charges will occur after the first week of class. For weekend classes, no reduction of charges will occur after the second class meeting.

- *Withdrawal fee:* A fee will be assessed at the time of

withdrawal.

- *Ineligibility for refund:* A student who is withdrawn by the University for disciplinary reasons or non-payment is not eligible for refunds of any nature.
- *Application for admission fee:* This fee is non-refundable.
- *Housing application fee:* This fee is non-refundable.
- *Housing charges:* Room/apartment rent is non-refundable once the term begins.
- *Board charges:* Meal plans are refundable on a pro-rata basis in units of one week. A fractional part of a week will be counted as one week.
- *Special note:* Students who register, do not attend, and do not follow official withdrawal procedures will be responsible for all semester charges including room and board.

Refunds will be applied to any outstanding obligations and to any scholarship, grant, or loan received for the semester or term.

Students may encounter extenuating circumstances that warrant an exception to the refund policy.

Withdrawals for Students Receiving Title IV Aid

In addition to the above, if a student is a recipient of Title IV aid [Pell Grant, Supplemental Education Opportunity Grant (SEOG), Direct Stafford Loans, Plus Loan, and Parent Loan], federal regulations administered through the U.S. Department of Education will apply. If a recipient of Title IV aid withdraws during the term, the university will calculate the amount of aid the student did not earn, and the unearned portion will be returned to the Title IV programs. The student is responsible for any charges which are unpaid as a result of the return of Title IV funds.

Generally speaking, a student earns Title IV aid based on the number of days completed during the term prior to withdrawal. Once 60% of the term has been completed, the student is considered to have earned 100% of the Title IV aid awarded.

Drop and Withdrawal Procedures

To initiate withdrawal from the university, students should contact their respective campus Designated Withdrawal Official (DWO). *See the index for additional information regarding drop and withdrawal.*

In-State and Out-of-State Status

Pursuant to the Code of Alabama, Section 16-64-4, and for the purposes of admissions and tuition, students may be considered a residential student by meeting certain requirements.

Military service members, spouses, dependents and veterans who reside in the state of Alabama, or within 90 miles of a Troy University campus, will be granted in-state residency.

Students not affiliated with one of the categories above, may still meet residency requirements outlined in the Code of Alabama. Please refer to the Office of Admissions/Enrollment Management for residential eligibility.

Parking Decals

Students who use campus parking are required to purchase parking decals. Purchase of a TROY University car tag may entitle a student to a reduction or waiver of the parking decal costs. See the appropriate campus parking official to inquire about the advantages of purchasing a TROY University car tag.

E-Commerce System

Troy University's E-Commerce system allows students to use the latest technology to complete business transactions with the University. Using the Web Advisor program, E-Commerce offers the following on-line features to students:

- The ability to pay tuition and various fees by using a

FINANCIAL ASSISTANCE

Troy University is particularly proud of its financial aid programs. The University attempts to provide financial assistance to the maximum number of students possible. We recognize that in many instances students and/or parents are simply not able to meet the entire cost of a college education; consequently, the university participates in a variety of financial aid programs. The programs are comprehensive in nature and range from scholarships to work study.

Approximately 70 percent of our students receive some form of financial assistance. Students are expected to be prepared with sufficient funds for maintenance, books and supplies for at least two weeks. Credit balance refunds are not issued until after the second week of classes.

Philosophy

It has been recognized that the cost of attending institutions of post-secondary education is greater than many families can handle alone. It is the philosophy of the financial aid office that no one should be denied a post-secondary education due to a lack of funds. Although it is primarily the responsibility of the student and/or family to pay college costs, this is not always possible. In such cases, the student should apply for financial aid to supplement family resources.

Parents/students should compare their award letters to our published Cost of Attendance (COA) to determine if sufficient funds are available for 100% of tuition, fees, room, board, books and supplies.

How to Apply

Go to FAFSA on the Web at fafsa.ed.gov to apply for financial aid.

- Apply for a U.S. Department of Education FSA ID at <https://fsaid.ed.gov>
- Be sure you are applying for the correct year using school code 001047.
- Just fill in the blanks when prompted.
- Errors are reduced because your answers are checked as you enter them.
- Your application reaches the federal processor immediately.
- Download and complete all required forms on the financial aid website at www.troy.edu/financialaid

All students must fill out the Free Application for Federal Student Aid (FAFSA) annually for the academic year covering their enrollment periods. Financial aid is NEVER renewed automatically.

Priority Dates

The FAFSA should be completed as soon after October 1 as possible for the approaching fall to be considered for all types of aid. October through April is the ideal completion period in order to have your funding available at the beginning of the fall semester. March 1st is our priority date - the date by which we would prefer you to have applied. Funds are awarded for the nine month (fall/spring) academic year - you are expected to save for summer enrollment from your fall/spring award. If you have any funds unused, these may be awarded for summer and a summer form should be completed (available from the website).

If your FAFSA information is received prior to May and your file is complete in May, your funds (assuming you complete the MPN with your lender, if required) should be ready to be placed on your account at the end of free/drop add.

Work study funding is first come first serve. Money is not saved for students who have worked previously. The same is true

for most other funding except for the Pell Grant and Stafford Loans.

Financial Aid Disbursement

The transmittal of financial aid will be made on the day after the drop/add period. Students will be able to receive refunds no later than 12 days after the start of classes for the term.

Additional Information

Students enrolling less than full time will have their financial aid awards reduced or cancelled according to the number of hours taken. Troy University reserves the right to adjust or cancel any aid if there is a change in academic or financial status of the aid recipient or to prevent institutional liability. Applications and brochures may be obtained by visiting the financial aid website at www.troy.edu and linking to the federal website. Financial aid may be in the form of grants, loans, scholarships or employment.

Grants

The grants listed below are based on need. These grants are available only to undergraduate students who have not received a bachelor's degree.

• Pell Grants

Pell Grants help undergraduate students who have not earned a bachelor's or higher degree pay for their higher education. The U.S. Department of Education determines who is eligible by using a formula established by Congress and the information provided by the applicant on the Free Application for Federal Student Aid (FAFSA). This will produce an expected family contribution (EFC) number. The amount the applicant receives depends on the EFC, cost of attendance, enrollment status (full-time or part-time), and length of enrollment.

• Federal Supplemental Educational Opportunity Grants (FSEOG)

FSEOG help undergraduates who hold no bachelor's or higher degree and have exceptional financial need. Priority is given to students with the lowest EFC, determined by information provided on the Free Application for Federal Student Aid (FAFSA), who also receive Pell Grants. There is no guarantee that every eligible student will receive an FSEOG, so it is important to apply early to have a better chance of receiving a grant. FSEOG awards are based on the availability of funds at Troy University.

• Federal Work-Study

The federal work-study program is designed to encourage students to contribute to their educational expenses while decreasing their debt burden. Priority is given to students with the lowest EFC, determined by information provided on the Free Application for Federal Student Aid (FAFSA), who also receive Pell Grants. There is no guarantee that every eligible student will receive or renew a work-study award, so it is important to apply early to have a better chance of receiving a job. Work-study awards are based on the availability of funds at Troy University.

Direct Stafford Loans

Direct Stafford Loans require a FAFSA and include the following federal programs:

• Subsidized Loans

Subsidized loans are awarded based on the student's calculated need from the FAFSA. The interest is paid by the government while at least half-time enrollment is maintained. You are charged a fee by the federal government when you borrow; the amount of your loan sent to the school is reduced by that fee. Repayment begins six months after enrollment has ceased or dropped to below half-time status.

- **Direct Unsubsidized Loans**

Unsubsidized loans are not based on calculated need, but still necessitate the filing of the FAFSA for eligibility determination. You are charged a fee by the Federal government when you borrow; the amount of your loan sent to the school is reduced by that fee. Interest is not paid by the Federal government, and the student is responsible for all interest associated with the loan. Interest payments can be capitalized (added to the loan at repayment) if no payments are made during enrollment. Repayment begins six months after enrollment has ceased or dropped below half time.

- **Direct PLUS Loan**

Direct PLUS Loan is for parents of dependent students and is not based on need but a FAFSA is required. Parents may qualify for the PLUS Loan for the difference between your education costs and the amount of financial aid you are awarded.

Interest rates for the Direct Stafford and Direct PLUS Loans vary. The federal government pays the interest on the subsidized Direct Stafford Loan until repayment begins. The borrower is responsible for all interest that accrues on the Unsubsidized Direct Stafford and Direct PLUS Loans from the time the loan is disbursed. More information can be found at www.studentloans.gov.

Veteran Benefits

Veterans' educational benefits are available for all eligible veterans and their dependents. To receive these benefits while attending Troy University, students must be admitted and enrolled in an approved program of study. Students interested in VA benefits should visit our website for contact information.

Military Officer's Assoc. of America (MOAA) offers interest-free loans. A list of programs and contacts is available on our website.

Veterans Affairs Educational Benefits

The following is a summary of the educational assistance that the Department of Veterans Affairs offers to veterans, service members, and their dependents. More detailed information is available on our web site.

1. The Montgomery VA Educational Benefits (Chapter 30) assists students who entered active duty for the first time after July 1, 1985, and who agree to have their pay reduced \$100 for 12 months. Veterans must have been honorably discharged, and active duty personnel must have served at least two years.

2. The Post 9/11 VA Educational Benefits (Chapter 33) assists students who have served at least 90 aggregate days on active duty after September 10, 2001, and are still on active duty or were honorably discharged from active duty; or released from active duty and placed on the retired list or temporary disability retired list; or released from active duty and transferred to the Fleet Reserve or Fleet Marine Corps Reserve; or released from active duty for further service in a reserve component of the Armed Forces. The Department of Veterans Affairs processes claims 8 to 12 weeks after receiving the completed paperwork. More detailed information is available on the VA section of the financial aid section of the web site.

Military Tuition Assistance

See 3rd Party Billing below.

Third Party Billing

Troy University accepts a variety of pre-paid and third-party college programs, including state programs and veteran programs. These plans differ on specific requirements and the contact is through the cashiers' office.

- **Pre-paid Programs**

The United States Internal Revenue Code Section 529 affords for eligible tuition programs that offer unique benefits for parents, guardians, and/or others who desire to supply money in advance for a child's college education. Taxpayers can presently pre-pay the higher education tuition costs only under state-sponsored tuition programs. Troy University accepts all pre-paid college programs. Below are the most common programs utilized at Troy University.

- **AL PACT**

The AL PACT program is Alabama's Prepaid Affordable College Tuition program, which is administered through the Alabama State Treasury. The PACT Benefit Rate is determined by PACT. For more information, please call 1-800-ALA-PACT (1-800-252-7228), or view the website at: www.treasury.state.al.us.

- **FL Prepaid College Plan**

The Florida Pre-pay college program is administered through the Florida Prepaid College Board. Each student determines

his/her program for out-of-state colleges, whether unrestricted or restricted. For more information, please call 1-800-552-GRAD (4723), or view the website at www.florida529plans.com/Prepaid/Contract/mascov.html.

- **Military Tuition Assistance**

Active duty military persons may qualify to use the tuition assistance program. Tuition does not include the cost of textbooks or administrative fees. If a student plans to use tuition assistance, the student must complete the required application at the military education services office prior to registration and submit the completed Authorization for Tuition Assistance to the University. For questions or further information, contact the Base Education Office.

- **State Programs**

The most common state programs utilized at Troy University are listed below. For reference of a program not listed, please contact the Troy University Office of Financial Aid.

- AL Rehabilitation
- OCAP
- WIA/Job Training
- AL Industry Training TRA/Job Training

VA Pending Payment Compliance

In accordance with Title 38 US Code § 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 VA Educational Benefits (Ch. 33) or Vocational Rehabilitation & Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. This school will not:

- Prevent the student's enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution

However, to qualify for this provision, such students will be required to:

- Provide the enrolling institution with a copy of his/her VA Certification of Eligibility (COE)
- A "certificate of eligibility" can also include a "Statement of Benefits" obtained from the U.S. Department of Veterans Affairs' (VA) website; ebenefits; or a VAF 28-1905 form, for chapter 31 authorization purposes.

TROY UNIVERSITY FOUNDATION SCHOLARSHIPS & LOANS

TROY CAMPUS

Programs

The Troy University Foundation provides stewardship for a number of scholarships and loan funds established through the generosity of private donors to assist students who are enrolling in/are enrolled at Troy University in furthering their education.

Nature of the Awards

Each foundation scholarship or loan is awarded according to its own unique requirements. Brief descriptions of each scholarship or loan are listed below. Leonard Y. Trapp Memorial Fund was established by Mrs. Leonard Y. Trapp in memory of her husband, a history professor at TSU for over 40 years who participated in the preparation of innumerable teachers during his long tenure. An award is presented each spring term to a senior who shows exceptional potential as a future teacher of the social sciences.

Bernard E. Williams Award was established by Mr. and Mrs. Frank B. (Red) Williams in honor of Mr. Williams' father who had a great love for the English language and literature. An award is presented each year to an outstanding graduating senior who majored in English.

PRIZES (Current)

Alpha Phi Sigma Distinguished Honors Graduate Prize is annually awarded to an outstanding graduating senior studying criminal justice. The prize is awarded on the basis of grade point average and participation in criminal justice program activities, university life and volunteer work. The prize was established in 1992 and is maintained by Dr. Charles L. Jones, former chair of the Department of Criminal Justice at TSU, member and co-founder of the Tau Sigma Upsilon Chapter at TSU and professor emeritus of criminal justice.

Psi Chi Award was established by Dr. Anna Smith, a faculty member in the Department of Psychology, to honor the outstanding graduating senior in psychology.

ACADEMIC AND LEADERSHIP SCHOLARSHIP PROGRAMS

Purpose

Troy University scholarships are designated to recognize high school and community college students who have excelled in academic and/or leadership capacities. These scholarships are awarded solely on merit. All students who have achieved scholastic or leadership recognition are urged to apply for the following as well as for applicable departmental scholarships. All Scholarship applications are available online at troy.academicworks.com.

Nature of the Awards

TROY-Troy scholarships are four-year awards for high school students and two-year awards for community college students. The University Scholarship Committee makes the selections. All awards are limited and competitive.

GENERAL STUDIES PROGRAM

A major portion of a student's first- and second-year studies is a common curriculum of courses called the General Studies Program. The General Studies Program is designed to provide a fundamental basis for lifelong learning and advanced studies. General studies courses may not be used in meeting requirements for both the General Studies Program and the requirements for a major or minor. Students are strongly encouraged to complete at least 36 hours of the General Studies Program before registering as a junior.

Requirements for the General Studies Program may change without notice. For transfer guides and complete information regarding the Statewide Transfer and Articulation Reporting System (STARS) and the Alabama Articulation and General Studies Committee (AGSC), please visit stars.troy.edu.

The student must complete a six hour sequence in Literature or History. This sequence must be within the same content areas for the selected discipline (i.e., six hours in American Literature or six hours in World History). This requirement may be met in Area II or Area IV. Some major programs specify this sequence. The student should consult the listing of specialized general studies requirements for the selected major.

Some programs, majors or minors may have specialized general studies requirements. Consult the descriptions of these programs in this Catalog for information about specialized general studies requirements. For further information, the student should contact the academic advisor.

SPECIALIZED CURRICULA

UNIVERSITY HONORS PROGRAM

The University Honors Program, open to students in all undergraduate divisions of the university, is administered by the Honors Council and the director of university honors. Minimum requirement for acceptance into the program is a composite score of 26 on the ACT (or ACT residual) or an 1250 on the SAT. The student must maintain a cumulative grade point average of 3.25 or higher to be inducted into the program in the spring of their freshman year. All interested in the University Honors Program must send an application to Dr. Fulmer's office in room 117 of Eldridge Hall. Students must maintain a 3.25 to graduate as a University Honors Scholar.

The University Honors Program is open to all students, including those attending Troy University on international student visas. For more information and guidance, please contact the Associate Provost and Dean of First Year Studies, Dr. Hal Fulmer, in 117 Eldridge or by phone at 334-670-5747.

The purpose of the University Honors Program is to offer academically superior students an engaged and interactive Honors experience, rather than a static Honors curriculum. Students will have a flexible general studies program that will be designed to meet their personal interests. The University Honors Program is designed to allow students to engage in activities that will make them more marketable when working in their chosen profession.

The Honors Program also has an honors house on campus which houses both male and female students. Students should consult with the director of the University Honors Program and the director of University Housing for availabilities and stipulations. The house serves as a residence and a focal point for meetings and activities with the Honors Alliance, faculty and staff in the Honors Program.

The official student voice within the program is the University Honors Alliance. Membership to the University Honors Alliance is offered to any student with a 3.25 grade point average or higher. There is an annual membership fee as well.

University Honors Program Requirements

I. HON 1101 & HON 4400

Students inducted into the Honors Program will take HON 1101 in the Spring of their Freshman year. This class does not replace TROY 1101, which all Freshmen students must take in the Fall semester. Students will need to have approval from their adviser before registering for this class. Students are also required to take HON 4400 in their senior year. This class can be replaced by LDR 4400 if there is no availability.

II. University Involvement

Honors students are expected to be involved in at least one of three University affairs: Completion of significant service work through the John. W. Schmidt Center for Student Success or another non-profit organization, a study abroad program offered throughout the year, and/or be a member of a faculty-led research group.

III. Thesis

At the end of their time at Troy University, Honors students must create a thesis that will examine a specific topic of interest. This does not have to be in written form, but can be created in a way that suits a student's area of study. These theses will be presented publicly.

ENGLISH AS A SECOND LANGUAGE PROGRAM

Troy University's English as a Second Language program offers intensive English language instruction for non-native speakers. This program addresses the needs of students who plan to pursue further university study in the United States or who wish to sharpen their language skills for personal or professional reasons. In addition to improving listening, speaking, reading, and writing abilities, ESL classes also increase students' understanding of American culture and university life. Up to six credits of level VI and/or VI+ courses can be used to fulfill the free elective course requirement towards an undergraduate degree, pending evidence of proficiency. For further information contact the Director of the ESL Program on the Troy Campus.

The ESL program is available on the Troy Campus. For more information, see the Academic Regulations section of this catalog. For information about the terms of instruction, contact the Center for International Programs at (334) 670-3335.

English as a Second Language (ESL) courses are described in the course descriptions chapter of this catalog.

Troy University offers students who have finished ESL clas-

ses at mid-term, but cannot register for academic classes due to unavailability or scheduling issues, an option to take VI-Plus classes. Academic students who need more English practice may also take the VI-Plus classes. You must have completed all six levels in ESL (I-VI) or have passed the TOEFL or IELTS to qualify for VI-Plus classes.

These classes are grade bearing and are calculated in the student's grade point average (GPA). These classes follow the University's policy of assignment of an FA (Failure to attend) designation for enrolling, but not attending, the classes. Student grades for these classes are included on the Troy University academic transcript as non-credit courses. Students may request a review of these classes via a University *Course Substitution* form available through the ESL Director's office. Following the University's review process, it may be possible to use a total of six academic hours from the Level VI and Level VI-Plus courses as **academic credits**. These hours will be transcribed as general unrestricted electives for the student and can be used as part of the student's overall degree requirement of at least 120 hours needed for graduation.

EXPERIENTIAL LEARNING CREDIT

CROSS DISCIPLINE COURSES (CDC)

3301 Portfolio Development (2)

This is a course in the preparation of an educational portfolio, a formal file or folder of information compiled by students on learning acquired through specific past experiences and accomplishments. Students are required to prepare a portfolio under the guidance of the instructor. The course is required of all students prior to submission of a portfolio to the university for evaluation for experiential credit.

Experiential Learning Assessment (ELA) Credit

Experiential learning assessment (ELA) is a process used by Troy University to evaluate prior college-equivalent learning attained by students outside the classroom and not transferable through any of the standard methods of accepting non-traditional credit. Each student prepares a portfolio that is a carefully organized folder documenting learning outcomes (not learning activities) for the purpose of earning credit for a specific college course or courses. The procedure for students interested in requesting assessment of prior experiential learning is as follows:

- a. The student enrolls in CDC 3301 Portfolio Development for two semester hours of credit. A student may enroll in CDC 3301 only once and should plan to develop all materials for receiving academic credit for experiential learning from this one-time enrollment. The instructor for this course:
 1. Provides an overview of the experiential learning assessment program,
 2. Assists in determining whether or not prior learning is appropriate or adequate to request academic credit,
 3. Provides the guidance necessary to prepare an educational portfolio, and
 4. Evaluates the portfolio to determine if the content is

sufficient to approve submission for faculty assessment.

NOTE: No more than 25 percent of the degree may be earned by using experiential learning assessment credit or portfolio-based credit. Academic credit earned through experiential learning will not count toward the University's residency requirement.

- b. The student prepares the portfolio, which includes
 1. A statement of the student's educational goals;
 2. A chronological record, with external documentation, of the student's education and work experiences;
 3. A clear statement of the specific knowledge and skills not learned in college for which the student desires to receive academic credit;
 4. Information that links the specific knowledge and skills to the student's goals and educational degree program;
 5. Information that links the specific knowledge and skills of the student to specific learning outcomes of the specific courses for which the student wants to receive equivalent academic credit; and
 6. Documented evidence that substantiates the student's claim to learning.
- c. Faculty assessment.

Once the portfolio is submitted to the faculty for evaluation, the faculty member uses several methods of assessment, which include product assessment such as an original computer program, interviews, oral or written examinations, simulations, performance tests, and/or essays. The faculty member makes a recommendation to award or not award the hours of credit. This recommendation is made to the dean of the college for which equivalent academic credit will be awarded for experiential learning activities and to the associate provost/dean of under-

graduate studies for final approval and confirmation of awarded credit to the university registrar.

d. Fee Payment

The tuition and/or fees for CDC 3301 is charged whether or not experiential credit is earned. In addition to tuition charges, a per hour charge for credit awarded is also charged to the student's account.

e. Credit is then posted to the student's transcript by the University Registrar.

PRE-PROFESSIONAL CAREERS

Students who are interested in preparing for careers in the professions will find many such opportunities at Troy University. Considered among the best available, Troy's pre-professional programs feature small classes, special academic advisers, free tutors, exceptional laboratory facilities and an outstanding and well qualified faculty.

Pre-law

Admission to accredited professional schools of law requires from three to four years of college preparatory work with preference given to applicants with the bachelor's degree. Law schools generally do not prescribe a particular major or course of undergraduate study as a prerequisite for admission. All such schools emphasize the important of excellence in whichever course of study is pursued. For students planning to enter the profession of law, it is recommended that a student pursue a bachelor's degree giving emphasis to such fields as English, history, political science, criminal justice, social science, speech communication or business. Troy University offers an Accelerated Law Curriculum (3 year option) for interested students. Students will complete the requirements for the Social Science major—General Science concentration by the end of their third year of study. Students may then apply to a partnered institution's law school program. After 30 semester hours of law courses outlined by the partnered institution, students may be awarded a Bachelor of Science in Social Science with a minor in Legal Studies and have completed one year of Law School. Students applying for early admission must meet the requirements set forth by the partnered Law School program. For individualized advice about courses appropriate for law school, students may consult with the advisers for the Pre-Law Society.

Pre-engineering

Program requirements among the professional schools of engineering vary, although certain courses are common to most

such schools, particularly during the first two years' work. Students may complete selected course work at Troy University within their first 1-2 years of study before transferring to a professional school. The choice of the professional school and the particular field of engineering will determine the required course work and the most appropriate time for transfer. Students who are interested in pursuing this route to a professional engineering degree should meet with their assigned pre-engineering academic advisers prior to registration each term.

Pre-health Professions

Courses required for admission to these professional schools are available at Troy University. Admission to these schools is highly competitive. Troy University recommends that students who plan a career in healthcare such as medicine, dentistry, optometry, pharmacy, chiropractic medicine, veterinary medicine, or osteopathic medicine follow a program which leads to the bachelor of science or bachelor of arts degree. Although professional schools require many common courses, they differ slightly for a small number of specialized courses. For this reason, students should consult with their pre-health advisors to identify these courses.

Pre-veterinary Medicine

Programs leading to the doctor of veterinary medicine degree normally require four years of preparatory college work and four years in the professional school. Four years of the preparatory work may be taken at Troy University.

Pre-agriculture and Forestry

Students who plan to follow courses of study leading to degrees in agricultural engineering, animal or poultry husbandry, dairying, farm management, horticulture, wildlife, agriculture education, or forestry may complete as much as the first year's

work at Troy. Certain courses required during the second year also are offered, but before continuing into the second year, the student should carefully examine the requirements of the professional school selected.

Other Pre-professional Career Paths

Troy University also provides appropriate courses of study for a number of other professional and vocational fields, including pharmacy, home economics, land surveying, physical therapy, public administration, seminary training, etc. These programs require general preparation (as required for the bachelor's degree) as a prerequisite for admission to the professional or graduate school.

COLLEGE OF ARTS AND SCIENCES

The College of Arts and Sciences is a diverse community of educators, students, and researchers from across the country and around the world who work together to advance the boundaries of human knowledge, foster critical thinking skills, promote intellectual inquiry, and develop an understanding of different human cultures necessary to become engaged global citizens.

These goals compel a commitment to creativity and inquiry free of bias and based upon the principles of objective scholarship. They require a responsibility to promote and convey those elements of the liberal arts and sciences that must be essential components of the educational goals of all units of the university. The college seeks richness through diversity of its programs and strength through erudition.

The College of Arts & Sciences is the university's largest and oldest; it teaches the most students, and provides the backbone for Troy University's educational and research missions. As a result, you will find a broad array of academic programs that will pre-

pare you for careers in public and private sectors as well as post-graduate and professional schools. These programs emphasize the core values of a classic liberal arts education, as well as the skills and flexibility one will need to meet the challenges of the 21st-century workplace.

A degree from the College of Arts & Sciences is much more than preparation for a career—it is preparation for a complete, rich, and rewarding life.

In addition to general studies courses, major courses and minor courses, sufficient free electives should be chosen to total at least 120 hours.

As part of ongoing planning and evaluation, the College of Arts and Sciences regularly evaluates student learning outcomes for each degree program.

COLLEGE OF ARTS & SCIENCES GLOBAL SCHOLARS PROGRAM (TROY CAMPUS)

The College of Arts & Sciences (CAS) Global Scholar Program is open to any student in the College of Arts & Sciences, regardless of major, at the Troy Campus who would like to develop their international awareness and global preparedness through a rigorous program involving directed coursework, international travel, service learning, and close relationships with advisors. Each cohort will be limited to 25 students. Program benefits include:

- Designation of Global Scholar appearing both on student diplomas and transcripts attesting to the graduate's international awareness and global preparedness.
- Meaningful international travel experience for the purpose of professional development in the student's chosen field of study. (Most students will qualify for generous supplemental funding for international travel.)
- Regular interaction with international students on campus at Troy University.
- Resume and character-building service learning opportunities in cultural and international contexts.
- Strong relationships with mentors here at Troy University, which will produce highly trained graduates with the connections needed to compete for jobs and funded graduate programs.

Students who complete 12 credit hours of language, which is an optional part of this program, will be able to graduate with a Bachelor of Arts (BA) degree, rather than a Bachelor of Science (BS) degree if so desired. Students interested in service abroad after college are encouraged to inquire about Troy University's Peace Corp Prep Program, which can be completed as part of the CAS Global Scholar Program.

Additional information and a link to the application form can be found on the program website at <https://www.troy.edu/casglobalscholars>.

Requirement 1 - Directed Coursework (18-36 credit hours)

Aimed at international awareness and global preparedness selected from the following three categories. Classes that fulfill this requirement can also be used to satisfy BA language requirements and one of the following categories of classes: general studies requirements, major requirements, minor requirements, or free elective requirements. Global Scholars are expected to maintain good academic standing in their program, major, and minor. Student's whose GPA falls below 2.75 will be required to meet with the CAS Global Scholar Program Director

for academic counseling.

Option 2– 18 Hours

Transfer of ***Specialized technical courses**. (not to exceed 18 semester hours.)

***Specialized technical courses.**

Credit will be awarded for specialized technical knowledge based upon American Council of Education (A.C.E.) credit recommendations or transfer work from regionally accredited (Southern Association of Colleges and Schools, Middle States Association of Colleges and Schools, etc.) post- secondary community college, or technical schools as approved by the Academic Council. Specializations are not available in fields of study that are offered through Troy University as majors, programs, or minors, e.g., nursing, computer science, information systems, or education. Exceptions to the use of a Troy University minor are the programs in Aviation Operations and Advanced Professional Flight. Program requirements for either minor may be used to satisfy the 18 hours of specialized technical courses.

Eligibility

Eligibility for enrollment in one of the applied science degree programs is dependent upon prior education and/or experience. Before enrollment in one of the programs, official documentation of prior learning must be submitted to determine eligibility. All post-secondary technical school transfer students must complete all courses required in the institution's curriculum and earn (if appropriate) a diploma or certificate before being granted admission into the resources management degree program. No additional credit will be awarded for the possession of a license (i.e., all credit awarded is based on documentation of training and evaluation leading to the issue of a license, not the mere possession of a license). All credit from the Community College

of the Air Force (CCAF), accredited post secondary technical schools, and/or American Council on Education (ACE) recommendations will be considered junior college credit except where specifically recommended by ACE for upper-division credit. No credit will be awarded until six semester hours of academic credit has been earned at Troy University. At least 50 percent of the degree program must be traditional academic credit at the 3300/4400 level. Curriculum: The academic curricula taught by the university have been developed to supplement, not duplicate, the vocational/technical training or other experiential learning the individual may possess in a manner designed to provide these individuals greater career opportunities.

BIOLOGY EDUCATION

Students seeking Alabama teacher certification should select biology as a first major and education as a second major. Students should consult with their advisers concerning all certification requirements.

BIOLOGY MAJOR (44 HOURS)

*Special Topics in Biology (BIO 4476), Guided Independent Studies (BIO 4491/4492) and Guided Independent Research (BIO 4493, 4494) may only be taken for a maximum of 6 semester hours.

Specialized General Studies Requirements

General studies requirements for the biology, environmental science, biomedical sciences, and marine biology programs and the biology major total 64 semester hours. See the General Studies section of this catalog for complete general studies information.

SORRELL COLLEGE OF BUSINESS

MISSION STATEMENT

The Sorrell College of Business (SCOB) prepares a diverse student body, drawn primarily from Alabama and surrounding states, to become successful, ethical and engaged business professionals with the knowledge to compete in the global business environment.

To achieve this our faculty, staff, and administration will:

Provide quality undergraduate and graduate education in global business through high-quality **teaching**;

Serve the university and **engage** with business and professional communities in our primary service area through individual involvement and our centers for research and outreach;

Grow and enhance the longstanding “culture of **caring**” for our traditional, nontraditional, military, and international students; and

Contribute to the creation of knowledge, with a focus on the **scholarship** of application and integration, and teaching and learning, complemented by basic and discovery scholarship in select disciplines.

Degree Programs

The Sorrell College of Business offers two undergraduate degrees, the Bachelor of Science in Business Administration (B.S.B.A.) and the Bachelor of Science in Hospitality, Sport and Tourism Management.

Within the B.S.B.A., students select a major from degree programs in Global Business, Accounting, or Economics. Global Business majors select one of a wide range of concentrations designed to prepare graduates for careers in a variety of business fields: Accounting and Finance, Data Analytics, General Business, Human Resource Management, Information Systems, Management, Marketing, and Risk Management Insurance, or specified Interdisciplinary concentrations. Students majoring in Economics select a concentration in either General Economics or Financial Economics.

The B.S.B.A. degree programs are offered through the School of Accountancy; the Department of Economics and Finance; the Department of Management and HRM; the Department of Marketing and Business Law; and the Department of Risk Management and Data Analytics.

The B.S. in Hospitality, Sport and Tourism Management is offered through the School of Hospitality, Sport and Tourism Management. The mission of the School of Hospitality, Sport, and Tourism Management is to prepare students to become future leaders and scholars in hospitality, sport and tourism management by providing exemplary integrative and experiential academic preparation in a collaborative environment, to conduct seminal and applied research that impacts the hospitality, sport, and tourism industries on a local, national, and global level, and to provide professional and community service.

The total experience within the School of Hospitality, Sport and Tourism Management facilitates students to have an exceptional fundamental education, engagement in service learning experiences, exposure to working professionals, and career preparation through internships. As a result, students are provided a competitive advantage in a job market that is projected to see continual growth.

The School of Hospitality, Sport and Tourism Management prepares students for a variety of positions in the hospitality, sport and tourism industries. The goal of the faculty and School is to create an integrated academic learning environment for analyzing and resolving the challenges in the deliverance and business of hospitality, sport and tourism. The faculty and staff are committed to providing support for student achievement. Students can enter the hospitality, sport and tourism industries with exceptional knowledge, professional preparation, and the confidence to assume leadership positions.

TROY UNIVERSITY SCOB VISION STATEMENT

The Sorrell College of Business strives to be a renowned teaching-focused business college graduating GEEKS ready to succeed in business and life.

ACCREDITATION

The Bachelor of Science in Business Administration (B.S.B.A.) programs in Global Business, Accounting, and Economics offered in the Sorrell College of Business are accredited by AACSB International—The Association to Advance Collegiate Schools in Business. In addition, the undergraduate accounting program housed in the School of Accountancy carries supplemental AACSB accounting accreditation.

The Bachelor of Science in Hospitality, Sport, and Tourism Management (Sport Management concentration) offered in the School of Hospitality, Sport, and Tourism Management is separately accredited by the Commission on Sport Management Accreditation (COSMA).

The School of Hospitality, Sport and Tourism Management offers three undergraduate concentrations: (1) Hospitality Management, (2) Sport Management, and (3) Tourism Management. The focus of the undergraduate program is to provide a comprehensive educational experience and to train students for entry into the sport management, leisure services, and/or tourism and hospitality occupations at the professional level.

Hospitality Management is the study of all people, activities, businesses, and/or organizations involved in providing service to support the restaurant, accommodation and/or event industries. Students graduating with a concentration in hospitality are prepared for careers in hotels, restaurants, resorts, conference centers, event management, casinos, retail, club management, entertainment, and other hospitality-related businesses.

Sport Management is the “study and practice of all people, activities, businesses, or organizations involved in producing, facilitating, promoting, or organizing any sport-related business or product” (Pitts and Stotlar, 2007). Students graduating with a concentration in sport are prepared for careers in interscholastic, intercollegiate, professional, and recreational sport as well as careers in event management, retail, sales, and other sport-related business.

Tourism Management is the study of all people, activities, businesses, organizations, and destinations involved in providing products and services to individuals traveling to and staying in places outside their usual environment for leisure and/or business. Students graduating with a concentration in tourism are prepared for careers in convention and visitors’ bureaus, resorts, destination marketing organizations, government tourism departments, conference centers, event management, theme parks, historic sites, nature-based tourism and other tourism-related businesses.

**BACHELOR OF SCIENCE IN BUSINESS
ADMINISTRATION (B.S.B.A.)
DEGREE REQUIREMENTS**

This section outlines the degree requirements for all B.S.B.A. students in all majors and concentrations. Specialized program requirements for each of the majors and concentrations within the B.S.B.A. degree are listed in separate sections on the following pages. Students need to consult both this section and the section for their major/concentration when planning their course of study.

For more information on general requirements for all Troy University baccalaureate degrees, see the index listings for baccalaureate degree parameters, general studies, and academic regulations.

General Studies Program: Specialized Requirements

All students are required to complete the Troy University General Studies Program requirements (see the index listing for general studies for more information). The B.S.B.A. requires the selection of certain courses within the General Studies Program:

Area III: MTH 1112 or MTH 1125

Area IV: ECO 2251 and ECO 2252

For all other General Studies requirements, students may select from courses approved within the General Studies Program. *Note that ECO 2251, ECO 2252, and IS 2241 (required under Area V of the General Studies Program) are classified as lower-level business courses — see the GPA and Grade Requirements: Lower-level Business Program for more information.*

GPA and Grade Requirements: General Studies Program

Students must complete MTH 1112, ENG 1101, and ENG 1102 (or their equivalents) with a grade of “C” or higher in each course. Students will not be permitted to register for upper-level business courses until this requirement is met.

Students are allowed a maximum of three attempts at completing each of these courses with a grade of “C” or higher.

Lower-level Business Program

All B.S.B.A. students must complete a 65-hour program consisting of the General Studies Program and the Lower Business Core, including MGT 3300 and MKT 3300 (all courses above 3300 are considered upper-level courses). In addition, Troy campus students will begin their Professional Development and Engagement course series (see below). Students nearing the completion of the initial 65 hours should consult their academic advisors for guidance on the transition to upper-level courses upon meeting the lower-level business program requirements.

Lower-level Business Program (18 Hours)

ACT 2291	(3)	Principles of Accounting I
ACT 2292	(3)	Principles of Accounting II
LAW 2221	(3)	Legal Environment and Business
MGT 3300	(3)	Principles of Management
MKT 3300	(3)	Principles of Marketing
QM 2241	(3)	Business Statistics and Data Analytics

Professional Development and Engagement (3 Hours)

BUS 1110	(1)	Orientation to Sorrell College of Business
BUS 2220	(1)	Business Writing
BUS 3330	(1)	Professional Development

GPA and Grade Requirements: Lower-level Business Program

Students must complete this 65-hour program with a 2.0 GPA (2.3 GPA for accounting majors) before they will be permitted to register for upper-level business courses. In addition, students

must have a 2.0 average across all of the lower-level business courses in the General Studies Program and Lower Business Core before being permitted to register for upper-level business courses. The lower-level business courses are ACT 2291, ACT 2292, ECO 2251, ECO 2252, IS 2241, LAW 2221, MGT 3300, MKT 3300, and QM 2241.

Transition to Upper-level Courses

Once the above requirements are met, students will be admitted to the upper level and may begin registering for upper-level business courses. However, in some cases, students in their last semester or term of completing the 65 hour lower-level business program will have too few lower-level courses remaining to maintain full-time student status. In such cases, so long as all other requirements above are met, a student may begin taking upper-level courses approved as “bridge” courses. Note that the 65 hour lower-level business program must be completed in the same term or semester as bridge courses are begun—no lower-level courses may be postponed or substituted for bridge courses. Students in a bridge semester or term must register for all remaining lower-level courses and may then add upper-level bridge courses to complete a usual course load (typically up to 18 credit hours). Students whose schedules necessitate a bridge semester should consult their academic advisors for a current list of approved bridge courses. Students who fail to complete their Lower Business Core and/or General Studies during the bridge semester/term will be restricted to a maximum of 12 hours in subsequent semesters until these requirements are met.

Upper-level Business Courses and Upper Business Core

Upon completion of the 65 hour lower-level business program as outlined above, students will be permitted to register for upper-level business courses. The upper-level courses may generally be taken in any sequence unless otherwise specified.

Upper Business Core (16 Hours)

BUS 3310	(1)	Intermediate Excel
FIN 3331	(3)	Managerial Finance
IS 3310	(3)	Introduction to Information Systems and Data Analytics
QM 3345	(3)	Operations Management
BUS 4474	(3)	Business and Society *
BUS 4476	(3)	Strategic Management **

* Requires Senior Standing

** Capstone—must take in last semester

Major and Concentration Courses

Additional upper-level courses are to be selected based on the requirements for a student’s selected major and/or concentration. See program requirements for each major/concentration on the following pages.

GPA and Grade Requirements: Upper-level Business Courses

B.S.B.A. students must achieve a 2.0 average in the Business Core. The Business Core GPA calculation includes courses in the Lower Business Core, Professional Development and Engagement requirement, and Upper Business Core. Students must pass the capstone course, BUS 4476, with a grade of “C” or better. In addition, students must achieve a 2.0 average within their business major. **Business students are allowed a maximum of three attempts at completing any business course with passing grade (A “D” is a passing grade unless otherwise specified).** Failure to do so will result in being dropped from that major and/or concentration.

Accounting Program

In addition to the GPA and grade requirements for all B.S.B.A. students, Accounting majors must earn a grade of “C” or

better in all accounting courses (prefix ACT). Students are allowed a maximum of three attempts at completing each of these courses with a grade of “C” or higher; if they fail to achieve a “C” or better after three attempts, they will be dropped from the Accounting Program. However, Accounting majors may elect another business major as long as they meet the other requirements for being in the business program.

Residency and Non-Business Majors

The business administration core and major each require a minimum of 12 hours of Troy University residence credit. Non-Business majors in upper-level Business Courses (above 3300) must be in a declared business minor, in a contract minor, be a bona fide transient student who has completed at least 60 hours, and have a GPA of 2.0 or higher. These students may contact the senior Associate Dean’s Office in order to register for business courses above 3300.

Transfer Students and Transfer Credit

A minimum of 31 credit hours in business courses within the B.S.B.A. program must be completed at Troy University. Credits transferred for general studies courses taught by the Sorrell College of Business (e.g., ECO 2251, ECO 2252, and IS 2241) do **not** count toward this 31 hour minimum.

Transfer credit for any course in the B.S.B.A. business core or major/concentration will only be approved for courses in which the student earned a grade of “C” or higher.

No transfer credit will be approved for any course in which programmatic assessments are conducted. Credits not transferred for this reason may be considered for Sorrell College elective courses.

Transfer credits for upper-level courses are permitted only from AACSB accredited schools or upon approval of the Dean of the Sorrell College of Business. Credits at the 1000 or 2000 level generally do not transfer for 3000 level courses, with the exception of MGT 3300 and MKT 3300. Credits at the 1000 and 2000 level from AACSB accredited schools may be considered for transfer for upper-level courses on a case-by-case basis. In all cases, the Dean of the College will make the final decision concerning transfer credit allowable within the curricula.

COLLEGE OF COMMUNICATION AND FINE ARTS

The College of Communication and Fine Arts is comprised of six units: the Hall School of Journalism and Communication, the John M. Long School of Music, the Department of Art and Design, the Department of Theatre and Dance, the Department of English and the Department of World Languages and Classics. The mission of the college is to provide excellence in instruction in selected communication and fine arts disciplines along with practical experiences in communication and journalism, theatre, dance, music, visual arts, graphic design, English and foreign languages.

The college assumes that the richest experiences of human beings arise from their abilities to analyze and interpret intelligently and imaginatively works of art and performances as well as the rhetoric and actions of past and present leaders; to communicate effectively within a variety of contexts using the multiple languages and tools of the communication and fine arts disciplines; to make intelligent decisions in an increasingly complex and diverse, media-driven society; and to work together harmoniously in groups to accomplish established goals.

GRAPHIC DESIGN MAJOR (41 HOURS)

Students must earn a grade of "C" or better in all courses in their major. Under no condition may a student enroll in a 4000-level course in their major without the satisfactory completion of the lower-level courses.

--Advertising Writing

The mission of the College of Communication and Fine Arts is to provide opportunities for students to become independent learners capable of making intelligent choices based on a value system. The College of Communication and Fine Arts focuses on excellence in academic performance, enhancement of student lives and preparation for careers in an ever-changing world. Troy University's College of Communication and Fine Arts is a primary provider of cultural events benefiting the citizens of Troy, Pike County, the region, and the state. Accordingly, the college offers such fine arts events as art exhibits; symphony band, jazz band, and choral concerts; and theatrical performances.

In addition, the college offers a variety of lectures, workshops, master classes, ensemble opportunities and camps for middle school, high school and college students throughout the state in art, theatre, dance, music and journalism. CCFA maintains strong community partnerships with the City of Troy, Johnson Cultural Arts Center, Troy Arts Council and the Wiregrass Museum of Art.

COLLEGE OF EDUCATION

The mission of Troy University's College of Education is to prepare outstanding educators, who are equipped and prepared with the knowledge, pedagogical skills and professional dispositions required to improve the learning opportunities of those they teach. We also train and provide clinical specialization for counselors, ASL interpreters, rehabilitation professionals, and others seeking academic degrees housed within the College of Education. Successful program completers are to be informed, innovative, reflective, globally minded and effective practitioners and professionals who stand apart from others in the professional job market due to the excellence and specialized accreditations held by many programs.

All certification programs are approved by the Alabama State

Board of Education. Our professional educator programs are nationally accredited by the Council for the Accreditation of Educator Preparation (CAEP), CAEP is recognized by the U.S. Department of Education and the Council for Higher Education Accreditation to accredit programs for the preparation of teachers and other school professionals.

The College of Education is committed to preparing professionals who will be prepared to meet the needs of the next decade. As part of ongoing planning and evaluation, the College of Education regularly evaluates student learning outcomes for each degree program.

REHABILITATION AND DISABILITY STUDIES

The purpose of the undergraduate rehabilitation and disabilities studies major is twofold: (1) to prepare graduates for entry level professional rehabilitation positions both in the public and private sectors, and (2) to prepare students for graduate education in general and, in particular, graduate education in rehabilitation. The curriculum is built upon a strong liberal arts base designed to provide the student with an understanding of human behavior within the context of the social environment; an understanding of social service resources and social policy planning and analysis particularly as related to client systems served by rehabilitation professionals; understanding and skills

needed to become a consumer of practice research and an ability to evaluate one's own practice effectiveness; an understanding of rehabilitation theory and issues; skills in the assessment of disability; basic skills in effective communication with client systems; skills in the use of vocational information systems; the development of intervention strategies in human problems; and the development of skills to support action programs for client populations with disabilities. A field practicum is required (minimum of 240 clock hours).

OCCUPATIONAL EDUCATION PROGRAM (BSOE)

The Bachelor of Science Degree in Occupational Education combines theory with experience to prepare students as workforce development professionals in a variety of settings and occupations. Students qualify for the program based upon completion or possession of an Associates' Degree from an accredited college or university.

Specialized General Studies Requirements

General Studies courses should meet the Troy University General Studies Program guidelines.

Admission Requirements to the BSOE Program

To apply for admission to the BSOE program, applicants must submit:

1. Completed Application for Admission,
2. Official transcript(s) from all colleges and universities attended,
3. Evidence of an Associates' Degree from a regionally accredited college*, or Associate of Applied Science Degree

*Any awarded Associates Degree must include coursework commensurate with the Troy University General Studies Program.

** Credentialed Work-Related Experience (30 Hours) – Troy University recognizes that individuals working in various occupations have garnered hundreds, perhaps thousands of hours of experience to become highly proficient in a particular area. Further, these individuals earn certifications, licenses, or some sort of credential indicating expertise. Troy University will provide academic credit for those hard-earned credentials. Individuals in the BSOE program can earn up to 30 hours *in one of two ways*:

1. **National, state, military, or professional credentials that are widely recognized in the field as indicating currency and competency in work related abilities. These credentials will be scrutinized by TROY for authenticity, rigor, and occupational regard. Examples of acceptable credentials would include:**
 - National Inspection Testing and Certification Corporation (NITC) certification
 - ANSI/NETA ETT *Standard for Certification of Electrical Testing Technicians*
 - Certified Information Systems Security Specialist (CISSP)
 - A+ Certification
 - Security + Certification
 - Community College of the Air Force credentials
 - USAF Air University credentials
 - Air Force Credentialing Opportunities Online (COOL)
 - American Council on Education Credit (A.C.E.)

After review, TROY will award appropriate credit up to 30 hours. Should the award fall below 30 hours, TROY will recommend subsequent action to reach the 30-hour

requirement. (Example: enrollment in a specified program of study at a community college to earn credit in related skill areas.)

2. A detailed Work-Related Portfolio Assessment that must be completed before registering for the Professional Core. This portfolio will be assembled by potential students for evaluation by Troy University. In turn, TROY will determine appropriate academic credit (hours) and recommend any additional credentials needed to earn the full 30 hours required.

Troy University recognizes that some students may have acquired knowledge and skills through life experiences, but may not have recognized credentials indicating currency and/or competency in those skills. The **Work-Related Portfolio Assessment** allows students the opportunity to have life/work related experiences evaluated as educational experiences and credited toward the BSOE Area 2: Work Related Experience. This portfolio is a collection of materials which represent a student's life experience in a certain subject area or skill. It will be assembled by potential students for evaluation by Troy University. In turn, TROY will determine academic credit (hours) and recommend any additional credentials needed to earn the full 30 hours required.

Portfolio contents include:

Cover Letter (Required): A cover letter briefly summarizes and clarifies the life experiences, work related activities, and credential for which credit is requested. This letter can include:

- Community service
- Correspondence courses
- Employment
- Learning through technology
- Non-credit experience
- Certificates, licenses, awards
- Travel

Resume (Required): A more in-depth description of the applicant's personal history such as education, employment, experiences, awards, etc.

Job description(s): Detailed descriptions of past employment commensurate with skills/ability claimed. This includes duties, responsibilities, length of employment, and any other details that would indicate work related experience.

Documents: Documents indicating proficiency levels in relevant areas of performance. This could include certificates, licenses, awards, supervisory ratings, commendations, and/or any other verification of skills.

Reflections: Written documentation of personal accomplishments and why the applicant feels their experiences merit academic credit.

Artifacts: Samples of work demonstrating applications of the concepts and principles in the skill being considered, such as engineering drawings, technical manuals, publications, video and/or audio tapes, and any other creations deemed appropriate, etc.

NOTE: Students submitting credentials or the portfolio are provisionally admitted. They will be permitted to begin Area 3 (the Professional Core) only after TROY has rendered a decision regarding credit award and additional credentials needed.

ADE 4410	(3)	Making Professional Education Communication (Student Counseling)
ADE 4420	(3)	History and Development of the Workforce
COM 2231	(3)	Interpersonal Communications

It is also recognized that many BSOE students may have already been in an occupational education environment and/or may have secured additional, related hours for courses similar to the Professional Core. To recognize and provide credit for these experiences, TROY will provide up to twelve (12) hours credit to the professional core in this manner:

1. **Transfer credit** for courses taken at another regionally accredited university with a grade of "B" or better. These courses must be comparable in catalog description to courses in the Professional Core and must be approved by the Dean of the College of Education.
2. **Prior Learning Assessment (PLA).** Students wishing to receive credit for the following courses must pass a course specific exam to receive credit for any one of these courses. These exams are developed by TROY faculty to assess a potential student's grasp of course content. Each course will have one exam that is proctored at an appropriate location.
 - ADE 3310: Teaching Adult Learners
 - ADE 3320: Assessing Adult Learners
 - ADE 3305: Teaching Adults with Technology

NOTE: Academic Regulation Requiring Residency. For Students seeking a bachelor's degree from TROY, 25% of the credit hours required for the degree must be completed in "residence" through TROY or TROYONLINE. Therefore, in some cases, students will not be granted transfer credit or PLA credit even if they qualify.

NOTE: Case Example – Student A, a welding instructor at ABC Community College, starts TROY with an associate's degree and registers for the BSOE degree. Student A also provides evidence of work related experience. Student A **MUST** take all ten, 3-hour course to satisfy TROY's 25% credit hour academic requirements.

PSYCHOLOGY

Psychology is the science concerned with the understanding of behavior and mental processes. A major in psychology provides students with (1) a useful foundation for further study at the graduate level, leading to various careers in psychology, or to study in the health professions and social work; (2) skills related to employment at the baccalaureate level for the pursuit of careers in mental health services, industry, human services or areas where the knowledge of behavior would be deemed beneficial; and (3) a sound preparation for describing, understanding, predicting, and controlling the events in their own lives. Students who obtain an advanced degree have a growing range of new opportunities for employment in medical settings, sports, business, the military, as well as private practice, university teaching, and research.

CERTIFICATION PROGRAMS**Teacher Certification**

Please see the list of certification programs offered at Troy University at the beginning of the College of Education (COE) section. All teacher education certification programs are approved by the Alabama State Department of Education. Students seeking teacher certification should refer to the specific program sections in the catalog for eligibility and program completion requirements. This information can be found on the COE website. Only those students who are properly admitted to an approved teacher certification program and complete all current requirements will be allowed to graduate.

Certification in Alabama

Candidates completing an approved teacher certification program are eligible to apply for the Alabama Class B initial professional certificate, provided they meet all of the following:

- A minimum grade point average of 2.75 on all undergraduate coursework, a 2.75 in the professional studies coursework, and 2.75 in the teaching field(s) coursework.
- A grade of C or better in all coursework in professional and teaching field which applies to certification; and
- Effective September 1, 2018, all teacher candidates seeking initial licensure in the state of Alabama must achieve a passing score, set by the Alabama State

Department of Education, on the Teacher Performance Assessment, edTPA.

Any candidate who applies for a professional certificate is subject to all regulations set forth by the Alabama State Department of Education, including a comprehensive background check that shall be completed and cleared prior to observations in P-12 settings. Additional requirements (e.g., standardized examinations to demonstrate content mastery) may be added as the Alabama State Board of Education and other accrediting agencies modify regulations. Implementation of additional requirements may be mandated by the Alabama State Department of Education and could supersede a student's stated program requirements. Candidates should consult their education adviser for details.

Only candidates properly admitted to an approved certification program and who successfully fulfill all program and certification requirements will be recommended for certification. The Certification Officer, appointed by the dean of the College of Education, is the only Troy University official authorized to recommend candidates for certification in any state.

Fingerprinting Requirement

Effective no later than the beginning of Fall 2008 semester, any candidate applying for admission to a state-approved program shall be required to be fingerprinted for a criminal history background check through the Alabama State Department of Education to the Alabama Bureau of Investigation (ABI) and the Federal Bureau of Investigation (FBI) pursuant to Act 2002-457. Fingerprinting must be completed and cleared prior to conduction of observations in P-12 schools.

Certification in Other States

Other states may grant professional certification to candidates completing the Troy University teacher education program. Some states may have additional requirements. Candidates seeking certification in other states should contact the appropriate State Department of Education.

Only candidates properly admitted to an approved certification program and who successfully fulfill all program and certification requirements will be recommended for certification. The Certification Officer, appointed by the dean of the College of Education, is the only Troy University official authorized to recommend candidates for certification in any state.

Statement of Guarantee for New Educators

Candidates who are recommended by Troy University for Alabama state teacher certification shall be granted remediation at no cost if:

1. they are employed in their areas of specialization of the awarded certificate;
2. they receive less than satisfactory performance on the state approved evaluation instrument;
3. remediation is requested within two years of the valid date of the Professional Educator certificate, which was issued based on recommendation by the unit.

In no case shall the unit be required to provide remediation for more than the first two years of employment.

Exit Examinations

Students are required to successfully complete the required PRAXIS II tests associated with their major and successfully complete internship. Effective August 2018 students seeking certification in Alabama will be required to pass the state adopted performance assessment, edTPA. Contact your content major advisor for details.

Certification Only

Candidates who currently hold valid Alabama professional teacher certification may complete program requirements for recommendation of additional teaching fields. Transcripts and professional experience will be reviewed prior to beginning any coursework to determine eligibility. Candidates must successfully complete all aspects of each program in which certification is sought. Including course requirements, appropriate nationally normed tests, and internship.

Transfer Credit Allowances

At least 25% of the credit hours required for the degree must be earned in residence with Troy University. Transfer credit for professional education courses and teaching area courses which give consideration to pedagogical application is allowable only for courses taken at a regionally accredited institution in a state-approved teacher education/certification program. Other transfer credit is subject to approval.

General Studies Requirements

General studies courses cannot be used to meet requirements for both a major field and general studies. Some education majors have special general studies requirements. Consult your education adviser and the General Studies section of this catalog for details. Required major field courses are listed under the appropriate departmental listing in this catalog.

Admission to the Teacher Education Program (TEP)

Admission to Troy University does not qualify a student for admission to the Teacher Education Program. Candidates may only enroll in EDU 3310, EDU 3305 (or check-sheet approved discipline-specific technology course), EDU 4400 (or check-sheet approved discipline-specific classroom management course), SPE 3340 (or check-sheet approved discipline-specific diverse learners course), and EDU 3303 (or check-sheet approved discipline-specific education psychology/assessment course) prior to meeting all criteria for admission to the Teacher Education Program. Candidates must meet with their teaching field advisor for any restrictions regarding enrollment in teaching field courses prior to admission to TEP. Written application to the Teacher Education Program is required. Additional requirements include the following:

1. Completion of 48 semester hours or 80% of required General Studies courses including a grade of C or better in the two English composition courses and a grade of C or better in the required general studies mathematics course(s) for the teacher education major.
2. Early Childhood, Elementary, Collaborative Teacher K-6, and Collaborative Teacher 6-12 candidates must complete both MTH 1110 and MTH 1112 with a grade of C or better to satisfy the math requirement for admission to TEP.
3. Teacher candidates in the ELE K-6 and Collaborative/SPE K-6 must achieve a minimum passing score on the PRAXIS Multiple test (refer to ALSDE for current PRAXIS Test code) prior to admission to the Teacher Education Program.
4. A minimum grade point average of 2.75 overall, 2.75 in professional studies, and 2.75 in teaching field(s) is required. Students who fail to meet the required GPA may repeat courses. The university academic policy will be applied in calculating grade point averages. Each cohort admitted to TEP must have an average cumulative GPA of 3.0.
 - Cohorts admitted to TEP must have an average GPA of 3.0. Meeting minimum GPA requirements does not guarantee TEP admission.
5. Successful completion of an interview.
6. Completion of a minimum of 12 clock hours of classroom observation/participation.
7. Evidence of successful background and fingerprint clearance.
8. Evidence of current professional liability insurance at one million dollars of coverage.

The Professional Internship Program

The Professional Internship Program is the culminating clinical field-based experience for candidates seeking certification in a teaching field. The Professional Internship Program provides the candidate with the opportunity to conduct classes and assume the role of teacher while receiving supervision from a classroom teacher and a university supervisor. Candidates must attend a pre-internship meeting one year prior to the semester of projected internship. Instructions regarding qualifications and applications should be obtained from the Certification and Field Experience Office and submitted two semesters prior to the semester that the candidate plans to intern.

All candidates completing an initial certification program for teachers must complete a nine-semester-hour internship in the grade level(s) and academic subject(s) of the certification sought.

This is a full-time assignment for a full semester (approximately 600 clock hours) with placement in a regionally accredited school. Interns must enroll in the appropriate three-semester hour internship seminar course during the internship semester.

Prerequisites for internship include the following:

1. Admission to the Teacher Education Program (TEP).
2. A GPA of 2.75 overall on all coursework attempted.
3. A GPA of 2.75 in all professional studies coursework attempted.
4. A GPA of 2.75 in all teaching field coursework attempted.
5. Satisfactory disposition reviews.
6. Completion of all coursework except for Internship Seminar, which is taken in conjunction with internship.
7. Completion of all professional studies and teaching field courses with a grade of C or better.
8. Evidence of current First Aid and CPR certifications.
9. Students are required to successfully complete the required PRAXIS II Subject Assessments (content areas) associated with their major.
10. Evidence of current professional liability insurance.
11. Completion of any additional requirements mandated by the Alabama State Department of Education.

Undergraduate internship experiences must occur in the appropriate grade level(s) and subject(s) and are supervised by an approved certified classroom teacher. P-12 faculty shall provide regular and continuing support for interns through such processes as observation, conferencing, group discussion, email and the use of other technologies.

COLLEGE OF HEALTH AND HUMAN SERVICES

The College of Health and Human Services was formed in 1994 in order to provide quality education for professional practice in a variety of areas associated with health and human services. The college aspires to the highest standards of educational excellence, blending a professional perspective with a liberal arts and science foundation.

Within the College of Health and Human Services are the School of Nursing, the Department of Social Work Human Services, the Department of Kinesiology and Health Promotion, and the Department of Athletic Training Education Program.

The college is committed to meeting the challenges of the next decade; hence, it emphasizes quality teaching and values scholarly activity. The college is committed to the development of its

students into knowledgeable, caring, responsive and self-directed individuals able to meet the health and human caring needs of a diverse and complex society through change, advocacy and leadership within their communities.

As part of ongoing planning and evaluation, the College of Health and Human Services regularly evaluates student learning outcomes for each degree program.

Department of Human Services and Social Work

Case Management Minor

A minor in Case Management is offered to students who desire a basic understanding of the process and foundational skill sets necessary to provide case management services in a variety of settings.

Human Services Major

The purpose of the human services major is twofold: (1) to prepare the graduate for entry level positions in a myriad of human services delivery systems where specialized training is not required, and (2) to prepare students for graduate education. The curriculum is designed to provide the student with an understanding of human behavior within the context of the social environment, an understanding of social and human service delivery systems, and basic skills in effective communication with client systems and basic skills in the development of intervention strategies to resolve interpersonal and social problems. A three-credit, 120-clock-hour field practicum is required.

Human Services Minor

A minor in human services is offered to students who desire basic understanding of the human services delivery system.

Social Work Major

The social work program is accredited by the Council on Social Work Accreditation and program graduates are eligible to sit for social work licensure examination. Social work licensure is required in the state of Alabama for those in the practice of social work. The principle educational objective of the social work program is the preparation of graduates for beginning level generalist social work practice. The curriculum is designed to provide the beginning-level practitioner an ability to apply an eclectic knowledge base guided by professional values; to use a wide range of intervention skills to target any-sized client system (micro to macro levels) while employing a planned change process directed toward client empowerment; to work effectively, under supervision, within social service delivery organizational structures while employing a wide range professional roles. A 12-credit-hour field practicum is required (minimum of 400 clock hours).

Department of Kinesiology and Health Promotion

One of the oldest departments on campus, Kinesiology and Health Promotion consists of three undergraduate degree options and boasts more than 500 majors in the department. These degree options include Exercise Science, Health Promotion, & Physical Education.

Exercise Science

If a career in physical therapy, occupational therapy, clinical exercise testing and prescription, cardiopulmonary rehabilitation, health-fitness/wellness, strength and conditioning or nutrition is in your future, a Bachelor of Science in exercise science is a perfect fit. This competitive program includes concentrations in pre-health

professions, health and wellness, or nutrition, and incorporates coursework from five academic departments spread across two colleges.

With an emphasis on preparation for entry into graduate health profession schools in the fields of physical therapy, occupational therapy, and physician assistant, you will be prepared to successfully enter into graduate health profession schools nationwide. Upon completion of the program, you will also be prepared to sit for certification examinations offered through the American College of Sports Medicine, National Strength and Conditioning Association, and other organizations in the related fields of health and fitness, clinical exercise testing, and strength and conditioning.

Physical Education

If you are passionate about teaching others the skills necessary to participate in health enhancing sport and physical activity for life, the Bachelor of Science in physical education (Teaching Certification) at Troy is for you. This program prepares preschool – 12th grade teachers to impact students in team, individual, and lifetime sport skills in order to enhance their quality of life beyond their school years. At Troy University our physical education program is based on three beliefs, 1. Teach students the proper skills necessary to participate in a variety of sport, individual, and lifetime activities, 2. Provide opportunities for the student to learn and participate in a wide variety of physical activities, 3. By doing so the student will find something they enjoy and are successful at and will continue to do this throughout life in order to lead a healthy active lifestyle.

Many of our graduates in health and physical education choose to double major. This is highly recommended by our department to provide more opportunities for our graduates. It is for this reason our department has such a high job placement rate. Troy University has set itself apart from many other programs (at other Universities throughout the state and southeast) by offering both majors and the option to double major. A mere 18 hours extra (one more semester) can provide the graduate with two degrees and prepare them for dual certification in physical education and health education making them more marketable than a graduate with only one of the aforementioned degrees.

School of Nursing

The School of Nursing programs are designed to develop expertise necessary for the practice of nursing in a complex, changing health care system. Faculty are well qualified.

Students are accepted for admission to the ASN (Montgomery Campus) and BSN (Troy and Dothan Campus) programs in the spring and fall semesters. The ASN degree may be completed in five semesters. The BSN degree may be completed in nine semesters. Registered nurses may receive advanced placement in the online RN Mobility track of the BSN Program. For information related to progression from RN Mobility track to the Family Nurse Practitioner or Healthcare Informatics and Nursing Leadership tracks in the MSN Program or the DNP program, consult the Graduate Catalog. Admission to the School of Nursing is selective, based on established criteria for each program.

All students must maintain current CPR certification, annual

proof of TB testing, and proof of annual physical examination when enrolled in clinical nursing courses. Students are responsible for their own medical care if needed in the clinical setting and must have health insurance. Students must abide by Centers for Disease Control, HIPAA, and OSHA guidelines. Students must present titer reports for Hepatitis B, measles, mumps, rubella, and varicella zoster. Drug screening and criminal background information are required before students may attend clinical course practicums. Students may have additional requirements based on specific facility policies. Standardized achievement tests are required at various points in the undergraduate programs of learning.

Students in the School of Nursing must comply with legal, moral and legislative standards in accordance with the Alabama Board of Nursing Administrative Code. A student may be denied permission to write the licensing examination to become a registered nurse (RN) if he/she has been convicted of a felony.

Challenge examinations are available for various courses for students who meet the eligibility criteria. No nursing course may be audited before it is taken for credit.

Many nursing courses have additional laboratory fees. These fees are printed in the schedule of classes.

Admission is competitive. All students who meet minimum requirements may not be admitted.

EXERCISE SCIENCE PROGRAM (123 HOURS)

This degree has specialized general studies requirements (see areas III-V). Students should consult with an Exercise Science Program adviser along with this catalog. Students enrolled in the Exercise Science Program should select an area of concentration from the following: Wellness and Fitness, Nutrition, or Pre-Health Professions. Students considering applying to a graduate health professions school (e.g. PT, OT, PA) assume responsibility for determining appropriate prerequisite courses required for admission.

Students must achieve a C or better in all courses contained in Area III, Area V, program core, and concentrations. If a student earns a D or F in any of these courses the course must be repeated.

All Exercise Science Program students must present proof of professional liability insurance in order to enroll in KHP 4498 Internship in Exercise Science. Professional liability insurance may be purchased through the College of Health and Human Services, and must be maintained in force through completion of the internship.

Area III (11 hours)

BIO 1100	(3)	Principles of Biology I

**NURSING, ASSOCIATE OF SCIENCE (ASN)
(70 HOURS)**

Admission

Admission to the ASN program is competitive. Meeting minimal admission criteria does not guarantee acceptance. The admission process is completed in two steps. Students wishing to major in nursing at the associate level must either be unconditionally admitted or have completed all developmental coursework. Students not meeting this requirement will need to

declare Applied Health Sciences as a major until all developmental course work has been successfully completed. Once requirements are met, then students can declare a major of nursing.

Students are admitted into step one of the ASN Program year-round. The Admissions Committee reviews all records of qualified applicants.

Step One:

For admission to the ASN program, the student must:

1. Submit application for admission to undergraduate studies with \$30 application fee;
2. Submit **Official** high school transcript or the equivalent (GED). A high school transcript or GED is not required for students transferring in a minimum 12 semester hours of college credit;
3. Submit **Official** transcripts from all colleges and universities attended;
4. Meet all unconditional admission requirements for freshman students as listed in the Troy University undergraduate catalog and; have a minimum grade point average GPA of at least 2.75/4.0 scale on all college work attempted at the undergraduate level and a minimum grade point average of at least 2.0/4.0 scale on all college work attempted at Troy University at the undergraduate level. If less than 12 HR of college work has been attempted, you must have a minimum 2.75/4.0 High School GPA or a GED with a score of 500; and
5. Meet core performance standards required for duties of the nursing profession (copy of standards available upon request).

Step Two:

1. Apply for admittance into the clinical nursing sequence. The deadline for filing an application and all required admission documentation is May 30 for fall admission and October 30 for spring admission.
2. Admission is based upon a point system comprised of overall GPA and grades in required courses
 - a. Student will lose points for courses that were dropped or failed.
 - b. Any student that fails a first-semester nursing course after being admitted to the clinical sequence will have to return to the "selection group" and attempt to be reselected based on the points system in order to repeat a course the following semester.

NOTE: If a student is attempting to transfer credit for nursing courses from another accredited school of nursing, a letter from the dean/director of that school must be submitted stating that the student was eligible for continuation in the nursing program. If the student was not eligible for continuation in the program, the student must take all required Troy University ASN nursing courses (i.e., no nursing courses will be transferred).

Progression

- a. Student must maintain an overall Troy University GPA of at least 2.0 on 4.0 scale while enrolled in nursing courses.
- b. Student must earn a grade of C (74%) or better in each required course.
- c. A student will be able to repeat a nursing course only one time to achieve a grade of C or better.
- d. A student may repeat only one ASN Program nursing course (with the exception of NSG 2204 or NSG 2213); therefore, a second D or F in any ASN nursing course (with the exception of NSG 2204, or NSG 2213) will result in automatic dismissal from the Program.
- e. Student must make 90% or higher on a dosage and solutions calculation examination in NSG 1151 to progress in the program.
- f. Student must complete the program within four years from the date of initial enrollment in the first clinical nursing course (NSG 1131) to remain in the program. Whether a student drops, fails or withdraws from NSG 1131 the student can only re-enroll once more. If a student drops, fails, or

withdraws a second time, the student will be dismissed from the ASN program.

Degree

Upon satisfactory completion of the program, the student is awarded the Associate of Science in Nursing degree and may then apply to the Board of Nursing to write the licensing examination to become a registered nurse (RN).

Location

The ASN program is located at 340 Montgomery Street, Montgomery, AL, 36104. The clinical facilities used for student learning experiences are located within an approximate 50-mile radius of Montgomery. Students are responsible for their transportation.

Accreditation

The associate nursing program at Troy University at the Montgomery Campus located in Montgomery, Al is accredited by the:

Accreditation Commission for Education in Nursing (ACEN)
3390 Peachtree Road NE, Suite 1400
Atlanta, GA 30326
(404) 975-5000

The most recent accreditation decision made by the ACEN Board of Commissioners for the associate nursing program is Continuing Accreditation.

**NURSING, BACHELOR OF SCIENCE (BSN)
(124 HOURS)**

Students wishing to declare a pre-nursing major at the baccalaureate level must either be unconditionally admitted and/or have completed all developmental coursework and cleared conditional status. Students not meeting these requirements will need to declare Applied Health Sciences as a major until all developmental course work has been successfully completed and/or conditional status has been cleared. Once requirements are met, then students can declare a major of pre-nursing or nursing.

Admission

Admission to the BSN program is competitive. Meeting minimal admission criteria does not guarantee acceptance. For admission to the BSN program, students must

1. have an overall GPA of at least 2.5 on 4.0 scale. (All hours attempted are used in calculation of overall GPA.)
2. file written application with the School of Nursing. Consult academic adviser or BSN Coordinator. For information regarding BSN courses on the Dothan campus, please contact the School of Nursing at (334) 983-6556 EXT 1435. Deadlines for receipt of BSN applications are March 15 for fall semester and Sept. 15 for spring semester. Registered Nurse students enrolling in the RN Mobility track should contact the RN Mobility Assistant Coordinator for admission times.
3. have successfully completed general studies courses. A grade of C or above is required in many of these courses. For additional information, contact the office of the BSN Program Coordinator or visit the School of Nursing website at www.troy.edu.
4. have a current, unencumbered RN license in state of clinical practice if student is entering the RN Mobility course sequence.
5. be able to achieve certain core performance standards required by the duties of the nursing profession.
6. If transferring from another school of nursing, submit a letter from the dean/department chair of that school stating that the student was eligible for continuation in the school. Students transferring from another school of nursing who are not or were not eligible to continue in the nursing program in which they are/were enrolled are not eligible for admission to Troy University's BSN program unless they first completed an associate degree program from a regionally accredited institution and/or Accreditation Commission for Education in Nursing (ACEN) accreditation and are registered nurses.

Progression

- a. Students are required to have an overall GPA of 2.5 on a 4.0 scale for enrollment in the Clinical Nursing Sequence.
- b. Students are required to make a grade of C or better in each nursing course.
- c. Students may repeat only one 3300-4400 level nursing course required in the BSN clinical nursing sequence (with the exception of NSG 3315, Pathophysiology): therefore, a second D or F in any 3300-4400 level nursing course (with the exception of NSG 3315 Pathophysiology) will result in automatic dismissal from the program.
- d. Students who are planning to apply, or have applied, but have not yet begun, the BSN Clinical Nursing Sequence, may repeat only one 3300-4400 level nursing course from the required courses in the clinical nursing sequence; thereafter, a D or F in a 3300-4400 level nursing course will automatically disqualify the student from entering the BSN Clinical Nursing Sequence.

- e. Students who drop or fail a theory or clinical course with a co-requisite component must drop the co-requisite course.
- f. Comprehensive Exam will be administered in NSG 4417 Professional Nursing Seminar. This exam will account for 45% of the course grade. (Note: The exam is not required for students in the RN Mobility track.)
- g. Students must graduate within 150% of program completion time (7 semesters to be completed in no more than 3 1/2 years) from date of admission to the clinical nursing sequence to date of graduation from BSN program.

Additional policies related to the BSN program may be found on the School of Nursing website. Enrollment may be limited based on available resources.

Degree

Upon satisfactory completion of the program, the student is awarded the Bachelor of Science in Nursing degree and may then apply to the Board of Nursing to write the licensing examination to become a registered nurse (RN).

Locations

The clinical facilities used for student learning experiences in the BSN generic track are located in Troy and surrounding communities. Students are responsible for transportation and the cost of meals. For child health nursing, students may be assigned to learning experiences in Birmingham, Alabama.

The clinical facilities used for students in the RN Mobility track are located in a variety of settings and geographical locations.

Accreditation

The associate nursing program at Troy University at the Montgomery Campus located in Montgomery, Al is accredited by the:

*Accreditation Commission for Education in Nursing (ACEN)
3390 Peachtree Road NE, Suite 1400
Atlanta, GA 30326

SOCIAL WORK PROGRAM

Specialized General Studies Requirements

Students will complete the general studies requirements as outlined in the general studies section of this catalog with the following exception. In AREA II take COM 2241 and any 1000-2000 level Literature Series (6 hours); and, in Area IV take a History Series (6 hours). The following general studies courses are required for social work majors: ANT 2200, ECO 2251, POL 2241, PSY 2200, SOC 2275, and PSY 3304. Courses with similar content in General Studies may be considered for substitution by the department chair.

Admission to the professional social work curriculum

Students must be admitted to the professional social work curriculum in order to enroll in advanced social work courses, beginning with SWK 3390. Students are encouraged to declare social work as a major during the freshman or sophomore year in order to ensure that they will meet the requirements for admission in a timely manner. Otherwise, the student may be out of sequence in meeting program requirements for admission. Admission to the professional social work curriculum is usually accomplished during the first semester of the junior year concurrent with enrollment in SWK 2250, which precedes enrollment in SWK 3390 the following semester. To be eligible to apply for admission, each social work major must (1) have a minimum GPA of 2.5 (on a 4 point scale) in all college courses attempted and have completed a minimum of 30 semester hours, and (2) have completed or be currently enrolled in ENG 1101 and 1102 or ENG 1103 and 1104; COM 2241 or 2243; HS 2240, 3310 and 3370; and SWK 2250 and 2280 (or be currently enrolled) with a grade of C or better. The procedure for applying for admission to the professional social work curriculum may be obtained from the Social Work Department. Students completing all but 3-6 hours of general studies courses will have the best opportunity of being unconditionally accepted into the program. Students with more than 6 hours may have a delayed acceptance or conditional admission.

Progression in Social Work

- Students are required to make a grade of C or better in each of the required departmental core and professional curriculum courses (all HS, RHB, and SWK prefixed courses.)
- Students may repeat only one 3000-4000 level departmental course; thereafter, a D or F in any 3000-4000 level departmental required course will result in automatic dismissal from the social work program.
- Remains in good standing by maintaining, at a minimum, a 2.5 GPA in all course work taken and a 2.5 GPA in all required departmental and professional courses.

ADULT EDUCATION (ADE) COURSES

ADE 3301 Education Leadership and Motivation in Adult Learning (3)

In this course, you will learn how to create a shared vision for your team and effectively communicate it to your teammates. You will also learn how to set effective goals and expectations in a way that best enables your team to attain the shared vision. Finally, you will understand the most important needs and drivers of performance across cultures, and will learn to align rewards with desired behaviors so that your teammates are motivated to attain the team's objectives. This course will help you diagnose and solve motivation problems so that you can bring out the best in your people.

ADE 3305 Teaching Adults with Technology (3)

Instructional technology is becoming increasingly an important part of adult learner education. Adult learners need to utilize current and emerging

technologies to perform required career duties and succeed as professionals in the workforce. Technology enhances the learning of adults, improves their motivation, and engages them in various activities. It also increases accessibility to individualized learning, and improves communication with coworkers and supervisors. This course focuses on the ideas and skills to integrate technology efficiently into curriculum and its utilization for effective teaching.

Prerequisite: ADE 3301

ADE 3310

Teaching Adult Learners (3)

This course features practical strategies and instructional techniques for teaching adult learners. Topics include characteristics of adult learners, adult learning/teaching styles, overcoming resistance to learning, promoting self-learning in adults, and dealing with diversity in the adult learning environment.

Prerequisite: ADE 3301

ADE 3320

Assessing Adult Learners (3)

This course is designed to assist participants with the development of knowledge and skills that can be applied to successful student outcomes assessment. Specifically, this course is an introduction to various methods that measure students' knowledge and skills. Emphasis is placed on constructing and validating various types of measurement instruments and performance assessments including their validity and reliability.

Prerequisite: ADE 3301

ADE 3346

Educational Psychology in Adult Learning (3)

This course is a study of the distinctive characteristics of adult development and their interaction with the cognitive, social, and psychological characteristics of adult learning. Emphasis will be given to understanding the nature of adult learners and their learning processes, principles of motivation and effective facilitation geared toward adult learners, and social and cultural influences on adult learning.

Prerequisite: ADE 3301

ADE 4400

Classroom Management in Adult Learning (3)

This course will provide an introduction to managing various instructional environments including how to create a safe learning environment, design classroom and laboratory procedures, and develop an effective classroom management plan. Instruction also includes how to implement organizational systems to manage work-based learning experiences, student records, learning experiences, supplies, equipment, tools, finances, and facilities.

Prerequisite: ADE 3301

ADE 4401

Problem Solving and Decision Making (3)

This course explores the application of effective problem solving and decision making strategies in the workplace. It examines involvement of stakeholders in decision processes, models for decision making, decision trees, risk analysis, and issues associated with implementation of decisions.

Prerequisite: ADE 3301

ADE 4410

Professional Education Communication (Student Counseling) (3)

This course is designed to develop communication skills required for effective occupational educators working with adults in a variety of postsecondary, workforce development, and military education settings. The course focuses on information and the communication process. Emphasis will be placed on verbal, non-verbal, interpersonal, and written communication. Special attention will be given to working with diverse populations.

Prerequisite: ADE 3301

ADE 4420

History and Development of the Workforce (3)

This course is a study of the origins of adult career education and training in the United States. Students will learn about the pioneers in this field who built the theoretical concepts over time. Those concepts are examined through the lenses of:

- Time and changes in the workplace during the agrarian and craftsman period, early industrialization, the post industrialization period, to current service and technology industries;
- The impact of world events, and the influence of government legislation; and
- The influence of women, minorities, and special needs employees in the workplace.

The course will provide the student a greater appreciation of the breadth and complexity of adult education by focusing on an area often overlooked—Career and Technical Education.

Prerequisite: ADE 3301

ADVERTISING COURSES (ADJ)

ADJ 2220

Principles of Advertising (3)

An introduction to the principles and background of advertising, advertising campaigns and the different types of advertising. Special emphasis is given to social, legal, planning and creative aspects.

ADJ 3322

Advertising Copywriting (3)

The principles of advertising psychology studied in relation to the techniques for writing effective copy; approximately half of the course is devoted to practice in writing effective advertisements.

Prerequisites: ADJ 2220 or PRJ 2230, JRN 1102 or PRJ 3375 or special permission from the director of the School of Journalism.

ADJ 3350

Advertising Sales (3)

Discussion and practical experience in servicing accounts and selling advertisements. Emphasis on building client relationships and delivering effective sales presentations.

Prerequisite: ADJ 2220.

ADJ 4451

Advertising Media Planning (3)

This course explores researching media options, developing a media plan, and learning how to implement the plan. It includes identifying target audiences, the media they use, the cost efficiency of the media, and determining the costs of the total plan.

Prerequisite: ADJ 2220

ANTHROPOLOGY COURSES (ANT)

ANT 2200

Anthropology (3)

An examination of human, physical and cultural development using evidence from archaeology, paleontology, genetics, ecology, cultural anthropology and linguistics with emphasis on the historical, structural and symbolic aspects of human culture.

This course is prerequisite for all 3300 and 4400 level courses in anthropology. This course does not count toward the 36-hour major.

ANT 3305

Introduction to Archaeology (3)

An examination of the methods and theory of traditional and contemporary approaches to archaeological research.

ANT 3310

Cultural Anthropology (3)

An anthropological examination of human cultural development and a survey of both contemporary and past human cultures. May be taken for sociology credit.

- ANT 3311 Physical Anthropology (3)**
An examination of human biological development from the beginning of mankind through the Pleistocene age using evidence from archaeology, paleontology, biology, genetics and osteology.
- ANT 3312 Field Techniques in Archaeology (3-6-9 hours)**
Instruction in survey and excavation methods and techniques used in the discipline of archaeology.
- ANT 3315 The Anthropology of Kinship and Social Structure (3-6)**
Students will be introduced to the basic concepts and major issues in kinship studies, including gender, marriage, social relationships, and descent from a cross-cultural perspective. The course will explore different theoretical approaches to understanding the importance of global kinship practices, variations in kinship practices and gender systems around the world, and the relevance of kinship systems today as new reproductive technologies challenge our traditional ideas on kinship.
- ANT 3320 Prehistory of North American Indians (3)**
An examination of the aboriginal cultures of North America prior to the period of European contact based upon archaeological evidence.
- ANT 3321 North American Indians Since Contact (3)**
An examination of aboriginal cultures of North America from the period of European exploration, colonization, and settlement to the present using archaeological, ethnographic, and ethnological studies.
- ANT 3324 Food and Culture (3)**
This course will explore the historical foundations of food production. Students will critically examine the current system of food production, and specifically how differential production and access to food have created disparities in health and nutrition. The course will also include an exploration of the Food Justice movement and how it is working to restructure and transform our current system of production.
- ANT 3328 Environmental Archaeology**
This course explores past environments and the methods and evidence used to reconstruct them. Emphasis is placed on the integration of geological, botanical, zoological, and archaeological data used to reconstruct Quaternary climates and environments. A number of issues central to and addressed by environmental archaeologists using plant, animal, and mineral data sets and working within the larger discipline of archaeological anthropology are considered throughout the course.
- ANT 3330 Historical Archaeology (3)**
An examination of the historical research methods and archaeological techniques used to investigate and interpret archaeological sites dating from the historic period.
- ANT 3333 Human Osteology (3)**
An intensive study of the human skeletal system covering the structure, function, growth, and development of human bone as well as methods for the identification and analysis of bone in archaeological and forensic contexts.
- ANT 3340 Language in Culture and Society (3)**
A sociological and anthropological examination of language from a descriptive, historical and social perspective.
- ANT 3360 Magic, Witchcraft and Religion (3)**
An anthropological examination of the role of religion and the supernatural among traditional peoples.
- ANT 3375 Research Methods in Anthropology (3)**
The purpose of this course is to provide a structured opportunity to review, learn, and apply quantitative and qualitative anthropological research methods. This course incorporates anthropological examples and theory to assist each student in developing a research question and a general research design report. This course covers a wide variety of methodologies applicable to all four subfields of anthropology (cultural, archaeological, linguistic, and biological)
Prerequisite: ENG 1102 or ENG 1104, ANT 2200
- ANT 3376 Anthropological Statistics (3)**
A detailed description of what anthropologists do with the information they gather. Inferential and descriptive statistics are discussed in terms of univariate and multivariate methods. Particular attention is paid to issues pertaining to anthropological data (e.g., small sample sizes, missing data, autocorrelation). This course also serves as an introduction to statistical software options frequently used in anthropology research.
Prerequisites: STAT 2210 or equivalent, ANT 2200
- ANT 3380 Anthropology Study Abroad (1-3)**
Supervised investigation of relevant topics in Anthropology through travel study abroad or within the interior of the United States.
- ANT 4410 High Civilizations of the Old World (3)**
An anthropological examination of the sociocultural systems that formed the foundations of pre-industrial high civilizations of the Old World and a survey of past cultures that achieved this degree of development.
- ANT 4411 High Civilizations of the New World (3)**
An anthropological examination of the socio-cultural systems that formed the foundations of pre-industrial high civilizations of the New World and a survey of past cultures that achieved this degree of development.
- ANT 4412 Advanced Laboratory Archaeology Techniques (3)**
This course involves specific archaeological training in a singular area of Archaeological practice. Training in specific areas will be limited to such areas: zooarchaeological analysis, paleoethnobotanical analysis, geo-spatial archaeological analysis, cultural resource management, ceramic or lithic analysis, ethnoarchaeology, experimental archaeology, archaeological synthesis, and curation.
Prerequisite: ANT 4460
- ANT 4413 Anthropology of Death and Burial (3)**
The goal of this course is to provide an anthropological perspective on mortuary studies derived from a study of the death experience. A strong emphasis will be placed on the theoretical foundations of mortuary data, drawn from cultural anthropology and ethnography.
- ANT 4415 Anthropological Perspectives on the Domestication of Plants and Animals (3)**
This course focuses on the consequential transition in the human past, specifically, that from hunting and gathering of wild plants and animal food resources to agriculture and pastoralism. The course will cover the emergence of cultivation, the adoption of plants foods, and the domestication of animals in key regions across the globe. The course will also discuss the most recent contributions from disciplines including archaeology, climatology, botany, zoology, genetics, and linguistics to these topics. Utilizing data and ideas from these various disciplines, the course will investigate the processes behind and the regional expressions of the development and spread of domestic plants and animals.

- ANT 4422 Principles in Biological Anthropology (3)**
This course examines human variation from an evolutionary perspective. We will explore human diversity in terms of genetics, and adaptation at both the individual and population level. The mechanisms and processes of microevolution will be considered, in particular how they influence the diversity that characterizes the human species.
Prerequisite: ANT 3311
- ANT 4435 Introduction to Forensic Anthropology (3)**
An introduction to forensic anthropology, the subspecialty of biological anthropology that focuses on human identification in medico-legal contexts. This course builds on the content from Human Osteology and covers the basic methodology for estimating sex, age, ancestry, stature, trauma, pathology, and time since death.
Prerequisite: ANT 3333
- ANT 4445 Aboriginal Peoples (3)**
This course will focus on the ethnography of aboriginal peoples. It will cover such areas of culture as kinship, political systems, social organization, religion, and the interaction between aboriginal people and non-aboriginal people.
- ANT 4450 Anthropology of Sex and Gender (3)**
This course will focus on gender as a primary organizing principle of society and explore how these categories get created, reproduced and transformed. Topics of discussion will include the social position of women and men in the family, changing social, economic, and political ideologies with respect to gender and the construction and reproduction of gender inequality from a global perspective.
- ANT 4455 Paleoanthropology (3)**
The course examines the origin and evolution of humans in biological terms, though some consideration is given to developments in material culture and cultural behavior. Emphasis is placed on the fundamentals of paleoanthropological research, evidence of human evolution, trends in human evolution, important fossil finds and sites, and phylogenetic relationships.
Prerequisite: ANT 3311
- ANT 4460 Archaeological Method and Theory (3)**
Exploration of the methods and techniques used in the curation and analysis of cultural materials recovered from archaeological investigations through the discussion of the history of archaeological thought from the eighteenth century (evolution, cultural history, and processualism) to contemporary theory (postprocessualism and feminism)
Prerequisites: ANT 2200, ANT 3305
- ANT 4470 Selected Topics in Anthropology (3)**
Anthropological examination of a designated topic of special and/or current interest and importance that is generally not covered in regularly offered courses in the department.
- ANT 4485 Archaeology Practicum (3 or 6)**
This course will expose students to the process of synthesis in the archaeological method. This process includes the incorporation of field and laboratory methods in archaeology towards accomplishing archaeological research projects.
- ANT 4489-90 Internship in Anthropology (3)**
Internship with a recognized, professional anthropology related agency in which the student is assigned specific tasks related to the field of anthropology.
Prerequisite: Anthropology Major, ANT 2200; junior/senior classification; 3.0 cumulative GPA, 3.5 major GPA; consultation with department Internship Coordinator.
- ANT 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Undergraduate research with attention to critical evaluation of research techniques, methods and procedures.
Prerequisites: Junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which the study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."
- ANT 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)**
Supervised study through field and laboratory projects, guided readings, creative endeavors or achievement of specific skills.
Prerequisites: Junior or senior standing, with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which the study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."
- ANT 4497 Professional Seminar in Anthropology (3)**
In this course, the advanced anthropology student prepares for the transition to graduate school/career. Career and advanced degree options are explored and discussed. In addition to career exploration, students conduct a senior project in an area of interest consistent with their academic program.
Prerequisites: ANT 3305, ANT 3310, ANT 3311, ANT 3340, senior status, or permission of instructor.
- ANT 4498 Anthropological Theory (3)**
This course will focus on the early foundations of Anthropology and a survey of the major theorists in the discipline, emphasizing those who made critical contributions influencing the four subfields of Anthropology.
Prerequisite: ANT 3305, ANT 3310, ANT 3311, ANT 3340, ANT 3315, senior status, or permission of instructor.

Introduction to the principles, elements, and concepts of two-dimensional space.
- ART 1150 Foundations of Time and Space (3)**
Introduction to the principles, elements, and concepts of three- and four-dimensional space.

- ART 2201 Introductory Drawing (3-5)**
Introduction to drawing with emphasis on traditional rendering materials and techniques.
- ART 2202 2D Studio I (3-5)**
Fundamental concepts in printmaking. Basic techniques in producing black and white multiples in relief, intaglio, serigraphy and lithography.
Prerequisites: ART 1145, ART 2201.
- ART 2204 3D Studio I (3-5)**
Fundamental concepts in pottery and ceramics. Basic techniques in production and free form ceramics to include introduction to hand-building, wheel throwing, and glazing/firing techniques.
Prerequisites: ART 1150, ART2201.
- ART 2205 3D Studio II (3-5)**
Fundamental concepts in sculpture. Emphasis on traditional subtractive and additive techniques in a variety of media.
Prerequisite: ART 1150 ART 2201.
- ART 2206 2D Studio II (3-5)**
Fundamental concepts in painting. Basic techniques in application using transparent and opaque painting media.
Prerequisites: ART 1145, ART 2201.
- ART 2208 Digital Tools (3)**
This course examines literacy and application of art and design industry-based hardware and software.
- ART 2210 Introduction to Digital Drawing (3)**
A fusion of analog and digital drawing focusing on basic introductory concepts. Technique and best practices are emphasized.
- ART 2215 Art and Design Forum (2)**
An introductory learning community established at the entry level for incoming Art and Design students. This non-media specific course will aid students in discovering their own creative voices while learning how to navigate life in the Department of Art and Design. Students will gain a fundamental understanding of conceptualization, ideation, creative problem solving and processes, critique strategies, and occupational opportunities.
- ART 2228 Photo Studio Darkroom (3-5)**
Introduction to the fundamentals photographic techniques in traditional black and white darkroom photography and contemporary digital photographic techniques and practices. Emphasis on darkroom printing, manual camera controls, compositional elements, digital technologies and photographic history.
Prerequisites: ART 1145, ART 2201 or ART 2210.
- ART 2230 Color and Technology (3)**
Introduction to the principles and science of color and color applications in both colorant and digital environments.
Prerequisites: ART 1145, ART 2201 or ART 2210.
- ART 2250 Survey of Art History I (3)**
This course examines the development of art from pre-history to the Gothic period. The sessions will focus on the various social and cultural factors that determine the uses and appearance of art at different times.

The course will provide students with a basic knowledge of photographic history, theory, and criticism. It will examine how photography has both been influenced by and has also influenced other mediums. (Writing Intensive)
- ART 3301 Life Drawing (3-5)**
Drawing the human form with emphasis on rendering mood and expression while learning skeletal and muscular structure.
May be repeated for credit up to six hours.
Prerequisite: ART 2201.
- ART 3302 History of the Arts (3)**
An analysis of examples of art from diverse periods with an emphasis on trends and patterns and the interactions of art with various aspects of social, political, and intellectual developments.
- ART 3308 Graphic Design Principles & Practices (3)**
This course explores the principles of graphic design from concept development to final execution.
- ART 3310 Motion Graphics Principles & Practice (3)**
This course is an exploration of graphic design as it is applied to multimedia.
- ART 3315 User Interface Design (3)**
Formal and practical aspects of graphic design as applied to web development, Internet communication, marketing, and advertising.
- ART 3318 Conceptual Drawing (3-5)**
A course in the exploration of image making that expands drawing from direct observation to a more conceptual approach.
May be repeated for credit up to six hours.
Prerequisites: ART 1145, 2201.
- ART 3320 Ancient and Medieval Art (3)**
This course will focus on the art and culture of the ancient Greek and Roman Worlds, and consider how the artistic heritage of Europe during the Medieval Era follows upon and deviates from these earlier eras. - ART 3324 Concept and Process (3)**
This course is an exploration in content development, publishing, research and design for print and digital media.
Prerequisite: ART 3308 or permission of department chair.
- ART 3325 Typography (3)**
A study and application of history, design, letterforms, typeface hierarchy, and grids.
- ART 3326 Digital Illustration (3)**
Student will explore the concepts and techniques necessary to create illustrations for use in print, web, and multimedia applications. Various categories of illustration will be addressed (i.e. technical illustration, editorial illustration, charts, maps, icons, and others). Students will also learn of significant illustrators and their contributions to digital image making.
Prerequisites: ART 1145, ART 2201, and ART 2230.
- ART 3328 Digital Photo Studio (3-5)**
Intermediate classroom environment based around the exploration and fundamentals of digital color photographic processes. Techniques explored are artistic aspiration, color printing, theoretical research and exploration, digital photography manipulation and editing, studio lighting, photographic history and contemporary topics.
Prerequisite: ART 1145, 2201, 2210 or 2230.
- ART 3330 2D Studio III (3-5)**
Advanced concepts in two-dimensional media. Studio focus on specific painting, and mixed media techniques.
May be repeated for credit up to six hours.
Prerequisite: ART 2206.
- ART 3331 3D Studio III (3-5)**
Advanced concepts in three-dimensional media. Studio focus on specific additive and subtractive techniques in a variety of media.
May be repeated for credit up to six hours.
Prerequisite: ART 2205.
- ART 3340 Portfolio Design (1)**
Through this course, students will develop a printed, digital and interactive portfolio that expresses their innovation, mastery of skills and ability to research and complete art/design projects.
Prerequisite: Must have completed at least 21 credit hours of major.
- ART 3342 The Business of Art/Design (1)**
This course explores the business aspects of the Art and Design Industry and readies students for their transition to the field by providing relevant marketing, entrepreneurial, collaboration, and planning proficiencies.
Prerequisite: Must have completed at least 21 credit hours of their major.
- ART 3346 Educational and Psychology Assessment in Fine Arts (3)**
This course provides a broad foundation in all aspects of assessment as it is applied to the P-12 music and art classroom, from learning theory to practical application of assessment techniques, data management, critical thinking, progress reporting and portfolio building. Assessment task design in the artistic response modes is covered, and a series of assessments that can be implemented in the music/art classroom are developed.
- ART 3348 Intermediate Photo Studio (3-5)**
Intermediate photography, which emphasizes a greater knowledge of digital photographic tools and introduction to video exploration. Techniques and processes explored are photography theory and research, video creation and editing, advanced digital composing and manipulation, beginning portfolio work and studio art.
- Prerequisite: ART 3328.*
- ART 3350 Research and Criticism (3)**
This course is a seminar that addresses the study and methodologies of art as it has been interpreted in the modern and post-modern periods. Students must take the semester before taking ART 4499 Thesis Exhibition.
Prerequisite: ART 2250, ART 2251.
- ART 3355 Graphic Design History (3)**
Survey of the history of graphic design from prehistoric visual communications to contemporary global issues.
Prerequisites: ART 2250, ART 2251.
- ART 3360 Exhibition Techniques (1)**
Student will be introduced to a wide array of techniques for exhibiting and presenting their artwork. Emphasis will be placed on the best industry standards of presenting artwork to targeted audiences including but not limited to galleries, museums, artist representatives, collectors, clients, grant sources, and graduate schools.
Prerequisites: Must have completed at least 21 credit hours of their major.
- ART 3361 Integrating Art into the Curriculum (3)**
Critical and experiential investigation of approaches for integrating visual art into the elementary curriculum.
Prerequisite: EDU 3310, EDU 3303.
- ART 3375 Special Topics in Art/Design (3)**
Examination of selected topics in art and design not included in the established curriculum. Content may be of a historical, thematic, or technological nature.
May be repeated for credit up to six hours..
- ART 3380 Travel Study in Art/Photography (1-3)**
Supervised investigation of photography and other art media through travel abroad or within the interior of United States.
May be repeated for credit.
- ART 3390 Seminar in Art/Design (1-3 credit hours per course per semester)**
This seminar course is a periodic supplement to the existing curriculum, allowing for timely and relevant topics or issues that are not fully covered in existing courses. Topics can be practices or theories related to the making of art and design or the education of such.
- ART 4424 Design Studio (3)**
This course will provide the opportunity for students to work alongside of clients in a studio/lab atmosphere to produce design solutions for today's industry.
May be repeated for credit up to six hours.
Prerequisite: ART 3315 and ART 3324 or permission from the department chair.
- ART 4428 Advanced Photo Studio (3-5)**
Advanced photography classroom emphasizes the preparation and completion of a photographic portfolio and the function of photography online. Students will explore projects established in large format film processing, scanning and printing, advanced theoretical research, historical and contemporary photograph research, continued video creation and editing and alternative printing processes.
Prerequisite: ART 3328.
- ART 4430 2D Studio IV (3-5)**
Content and issues in two-dimensional media on the development of personal artistic expression. Advanced studio practices in printmaking and mixed media techniques with a focus.
May be repeated for credit up to six hours.
Prerequisite: ART 2202.

- ART 4431 3D Studio IV (3-5)**
Content and issues in three-dimensional media. Advanced studio practices in ceramics with a focus on the development of personal artistic expression. *May be repeated for credit up to six hours.*
Prerequisite: ART 2204.
- ART 4432 Women in the History of Art (3)**
This course examines the role of gender in the production and reception of works of art. Analyzing a canon of great women artists, how patriarchal systems have affected the way art history has been written and the impact of the feminist movement on artistic production.
- ART 4435 Collaborative Studio (3)**
An integrative art studio experience joining students from each concentration area. Thematic, supervised exploration of a chosen medium. This course will facilitate the comprehensive assessment of student competencies in art portfolio review, core curriculum exam and/or the taking of a standardized art exam, a requirement of all art majors. *Prerequisite: Must be taken upon completion of the twelve hours concentration or have approval of the department chair.*
May be repeated for credit up to six hours.
- ART 4450 User Experience Design (3)**
A continuing study of "Design for the Internet". Through leveraging new trends and technologies students will explore development concepts such as usability, functionality, modality, and accessibility.
Prerequisite: ART 3315.
- ART 4472 Internship in Art Education (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience.
Prerequisite: admission to TEP; Co-requisite: IED 4454 Internship Seminar for Interdisciplinary Education.
- ART 4481 Methods and Materials for the Art Teacher (3)**
Teaching methods, selection, organization, and use of art materials.
Prerequisite: ART 3361 and admission to TEP.
- ART 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.
- ART 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.
- ART 4496 Internship (3 or 6 credit hours)**
Experiential learning in the context of an art- or design-related profession. Must be approved by the department chair and cooperating host organization or business.
May be repeated for credit up to nine hours.
- ART 4498 Senior Thesis Preparation**
Senior thesis preparation is a course that must be taken the semester before ART 4499 Thesis Exhibition. This course will prepare senior art and design students for their thesis project by careful development of their ideas and concepts.
- ART 4499 Thesis Exhibition (3)**
This class provides students with the opportunity to produce a body of work related to their area of concentration along with a robust research paper.

All students must take this course in one of their last two semesters prior to graduation.
Prerequisite: ART 3350.

AIR FORCE ROTC/AEROSPACE COURSES (AS)

- AS 1112 Heritage and Values (1)**
Is the first of two survey courses designed to introduce students to the Department of the Air Force (DAF) and provides an overview of the basic characteristics, missions, and organization of the Air and Space Forces.
Co-requisite: AS L112 (Only required for those students pursuing a commission in the Air/Space Force).
- AS L112 Leadership Laboratory (LLAB) (1)**
Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of Air Force second lieutenants and complement the AFROTC academic program. It is student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander.
Co-requisite: AS 1112 (Only required for those students pursuing a commission in the Air/Space Force).
- AS 1113 Heritage and Values II (1)**
Is the second of two survey courses designed to introduce students to the Department of the Air Force (DAF) and provides an overview of the basic characteristics, missions, and organization of the Air and Space Forces.
Prerequisite: AS 1112 (Only required for those students pursuing a commission in the Air/Space Force).
Co-requisite: AS L113 (Only required for those students pursuing a commission in the Air/Space Force).
- AS L113 Leadership Laboratory II (1)**
Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of Air Force second lieutenants and complement the AFROTC academic program. It is student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander.
Prerequisite: AS L112 (Only required for those students pursuing a commission in the Air/Space Force).
Co-requisite: AS 1113 (Only required for those students pursuing a commission in the Air/Space Force).
- AS 2212 Team and Leadership Fundamentals I (1)**
Is the first of two courses designed to provide fundamental understanding of both leadership and team building. The lessons and course flow are designed to prepare students for field training and leadership positions in the detachment.
Prerequisite: AS 1113 or permission of department head.
Co-requisite: AS L212 (Only required for those students pursuing a commission in the Air/Space Force).
- AS L212 Leadership Laboratory (LLAB) I (1)**
Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of Air Force second lieutenants and complement the AFROTC academic program. It is student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander.

Prerequisite: AS L113 (Only required for those students pursuing a commission in the Air/Space Force).
Co-requisite: AS 2212 (Only required for those students pursuing a commission in the Air/Space Force).

- AS 2213 Team and Leadership Fundamentals II (1)**
 Is the second of two courses designed to provide a fundamental understanding of both leadership and team building. The lessons and course flow are designed to prepare students for field training and leadership positions in the detachment.
Prerequisite: AS 2212 (Only required for those students pursuing a commission in the Air/Space Force).
Co-requisite: AS L213 (Only required for those students pursuing a commission in the Air/Space Force).
- AS L213 Leadership Laboratory (LLAB) II (1)**
 Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of Air Force second lieutenants and complement the AFROTC academic program. It is student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander.
Prerequisite: AS L212 (Only required for those students pursuing a commission in the Air/Space Force).
Co-requisite: AS 2213 (Only required for those students pursuing a commission in the Air/Space Force).
- AS 3312 Leading People and Effective Communication I (3)**
 Is the first of two courses designed to utilize student's field training experience to take a more in-depth look at leadership. Special emphasis is placed on enhancing communication skills, and why that is important as a leader. Students have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.
Prerequisite: AS 2213 (Only required for those students pursuing a commission in the Air/Space Force).
Co-requisite: AS L312 (Only required for those students pursuing a commission in the Air/Space Force).
- AS L312 Leadership Laboratory (LLAB) I (1)**
 Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of Air Force second lieutenants and complement the AFROTC academic program. It is student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander.
Prerequisite: AS L213 (Only required for those students pursuing a commission in the Air/Space Force).
Co-requisite: AS 3312 (Only required for those students pursuing a commission in the Air/Space Force).

- AS 3313 Leading People and Effective Communication II (3)**
 Is the second of two courses designed to utilize student's field training experience to take a more in-depth look at leadership. Special emphasis is placed on enhancing communication skills, and why that is important as a leader. Students have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.
Prerequisite: AS 3312.
Co-requisite: AS L313 (Only required for those students pursuing a commission in the Air/Space Force).
- AS L313 Leadership Laboratory (LLAB) II (1)**
 Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of Air Force second lieutenants and complement the AFROTC academic program. It is student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander.
Prerequisites: L312 (Only required for those students pursuing a commission in the Air/Space Force).
Co-requisite: AS 3313 (Only required for those students pursuing a commission in the Air/Space Force).
- AS 4412 National Security and Preparation for Active Duty I (3)**
 Is the first of two courses designed for college seniors and provides them the foundation to understand their role as military officers and how they are directly tied to our National Security Strategy. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level.
Prerequisite: AS 3313.
Co-requisite: AS L412 (Only required for those students pursuing a commission in the Air/Space Force).
- AS L412 Leadership Laboratory (LLAB) I (1)**
 Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of Air Force second lieutenants and complement the AFROTC academic program. It is student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander.
Prerequisites: AS L313 (Only required for those students pursuing a commission in the Air/Space Force).

 Is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of Air

Force second lieutenants and complement the AFROTC academic program. It is student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander.

Prerequisites: AS L412 (Only required for those students pursuing a commission in the Air/Space Force).

Co-requisite: AS 4413 (Only required for those students pursuing a commission in the Air/Space Force).

AMERICAN SIGN LANGUAGE COURSES (ASL)

- ASL 1141 American Sign Language I (3)**
Initial course in the four-course sign language developmental sequence which exposes students to American Sign Language at a Survival Level and will increase their knowledge of Deaf Culture. The course is designed for students who have had no previous knowledge of sign language.
- ASL 1142 American Sign Language II (3)**
The second course in the ASL sequence in which students continue to develop ASL proficiencies in lexicon, sign production, use of sentence types, and grammatical features such as use of classifiers, use of space to compare and contrast, mouth morphemes, and locatives. Outside interaction with the deaf community is required.
Prerequisite: ASL 1141 with a grade of "C" or better or departmental permission based on approved fluency assessment.
- ASL 1160 Visual/Gestural Communication (2)**
An overview of visual and gestural communication working toward the goal of being able to express and perceive non-linguistic information about everyday objects, family structure, employment and more complex concepts such as rights and responsibilities.
Prerequisites: ASL 1141 with a grade of "C" or better.
- ASL 1170 ASL Semantics and Structure (2)**
An advanced exploration of American Sign Language morphology, semantics and vocabulary expansion. Students also explore various syntactic structures in ASL.
Prerequisites: ASL 1141 with a grade of "C" or better.
- ASL 2230 ASL Classifiers and Depiction (2)**
This course provides theory and practice using the complex ASL morphology known as Classifiers, which are commonly used for descriptions of settings, participants and actions
Prerequisite: ASL 2241 with a grade of "C" or better
- ASL 2241 American Sign Language III (3)**
This course builds on skills and knowledge acquired in ASL I and II and focuses on building narrative skills. Students move from an informal to more formal style of signing. Interacting with the deaf community is a required activity. Students should be able to demonstrate intermediate to intermediate plus level conversational skills.
Prerequisite: ASL 1142 with a grade of "C" or departmental permission based on approved fluency assessment.
- ASL 2242 American Sign Language IV (3)**
This course builds on the previous ASL courses by increasing expressive and receptive skills with exposure to a wide variety of signing styles. Students will begin text analysis, be introduced to deaf literature, story-telling and signed poetry.

Prerequisite: ASL 2241 with a grade of "C" or better or departmental permission based on approved fluency assessment.

- ASL 2250 Advanced American Sign Language (3)**
This course provides students with opportunities to expand expressive and receptive use of ASL, including a variety of special topics at an advanced level. Special emphasis is on increasing spatial use, ASL fluency and nonmanual behaviors. Students are given opportunities to increase expressive and receptive skills through activities and class discussions, including a variety of special topics at an advanced level. Special emphasis is on understanding the importance of spatialization, nonmanual grammar and morphology, and discourse features of ASL such as register and academic language use.
Prerequisites: Sign Language Proficiency Interview rating of Intermediate Plus, or ASL 2242 with a grade of C or better, or permission of ITP Academic Advisor.
- ASL 2252 American Sign Language Fingerspelling (3)**
This course is taught using American Sign Language. The course will introduce the students to the American manual alphabet of fingerspelling and its use within American Sign Language. The students will be given opportunities to demonstrate increased ability to accurately produce and comprehend ASL number systems and fingerspelling uses. Extensive drills and practice in both receptive and expressive use will be implemented.
Prerequisites: Sign Language Proficiency Interview rating of Intermediate Plus, or ASL 2242 with a grade of C or better, or permission of ITP Academic Advisor.
- ASL 3310 Deaf Culture and Diverse Populations**
An exploration of linguistic, social, and ethnic factors that influence attitudes and beliefs among various segments of both deaf and non-deaf communities. Attention will be paid to "deaf plus" populations that simultaneously identify as both deaf and some other socio-cultural identity. Geographical, generational, ethnic, and gender differences are explored.
Prerequisites: ITP 2200 and ASL 2242 with grades of "C" or better

- ## BIOLOGY COURSES (BIO)
-
- BIO 1100 Principles of Biology (3)**
Biological principles including the evolution of life, cell structure and function, human biology, cell reproduction, heredity, and ecology. Credit for this non-majors course cannot be applied toward any curriculum in biology.
Co-requisite: BIO L100.
- BIO L100 Principles of Biology Lab (1-2)**
Labs include coverage of scientific methods, measurements, microscopy, cell structure, human biology, cell reproduction, heredity, and ecology. Credit for this non-majors course cannot be applied toward any curriculum in biology.
Co-requisite: BIO 1100.
- BIO 1101 Organismal Biology (3)**
Biological concepts and life processes of protists, fungi, plants, and animals.
*Prerequisites: BIO 1100/L100.
Co-requisite: BIO L101.*
- BIO L101 Organismal Biology Lab (1-2)**
Survey of organisms from selected phyla, including anatomy, phylogeny, and life histories.
*Prerequisites: BIO 1100/L100.
Co-requisite: BIO 1101.*

- BIO 1120 Survey of Environmental Sciences (3)**
This course is an overview of the Earth's abiotic and biotic systems with an emphasis on how human activity influences these systems. Included in this course will be lectures on ecology, environmental health, natural resources, energy, pollution, and environmental monitoring. If a student drops the lab (BIO L120), then the student MUST also drop the lecture (BIO 1120).
Co-requisite: BIO L120.
- BIO L120 Survey of Environmental Sciences Lab (1)**
This course includes Lab/Field-oriented experiences designed to enhance understanding of environmental concepts and issues. If a student drops the lecture (BIO 1120), then the student MUST also drop the lab (BIO L120).
Co-requisite: BIO 1120.
- BIO 2205 Career Opportunities in Medicine and Allied Health Professions (1)**
An introduction to medicine and allied health professions, including academic requirements, job opportunities, and future trends. Professionals from different fields will discuss their specialties to provide students with realistic perspectives.
- BIO 2220 Principles of Cell Biology (3)**
Introduction to cell structure and function with emphasis on organelle structure, metabolism, cell cycle, genetics, and gene function.
Prerequisites: BIO 1100/L100, CHM 1142/L142. Credit will not be given toward major/program if taken at same time or after BIO 3320 and BIO 4482.
- BIO L220 Principles of Cell Biology Lab (1)**
Laboratory studies of cell biology with an emphasis on cell structure, function, experimental techniques, and data collection and analyses.
Prerequisite: BIO 1100/L100. Credit will not be given toward major/program if taken at same time or after BIO L320 and BIO L482.
- BIO 2229 General Ecology (3)**
The relationships of living organisms to one another and to the nonliving environment. Basic ecological concepts with the emphasis on bioenergetics, limiting factors, adaptation to a changing environment, the niche, ecological pyramids, and succession.
Prerequisites: BIO 1101/L101. Co-requisite: BIO L229.
- BIO L229 General Ecology Lab (1-3)**
Introduction to the terminology, procedures and equipment for sampling biotic and abiotic components of ecosystems, the functional and dynamic features of ecosystems, and biotic interactions.
Prerequisites: BIO 1101/L101. Co-requisite: BIO L229.
- BIO 2272 Non-Majors Microbiology (3)**
To introduce students to basic concepts of microbiology; including anatomy and growth of bacteria, microbial metabolism, diseases caused by them, and interrelationships of micro-organisms with the environment/host. The emphasis of the course will be on medical microbiology, disease control and public health.
Corequisites: BIO L372
- BIO 3307 Invertebrate Zoology (3)**
Major and minor phyla of invertebrates with emphasis on anatomy, classification, life histories, and phylogeny.
Prerequisites: BIO 1101/L101. Co-requisite: BIO L307.
- BIO L307 Invertebrate Zoology Lab (1-3)**
Anatomy, classification, and life histories of invertebrates.
- Prerequisites: BIO 1101/L101. Co-requisite: BIO 3307.*
- BIO 3315 Introduction to Biostatistics (4)**
An important part of the scientific process consists in extracting information from the world by gathering and analyzing data. This course is an introduction to experimental design, data handling skills, and statistics, the three cornerstones of what could be called the "data science triangle.." In addition to the introduction of fundamental concepts such as probability, P-value and confidence interval, a selection of commonly used parametric and non-parametric statistical tests is presented.
Prerequisites: BIO 1101/ BIO L101, and MTH 1112 or higher
- BIO 3320 Genetics (3)**
Principles of heredity, from basic Mendelian concepts through molecular genetics.
Prerequisites: BIO 2220/L220 and CHM 1143/L143.
- BIO L320 Genetics Lab (1)**
Basic laboratory techniques in genetics, including the genetics of common laboratory organisms.
Prerequisites: BIO 2220/L220 and CHM 1143/L143.
- BIO 3325 Plant Form and Function (3)**
The development, structure, and function of plant tissues and organs. Primary emphasis on anatomical, morphological, and physiological features of angiosperms.
Prerequisites: BIO 1101/L101. Co-requisite: BIO L325.
- BIO L325 Plant Form and Function Lab (1-3)**
The development, structure, and function of plant tissues and organs, with the primary emphasis on structures.
Prerequisites: BIO 1101/L101. Co-requisite: BIO 3325.
- BIO 3328 Environmental Pollution and Control (3)**
Sources, effects, and methods of control for air, water, land, and noise pollution.
Prerequisites: BIO 2229/L229, CHM 1143/L143. Co-requisite: BIO L328.
- BIO L328 Environmental Pollution and Control Lab (1-3)**
Field and laboratory techniques for air, water, land, and noise pollution.
Prerequisites: BIO 2229/L229, CHM 1143/L143. Co-requisite: BIO 3328.
- BIO 3335 Biogeography (4)**
Discussion of historical, ecological, and anthropic factors affecting the worldwide distribution and abundance of biological species, communities and ecosystems. Combination of lectures by instructor, presentation by students and discussion of articles from the primary literature, ecological modelling, and field trips on the biogeography of plants and birds of Alabama.
Prerequisites: BIO 1100 and BIO L100 or permission of the instructor
- BIO 3340 Evolution (3)**
Evolution is the fundamental unifying theory in biology. The course will introduce the major principles of evolutionary biology such as evolutionary genetics, adaptation and natural selection, biological diversity, paleobiology and macroevolution.
Prerequisites: Junior standing or permission of instructor.
- BIO L342 Biotechniques (2)**
Laboratory studies of cell biology, genetics and molecular biology with an emphasis on

- instrumentation and lab techniques. Labs will include the investigation of cell anatomy/function, genetics and molecular biology
Prerequisites: BIO 22200
- BIO 3347 Human Anatomy and Physiology I (3)**
Anatomical terminology, a survey of cell types and tissues, and detailed coverage of the integumentary, skeletal, muscular, and nervous systems of humans.
Prerequisites: BIO 1100/L100, BIO 2220/L220, CHM 1142/L142.
Co-requisite: BIO L347.
- BIO L347 Human Anatomy and Physiology I Lab (1-3)**
Anatomical terminology, a survey of cell types and tissues, and detailed coverage of the integumentary, skeletal, muscular, and nervous systems of humans.
Prerequisites: BIO 1100/L100, BIO 2220/L220, CHM 1142/L142.
Co-requisite: BIO 3347.
- BIO 3348 Human Anatomy and Physiology II (3)**
The endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems of humans.
Prerequisites: a grade of C or better in BIO 3347/L347.
Co-requisite: BIO L348.
- BIO L348 Human Anatomy and Physiology II Lab (1-3)**
The endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems of humans.
Prerequisites: a grade of C or better in BIO 3347/L347.
Co-requisite: BIO 3348.
- BIO 3372 Microbiology (3)**
Fundamentals of microbiology including historical perspectives, anatomy and growth of bacteria, microbial metabolism, diseases caused by them, and interrelationships of microorganisms with the environment.
Prerequisites: BIO 1100/L100, BIO 2220/L220 and CHM 1142/L142 .
Co-requisite: BIO L372.
- BIO L372 Microbiology Lab (1-3)**
Fundamentals of microscopy, sterile techniques, staining procedures, isolation techniques, identification of unknowns, and biochemical tests.
Prerequisites: BIO 1100/L100, BIO 2220/L220, CHM 1142/L142.
Co-requisite: BIO 3372.
- BIO 3382 Immunology (3)**
The cellular and humoral system involved in the host response and immunity of organisms to foreign substances. Mechanisms of humoral immunity, cellular immunity, and hypersensitivities.
Prerequisites: BIO 3372/L372, CHM 3342/342.
Co-requisite: BIO L382.
- BIO L382 Immunology Lab (1-3)**
Analysis of immunological techniques used in research and clinical settings.
Prerequisites: BIO 3372/L372, CHM 3342/L342.
Co-requisite: BIO 3382.
- BIO 3386 Hematology (3)**
The study of blood cells and blood-forming organs under normal and diseased states.
Prerequisites: BIO 3320/L320, 3372/L372, CHM 3342/L342.
Co-requisite: BIO L386.
- BIO L386 Hematology Lab (1-3)**
Cytological and instrumental analyses of blood cells and blood forming organs. Hematological analysis of normal and diseased states. Introduction to blood-banking procedures.
Prerequisites: BIO 3320/L320, 3372/L372, CHM 3342/L342.
Co-requisite: BIO 3386.
- BIO 4405 Entomology (4)**
Orders of insects with the emphasis on morphology, taxonomy, and life cycles.
Prerequisites: BIO 1101/L101.
- BIO 4407 Advanced Cell Biology (3)**
Cell structure and function with the emphasis on biochemical and molecular mechanisms. Topics include cell division, movement, differentiation, and recognition.
Prerequisites: BIO 3320/L320, BIO 3372/L372, CHM 3343/L343
Co-requisite: BIO L407
- BIO L407 Advanced Cell Biology Lab (1)**
Experimental approaches for studying cells at the biochemical and molecular levels.
Co-requisite: BIO 4407
- BIO 4413 Limnology (3)**
The physical, chemical, geological, and biological aspects of freshwater ecosystems as influenced by activities in surrounding watersheds.
Prerequisites: BIO 2229/L229, CHM 1143/L143.
Co-requisite: BIO L413.
- BIO L413 Limnology Lab (1-3)**
Field and laboratory exercises in lake and stream science, including instrumentation, measurement, sampling, and analysis.
Prerequisites: BIO 2229/L229, CHM 1143/L143.
Co-requisite: BIO 4413.
- BIO 4414 Food Microbiology (3)**
This course focuses on topics in microbial metabolism, food spoilage, food preservation techniques, and foodborne pathogens and their control. Some molecular techniques will be introduced.
Prerequisite: BIO 3372/L372.
Co-requisite: BIO L414.
- BIO L414 Food Microbiology Lab (1)**
This lab focuses on advanced microbiological laboratory techniques including enumeration and analysis of bacteria in food, water, and dairy products.
Prerequisites: BIO 3372/L372.
Co-requisite: BIO 4414.
- BIO 4416 Microbial Ecology (3)**
A study of the diversity and ecology of microbial populations in ecosystems, with the emphasis on the roles they play in biogeochemical cycles, their contributions to metabolic diversity, their interactions with animals and plants, their niches and bioremediation.
Prerequisites: BIO 3372/L372, CHM 3342/L342.
Co-requisite: BIO L416.
- BIO L416 Microbial Ecology Lab (1-3)**
A study of the diversity and ecology of microbial populations in ecosystems, with the emphasis on the roles they play in biogeochemical cycles, their contributions to metabolic diversity, their interactions with animals and plants, their niches and bioremediation.
Prerequisites: BIO 3372/L372, CHM 3342/L342.
Co-requisite: BIO 4416.
- BIO 4418 Food Laws and Regulations (3)**
Introduction to federal, state and local laws pertaining to food safety and sanitation, proper food preservation and labeling, environmental and occupational regulations, Federal Trade Commission regulations, Kosher and Halal food laws, and topics in biotechnology.
Prerequisite: BIO 3372/L372.
Co-requisite: BIO 4414/L414.
- BIO 4420 Field Vertebrate Zoology (4-7)**
The basics of vertebrate identification, with emphasis on phylogeny, anatomy, morphology, life histories, habitats, distributions, and conservation.

- Prerequisites: BIO 1101/L101, CHM 1143/L143.*
- BIO 4421 Population Ecology (3)**
Animal and plant populations, food supply, competition, disease, fecundity, distribution, and other environmental factors. Management of endangered species and protected ecosystems are included.
Prerequisites: BIO 2229/L229, CHM 1143/L143, STAT 2210.
Co-requisite: BIO L421.
- BIO L421 Population Ecology Lab (1-3)**
Field exercises in identifying ecological problems, formulating and testing hypotheses, and evaluating data using standard statistical methods.
Prerequisites: BIO 2229/L229, CHM 1143/L143, STAT 2210.
Co-requisite: BIO 4421.
- BIO 4423 Neurobiology (4)**
This undergraduate course is a comprehensive study of the biology of the human nervous system. This course introduces the anatomy and physiology of the central and peripheral divisions of the nervous system. Topics include: neuronal function, synaptic transmission, sensory processing, movement, and clinical disorders of the nervous system.
Prerequisites: BIO 3348/L348, BIO 3372/L372
- BIO 4425 Field Botany (4-7)**
Survey of vascular plants from different habitats in southeast Alabama. Principles of plant taxonomy, including history and systems of classification and nomenclature, the use of dichotomous keys, and general herbarium techniques. Emphasis is placed on plant identification and habitat types.
Prerequisites: BIO 2229/L229.
- BIO 4431 Human Genomics and Bioinformatics (3)**
The course will introduce the students to the field of genomics, how genome sequence data is obtained and analyzed, what can be learned from an individual's genome, how mining the genome can uncover the basis of disease susceptibility and treatment of many human diseases. The course will introduce students to a variety of NCBI- and web-based computational tools for solving common problems in biological research and address cutting-edge research in epigenetics, pharmacogenomics, genetic testing, genome editing, and microbiome.
Prerequisites: BIO 3320/L320
- BIO 4437 Epidemiology (3)**
The course is aimed to provide knowledge about the main concepts of epidemiology, ethics in epidemiological research, the epidemiological definitions of association and frequency, the measurements of disease frequency, mortality data, and health impacts, descriptive and analytical studies, surveillance and prevention, outbreak investigations, the aspects of air and water pollution, the risk assessment and precautionary principle the basics of radiation biology and the growing importance of ecological studies and environmental epidemiology in public health.
Prerequisite: BIO 3372/L372
- BIO 4438 Advanced Biostatistics (3)**
This course aims at introducing a range of powerful statistical methods applicable to many research problems in Biology and indispensable to the toolbox of researchers, including generalized linear models, linear mixed-effect models, and model selection. In addition, the course will develop the student's ability to manipulate, analyze, and visualize real-world complex data sets using the statistical software R.
Prerequisites: Bio 3315 or a demonstrable solid knowledge of basic statistics and at least some basic knowledge of the statistical software R.
- BIO 4440 Plants of Social Significance (3)**
Plants which affected or altered history with emphasis on those which are the source for food, medical, and cultural drugs, beverage production, and poisonous plants.
- BIO 4447 Ornithology (4)**
Ecology, evolution, and conservation of birds. Topics include origin and diversification of birds, seasonal migrations, bird communities, and the consequences of global change for bird diversity. Labs are integrated and include field trips for the observation and identification of birds.
Prerequisites: BIO 1101/L101, 2229/L229, or permission of the instructor.
- BIO L447 Ornithology Lab (1-3)**
Diversity, classification, and field identification of birds (birdwatching).
Prerequisites: BIO 1101/L101, 2229/L229.
Co-requisite: BIO 4447.
- BIO 4451 Toxicology (3)**
Principles related to the adverse effects of chemicals on living organisms.
Prerequisites: CHM 3342/L342, and BIO 3348/L348.
- BIO L451 Toxicology Lab (1-3)**
Assessment of the toxicity of chemical agents following standard protocols.
Prerequisites: CHM 3342/L342 and BIO 3348/L348.
- BIO 4455 Clinical Pathophysiology (3)**
An objective-oriented, problem-solving introduction to general disease processes including mechanisms of health and disease, disorders of organ systems, and developmental disorders.
Prerequisites: CHM 3352/L352, BIO 3348/L348, BIO 3372/L372.
Co-requisite: BIO L455.
- BIO L455 Clinical Pathophysiology Lab (1)**
This course addresses normal and abnormal macroscopic and microscopic structures, provides students with the opportunity for detailed study of various aspects of pathology, understanding of basic specimen collection, labeling, handling protocols practical, and theoretical basis for laboratory test selection and interpretation.
Prerequisites: CHM 3352/L352, BIO 3348/L348, BIO 3372/L372.
Co-requisite: BIO 4455.
- BIO 4456 Virology**
This course is aimed to provide knowledge about viruses and their both harmful and potentially beneficial properties for human health, as well as viral diseases of veterinary and agricultural importance. Students will study classification and nomenclature of viruses, their structure, virus structure, virus-cell interaction, virus replication cycles; attachment and entry of viruses into cells, assembly and exit of virions from cells. Students will learn about viruses that are associated with enteric and respiratory diseases, nerve system disease, sexually transmitted diseases, cancers and blood malignancies, zoonoses and emerging human viral infections as well as viral diseases of veterinary and agricultural importance.
- BIO 4460 Critical Issues in Environmental Management (3)**
An examination of the scientific social economic and political factors that contribute to environment controversies, along with approaches for resolving disputes.

- Prerequisites: BIO 2229 and BIO L229*
- BIO 4465 Occupational Safety and Health (3)**
A study of practical information occupational safety and health technology, management, and regulatory compliance issues and covering crucial topics like an introduction to industrial hygiene; organizing, directing, and evaluating occupational safety programs; and safety-related laws, regulations, and recordkeeping.
Prerequisites: BIO 1100 and SCI 2233.
- BIO 4471 Parasitology (3)**
Taxonomy, structure, life histories, distribution, pathogenesis, and control of parasitic protozoa, helminths, and arthropods, with the emphasis on those of medical importance.
Prerequisites: Any 3000-level biology lecture and lab.
Co-requisite: BIO L471.
- BIO L471 Parasitology Lab (1-3)**
Laboratory study of parasitic protozoa, helminths, and arthropods, with the emphasis on those of medical importance.
Prerequisites: Any 3000 level biology lecture and lab.
Co-requisite: BIO 4471.
- BIO 4474 Internship in Biology Education (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience.
Prerequisite: admission to TEP.
Co-requisite: SED 4454 Internship Seminar for Secondary Education.
- BIO 4476 Special Topics in Biology (1 to 4 credit hours per course per semester)**
Specialized topics not generally included in course offerings.
Prerequisite: Permission of instructor.
- BIO 4479 Environmental Assessment (3)**
An examination of theory and practices required in performing stream environmental assessment as currently practiced by state and federal agencies in their attempt to preserve biological integrity. Sustainable management of natural resources and a systems approach to environmental problem solving will be emphasized. Topics covered include water quality, habitat assessment, indicator species used in ecological inventory with a concentration on macro invertebrate and fish assemblages, and the index of biological integrity.
Prerequisites: BIO 1101/L101 and BIO 2229/L229.
Co-requisite: BIO L479.
- BIO L479 Environmental Assessment Lab (1-3)**
Laboratory instruction and hands-on field training regarding stream environmental assessment as currently practiced by state agencies in their attempt to preserve biological integrity. Topics covered include measurement of water quality, habitat, and practice sampling techniques, with a concentration on fish and macro invertebrate assemblages. In addition, students will learn the use of the index of biological integrity using their own collections of fish assemblages.
Prerequisites: BIO 1101/L101 and BIO 2229/L229.
Co-requisite: BIO 4479.
- BIO 4480 Histology (3)**
Microscopic anatomy and function of cell types and tissues of mammalian organs.
Prerequisites: BIO 1101/L101, BIO 3347/L347, BIO 3348/L348.
Co-requisite: BIO L480.
- BIO L480 Histology Lab (1-3)**
Microscopic anatomy of cell types and tissues of mammalian organs.
Prerequisites: BIO 1101/L101, BIO 3347/L347, BIO 3348/L348.
Co-requisite: BIO 4480.
- BIO 4481 Methods and Materials for the Secondary Teacher (3)**
A survey of teaching methods and materials appropriate for teaching in the content areas for grades 6-12. Topics addressed will include teacher evaluation in the public schools, collaboration with special education teachers, and lesson planning formats. In addition, teaching methods, selections organization and use of biology/science materials for grades 6-12 will be covered in detail. A professional laboratory experience is included in this course.
Prerequisite: admission to TEP.
- BIO 4482 Molecular Biology (3)**
Fundamental principles of chromosomal organization and gene expression, with emphasis on the structure and function of nucleic acids and proteins.
Prerequisites: BIO 3320/L320, 3372/L372, CHM 3343/L343.
Co-requisite: BIO L482.
- BIO L482 Molecular Biology Lab (1-3)**
Experimental approaches in molecular analyses of nucleic acids and proteins, with the emphasis placed on common techniques utilized in clinical and research settings.
Prerequisites: BIO 3320/L320, 3372/L372, CHM 3343/L343.
Co-requisite: BIO 4482.
- BIO 4484 Senior Seminar in Biological & Environmental Sciences (1)**
The senior seminar course integrates knowledge, skills, and concepts acquired in departmental courses. The course is designed to help seniors to 1) prepare for the transition from college to career through a field-related project, and 2) complete a program assessment.
Pre-requisite: senior standing.
- BIO 4485 Principles and Methods for the Laboratory Assistant (1-2)**
This course will provide each student with significant “hands on” experiences in laboratory preparation and laboratory safety. Students will work under the direct mentorship and supervision of the course instructor and will be trained in preparation techniques and organization of laboratory exercises in the biological sciences. (*Students seeking one (1) semester hour credit will be required to assist in one laboratory course. Students seeking two (2) semester hours credit will be required to assist in two laboratory courses or laboratory courses with multiple sections.*)
Prerequisite: Good standing as a student in the department, advisor/departmental approval, interview.
- BIO 4488/89/90 Internship in Biological or Environmental Science (1 to 3 credit hours per course per semester)**
Supervised work experience in the biotechnology industry, medical field, a governmental agency, business or industry, public service organization, food production or food service industry, or other working environment in which a student will learn and apply pertinent professional skills.

Prerequisites: Approval of the student's academic adviser and department chair. Internship may only be taken for a maximum of six (6) semester hours.

BIO 4491-92 Guided Independent Research (1 to 3) credit hours per course per semester)
Additional information is indexed under Independent Study and Research.

BIO 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)
Additional information is indexed under Independent Study and Research.

BUSINESS COURSES (BUS)

BUS 1101 Introduction to Business (3)
Topics covered include management, the free enterprise system, accounting, finance, marketing, economics, international business and other business concepts and terminology. This course may not be taken for credit by business majors.

BUS 1110 Orientation to Sorrell College of Business (1)
This course introduces students to the Sorrell College of Business by providing overviews of its degree programs, the GEEKS program, technology utilized in the College of Business, and other resources to ensure success throughout a student's time in the college.

BUS 1120 The Global Challenge (3)
The Global Challenge will help prepare superior students for thinking globally. This course is as much about how to study and think about global problems and relationships as it is a course about specific global issues. Superior Students will be required to participate in a service learning project during the semester. There will be several options available to students to travel or work locally on international projects.

BUS 1121 Honors the Global Challenge (3)
The Global Challenge will help prepare superior students for thinking globally. This course is as much about how to study and think about global problems and relationships as it is a course about specific global issues. Superior Students will be required to participate in a service learning project during the semester. There will be several options available to students to travel or work locally on international projects.
Prerequisites: SCOB Global Scholar and permission of the associate dean.

BUS 2220 Business Writing (1)
Analysis and composition of business and personal communications including mechanics and content of letters and memoranda. In this course, students will learn techniques for clarifying purpose, understanding readers, and organizing ideas.
Prerequisites: ENG 1102 or 1104 and BUS 1110

BUS 3310 Intermediate Excel (1)
A computer application course in which business students use common business spreadsheet software to design and implement solutions to common business problems and issues.
Prerequisite: Lower-level core.

BUS 3330 Professional Development (1)
This course is designed to provide practical career development skills, build meaningful relationships and provide the student with instruction on general principles of oral communication in classroom and other professional situations, organization of information, and different types of oral presentations. Students will learn how to brand themselves using social media; acquire communication, social influence, and genuine networking skills; and develop an understanding of how to succeed in any workplace.

Prerequisite: BUS 2220

BUS 3382 Business Communication (3)
Analysis and composition of business and personal communications including mechanics and content of letters and memoranda.
Prerequisite: ENG 1102 or 1104 and Lower-Level Business Core Classes.

BUS 4425 Special Topics in Business (3)
Special topics in areas offered by the Sorrell College of Business. Prior credit and topic approval by the Associate Dean of Sorrell College of Business required.
Prerequisite: Lower-level core.

BUS 4450 Global Leadership Experience (3)
Global Leadership Experience is a course developed to help improve the understanding of global citizenship and provide an opportunity to use leadership skills to create a transformative experience for superior students. This class allows students to interact with and learn about new cultures. A ten-day trip which is the integral experiential learning part of this class.
Prerequisite: Lower level core, junior standing, completion of at least 12 hours of the business core.

BUS 4451 Honors Global Leadership Experience (3)
Global Leadership Experience is a course developed to help improve the understanding of global citizenship and provide an opportunity to use leadership skills to create a transformative experience for superior students. This class allows students to interact with and learn about new cultures. A ten-day trip which is the integral experiential learning part of this class.
Prerequisite: Lower level core, junior standing, completion of at least 12 hours of the business core.

BUS 4474 Business and Society (3)
This course focuses on the interrelationships between business organizations and the social, economic, political, and cultural environments in which business organizations function, both nationally and globally. Among other topics, the course will address business ethics, organizational culture and values, social responsibility, and relationships with government, education, and labor unions. This course will be a primary course in which business ethics, and the essential role that ethics must occupy in corporate life, both from national and international perspectives. Particular emphasis will be placed on the concepts of corporate social responsibility (CSR) and sustainability, both nationally and internationally, as essential dimensions of business ethics. What it means to be a good corporate citizen will be a primary theme of this course.
Prerequisite: BUS 3382 or BUS 3330 and Senior Standing

BUS 4476 Strategic Management (3) (capstone)
Capstone course for business majors. Integrates knowledge, skills, and concepts acquired in all business courses taken. Requires students to analyze various corporations, determine threats and opportunities posed by the external environment as well as the firm's strengths and weaknesses, formulate strategic plans for firms, and determine how these plans should be implemented.
Prerequisites: senior standing; completion of or concurrent enrollment in remaining business core courses.

BUS 4480 Business Seminar (3) (capstone)
The purpose of this course is to strengthen the student's competencies in each of the major functional areas of business, including accounting, finance, global/international and business ethics issues. The course focuses on an application and

understanding of business via case studies and experiential activities.
Prerequisite: Senior standing.
Co-requisite: Recommended that this course be taken concurrently with the BSBA capstone course, BUS 4476.

BUS 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)

Additional information is indexed under Guided Independent Research and Study.
Note: This course may not be substituted for any required course. Also see index for "Independent Study and Research."

BUS 4499 General Business Internship (3)

The General Business Internship provides students with the opportunity to gain real-world work experience in their field of study. Students gain practical, professional experience in conjunction with academic development under the supervision of both a faculty member and a supervisor within an organization. A written request must be submitted to the department chair at least two weeks in advance of the semester or term in which the study is to be undertaken.

Note: This course may not be substituted for any required course. Students may earn no more than 6 hours of internship credit.

Prerequisite: Junior or senior standing, department chair approval.

Note: This course may not be substituted for any required course.

CO-OP COURSES

COOP 3350 Cooperative Education Program

Cooperative Education Programs, or Co-ops, are an extension of the classroom and provide students with experiential, hands-on learning prior to graduation. Co-ops provide the deepest level of industry training and experience, allowing students the opportunity to develop the skills needed to excel in the workplace immediately upon graduation. Co-op will run a full semester or term and are paid, full time positions at a university-approved employer. Students must commit 2-3 semesters/terms to co-op, which will alternate with traditional semesters/terms of study. This class will have a mid-semester and end of semester evaluation. Only one out of the two to three co-op semesters may take place in summer.

Prerequisites: Minimum GPA of 2.5 overall, minimum of 12-semester hours of Troy University credit, approval by academic adviser, flat fee of \$250 per semester

Co-requisite: Contact with co-op coordinator

CROSS DISCIPLINE COURSES (CDC)

Please consult the index of this catalog to locate additional information regarding cross discipline courses and/or experiential learning credit.

CHINESE COURSES (CHI)

CHI 1101 Introductory Chinese I (3)

Introduction to the Chinese language.

CHI 1102 Introductory Chinese II (3)

Introduction to the Chinese language.

Prerequisite: CHI 1101 or permission of instructor.

CHI 2201 Intermediate Chinese I (3)

Progressive development of basic language skills in Chinese.

Prerequisite: CHI 1102 or permission of instructor.

CHI 2202 Intermediate Chinese II (3)

Progressive development of basic language skills in Chinese.

Prerequisite: CHI 2201 or permission of instructor.

CHI 3310 Chinese Culture and Civilization (3)

Introduction to historical and current Chinese culture and civilization.

NOTE: Previous Chinese language study not required.

CHI 4493/94 Guided Independent Study (1-3)

Additional information is indexed under Independent Study and Research.

CHEMISTRY COURSES (CHM)

CHM 1115 Survey of Chemistry (3)

The course will provide an overview of some of the basic concepts and principles of chemistry. Starting with the structure of the atom, the course will proceed on to basic chemical reactions, the formation of ions, states of matter, chemical equilibrium, and chemical bonding, and will incorporate examples from the biological sciences.

Co-requisite: CHM L115.

CHM L115 Survey of Chemistry Lab (1)

The laboratory sessions will provide an overview of some of the basic concepts and techniques of general chemistry experiments. The students will conduct experiments that illustrate the concepts and principles learned in the Survey of Chemistry course lectures.

Co-requisite: CHM 1115.

CHM 1142 General Chemistry I (3)

Emphasis is placed on the periodic table and stoichiometry, including chemical properties, physical states, and structure.

Prerequisite: Pass MTH 1112 with at least a C (or a score of 0, 1, or 5 on the math placement exam).

Co-requisite: CHM L142.

CHM L142 General Chemistry I Lab (1)

Experiments dealing with the periodic table, atomic structure, the gas laws, and stoichiometry.

Co-requisite: CHM 1142.

CHM 1143 General Chemistry II (3)

Acid-base theory, solutions, chemical equilibria, thermodynamics, kinetics, and electrochemistry.

Prerequisites: CHM 1142/L142.

Co-requisite: CHM L143.

CHM L143 General Chemistry II Lab (1)

Experiments in acid-base theory, solutions, chemical equilibria, thermodynamics, kinetics, and electrochemistry.

Co-requisite: CHM 1143.

CHM 2242 Analytical Chemistry (3)

The theoretical principles of modern quantitative wet-chemical methods for determining composition and concentration with rigorous treatment of solution equilibria.

Prerequisites: CHM 1143/L143.

Co-requisite: CHM L242.

CHM L242 Analytical Chemistry Lab (1)

The practice of modern quantitative wet-chemical techniques in analytical chemistry.

Co-requisite: CHM 2242.

CHM 3342 Organic Chemistry I (3)

An introduction to the chemistry of carbon compounds that develops the theoretical principles underlying organic materials.

Prerequisites: CHM 1143/L143.

Co-requisite: CHM L342.

CHM L342 Organic Chemistry I Lab (1)

Experimental techniques and skills for preparing, manipulating, and reacting organic molecules.

- Co-requisite: CHM 3342.*
- CHM 3343 Organic Chemistry II (3)**
A continuation of CHM 3342 with emphasis on modern organic synthesis.
Prerequisites: CHM 3342/L342.
Co-requisite: CHM L343.
- CHM L343 Organic Chemistry II Lab (1)**
Experimental techniques and skills for preparing, manipulating, and reacting organic molecules.
Co-requisite: CHM 3343.
- CHM 3350 Principles of Physical Chemistry (3)**
An introduction to the principles of chemical thermodynamics, reaction kinetics and chemical equilibrium.
Prerequisites: CHM 3343; PHY 2253/L253; or PHY 2263/L263.
Co-requisite: CHM L350.
- CHM L350 Principles of Physical Chemistry Lab (1)**
Practical applications of thermochemistry, colligative properties, and reaction kinetics.
Co-requisite: CHM 3350.
- CHM 3352 Biochemistry (3)**
This course describes the molecular basis of life and discusses the structure, function and metabolism of proteins, carbohydrates, lipids and nucleic acids.
Prerequisites: CHM 3342/L342.
Co-requisite: CHM L352.
- CHM L352 Biochemistry Lab (1)**
This lab illustrates biochemistry lecture material and acquaints the student with biochemistry techniques and equipment.
Co-requisite: CHM 3352.
- CHM 3381 Physical Chemistry I (3)**
Theory and applications of thermodynamics, reaction kinetics, and transport properties with an emphasis on the description of ideal/non-ideal gases and solutions.
Prerequisite: CHM 3343; PHY 2253 and L253 or PHY 2263 and L263; MTH 1126.
Co-requisite: CHM L381.
- CHM L381 Physical Chemistry I Lab (1)**
Introduction to methods and techniques used in the physical chemistry laboratory, including experiments in calorimetry, phase equilibria, reaction kinetics, and transport properties.
Co-requisite: CHM 3381.
- CHM 3382 Physical Chemistry II (3)**
A continuation of CHM 3381 with an introduction to surface phenomena, quantum chemistry, and spectroscopy with an emphasis on properties of surfaces, atomic and molecular structure, molecular orbital theory, and photochemistry.
Prerequisite: CHM 3381.
- CHM L382 Physical Chemistry II Lab (1)**
A continuation of CHM L381 with an introduction to methods and techniques in computational chemistry and spectroscopy.
Prerequisite or Co-requisite: CHM 3382.
- CHM 4400 Special Topics in Chemistry (3)**
A study of topics of special interest, such as advanced physical chemistry, advanced analytical chemistry, advanced organic, group theory, surface chemistry, and colloid chemistry.
Prerequisites: CHM 2242, 3343.
- CHM 4403 Advanced Organic Chemistry (3)**
A more in-depth study of many of the topics studied in Organic Chemistry I and II. Topics include reaction mechanisms, synthetic methods, structure determination using spectroscopic techniques, and stereochemistry.
Offered only at Dothan.
Prerequisites: CHM 3343/L343.
- CHM 4420 Principles of Polymer Chemistry (3)**
An introduction to principles governing polymer synthesis, characterization, and the physical properties of polymers. Topics covered will include molecular weight distribution, polymer composition, characterizations, property-structure relationships, step-growth and chain-growth polymerization and copolymerization.
Prerequisite: CHM 3381.
- CHM L420 Principles of Polymer Chemistry Lab (1)**
Synthesis, characterization, and analysis of various polymers and copolymers.
Prerequisite or Co-requisite: CHM 4420
- CHM 4440 Travel Study in Chemistry (1-3)**
Supervised investigation of relevant topics in Chemistry through travel-study abroad or within the interior of the United States.
- CHM 4444 Advanced Inorganic Chemistry (3)**
Spectroscopy of inorganic molecules, detailed molecular orbital applications, descriptive chemistry of the transition elements, including organometallic and bioinorganic compounds.
Prerequisites: CHM 2242, 3381.
Co-requisite: CHM L444
- CHM L444 Advanced Inorganic Chemistry Lab (1)**
Preparation and characterization of inorganic compounds. Experience will be provided in techniques such as using a tube furnace and handling air-sensitive compounds with a glove bag and Schlenk line.
Co-requisite: CHM 4444.
- CHM 4445 Instrumental Analysis (3)**
The operating principles of modern analytical instrumentation for determining composition and concentration.
Prerequisites: CHM 2242, 3343; PHY 2253/L253; or PHY 2263/L263.
Co-requisite: CHM L445.
- CHM L445 Instrumental Analysis Lab (1)**
The practical application of select modern analytical instruments to qualitative and quantitative examination of matter. Considerable attention is given to the instrument and elementary electronics involved in each.
Co-requisite: CHM 4445.
- CHM 4452 Advanced Biochemistry (3)**
This course will present the reactions, regulations, and organization of metabolic pathways. It is a continuation of CHM 3352, with emphasis on carbohydrate metabolism, aerobic metabolism, lipid metabolism, and other advanced topics in biochemistry.
Prerequisites: CHM 3352.
- CHM 4474 Internship in Chemistry Education (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience.
Prerequisite: admission to TEP;
Co-requisite: SED 4454 Internship Seminar for Secondary Education.
- CHM 4481 Methods and Materials for the Secondary Teacher (3)**
A survey of teaching methods and materials appropriate for teaching in the content areas for grades 6-12. Topics addressed will include teacher

evaluation in the public schools, collaboration with special education teachers, and lesson planning formats. In addition, teaching methods, selections organization and use of chemistry/science materials for grades 6-12 will be covered in detail. A professional laboratory experience is included in this course.

Prerequisite: admission to TEP.

- CHM 4490 Internship in Chemistry (1-3)**
Supervised work experience in the biotechnology industry, governmental agency, business, or other working environment in which a student will learn and apply pertinent professional skills.
- CHM 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Additional information is listed under Independent Study and Research in the section on Academic Regulations.
- CHM 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)**
See index for "Independent Study and Research."
- CHM 4499 Senior Seminar (1)**
Principles of preparing and presenting an oral presentation on a selected chemical topic in the current literature.

CRIMINAL JUSTICE COURSES (CJ)

Note: CJ 1101 Introduction of Criminal Justice and Criminology, is a prerequisite for all 3000 and 4000 level Criminal Justice courses

- CJ 1101 Introduction of Criminal Justice and Criminology (3)**
Agencies and processes involved in the administration of criminal justice.
- CJ 2221 Survey of Law Enforcement (3)**
A survey of policing, covering developmental history, the system of law enforcement organizations in the U.S., personnel administration, police roles and behavior, operations, and major issues such as discretion, civil liability, risk, and excessive force.
- CJ 2231 Survey of Corrections (3)**
Philosophy, theory, and practices involved in the treatment of convicted law violators, the examination, and the appraisal of the effects of correctional treatment upon post-correctional behavior.
- CJ 2241 Survey of Law and Criminal Procedure (3)**
An examination of the American legal system with emphasis on the analysis and processing of criminal offenses, including an examination of constitutional criminal procedure concerning arrest, pre-trial and trial processes.
- CJ 3302 Criminal Justice Administration (3)**
A survey of public administration as it applies to criminal justice organizations. The major dimensions of criminal justice organizations examined include organizational theory, organizational design, leadership and decision making, interpersonal and organizational communication, human resource management, legal aspects of administration, financial management, and organizational change.
- CJ 3305 Crisis Management (3)**
This course provides an overview of methods used to identify, plan for, mitigate, respond, and recover from a variety of events. The structure of the federal and state level crisis management and functions are considered along with the emergency support functions relied upon. Emphasis is placed on the roles and responsibilities of leadership during a crisis along with the framework of national, regional, and local response. The ability to understand and evaluate the phases of a crisis,
- continuity of government, and the private sector during incidents is also examined. Case studies, exercises, and discussions will be used to encourage critical review of the philosophy and principles of crisis management. This course addresses development of risk matrices, identification of threat and risk, crisis theory, stress management and the probability of crisis event occurrence.
- CJ 3308 Foundations of Intelligence (3)**
An intellectual foundation for the study of intelligence, both as it has been practiced through history and as it is currently practiced by different nations and other entities today.
- CJ 3309 Foundations of Home Security (3)**
An examination of the political and social complexities and dilemmas associated with state and local law enforcement and federal agencies roles in the defense of our nation subsequent to Sept. 11, 2001.
- CJ 3310 Psychology for Criminal Justice Officials (3)**
Behavior of subjects and police officers in normal and unusual conditions, arrest, interrogation, detention, incarceration, protest, demonstrations, riots, public calamities, reactions of special interest groups, minorities, and specialized tests.
- CJ 3325 Juvenile Justice (3)**
Provides a basic overview of the American juvenile justice system, beginning with the development of the juvenile court and addressing the jurisdiction, role, responsibilities, administration, and organization of the juvenile justice system. Also examined are the interfaces between police, schools, and the court, the issues of child abuse, and the operation of treatment programs.
- CJ 3335 Security Operations (3)**
An introduction to the administration of private security, the analog to the police in the public sector. Issues in private security concerning ethics, law, and policy, as well as administration, are considered.
- CJ 3348 Deviant Behavior (3)**
An examination of the various types of social behavior that violates norms (folkways, mores, and taboos). Special emphasis will be given to the social controls that regulate behavior and the causes and consequences of deviant acts.
- CJ 3349 Punishment (3)**
This course provides an overview of the how and why behind punishment. Looking at social and criminological theories students will examine various interpretations and justifications for punishment to include various legal decisions.
- CJ 3350 Gangs (3)**
An examination of the nature and extent of gangs and gang crime in the United States and around the world.
- CJ 3352 Constitutional Law in Criminal Justice (3)**
Constitutional provisions which are relevant to criminal law and procedure, their construction and development through court interpretation, and their application in criminal proceedings.
- CJ 3365 Victimology (3)**
This course provides an opportunity for the student to gain an understanding of the crime victim's position and issues with the criminal justice system. Specifically, trends, applied responses to victimization, offender-victim relationships, typologies, measuring victimization, and prevention are examined.
- CJ 3367 History of Criminal Justice (3)**
Upon completion of the course the student must have demonstrated his/her knowledge of criminal justice systems from approximately 1700 B.C. to the present. With that knowledge and

- comprehension, the student should be able to analyze and apply lessons learned from that historical context to current situations in the United States Criminal Justice System.
- CJ 3375 Research Methods (3)**
Principles of pure and applied research for the social sciences. Special emphasis is given to the types of research methods employed by social scientists including survey techniques, field research, quasi-experimental designs and analytical procedures currently used in the social sciences.
Prerequisite: General studies math, ENG 1102 or 1104
- CJ 3376 Criminal Justice Statistics (3)**
A detailed description of what social scientists do with the information they gather. Particular attention is given to descriptive and inferential statistics, the relationship between research and policy, evaluation research, and research ethics.
Prerequisite: General studies math.
- CJ 3380 Digital Forensics I (3)**
Basic course designed to introduce the students to identifying and collecting digital data, analyzing the data through the use of forensics tools (hands on) and presenting it in a written report.
- CJ 3382 Social Media Investigation (3)**
The Study of social media and its affects and uses in law enforcement field. The proper way to forensically acquire and preserve social media evidence for use in litigation.
- CJ 4405 National Security and the Law (3)**
A historical and legal exploration of national security law in the United States.
- CJ 4406 Transnational Organized Crime (3)**
A critical examination and analysis of major issues, definitions, and controversies associated with organized and transnational organized crime in a modern world. Historical, criminological, and sociological aspects of crime across national and international borders will be studied and researched. Various groups in transnational organized crime will be studied as they impact continents, countries, and globalization.
- CJ 4407 Homicide (3)**
This course is an examination of Homicide and its investigation. Topics will include types of homicide as well as death by natural and accidental cause. The course will review and expand on investigative theory, collection and preservation of evidence, sources of information, interview and interrogation, uses of forensic sciences and case and trial preparation.
- CJ 4408 Drugs, Alcohol, and Criminal Justice (3)**
This course is designed to explore relevant issues of alcohol and drug use, policy and abuse in American society and its relationship with crime and criminal justice.
- CJ 4411 Evidence (3)**
This course will provide the student with an overview of the rules of evidence applicable in criminal cases. The course will begin with an overview of the criminal trial process. Basic evidence concepts will then be explored, with particular emphasis placed upon the Federal Rules of Evidence. The course will then specifically focus on evidence concepts including, but not limited to: witness competency and impeachment, hearsay, admissions & confessions, circumstantial evidence, documentary & physical evidence and the exclusionary rule.
- CJ 4415 Correctional Systems and Practices (3)**
An examination of the day-to-day operations and practices in modern correctional facilities in the local, state, and federal systems.
- CJ 4420 Comparative Criminal Justice (3)**
A comparative examination of criminal justice systems throughout the world with specific attention given to legal and political systems, organization and methods of law enforcement, jurisprudence, correctional policies, and practices. Theoretical frameworks, models, and propositions addressing crime across various societies are also considered.
- CJ 4421 Ethics and Civil Liability (3)**
An introduction to concepts of ethics and an examination of contemporary ethical issues in the field of criminal justice including the conduct and ethics of criminal justice practitioners that give rise to civil liability and will focus on aspects of risk management to help prevent legal claims. The course will focus not only on the potential liability of police officers, corrections officers and other criminal justice practitioners for deprivation of civilians US Constitutional rights under state and federal law, but will also address officer's day to day dealings with civil law issues while performing duties mandated under criminal law.
- CJ 4425 Violence in America (3)**
In-depth study of violence, including types of violence, categories of offenders and victims, social consequences, and potential solutions.
- CJ 4430 Selected Topics in Criminal Justice (3)**
An examination of a criminal justice topic chosen for its current or special interest and importance and that is not given in-depth coverage in other courses; selection topics will vary with each course offering (although a particular topic may be offered more than once).
- CJ 4440 Terrorism (3)**
A critical examination and analysis of major issues, definitions, and controversies associated with the development of terrorism in the modern world. Historical, religious, and psychological and sociological aspects and explanations of terrorism will be covered, along with the characteristic means and methods terrorist groups employ.
- CJ 4442 Criminal Investigation (3)**
A detailed examination of what is necessary to investigate crimes, interview people using various methodologies to solve crimes and/or prepare a case for prosecution.
- CJ 4444 Community Corrections (3)**
An examination of the purposes and goals of community-based corrections and its various components, including pretrial diversion, probation, parole, and emerging alternatives to traditional incarceration.
- CJ 4445 Current Issues in Law Enforcement Operations and Administration (3)**
A detailed examination of applied concepts of leadership and problem solving in law enforcement operations and administrations. Special emphasis is attached to current problems surfacing in law enforcement.
- CJ 4446 Current Issues in Correctional Operations and Administration (3)**
A detailed examination of applied concepts of leadership and problem solving in corrections and administration. Special emphasis is attached to current problems surfacing in corrections.
- CJ 4447 Current Issues in Legal Systems Operation and Administration (3)**
A study of the critical issues and concepts involved in modern court administration, including the law governing the presentation of evidence in the trial of criminal cases, analysis of the role of law, and the courts in American Society.
- CJ 4455 Advanced Victimology (3)**

An examination of a criminal justice topic chosen from its current or special interest and importance and that is not given in-depth coverage in other courses.

Prerequisites: CJ 1101

- CJ 4456 Human Trafficking (3)**
Human trafficking is a course designed to help students gain a better understanding of contemporary human trafficking and modern-day slavery. Important terminology in this field, the different types of human trafficking that exist and an understanding of the scope of the problem, both domestically and globally will be explored. It will also discuss the physical, emotional, psychological, and spiritual trauma experienced by victims of human trafficking and the methods used for recruitment and control. The roles of government, the media, faith-based organizations, organized crime and culture will also be explored.
Prerequisites: CJ 1101
- CJ 4465 Criminal Justice Study Abroad (1-3)**
An introduction to study abroad programs with a comparative study of norms, culture, policing, courts, and punishment. Particular consideration is also given to travel advice and safety while studying abroad.
- CJ 4472 Cyber Crime (3)**
This course will introduce the topics of computer crime and computer forensics. Students will be required to learn different aspects of computer crime and ways to uncover, protect, and exploit digital evidence. Students will be exposed to different types of tools, both software and hardware, and an exploration of the legal issues affected by on-line and computer-related criminal conduct. The course will examine the evolution of criminal law relative to the development of new technology.
- CJ 4475 Seminar in Cyber Security (3)**
A capstone course designed to integrate subject matter learned in previous courses, encourage critical analysis of contemporary issues, and seek further information on testing and certifications beyond the university setting.
- CJ 4480 Digital Forensics II (3)**
In depth study and analysis of operating system artifacts, event log, html, web browsers...analyzing the data and presenting it in a written report.
Prerequisite: CJ 3380.
- CJ 4481 Operating and File System Forensics (3)**
Examination of common file systems and operating system artifacts. Students will learn general components of FAT and NTFS file systems and how data is stored. Explore artifacts from common operating systems such as Apple's OS X and Microsoft's Windows family. This course will explore the most commonly used file systems and operating system artifacts in preparation for real-world analysis and digital forensics.
- CJ 4482 Digital Evidence Practicum (3)**
Examine various techniques and procedures for law enforcement officers related to the forensically sound identification, seizure and collection of evidence through classroom study and practical exercises.
- CJ 4489-90 Internship in a Criminal Justice Agency (3)**
Experience in a selected criminal justice agency, working in groups or individually. Supervised application and observation of concepts, principles, skills, operation and functions of knowledge acquired by the student in previous or current course work and studies. Problems will be identified with attendant solutions in the areas of police work, the correctional agencies, or the court

systems as appropriate to the student's program of study.

Prerequisite: Criminal Justice Major, CJ 1101, CJ 2221, CJ 2231, CJ 2241; junior/senior classification; 3.0 cumulative GPA, 3.5 major GPA; consultation with department Internship Coordinator

- CJ 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.
- CJ 4493-94 Guided Independent Study (1 to 3 credit hours per course semester)**
Additional information is indexed under Independent Study and Research.
- CJ 4498 Criminological Theory (3)**
An examination of crime, overall and by category, and an examination of theories of crim causation, their research support and their impact on social policy, categories of crime, etc. The criminological theories covered will be classical, biological, psychological, economic, and multidisciplinary.
Prerequisite: CJ 1101, CJ 2221, CJ 2231, CJ 2241
- CJ 4499 Professional Seminar in Criminal Justice (3)**
This is a capstone course designed to (1) help seniors integrate the knowledge gained from their other required criminal justice courses, (2) assist them in developing analytical thinking skills through focusing on selected topics using a seminar approach, and (3) support them in gaining a better understanding of the criminal justice profession and the role they may play in it.
Prerequisites: Completion of all Criminal Justice core courses, Senior status or permission from instructor.

CLASSICS COURSES (CLA)

- CLA 2210 Greek and Roman Culture (3)**
A survey of the cultural achievements of the ancient Greeks and Romans.
- CLA 2260 Classical Mythology (3)**
Myths of the Greeks and Romans and their influence.
- CLA 2290 Classical Literature in English Translation (3)**
Greek and Roman masterpieces as expressions of humanity.
Prerequisites: ENG 1101, 1102.
- CLA 3311 Civilization of Greece (3)**
Historical and cultural achievements of the Greeks and their legacy to the modern world.
Note: May be taken for credit as an elective in the Department of History.
- CLA 3312 Civilization of Rome (3)**
Historical and cultural achievements of the Romans and their legacy to the modern world.
Note: May be taken for credit as an elective in the Department of History.
- CLA 3330 Classical Epic (3)**
Homer's *Iliad* and *Odyssey*, Virgil's *Aeneid*, and the epic tradition.
- CLA 3350 Classical Drama (3)**
The ancient theatre and its influence with selected plays by Greek and Roman playwrights.
- CLA 4400 Selected Topics in Classics (3)**
Selected topics in classical studies generally not covered in other courses.
May be repeated once for credit.
- CLA 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.

CLA 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)
Additional information is indexed under Independent Study and Research.

COMMUNICATION COURSES (COM)

- COM 1101 Introduction to Communication (3)**
This course surveys the historical and cultural impact of human and mass communication including newspapers, magazines, radio, television, sound recordings, motion pictures, and the internet. It features the inventions, innovators, and technology that have driven mass communication development since the introduction of the printing press. It also discusses social effects and ethical concerns of communication.
- COM 2231 Interpersonal Communication (3)**
Study of theories of communication behavior in relatively unstructured face-to-face situations, including small-group discussion.
- COM 2241 Fundamentals of Speech (3)**
This course is a study of the principles and practices basic to public speaking. This course is designed to enhance the student's verbal and non-verbal communication skills through oral communication theory and practical application.
- COM 2243 Honors Fundamentals of Speech (3)**
Study and application of the principles and practices basic to all areas of oral communication. As part of the university's Honors Program, the course is designed to achieve the student's leadership objectives through improved verbal and non-verbal communication skills by means of a focus on one substantive area of interest.
- COM 2251 Voice and Diction (2)**
Study of individual and group practice in the effective use and control of the mechanics of oral delivery with a focus on the "professional dialect" the general American dialect and/or the standard dialect. Includes use of the International Phonetic Alphabet.
- COM 3320 Interviewing and Information (3)**
Study of the principles and practices of professional and personal interviewing, with an emphasis on oral communication and related topics such as resume writing. In addition, the course will focus on gathering and analyzing information through discussion and practice of the techniques of online research, focus groups and opinion surveys.
- COM 3324 Gender Communication (3)**
This course examines the communication styles of males and females emphasizing gender-related communication behavior and its implications for the ability to maintain effective personal and professional relationships.
- COM 3326 Conflict Management (3)**
This course is designed to offer students opportunities to enhance and improve their communication techniques and skills in conflict management. The course teaches students communication methods to manage productively interpersonal disputes between/among parties. It emphasizes building partnerships and long-term positive relationships in the business world and in one's personal life.
- COM 3328 International/Intercultural Communication (3)**
This course is designed to introduce students to the basic concepts, principles, and skills needed for improving communication among persons from different minority, racial, ethnic and cultural backgrounds.
- COM 3341 American Public Address (3)**
Study of the history and rhetorical criticism of major American speakers and their speeches from the Colonial to the Contemporary periods, with references to their biographical, intellectual, political and social contexts.
- COM 3342 Argumentation and Debate (3)**
Study and application of the principles of argumentation and debate, including selected aspects of the management of a program of competitive forensics.
- COM 3345 Group Discussion and Leadership (3)**
Study and application of the principles and practices of group problem solving through the study of the dynamics of discussion and group leadership.
- COM 3365 Fundamentals of Speechwriting (3)**
This course gives a hands-on, detailed instruction in the art and skills of researching and writing solid speeches, including how to make points clearly and maintain the audience interest. Speechwriting is approached from the perspective of writing speeches for others and for yourself.
- COM 3380 Travel Study in Journalism and Communication (3)**
A Troy University faculty supervised study of journalism, communication and mass media through travel abroad or within the interior of the United States.
May be repeated once for credit.
Prerequisites: Permission of instructor.
- COM 4400 Special Topics in Communication Studies (1 to 3 credit hours)**
Examination of selected topics in communication studies not included in the established curriculum. Content may be of a historical, thematic, or technological nature.
May be repeated for credit.
- COM 4410 Communication Research (3)**
This course will help students develop critical thinking skills through an introduction to the concepts and principles of scientific research in communication and journalism. Some of the topics included in this class are the basics of identifying problems, hypothesis formation, measurement construction, validation, research designs, analysis techniques and proper interpretation of results.
Prerequisite: Must have Junior Standing or permission of instructor.
- COM 4420 Propaganda and Persuasion (3)**
This course will explore influence techniques in print, graphics, traditional media and social reality as they migrate to interactive spaces. The course will first examine the history and fundamentals of persuasion, influence, and coercion, and then look at how they have been adapted for use in today's interactive contexts. Throughout this course there will be a discussion of the relative ethics of using propagandistic/persuasive techniques for different purposes.
- COM 4422 The Rhetoric of the Civil Rights Movement (3)**
This course will focus on civil rights discourse and its relationship to equality and participation in the U.S. and other nations worldwide. Using the struggle of African Americans as an instructive exemplar, this course will examine the philosophical concepts, political issues, moral complexities, and discursive characteristics of civil rights rhetoric.
- COM 4424 Rhetorical and Communication Theory (3)**
This course presents an introduction to rhetorical theory and communication theory; students will gain experience in applying theoretical approaches to practical applications in criticism and analysis of

communication. Students will gain insights into how to communicate effectively in writing, visually and orally as well as how to analyze critically communication occurring in a wide array of contexts and for different purposes, from private and interpersonal settings to public and professional arenas.

COM 4426 Organizational Communication (3)

This course presents both historical and current perspectives on the origins and usefulness of organizational theory relating to communication issues; it emphasizes the relationship between organizational life and communication principles; and provides both theory and the opportunity for the practical application of communication skills in a variety of organizational settings.

COM 4430 Health Communication (3)

This course focuses on an examination of the nature, contexts, theories, and selected research shaping health care consumers understanding of health communication issues. It provides an overview of provider-recipient communication, communication in health-care organizations, and public health concerns as they relate to physical, mental, and social health issues.

COM 4441 Oral Interpretation (2)

A study and application of the principles and practices of oral interpretation (reading) of literature, including individual and ensemble performance.

COM 4460 Crisis Communications (3)

Prepares students for anticipating and managing perceived and real crises faced by communication.

COM 4491-92 Guided Independent Research (1 to 3 credit hours per course)

Additional information is indexed under Independent Study and Research.

COM 4493-94 Guided Independent Study (1 to 3 credit hours per course)

Additional information is indexed under Independent Study and Research.

COMPUTER SCIENCE COURSES (CS)

CS 2210 Applications of Computer Science (3)

This course provides students the concepts of data and techniques in data centric applications. The topics include but not limited to data entry, retrieval, preparation, analysis and visualization. Software tools are introduced to help the tasks.

CS 2220 Numerical Methods in Computing (3)

Introduces a broad range of mathematical problems and their applications in scientific computing using various numerical computation techniques. Topics include but not limited to numerical analysis, floating point arithmetic, computational algebra, iterative solution to nonlinear equations and interpolation.

Prerequisite: MTH 1112.

CS 2250 Computer Science I (3)

An introduction to the theory and development aspects of a high-level programming language. The course covers programming methodologies, control structures, predefined and user defined functions, input/output streams, control structures, logical expressions, enumeration, repetition, multidimensional array and string manipulation, structures, searching, sorting techniques, and advanced input/output. Program analysis, design, development, and testing are emphasized.

Prerequisite: MTH 1112.

CS 2255 Computer Science II (3)

A continuation of Computer Science I to include advanced programming techniques including classes and data abstractions, inheritance and composition, pointers, virtual functions, overloading, exception handling, and recursion. Students analyze, design, implement, and test complex programs.

Prerequisite: CS 2250.

CS 2265 Advanced Programming I (3)

Provides student the opportunity to gain experience and training in an additional high-level language. The course focuses on advanced topics including objects, structures, applets, graphics, exception handling, files, and streaming.

Prerequisite: CS 2255.

CS 3310 Foundations of Computer Science (3)

A broad perspective of computer science concepts intended as preparation for more in-depth coverage in higher-level courses. Topics include machine and assembly language programming, computer system organization and operation, logic circuits, finite-state diagrams and programming language grammar, Boolean algebra, and circuit design considerations.

Prerequisite: MTH 1112.

CS 3320 Business Systems Programming (3)

The study and application of a business-oriented programming language. Students apply a structured, multiphase program development process that features a series of steps involving understanding of problems, formal problem definition, design methodologies, program specification, and file definition as applied to business processing systems. The course includes the study and application of the following concepts: structured design methodology, divisions, arithmetic and intrinsic functions, decisions structures and logical control structures, iterative processes, case structure, error capture, batch processing, file manipulation, table manipulation, and interactive structures.

Prerequisite: CS 2255.

CS 3323 Data Structures (3)

A survey of data structures that includes lists, ordered lists, linked lists, stacks, queues and trees. Also included are measurement of program performance and how program performance is affected by alternative data structures. These concepts are presented within an object-oriented framework. Programming labs are included.

Prerequisite: CS 2255, MTH 1125, 2215.

CS 3325 Operations Research (3)

Introduction to operations research, linear programming, simplex-based sensitivity analysis and duality, linear programming applications, network models, simulation, waiting line models, Markov processes, forecasting, and inventory models.

Prerequisites: MTH 1125

CS 3329 Analysis of Algorithms (3)

Alternative techniques to solve computer science problems are presented. Problems include sorting, searching, and graph traversal, lists, ordered lists, linked lists, stacks, queues, and trees. These concepts are presented within an object-oriented framework.

Prerequisite: CS 3323.

CS 3330 Data Structures and Algorithms (3)

A course in fundamental data structures concepts and alternative techniques for solving real-world problems in computer science. Concepts and application covered include analysis of data representation and associated algorithms, including linked lists, queues, stacks, arrays, graphs, trees,

- searching, sorting, string matching, and the application of recursive techniques. The course will place an emphasis on the implementation of various algorithms and data structures.
Prerequisites: CS 2255, MTH 2201, 2215.
- CS 3331 Fundamentals of Artificial Intelligence (3)**
Approaches to the definition of artificial intelligence and to the design and implementation of intelligent computer systems. Topics include the Turing Test, Sourly; Chinese Room, blackboard systems, logic programming, knowledge based systems, scripts and schemas, and heuristic search techniques.
Prerequisite: CS 3323 or 3330.
- CS 3332 Software Engineering I (3)**
Topics are presented that focus on the design and development techniques for large high quality software systems. They include project management issues, analysis and design methods, and approaches to testing.
Prerequisite: CS 3323 or 3330.
- CS 3333 Introduction to Cryptography (3)**
Discussion of mathematical foundations to the theory of cryptography. Topics include information theory, number theory, cryptographic protocols and various algorithms.
Prerequisite: MTH 1125.
- CS 3334 Foundations of Cyber Security (3)**
Course provides an introduction to cyber security. Topics include security protocols and policies, basic cryptography, various kinds of cyber threats and defenses, secure software design, key management, attack modeling and risk analysis.
Prerequisite: MTH 1112
- CS 3336 Information Assurance (3)**
This course focuses on the managerial aspects of information security and assurance. Topics include access control model, information security governance and information security program assessment and metrics. Foundational and technical components of information security is discussed as well.
Prerequisites: CS 3325 and CS 3334
- CS 3347 Advanced Programming II (3)**
Provides student the opportunity to gain experience and training in an additional high level language. Topics include interactive techniques, arrays, multiple forms, data files and databases, grids, graphics, and custom objects. Emphasis is on finding creative solutions to application problems.
Prerequisite: CS 2255.
- CS 3360 Concepts of Object Oriented Programming I (3)**
Provides students the opportunity to gain experience and training in an additional high level language. The course focuses on advanced topics including classes, objects, interfaces, applications, encapsulation, exceptions, multithreading, graphics, exception handling, files, and streaming.
Prerequisite: CS 2255.
- CS 3361 Concepts of Object-Oriented Programming II (3)**
The conceptual framework for object-oriented programming and systems. Topics include classes, data hiding, modularity, inheritance, and reusable code presented through the use of some object-oriented language.
Prerequisite: CS 3360.
- CS 3365 Introduction to Computer Organization and Architecture (3)**
Organization and operation of computer systems are discussed. Topics include, but not limited to hardware components of digital computers, performance of computer systems, instruction set architectures, processor design, memory mapping and management and interrupt organization.
Prerequisite: CS 3310.
- CS 3370 Nature of Programming Languages (3)**
Basic principles and concepts of programming languages including what a programming language is, various paradigms that a language can follow, and how its syntactical and semantic structures can be specified. The traditional object-oriented paradigm will be presented as well as non-traditional paradigms based on symbolic logic (logic programming) and on functions in lambda calculus (functional programming).
Prerequisite: CS 3323 or 3330.
- CS 3372 Formal Languages and the Theory of Computation (3)**
Formal language theory, including the Chomsky hierarchy, is presented. Emphasis is placed on regular and context free grammars, finite state automata, and translators.
Prerequisite: CS 3323 or 3330.
- CS 3375 Foundations of Networking (3)**
An introduction to the principles of data communications and network systems. Topics to be addressed include standards, topologies, network management, LAN, WAN, Internet, basic communication protocols and introductory level network security.
Prerequisite: CS 3310. Students majoring in Applied Computer Science or in the Computer Science Program may not apply this course to the Cyber Security Minor or certificate. Credit will not count toward a major or minor in Computer Science.
- CS 4401 Advanced Artificial Intelligence (3)**
A continuation of Fundamentals of AI. A topic of research including logic programming, fuzzy sets genetic algorithms, artificial neural networks, or pattern analysis is included.
Prerequisite: CS 3331.
- CS 4410 Introduction to Machine Learning (3)**
The course introduces machine learning concepts, algorithms, and applications, topics covered included but not limited to regressions, clustering, decision tree, Bayesian learning, support vector machine, deep learning, feature reduction, hypothesis, bias, and model fitting. The course will discuss applications of machine learning with an emphasis on programming and real world problem solving.
Prerequisite: CS 3323 or CS 3330.
- CS 4420 Introduction to Database Systems (3)**
The fundamental concepts and structures necessary for the design and implementation of a database management system. Students design, load, and query a database using tools such as E-R diagrams and SQL. Also includes data normalization and file and index organization.
Prerequisite: CS 3323 or 3330.
- CS 4443 Web Application Development (3)**
Provides the essentials of Internet programming. Students will design and implement web applications utilizing various web technologies for the front-end and back-end development of the website. Applications will deal with many forms of data including graphics, audio, and video. Students use modern development tools and design methods to implement an enterprise web application.
Prerequisite: CS 3323 or 3330.
- CS 4445 Data Communication and Networking (3)**
Provides an overview of local-area and wide-area networked systems. Topics include but not limited to standards, topologies, management, and communication protocols. This course will discuss network systems with an emphasis on programming

- and real-world application development. This course involves hands-on projects.
Prerequisite: CS 3323 or 3330.
Students majoring in Applied Computer Science or in the Computer Science Program may not apply this course to the Cyber Security minor or certificate.
- CS 4447 Systems Analysis and Design (3)**
Study of the analysis of computer-based information systems. Emphasis is placed on analysis, specifications development, design, and development of information systems, including the software and databases that support the business needs of organizations. Both data-oriented and process-oriented design methods are covered. Topics include the systems analyst, the systems development life cycle, methodologies, development technology, systems planning, project management, systems analysis, systems design, systems implementation, and systems support.
Prerequisite: CS 3323 or 3330.
- CS 4448 Operating Systems (3)**
An overview of operating system functions and components. Issues include process definition, scheduling, and memory management. Various modern operating systems are compared.
Prerequisite: CS 3323 or 3330.
- CS 4449 Applied Networking (3)**
Provides an overview of computer networks and its use in industry environments. Topics include OSI model, TCP/IP, Ethernet, wireless network, client-server network, network hardware and software, network administration, application software, internetworking components, and key issues in network management.
Prerequisite: CS 3375 or CS 4445.
- CS 4451 Computer Security (3)**
Basic security concepts and principles applied to real-world applications. Introduces the major elements that go into a security implementation, including encryption, authentication, access control lists, execution control lists, vulnerability of operating systems, auditing, performing vulnerability analysis and risk assessment, developing a security plan and protecting data, systems and infrastructure. This course also builds on the fundamentals of reliability and safety engineering, which include software reliability, growth models, testing and stopping-rules, safety methods and redundancy.
Prerequisite: CS 3323 or 3330.
- CS 4452 Cyber Security Policies and Compliance (3)**
Course introduces the development of effective cybersecurity policies within the organization-wide cybersecurity framework. Topics including cyber law, cyber policy, intellectual property, privacy, professional responsibility, and global societal impacts.
Prerequisite: CS 3334.
- CS 4453 Ethical Hacking (3)**
Course provides an introduction to the principles, techniques, and tools of ethical hacking. Topics include information gathering and scanning, vulnerability analysis and exploitation. Emphasis is placed on hands-on and practical real world security threats and remedies.
Prerequisite: CS 3323.
- CS 4454 Secure Software Development (3)**
Focuses on a comprehensive understanding of what the secure software development is. Topics include but not limited to secure software programming concepts and techniques and its application to identify threats and vulnerabilities of software. In addition, students will have opportunities to apply secure requirement process to the secure software
- life cycle (SSDLC), including requirement specification, requirement analysis and architectural design.
Prerequisite: CS 3323.
- CS 4455 Cyber Security Techniques and Practices (3)**
This course introduces various tools and techniques used to secure computer systems. Topics include packet analysis with diagnostic software, firewall configuration, conduct forensic investigation, etc.
Prerequisite: CS 4445.
- CS 4461 Software Engineering II (3)**
This course is a continuation of Software Engineering I with additional topics that include software quality insurance and testing techniques. Students will design, implement and test a large project.
Prerequisite: CS 3332.
- CS 4462 Special Topics in Object-Oriented Programming (3)**
This course is a continuation of CS 3361. It presents the conceptual framework for the design of object-oriented systems. Topics include re-factoring designs and design patterns, presented through the use of some object-oriented language.
Prerequisite: CS 3361.
- CS 4499 Internship in Computer Science (1-3)**
The Computer Science Internship is a supervised work experience that provides students with the opportunity to gain applied work experience in their field of study.
Prerequisites: Chair's/Program Director's Approval Needed.
- CS 4480 Study Abroad in Computer Science (1-3)**
The Computer Science Study Abroad provides students with the opportunities to take computer science courses at universities overseas.
Prerequisites: Chair's/Program Director's Approval Needed.
-
- DANCE COURSES (DAN)**
-
- DAN 1112 Contemporary Technique I (2)**
Designed for the dance major, DAN 1112 is the study of beginning/intermediate Contemporary dance, including dynamic alignment, body/mind connection, increased vocabulary and musicality, with emphasis on artistry through the contemporary aesthetic.
Prerequisite: Placement.
- DAN 1115 Ballet Technique I (2)**
Designed for the dance major, DAN 1115 is the study of beginner/intermediate ballet technique, including safe and efficient alignment and clear articulation of movement vocabulary with emphasis on increased vocabulary and musicality.
Prerequisite: Placement.
- DAN 1130 Social Dance in the 21st Century (1)**
A cross-cultural survey of theories and styles of dance, their relationship to societal contexts and other art forms.
- DAN 1132 Beginning Contemporary for Non majors (1)**
Refinement of technical skills in contemporary/modern dance at the intermediate level, including intermediate movement capabilities, rhythmic structures, spatial relationships, movement vocabulary with emphasis on aesthetic and expressive qualities that lead to performance.
Prerequisite: Placement.
- DAN 1134 Ballroom Dance**
An introduction to social dancing with an emphasis on American ballroom dances (foxtrot, waltz,

- swing) and Latin ballroom dances (cha cha, mambo, tango). Equivalent to KHP 1134.
- DAN 1135 Beginning Ballet for Non-Majors (1)**
The development of technical skills in beginning ballet, including safe and efficient alignment and clear articulation of movement vocabulary with emphasis on increased vocabulary and musicality.
- DAN 1136 Jazz I (1)**
The study and application of the fundamental concepts, skills, movement vocabulary, and artistic expression specific to beginning jazz dance.
- DAN 1137 Tap I (1)**
Progressive development of beginning to low/intermediate movement concepts, skills, vocabulary, and styles specific to tap dance.
- DAN 1150 Creative Habit (1)**
A component of the Department of Theatre and Dance First Year Initiative program (FYI), Creative Habit is part of the introductory learning community established at the entry level for incoming theatre and dance students. Centering on Twyla Tharp's book *The Creative Habit*, the learning community examines strategies for successful studies in theatre and dance.
Co-requisites: THE 1130 and TROY 1101.
- DAN 2200 Orientation to Dance (2)**
Introduction to the basic concepts and principles common to ballet, contemporary and jazz dance through studio experience, discussions and concert attendance. This is a skills class.
- DAN 2212 Contemporary Technique II (2)**
Designed for the dance major, DAN 2212 is the study of intermediate modern, including dynamic alignment, body/mind connection, complex center and across the floor phrase work with increased vocabulary and musicality.
Prerequisite: Placement.
- DAN 2214 Pointe Ballet Technique I (2)**
Designed for the female dance major, DAN 2214 is the foundational study of pointe work technique using specially reinforced shoes called pointe shoes. Students will focus on Barre and center work that will introduce the foundation and basics needed to strengthen the student's legs and torso to overcome the demands of dancing in pointe shoes. The class will offer an increased vocabulary specific to dance on pointe.
- DAN 2215 Ballet Technique II (2)**
Designed for the dance major, DAN 2215 is the further development of technical skills in intermediate ballet, including dynamic alignment, body/mind connection, with emphasis on self-expression through the ballet aesthetic, increased vocabulary and musicality.
Prerequisite: Placement.
- DAN 2228 Contemporary Partnering (1)**
Designed for all skill levels, this class will focus on contemporary partnering and weight-sharing technique. The course will introduce special vocabulary vital to the enhancement of skills needed to become a complete and secure partner.
- DAN 2232 Beginning-Intermediate Contemporary for Non-Majors (2)**
Refinement of technical skills in contemporary/modern dance at the intermediate/high intermediate level, including complex movement capabilities, rhythmic structures, spatial relationships, movement vocabulary with emphasis on aesthetic and expressive qualities that lead to performance.
Prerequisite: Audition placement or permission of the Department of Theatre and Dance.
- DAN 2235 Beginning-Intermediate Ballet for Non-majors (2)**
Further development of technical skills in beginner/intermediate ballet, including dynamic alignment, body/mind connection, with emphasis on self-expression through the ballet aesthetic, increased vocabulary and musicality.
Prerequisite: Placement.
- DAN 2236 Jazz II (2)**
The study and application of the fundamental concepts, skills, movement vocabulary and artistic expression specific to jazz dance.
Prerequisite: Placement.
- DAN 2237 Tap II (1)**
Progressive development of intermediate to intermediate/high movement concepts, skills, vocabulary, and styles specific to tap dance.
Prerequisite: Placement.
- DAN 2240 Writing for Dance (2)**
This class will guide the student through a variety of ways to write for and about dance. From free writing to formal research, students will gain skills to think and write critically about dance as an artistic, cultural, educational, social art form.
Prerequisite: ENG 1102
Corequisite: DAN 4410
- DAN 2250 Music Fundamentals for Theatre and Dance (2)**
Fundamental music skills for theatre and dance, including those for musical theatre, stage management, dance, and actors. The course focuses on reading music (rhythm and melody), vocabulary, development of aural skills, and an introductory recognition of the piano keyboard.
- DAN 2252 Methods of Teaching Dance (3)**
Social, folk and square dancing, including basic rhythmic activities which can be taught in elementary, middle and high schools. Equivalent to KHP 2252.
- DAN 2289 The Dance Professional (1)**
A preparation course that provides upper-level students with the tools to launch their professional dance career and livelihood.
Prerequisite: Junior status
- DAN 3300 Musical Theatre Dance I (2)**
The exploration of the genre of musical theatre dance examining storytelling, script, music, and mood through movement. This course will focus on early American jazz and tap styles related to theatre production by working with selected pieces from the mid-20th century including that of Gene Kelly, Fred Astaire, Jerome Robbins, and other icons of this period.
Prerequisites: DAN 1135.
- DAN 3312 Contemporary Technique III (2)**
Designed for the dance major, DAN 3312 is the study of advanced modern dance, including dynamic alignment, body/mind connection, and increased vocabulary with emphasis on artistry through the contemporary aesthetic. Students will focus on complex center and across the floor combinations with an emphasis on musicality and a greater understanding of anatomical alignment.
Prerequisite: Placement.
- DAN 3314 Pointe Ballet II (2)**
Designed for the intermediate/advanced female dance major, DAN 3314 is the further development of pointe work technique using specially reinforced shoes called pointe shoes. Barre and center work will strengthen the student's legs and torso, increasing vocabulary, comfort, and ease of movement while dancing on pointe.
Prerequisite: Pointe Ballet I or Placement.

- DAN 3315 Ballet Technique III (2)**
Designed for the dance major, DAN 3315 is the further development of technical skills in advanced ballet, including dynamic alignment, body/mind connection, increased vocabulary, with emphasis on the qualities of self-expression and musicality which lead to performance.
Prerequisite: Placement.
- DAN 3330 Special Topics in Dance (1 to 3)**
Special topics in dance.
- DAN 3332 Intermediate Contemporary for Non- majors (2)**
Continued refinement of technical skills in contemporary/modern dance at the high intermediate/advanced level, including complex movement capabilities, rhythmic structures, spatial relationships, movement vocabulary with emphasis on aesthetic and expressive qualities that lead to performance.
Prerequisite: Placement
- DAN 3335 Intermediate Ballet for Non-majors (2)**
Further development of technical skills in advanced ballet, including dynamic alignment, body/mind connection, with emphasis on self expression through the ballet aesthetic.
Prerequisite Placement.
- DAN 3336 Jazz III (2)**
The study of the advanced concepts, skills, movement vocabulary and artistic expression specific to jazz. *Prerequisite: Placement.*
- DAN 3340 Dance Composition and Choreography I (2)**
An exploration of movement and an analytical study of the art of making dances. The course will concentrate on the four basic elements of composition: space, shape, time and energy.
Prerequisite: Permission of the Department of Theatre and Dance.
- DAN 3350 Conditioning (2)**
Designed to complement the dancer's regimen, DAN 3350 will focus on a hybrid conditioning experience to include pilates, yoga, floor barre, jogging, and swimming, improving the dancer's overall strength, stamina, flexibility and muscle tone and will assist in overcoming specific musculature weaknesses.
- DAN 3351 Men's Ballet Technique (2)**
Designed for male dance majors, the course will focus on the elements necessary for improving the vocabulary of the male dancer, such as jumps, turns, and line. The course will focus on dynamics necessary to increase speed, coordination, and elevation, especially as needed to execute big jumps. Anatomical placement, strength, and musicality will be the emphasis to build confidence in men's variations, in classical and contemporary styles.
- DAN 3352 Pas de deux (2)**
Designed for the intermediate dance major, DAN 3352 is the study of partnering technique. The course will focus on the elements needed for the female and the male dancer to develop a foundation for dancing together, progressing technically through promenades, lifts, turns, and jumps. The course will introduce special vocabulary that is used only in partnering which enhances the skills needed to become a complete and secure dancer.
- DAN 3353 Anatomy and Alignment (3)**
This course covers aspects of anatomy and kinesiology that directly apply to correct development of dance technique, emphasizing exercises and imagery for floor and center work to correct insufficient muscle patterns and is designed to give dance majors a practical, functional, and theoretical understanding of kinesiology such as identifying bony landmarks, muscles, and joint actions as well as injury prevention.
- DAN 3354 Improvisation (2)**
This course introduces students to the art of improvisation. They will examine the elements of and approaches to the improvisational process as they develop their ability to react imaginatively to extemporaneous situations created through dance. This course will focus on spontaneous problem solving through the exploration of movement and will evoke the student's individual creative process while maintaining the sense of ensemble.
- DAN 3355 Commercial Dance I (2)**
This course addresses the needs of dancers who aspire to perform in television, music videos, or on stage. Students will receive intermediate technical instruction in a variety of dance forms and styles that will introduce them to the commercial industry. With an emphasis on the artistry of the commercial dance aesthetic, students will develop technical skills, including dynamic alignment and body/mind connection, increased musicality, and movement vocabulary. Special attention will be placed on tricks, jumps, and turns.
- DAN 3356 Commercial Dance II (2)**
This course addresses the needs of advanced dancers who aspire to perform in television, music videos, or on stage. Students will receive advanced technical instruction in a variety of dance forms and styles, which will expand on principles established in Commercial Dance I.
Prerequisite: DAN 3355.
- DAN 3360 Musical Theatre Dance II (2)**
Further exploration of the genre of musical theatre dance examining storytelling, character, script, score, and mood through movement. This course will focus on late 20th century (1975 forward) and contemporary dance and movement styles related to theatre productions.
Prerequisite: DAN 1135.
- DAN 3380 Travel Study in Dance (1-3)**
Supervised study of dance through travel abroad or within the United States.
May be repeated for credit.
Prerequisite: Permission of instructor.
- DAN 3389 Creative Project Conception (1)**
Part one of a two-part creative process, this course gives students a practical opportunity, working closely with faculty, to conceive, propose, and plan for the presentation of their project: any faculty-approved creative venture focused on the art of dance.
Prerequisite: Junior status and DAN 2289.
- DAN 4400 Repertory Ensemble (1)**
Designed for auditioned members of the TROY Dance Repertory Ensemble.
Prerequisite: Audition or invitation.
- DAN 4410 The History of Ballet (3)**
A survey of ballet history from the 16th century through the Balanchine era, focusing on the rise of ballet as a communicative art form.
Prerequisite: ENG 1102 passed with at least a "C"
Corequisite: DAN 2240
- DAN 4411 The History of Modern-Contemporary Dance (3)**
A survey of the purposes, functions, and manifestations of American and European dance forms from the beginning of the 20th century to the present. Dance History II covers the forerunners and pioneers of modern dance; avant-garde and post-modernists; and the artists of jazz, tap, Broadway, film, and current media, introducing dance students to the innovators, dancers, and choreographers responsible for shaping 20th and 21st century dance.

- DAN 4412 Contemporary Technique IV (2)**
For the Dance major. Study of pre-professional modern dance, including dynamic alignment, body/mind connection, and increased vocabulary with emphasis on artistry through the contemporary aesthetic. Students will focus on complex center and across the floor combinations with an emphasis on musicality and a greater understanding of anatomical alignment.
Prerequisite: Placement.
- DAN 4415 Ballet Technique IV (2)**
For the advanced major. Further development of technical skills in a semi-professional level ballet class, including dynamic alignment, body/mind connection, increased vocabulary, with emphasis on the qualities of self-expression and musicality, which enhance performance abilities.
Prerequisite: Placement.
- DAN 4440 Composition and Choreography II (3)**
 Exploring movement and analytical study of the art of making dances at the advanced level. Concentration on the four basic elements of composition—space, shape, time, and energy. By Choreography II, students should be crafting full-length dances.
Prerequisite: DAN 3340 passing with a grade of C or higher.
- DAN 4478 Pedagogy for Contemporary Dance (2)**
 A comprehensive study of the pedagogical skills required to plan and deliver an effective class for contemporary dance trends. Students will learn to identify goals, develop objectives, construct, and sequence class instruction with focused attention to phrasing, musicality, proper alignment, and injury prevention particular to trends studied.
- DAN 4480 Pedagogy for Ballet (2)**
 A comprehensive study of the pedagogical skills required to plan and deliver an effective classical ballet class. Students will learn to identify goals, develop objectives, construct, and sequence the ballet class with focused attention to phrasing, musicality, proper alignment, and injury prevention.
- DAN 4489 Creative Project Presentation (2)**
 Part two of a two-part process, this course is designed to give students practical autonomy over the preparation, production, and presentation of the creative project begun in DAN 3389.
Prerequisite: Senior status and DAN 3389.
- DAN 4494-94 Guided Independent Study (1-3)**
 Information is indexed under Independent Study and Research.

DATA ANALYTICS COURSES (DA)

- DA 4410 Business Data Mining (3)**
 This course introduces the history, concepts and practices of extracting information from large databases to support business decisions using descriptive, prediction, and prescriptive analytics. The course covers various analytical techniques to turn data into information beginning with data preparation and exploration and then using a number of well-defined data mining tasks such as classification, regression, and clustering.
Prerequisites: Lower-level core.
- DA 4415 Big Data Analytics and Visualization (3)**
 This course introduces best practices of data analytics to create a more competitive and profitable organization. Students will learn how Big Data interacts with business, and how to apply data analytic methodologies to create value for an organization. The course includes hands-on applications of sophisticated data-analysis functions and methodologies to real world data sets with cutting edge software and tools. The course also

includes business cases of how the leading digital companies embrace big data culture and the use of data analytic techniques to out-compete rivals in their industry and to be more profitable than traditional companies in the global business environments. This course is a capstone course for the Global Business-Data Analytics concentration.
Prerequisites: Lower-level core.

- DA 4440 Business Data Mining II (3)**
 This course is an advanced course in data mining. Data mining concepts are extended from Business Data Mining I to include additional models and advanced applications of the models previously introduced, such as sentiment analysis and neural networks. Emphasis is placed on working with larger data sets and the entire cycle of a data analytics project.
Prerequisites: DA 4410.

EARLY CHILDHOOD EDUCATION (ECE)

- ECE 3315 Assessment in ECE (3)**
 Child observation, documentation, and other forms of assessment central to the practice of all early childhood professionals will be presented. The goals, benefits and uses of assessment will be studied. Systematic observations, documentation, and other effective assessment strategies used in a responsible way, in partnership with families and other professionals, to positively influence the development of every child will be explored.
Prerequisite: Admission to TEP.
- ECE 3325 Child Growth & Development (Birth to 8 years) (3)**
 The purpose of this course is to provide candidates a child development knowledge base. Candidates will use their understanding of young children's characteristics and needs, and of multiple interacting influences on children's development and learning, to create environments that are healthy, respectful, supportive, and challenging for each child. This course will include a minimum of 15 hours of clinical field experience in a child care setting.
Prerequisite: Admission to TEP.
- ECE 3340 Language Acquisition (3)**
 The purpose of this course is to assist candidates as they investigate and construct an operational knowledge of young children's language and literacy acquisition. A wide array of developmentally appropriate approaches, instructional strategies, and tools to connect with children and families and positively influence each child's development and learning will be explored. This course includes 15 hours of clinical field experiences where students interact with diverse learners through observation and participation in the application of appropriate language and literacy experiences, including technology.
Prerequisite: Admission to TEP.
- ECE 3385 Primary Math & Science (3)**
 The purpose of this course is to assist candidates as they investigate and construct an operational knowledge of young children's construction of logico-mathematical and physical knowledge. This course includes 15 hours of clinical field experiences where students interact with diverse learners through observation and participation in the application of developmentally appropriate approaches, instructional strategies, and tools to connect with children and families and positively influence each child's development and learning.
Prerequisite: Admission to TEP.
- ECE 3391 Social Studies; Community & Family (3)**
 This course prepares candidates to understand that successful early childhood education depends upon

partnerships with children’s families and communities. Knowledge, understanding, and valuing the importance and complex characteristic of children’s families and communities will be used to create respectful, reciprocal relationships that support and empower families, and involve families in their children’s development and learning. A minimum of 15 hours of clinical field experience will be required.

Prerequisite: Admission to TEP.

ECE 4401 Integrated Program (3)
This course is designed to prepare early childhood majors to use their knowledge of academic disciplines to design, implement and evaluate experiences that promote positive development and learning for each and every young child. The essential concepts, inquiry tools, and structure of content areas, including academic subjects, and resources to deepen their understanding will be explored. A minimum of 15 hours clinical field experience is required.

Prerequisite: Admission to TEP.

ECE 4454 Internship Seminar for Early Childhood Education (3)
This course provides seniors an opportunity during internship to examine broad educational issues and concerns, topics on the state and local levels and those of personal interest. The scope of the course ranges from juvenile law, classroom management professionalism, professional development for teachers and other course topics.

Prerequisite: ad-mission to TEP;

Co-requisite: ECE Internship.

ECE 4474 Internship in Early Childhood Education (9)
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience.

Prerequisite: admission to TEP.

Co-requisite: ECE 4454.

INTERNATIONAL ECONOMIC DEVELOPMENT COURSES (ECD)

ECD 3362 Applied Spatial Analysis for Business (3)
This introductory course prepares students to become decision makers able to analyze business data, both internal and external, from a spatial perspective utilizing geographic information systems software.

ECONOMIC COURSES (ECO)

ECO 1150 Survey of Economics (3)
This course is a study of commerce and economics and their impact on society, technology, and business. This course will cover basic commerce and economics terminology and concepts important to managers.

ECO 2251 Principles of Macroeconomics (3)
Macroeconomic theory of the national economy with emphasis on income, employment, banking, and public policy.

ECO 2252 Principles of Microeconomics (3)
Microeconomic theories of value, production, distribution of income, and basic international economic analysis.

ECO 2253 Honors Principles of Macroeconomics (3)
Macroeconomics theory of the national economy with emphasis on income, employment, banking, and public policy for the superior student.

Prerequisites: SCOB Honors Student/permission of the Associate Dean

ECO 2254 Honors Principles of Microeconomics (3)
Microeconomics theories of value, production, distribution of income, and basic international economic analysis for the superior student.

Prerequisites: SCOB Honors Student/permission of the Associate Dean.

ECO 3351 Honors Intermediate Macroeconomics (3)
Study of the variables affecting employment, income, and prices. Monetary theory and theories of fluctuation are reviewed. Policies dealing with economic stabilization are examined. This course is designed for Sorrell Global Scholars honors students.

Prerequisite: Sorrell Global Scholars student or permission of Associate Dean; ECO 2251 or ECO 2253.

ECO 3351 Intermediate Macroeconomics (3)
Study of the variables affecting employment, income, and prices. Monetary theory and theories of fluctuation are reviewed. Policies dealing with economic stabilization are examined.

Prerequisite: ECO 2251.

ECO 3352 Intermediate Microeconomics (3)
Study of price and distribution theory as it relates to households, firms, and industries. Theories of factor prices and general equilibrium are also examined.

Prerequisite: ECO 2252.

ECO 3353 Money and Banking (3)
Principles of money, credit, and banking including monetary systems, theories, and commercial banking operations related to the Federal Reserve System.

Prerequisite: ECO 2251 and ECO 2252.

ECO 3354 Honors Intermediate Microeconomics (3)
Study of price and distribution theory as it relates to households, firms, and industries. Theories of factor prices and general equilibrium are also examined.

Prerequisite: Sorrell Global Scholars student or permission of Associate Dean; ECO 2252 or ECO 2254.

ECO 3355 Labor Economics (3)
Employment, unionism, labor-management relations and human capital.

Prerequisite: ECO 2252.

ECO 3360 Entrepreneurial Economics (3)
This course presents a wide-ranging overview of the place of entrepreneurship in economic theory, with a special focus on applications to institutions, organizations, strategy, economic development, and related fields. An emphasis on historical pieces on the economics of entrepreneurship as well as modern applications will be studied.

Prerequisites: ECO 2251, ECO 2252.

ECO 3361 Sports Economics (3)
Sports Economics introduces essential core economic concepts and then develops them with examples and applications from the sports industry. The sections are devoted to illustrating prominent areas of economics: industrial organization, public finance, labor economics, and econometrics.

Prerequisites: ECO 2251, 2252.

- ECO 3362 Public Choice (3)**
Public choice applies economic tools and methodology to the study of public decision-making. The emergence of government, collective choice within government, effects of legislative structures on outcomes, the role of interest groups as compared to that of the median voter, rent-seeking, bureaucracy, regulation, the size and scope of government, and alternative forms of governance.
Prerequisites: ECO 2251, 2252.
- ECO 3363 Mathematical Economics (3)**
This course develops the mathematical treatment of theory of firm, household behavior, stabilization policy, growth theory, input-output analysis, and linear programming.
Prerequisites: ECO 2251, 2252, AND MTH 1125, or 2201.
- ECO 3365 History of Economic Thought (3)**
This course surveys the main schools in the history of the development of economic thought.
Prerequisite: ECO 2251, 2252.
- ECO 4434 International Economics (3)**
An advanced analysis of the principles underlying international trade and international finance. This course is for Economics Majors. Students who have taken ECO 4451 cannot take ECO 4434 for credit.
Prerequisite: ECO 2251 & ECO 3352.
- ECO 4450 Honors Economics Seminar (3)**
Current problems in economics. This course is designed for Sorrell Global Scholars honors students.
Prerequisite: Sorrell Global Scholars student or permission of Associate Dean; ECO 3351 and ECO 3352
- ECO 4451 Economics of Globalization (3)**
Principles underlying international trade and international finance.
Prerequisite: ECO 2252 & Lower-level core.
- ECO 4452 Environmental Economics (3)**
Theoretical and empirical examination of natural resource and environmental economics.
Prerequisite: ECO 2252.
- ECO 4453 Public Finance (3)**
An analysis of the principles underlying government expenditure and taxation programs presented from both a theoretical and a pragmatic perspective.
Prerequisite: ECO 2252.
- ECO 4454 Economic History: The Rise of the Western World (3)**
A study of the institutional factors that contributed to the Western world's economic growth.
Prerequisite: ECO 2251, 2252 and one introductory HIS course.
- ECO 4455 Comparative Economic Systems (3)**
An analysis of the economic systems of capitalism and socialism focusing upon how a multitude of specific nations in the Americas, Europe, and Asia, such as the United States, Mexico, Germany, Poland, Japan, and China, et al., arrange and conduct economic affairs in the 21st century.
Prerequisite: ECO 2251 or 2252.
- ECO 4456 The Economics and Moral Foundations of Capitalism (3)**
A study of the interrelationship between markets and morals. Investigates the role ethics and ethical ideas play in understanding economic life.
Prerequisite: ECO 2251, 2252.
- ECO 4457 Econometrics (3)**
A study of the methods used to empirically verify economic theory. Statistical inference applied to economic models, both micro and macro.
- ECO 4458 Law & Economics (3)**
An economic analysis of the legal system that explores the efficiency of different legal decisions.
Prerequisite: ECO 2251, 2252.
- ECO 4459 Economics Seminar (3)**
Current problems in economics.
Prerequisite: ECO 3351 and ECO 3352.
- ECO 4460 Regional and Urban Economics (3)**
The economics of cities and urban problems and the effects of geographic location on the decisions of individuals and firms. The importance of location in everyday choices is easily assessed from our day-to-day lives, yet traditional microeconomic models are spaceless.
Prerequisites: ECO 3351, 3352.
- ECO 4461 Austrian Economics (3)**
The historical and philosophical roots of the Austrian School, the impact it has had within the economics profession, and the unique insights it has provided in such areas as the theory of value, monetary theory, and business cycles.
Prerequisites: ECO 2251 and ECO 2252.
- ECO 4462 Game Theory (3)**
This course provides an introduction to game theory with applications to economics. Moreover, the course presents an approach to modeling a social situation as a game and develops techniques for solving the game in order to gain insight to individual behavior.
Prerequisites: ECO 2251, 2252, AND MTH 1125, or 2201.
- ECO 4463 Honors Economics of Globalization (3)**
Principles underlying international trade and international finance.
Prerequisites: ECO 2252 and lower-level core and SCOB honors student
- ECO 4499 Internship (3)**
The Economics Internship provides is a supervised work experience that provides students with the opportunity to gain applied work experience their field of study. Students with the opportunity to gain real-world experience in their field of study. Students are interviewed and selected by the individual companies offering the internship. This course may be repeatable and must comply with the SCOB internship policy. See the Economics division chair for details.

- EDUCATION COURSES (EDU)**
-
- EDU 2220 Introduction to International Education (3)**
This course is designed as a general introduction to the field of international education, broadly defined. In addition to exploring educational structures, philosophies and curricula of selected countries outside of USA, students will examine educational issues, challenges, and outcomes from a global perspective. Prominent issues related to education, including history, cultural traditions, politics, globalization, poverty, gender issues, and the legacy of colonization will be examined and discussed. Students will also explore and compare US education with the educational systems and contests of other countries.

- EDU 2230 Fundamentals of Teaching (3)**
The course is designed for students who are interested in pursuing careers in education. It will include in-depth coverage of significant components of the teaching profession, to include lesson development and planning, classroom management, educator dispositions, and curriculum implementation.
- EDU 3303 Educational Psychology and Classroom Assessment (3)**
Characteristics of the learner and the teaching-learning process. Theories of learning, instruction, and motivation, and their application to students in grades P-12.
- EDU 3305 Teaching with Technology (3)**
This course is designed to introduce prospective teachers to currently available technology and to prepare them to use various media for their own education as well as in their professional careers. Students are expected to become comfortable in the use of various media and to explore the possibilities for the use of media in the classroom. Emphasis is given to ways in which multimedia can be used to meet the needs of the varying learning styles.
- EDU 3308 Integrated STEM (3)**
Science, technology, engineering, and mathematics (STEM) literacy is a critical component of 21st century education. The central tenet of STEM literacy is the preparation of people who are knowledgeable of the connections between the content and practices of the STEM fields. This course will foster students' abilities to teach in an integrative way through real world design based problems that both stimulate and teach students to think critically.
Note: should be taken semester prior to internship
Prerequisites: admission to TEP; must have taken or be concurrently enrolled in ELE 3361, ELE 3362
- EDU L308 Integrated STEM Lab (1)**
Science, technology, engineering, and mathematics (STEM) literacy is a critical component of 21st century education. The central tenet of STEM literacy is the preparation of people who are knowledgeable of the connections between the content and practices of the STEM fields. This course will foster students' abilities to teach in an integrative way through real world design based problems that both stimulate and teach students to think critically.
Note: should be taken semester prior to internship
Prerequisites: admission to TEP; must have taken or be concurrently enrolled in ELE 3361, ELE 3362
Co-requisite: EDU 3308.
- EDU 3310 Introduction to Education (3)**
This course provides a broad overview of education, teaching and schools, and an orientation to the Teacher Education Program. Multiple field experiences in school settings are required as part of the course.
This is a prerequisite course for most other education courses.
- EDU 4400 Classroom Management (3)**
This course is designed for all education majors. The purpose of this course is to establish a foundation of content and application relative to classroom management and discipline, emphasizing reflection, decision making, and integrated teaching/learning strategies. Methodologies utilized will include discussion, lecture, field experience, case studies, problem solving sessions, projects, and research.
- EDU 4471 Curriculum and Instructional Delivery (3)**
This course offers a survey of school curricula, organizational patterns for school systems and classrooms. It is designed for Early Childhood Education, Elementary Education, Special Education, and Middle and Secondary Education majors. Various instructional strategies, major philosophies and learning theories are examined.
Note: should be taken semester prior to internship.
Prerequisite: admission to TEP.
- EDU 4476 Internship in Elementary/K-6 Collaborative Teacher (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of informed, reflective decision maker throughout the internship experience.
Prerequisite: TEP Admission
Co-requisite: ELE 4454
- EDU 4477 Internship in K-6/6-12 Collaborative Education (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes in both SPE K-6 and SPE 6-12 classrooms, and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of informed, reflective decision maker throughout the internship experience.
- EDU 4478 Math/Science/STEM Practicum (3)**
The practicum is designed to provide a supervised experience related to instruction in the areas of mathematics, science and STEM education. A diverse set of concepts, skills, and pedagogical practices pertaining to these three core areas will be emphasized in the field in conjunction with co-requisite coursework. The application of current research and evidence based mathematical, science, and STEM instructional practices will be hallmarks of the practicum experience.
Prerequisite: Admission to TEP
- EDU 4490 Global Identity (1-3)**
Studying abroad is a transformative experience that has the power to challenge our thinking and our perspective on the world. This course aims to attract students across disciplines, to promote interprofessional development, and to prepare them to expand their understanding of their global identity and communicate their growth in intercultural competence toward their personal and professional development. Students make connections between their study abroad experience and the broader range of skills connected with this experience, to become a competitive member of a global workforce.
- EDU 4491-92 Guided Independent Research (1 to 3 credit hours)**
Undergraduate research with attention to critical evaluation of research techniques, methods and procedures.
Prerequisites: junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to

repeat a course for which a grade of D or below has been earned. Application forms are available in the Office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."

- EDU 4493-94 Guided Independent Study (1 to 3 credit hours)**
Supervised study through field or laboratory projects, guided readings, creative endeavors or achievement of specific skills.
Prerequisites: junior or senior status, permission of guiding professor, approval of department chair and the dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Also see index for "Independent Study and Research."

ELECTRONIC ENGINEERING TECHNOLOGY (EET)

- EET 2220 Electrical Circuits I (3)**
This course primarily deals in providing a thorough understanding of the fundamental concepts of DC (Direct Current) circuits such as current, voltage, resistance, Ohm's Law, Power and Energy, series and parallel circuits, methods of circuit analysis and network theorems. Basics in magnetism and electromagnetism is also covered. Also, a circuit simulation tool is introduced and used to build and test DC circuits.
Co-requisite: EET L220
- EET L220 Electrical Circuits I Lab (1)**
This course acquaints the concepts of the topics related to DC circuits learned in lecture through hands-on experiments and simulations.
Co-requisite: EET 2220
- EET 2221 Electrical Circuits II (3)**
This course is a continuation of EET 2220. This course primarily deals with introduction to AC (Alternating Current), the laws and concepts which describe the behavior of AC circuits. Topics related to the introduction to capacitors, inductors followed by their behavior in RL, RC and RLC circuits is analyzed using circuit theories. Transformer theory is also introduced and covered. A circuit simulation tool is used to build and test AC circuits and to demonstrate the use of an oscilloscope.
Prerequisite: EET 2220
Co-requisite: EET L221 and MTH 1112 or higher math course
- EET L221 Electrical Circuits II Lab (1)**
This course acquaints the theoretical models and concepts of the topics learned in lecture through hands-on experiments and simulations.
Co-requisite: EET 2221
- EET 3311 Electronic Devices I (3)**
This foundational course familiarizes the theory and concepts of modern solid-state devices by introducing the fundamental concepts of P-N junction diodes, Bipolar Junction Transistors (BJT), and Field-Effect Transistors (FET). Also, diode and transistor related circuits along with the biasing AC models are covered. Emphasis is placed on their characteristics and applications, such as rectifiers and amplifiers. Circuit simulation software is used to design and analyze basic diode and transistor circuitry.
Prerequisites: EET 2221, EET L221
Co-requisite: EET L311 and MTH 1114 or higher math course.
- EET L311 Electronics Devices I Lab (1)**
- This course acquaints the theory and concepts of diode, transistors and FET transistor topics learned in lecture through hands-on experiments and simulation.
Co-requisite: EET 3311
- EET 3312 Electronic Devices II (3)**
This course is the second in a two-part sequence on electronic devices, a continuation of EET 3311. Building on the principles of diode and transistor operations, this course covers the topics including power amplifiers, emitter followers, differential amplifiers, operational amplifiers and other special purpose devices. Working and operation characteristics of JFETs and MOSFETs are also introduced. Frequency response, system applications and troubleshooting are also emphasized.
Prerequisites: EET 3311.
Co-requisite: EET L312 and MTH 1125 or higher math course.
- EET L312 Electronic Devices II Lab (1)**
This course acquaints the theory and concepts of the topics learned in lecture through hands-on experiments and simulations.
Co-requisite: EET 3312
- EET 3315 Digital Logic Circuits (3)**
This is an introductory course to the fundamentals of digital electronics. Topics covered include number systems, codes, logic gates, Boolean Algebra, combinational logic systems design, flip-flops, counters and registers. Advanced concepts in combinational circuits, decomposition of switching functions, modular realization of switching circuits, sequential functions and circuits, and memory elements are also covered.
Prerequisites: EET 3311
Co-requisites: EET L315 and MTH 1126 or higher math course.
- EET L315 Digital Logic Circuits Lab (1)**
This course is focused on hands-on experimentation, design, analysis and verification of digital circuits. The lab topics include but are not limited to gate logics, adders, multiplexer/de-multiplexer, and counters. Students will also learn to use various devices to build and to test digital circuits. Digital circuits are also implemented using circuit simulation software.
Co-requisites: EET 3315.
- EET 3320 Measurement and Instrumentation (3)**
Topics covered include fundamental of units systems, precision and accuracy, errors in measurement and types of errors, electromechanical instruments, DC ammeters and voltmeters, AC ammeters and voltmeters, electrodynamicometers in power measurements, bridge DC measurements, bridge AC measurements, transducers concepts and types, oscilloscope principles and applications in measurements.
Prerequisites: EET 2215, EET L215.
- EET 4410 Signal Processing (3)**
Topics covered include fundamental of units systems, precision and accuracy, errors in measurement and types of errors, electromechanical instruments, DC ammeters and voltmeters, AC ammeters and voltmeters, electrodynamicometers in power measurements, bridge DC measurements, bridge AC measurements, transducers concepts and types, oscilloscope principles and applications in measurements.
Prerequisites: PHY 3320.
- EET 4420 Fundamentals of Microcontrollers**
This course is the first course in a two-part sequence. Topics covered include but are not limited to microcontroller architecture, instruction sets, programming and interfacing with electronic

- circuits, interrupts, microcontroller peripherals, microcontroller application development tools and platforms.
Prerequisites: EET 3315, EET L315.
Co-requisites: EET L420.
- EET L420 Fundamentals of Microcontrollers Lab (1)**
This course is focused on design, implementation and debugging of microcontroller based systems. Students will also learn about timers, ADC, wave generators, RC measurement etc. The course also has a project where students are expected to build and implement a microcontroller.
Co-requisite: EET 4420.
- EET 4421 Introduction to Robotics and Automation (3)**
This course is the second course in a two-part sequence. This course primarily deals in providing a thorough introduction to robotics and its applications in task automation. Students will get a chance to gain knowledge related to development of robots, different working models of robots, selection of appropriate sensors to a specific application, and programming a certain robot to perform the desired task. Projects may include construction and programming of mobile robots, assembly and test of individual components.
Prerequisites: EET 3315, EET L315, EET 4420 and EET L420.
Corequisite: EET L421.
- EET L421 Introduction to Robots and Automation Lab (1)**
This course acquaints the theory and concepts learned in lecture through the hands-on construction of sensor circuitry and building robots. Students will learn to use DC motors and the motor controllers, sensors, transistors and diode circuitry etc. Also, students get a chance to integrate the sensor and mothers to the microprocessors.
Co-requisite: EET 4421.
- EET 4425 Data Communication and Networking (3)**
Topics covered include but are not limited to microcontroller architecture, instruction sets, programming and interfacing with electronic circuits, interrupts, microcontroller peripherals, microcontroller application development tools and platforms.
Prerequisites: EET 3315, EET L315.
- EET 4435 LSI/VLSI Design (3)**
MOS Transistors – fabrication and characteristics. MOSFET scaling and short-channel effects. Layer representation and layout rules. Analysis and design of inverters and inverter based circuits. Circuit and interconnection delays, driving large loads. Dynamic logic circuits. Memories, VLSI design strategies – Full custom, Standard Cell and Gate Array design, FPGAs, Subsystem design. Testing and testability. CAD for VLSI.
Prerequisites: EET 2215, EET 3315.
- EET 4440 Electronic Testing with Lab (4)**
Topics include, identifying and reading electronic circuit diagrams, using electronic test equipment to analyze circuits, applying a systematic approach to fault finding, and location a range of faults to component level.
Prerequisites: EET 2215, EET 3315.
- EET 4444 Optical Electronics I (3)**
This course is an introduction to the basics of electromagnetic waves. It also introduces to the fundamental concepts and principles of optics, optical waveguides and devices. Next, the course talks about the introduction to optoelectronics, Gaussian beam propagation, interaction of light and matter, spontaneous and stimulated emission, laser rate equations.
Prerequisites: EET 3312
Co-requisite: EET L444
- EET L444 Optical Electronics I CAD Lab (1)**
This course acquaints the theory and concepts learned in lecture through the hands-on computer aided design and simulation experiments.
Co-requisites: EET 4444
- EET 4445 Optical Electronics II (3)**
This course is the second in a two-part sequence on optoelectronics, a continuation of optoelectronics I. This course provides the advance concepts in semiconductor optics and optoelectronics devices. Topics include the introduction to the light emitting devices, detectors, and modulators. Course also introduces the basic optical, electro-optical and nonlinear properties of semiconductors, semiconductor lasers, optical detectors, amplifiers, modulators and switches. Most importantly, this course helps students to meet the demand of growing semiconductor optoelectronic industry and prepares them to advanced study and research in the semiconductor optics and optoelectronic devices.
Prerequisites: EET 4444
Co-requisite: EET L445
- EET L445 Optical Electronics II CAD Lab (1)**
This course acquaints the theory and concepts learned in EET 4445 through the hands-on computer aided design and simulation experiments.
Co-requisite: EET 4445
- EET 4480 Senior Project I Capstone (3)**
This is the first of a two-semester sequence of Capstone course for all EET majors. It provides students with unique opportunity to put together the knowledge and skills developed in his/her curriculum in the design and implementation of a project that culminates in a working solution. The project may be multidisciplinary or oriented toward a single engineering technology discipline. The student is expected to develop a working prototype, required to work on final project report and a formal oral presentation. The project may involve a team of students from more than one discipline, or a student may choose to work alone on a project. The project must be approved by a department faculty.
Prerequisites: Permission of Instructor.
- EET 4481 Senior Project II Capstone (3)**
This is the second of a two-semester sequence of Capstone courses for all EET majors. The course permits students to complete the project which was initiated in EET 4480.
Prerequisites: Permission of Instructor.
- EET 4490 Travel Study in Electronics Engineering Technology (1-3)**
Supervised investigation of relevant topics in Electronics Engineering Technology through travel study abroad or within the interior of the United States.
- EET 4497 Independent Study in EET (1-4)**
Independent study for students under the direction of a faculty member.
Prerequisite: Permission of department chair.
- EET 4498 Internship in Electronics Engineering Technology (1-3)**
Supervised work experience in the biotechnology industry, governmental agency, business, or other working environment in which a student will learn and apply pertinent professional skills.

ELEMENTARY EDUCATION COURSES (ELE)

- ELE 3360 Teaching Social Science (3)**
This course provides a study of the varied dimensions of instruction in social sciences. Emphasis is placed on appropriate instruction and

- resources, including technology for the instruction of students in grades K-6.
Prerequisite: admission to TEP.
- ELE L360 Teaching Social Science Lab (1)**
This course includes Lab/Field-oriented experiences designed to enhance understanding of varied dimensions of instruction in social sciences.
Prerequisite: admission to TEP.
Co-requisite: ELE 3360.
- ELE 3361 Teaching Natural Science (3)**
This course provides a study of the varied dimensions of instruction in natural sciences. Emphasis is placed on appropriate instruction and resources, including technology for the instruction of students in grades K-6.
Prerequisite: admission to TEP.
- ELE L361 Teaching Natural Science Lab (1)**
This course includes Lab/Field-oriented experiences designed to enhance understanding of varied dimensions of instruction in natural science.
Prerequisite: admission to TEP.
Co-requisite: ELE 3361.
- ELE 3362 Teaching Mathematics (3)**
This course provides a study of the varied dimensions of instruction in mathematics. Emphasis is placed on appropriate instruction and resources, including technology for the instruction of students in grades K-6.
Prerequisites: admission to TEP, completion of MTH 2251 or MTH 2252 with a grade of C or better.
- ELE L362 Teaching Mathematics Lab (1)**
This course includes Lab/Field-oriented experiences designed to enhance understanding of varied dimensions of instruction in mathematics.
Prerequisites: admission to TEP, completion of MTH 2251 and 2252 with a grade of C or better.
Co-requisite: ELE 3362.
- ELE 4454 Internship Seminar for Elementary Education (3)**
This course provides seniors an opportunity during internship to examine broad educational issues and concerns, topics on the state and local levels and those of personal interest. The scope of the course ranges from juvenile law, classroom management professionalism, professional development for teachers and other course topics.
Prerequisite: admission to TEP.
Co-requisite: ELE Internship.
- ELE 4474 Internship in Elementary Education (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience.
Prerequisite: admission to TEP.
Co-requisite: ELE 4454.
- ELE 4481 Methods and Materials for the Elementary Teacher (3)**
Teaching methods, selection, organization and use of materials and resources in the elementary school discipline(s). Observation and teaching experiences will be included.
Prerequisite: EDU 3310 and admission to TEP.

ELE 4491-92 Guided Independent Research (1 to 3 credit hours)

Undergraduate research with attention to critical evaluation of research techniques, methods and procedures.

Prerequisites: junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the Office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."

ELE 4493-94 Guided Independent Study (1 to 3 credit hours)

Supervised study through field or laboratory projects, guided readings, creative endeavors or achievement of specific skills.

Prerequisites: junior or senior status, permission of guiding professor, approval of department chair and the dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Also see index for "Independent Study and Research."

ENGLISH COURSES (ENG)

ENG 0096 Fundamentals of Grammar and Sentence Writing (3)

Developmental/remedial instruction in the basic elements of standard American English grammar, with an introduction to the essentials of effective written communication. Involves application of appropriate computer software. Students are placed in this course, ENG 1100 or ENG 1101, depending on placement exam score; see the local campus testing center for specific cut-off scores. Students may also be required to attend weekly sessions at a writing and/or computer center.

Note: Under no circumstance may this course be used to substitute for any general studies requirement; nor may it be used to meet minimum degree requirements. Grade of C or better and successful completion of exit exam required.

ENG 1100 Preparatory English (3)

Developmental/remedial instruction in composition and mechanical skills needed to write clear, effective sentences and paragraphs. Involves application of appropriate computer software and a variety of written activities. Students are placed in this course, ENG 0096, or ENG 1101 depending on placement exam score; see the local campus testing center for specific cut-off scores. Students may also be required to attend weekly sessions at a writing and/or computer center.

Note: Under no circumstances may this course substitute for any general studies requirement; nor may it be used to meet minimum degree requirements. Grade of C or better required.

ENG 1101 Composition And Modern English I (3)

Intensive instruction in the writing process. Focuses on organization of ideas in well-developed expository and argumentative essays (usually six to eight essays), with stress on grammar, punctuation, and vocabulary development. A grade of C or better is required for credit. Must be completed within first 30 hours of enrollment.

Prerequisite: Placement Testing.

ENG 1102 Composition and Modern English II (3)

Text-based analyses and application of principles and tools of research in writing short research

- papers. A grade of C or better is required for credit. Must be taken within first 30 hours of enrollment.
Prerequisite: ENG 1101 or equivalent.
- ENG 1103 Honors English Composition I (3)**
Introductory study and practice of composition for the superior student.
Prerequisite: Minimum English score of 27 on the ACT or 640 on the SAT, or recommendation by an 1101 instructor.
- ENG 1104 Honors English Composition II (3)**
Continuation of study and practice of composition for the superior student.
Prerequisite: Minimum grade of C in ENG 1103 or recommendation by a 1101 or 1102 instructor.
- ENG 2205 World Literature before 1660 (3)**
Introduction to attitudes, philosophies, and reflections of life in world literary masterpieces from the ancient world, Middle Ages, and Renaissance. Requires demonstration of acceptable writing skills.
Prerequisite: ENG 1102 or equivalent.
- ENG 2206 World Literature after 1660 (3)**
Introduction to attitudes, philosophies, and reflections of life in world literary masterpieces from the Enlightenment to the present. Requires demonstration of acceptable writing skills.
Prerequisite: ENG 1102 or equivalent.
- ENG 2207 Honors World Literature before 1660 (3)**
A course for the superior student, focusing on representative selections of the world's dramatic masterpieces in prose and poetry.
Prerequisite: ENG 1104 or permission of department chair.
- ENG 2208 Honors World Literature after 1660 (3)**
A course for the superior student, focusing on representative selections of the fictional masterpieces in Western literature.
Prerequisite: ENG 1104 or permission of department chair.
- ENG 2211 American Literature before 1875 (3)**
Study of works of selected writers in various American traditions and styles from colonial times to 1875.
Prerequisite: ENG 1102 or equivalent.
- ENG 2212 American Literature after 1875 (3)**
Study of works of selected writers in various American traditions and styles from 1875 to the present.
Prerequisite: ENG 1102 or equivalent.

Prerequisite: FIN 3331.
- FIN 4434 Financial Modeling (3)**
This course provides an examination of standard financial models used in corporate finance, financial statement stimulation, portfolio problems, options, portfolio insurance, duration, and immunization. The primary focus of study is on the application of strategic models of decision making and marketplace activity within the stimulated environments which approximate real time.
Prerequisite: FIN 4432.
- FIN 4435 International Finance (3)**
A comprehensive introduction and overview of international finance with emphasis upon multinational corporation management, international trade, foreign exchange, and international financial markets, institutions, and instruments.
Prerequisite: FIN 3331.
- FIN 4436 Securities Analysis (3)**
Introduction and comprehensive overview of securities analysis. Topics include stocks, bonds, Mutual funds, taxes, annuities, new issues, IPOs, OTC, exchanges, options, margin trading, short selling, laws and regulations, and fundamental technical, and modern security and portfolio analysis techniques.
Prerequisite: FIN 4432
- FIN 4437 Financial Institutions (3)**
A comprehensive study of financial markets, institutions, instruments, etc.
Prerequisite: FIN 3331 and FIN 4431.
- FIN 4438 Bank Management (Capstone) (3)**
Introduction and comprehensive overview of bank management. Topics include: organization, regulation, performance, asset management, liabilities management, credit policy, loan evaluation, global banking, bank mergers and acquisitions, etc.

Prerequisites: FIN 3331

- FIN 4440 Real Estate Finance II (3)**
Second course in a sequence on real estate finance. Continuation of FIN 3336.
Prerequisite: FIN 3336
- FIN 4454 Public Finance (3)**
This course examines and analyses public finance from the perspective of the financial management of governmental enterprises. It examines revenues and expenditures at all levels of government, the financial management of government enterprises, and effects of public finance on business and finance and personal finance.
Prerequisite: FIN 3331.
- FIN 4460 Financial Plan Development (3)**
The process of developing and presenting a comprehensive financial plan, including analysis of personal financial situations and effective communication of plan strategies.
Prerequisite: FIN 4431.
- FIN 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.
Note: This course may not be substituted for any required course.
- FIN 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.
Note: This course may not be substituted for any required course.
- FIN 4499 Internship (3)**
The Finance Internship provides is a supervised work experience that provides students with the opportunity to gain applied work experience their field of study. Students with the opportunity to gain real-world experience in their field of study. Students are interviewed and selected by the individual companies offering the internship. This course may be repeatable and must comply with the SCOB internship policy. See the Economics/ Finance division chair for details.

FRENCH COURSES (FRN)

Note: For additional information, see Placement in Academic Courses.

- FRN 1101 Introductory French I (3)**
Introduction to the French language and culture.
- FRN 1102 Introductory French II (3)**
Introduction to the French language and culture.
Prerequisite: FRN 1101 or permission of instructor.
- FRN 2201 Intermediate French I (3)**
Reinforcement of fundamental skills, study of sophisticated language structures and reading of simple French prose and poetry.
Prerequisite: FRN 1102 or permission of instructor.
- FRN 2202 Intermediate French II (3)**
Reinforcement of grammatical skills, reading of simple French prose and poetry, composition and conversation.
Prerequisite: FRN 2201 or permission of instructor.
- FRN 3310 French Culture on Location I (3-TBA)**
An in-depth presentation of French culture combining lectures, readings, films, audiotapes, discussions and intensive language practice on the Troy Campus with on-site visit to a Francophone environment.

- Prerequisite: Permission of instructor.*
- FRN 3311 French Culture on Location II (3-TBA)**
An in-depth presentation of French culture combining lectures, readings, films, audiotapes, discussions and intensive language practice on the Troy Campus with on-site visit to a Francophone environment.
Prerequisite: Permission of instructor.
- FRN 4491/92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.
- FRN 4493/94 Guided Independent Study (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.

GAME DESIGN AND DEVELOPMENT COURSES (GDD)

- GDD 2210 History Through Games (3)**
This course will utilize a variety of different game formats, including video games, role-playing games, board games, and sports to explore historical concepts and events. Students will be encouraged to think analytically about the ways games interpret historical events versus textbook explanations.
- GDD 3310 History of Game Design (3)**
A focus on the history and development of different types of games and game mechanics. Emphasis placed on integrating games with their particular cultural and political context. Students will produce a working prototype of a game as a part of the class.
- GDD 3320 Game Development (3)**
An introduction to the concepts of game development, including theory, playtesting, marketing, crowdfunding, and the publication process. Students will refine and continue development of a game as a part of the class.
Prerequisite: Either HIS 2210/GDD 2210 History Through Games
- GDD 4425 Special Topics in Game Design and Development (3)**
Advanced study of a designed topic of special interest.
Prerequisites: Either HIS 2210/GDD 2210 History Through Games OR GDD 3310/HIS 3310 Game Design History AND permission of the instructor.
- GDD 4490 Internship in Game Design and Development (3)**
Supervised work in an agency that can provide practical experience in the field of study.
Prerequisites: Senior standing, at least a 2.5 GPA, at least 12 completed hours towards the Game Design and Development minor, and the permission of the minor advisor, supervising instructor, department chair, and/or dean.
- GDD 4499 Game Design Capstone (3)**
This course requires the student to synthesize previous coursework in the minor. Students complete design and development of a working game, suitable for crowdsourcing, and public release.
Prerequisite: 15 hours of Game Design and Development minor coursework, including GDD 3320 Game Development.

SURVEYING AND GEOMATICS SCIENCES COURSES (GEM)

- GEM 1100 Computer-Aided Drafting I (2)**
This course gives students basic skills using computer-aided drafting software in fundamental two dimensional drafting and design, and advanced techniques in three-dimensional geometric modeling.
- GEM 1101 Computer-Aided Drafting II (2)**
This course gives students skills in surveying drafting, map components, and fundamental skills in drafting basic surveying features using computer aided software.
Prerequisite: GEM 1100.
- GEM 2220 Basics of Surveying (3)**
This course provides each student an introduction to measurement theory, instrumentation, measurement systems, measurement computations, data accuracy and precision. The structure of the field of geomatics is explored. Major components of the course are survey statistics, traverse computations, coordinate systems and datums, elevations, and mapping. The use of computer-aided drawing software to produce maps and plats is required.
Prerequisites: MTH 1114.
- GEM L220 Basics of Surveying Lab (1)**
This field laboratory provides the opportunity to use instrumentation to make the necessary measurements to produce computed products. Focuses on the use of a field book to record measurements, the analysis of field measurements, and the use of survey instrumentation.
Prerequisite: MTH 1114
- GEM 3309 Land Survey Principles (3)**
The course includes the basic principles of land tenure and the cadaster with the major component being the study and application of survey statute and related case law. The concepts underlying the hierarchy of evidence, sequential versus simultaneous conveyances, adverse possession, riparian rights, land descriptions, and the U.S. Public Land Survey System are explored.
Prerequisite: GEM 2220.
- GEM L309 Land Survey Principles Lab (1)**
This laboratory explores the impact of land survey law on the practice of surveying and mapping in the state of Alabama. Focuses on the practice of writing legal descriptions, the structure of the U.S. Public Land Survey System, and courthouse research.
Prerequisite: GEM 2220
- GEM 3310 Land Survey Practice (3)**
The issues of boundary location and retracement are central to this course. Focuses on Alabama survey history, the practice of surveying in Alabama, professional ethics, and the Standards of Practice for Surveying in Alabama.
Prerequisite: GEM 3309.
Co-requisite GEM L310
- GEM L310 Land Survey Practice Lab (1)**
Students will participate in surveys of sectionalized land in Pike County. Section corners, quarter corners and other evidence will be located using GPS and traditional surveying methods. Students will also be assigned a township research project and will present the research results to the class.
Co-requisite: GEM 3310.
- GEM 3330 Advanced Measurement Analysis (3)**
Survey equipment calibration, instrumentation error, topographic mapping, control leveling, instrumentation error, and the propagation of error through survey calculations. This course is the second course of a one-year study of survey fundamentals.
Prerequisite: GEM 2220.
Co-requisite: GEM L330.

- GEM L330 Advanced Measurement Analysis Lab (1)**
Field laboratory experience using EDM calibration baselines, conducting topographic mapping projects and control level loops, and testing for instrument errors. The student is introduced to the field use of data collectors.
Co-requisite: GEM 3330.
- GEM 3366 Photogrammetry and Remote Sensing (3)**
Introduction to metrical photogrammetry, interpretative photogrammetry, and remote sensing. Focuses on the theory, instrumentation, and practical application of photogrammetry to the problem of mapping the earth's surface. Remote sensing concepts, principles, sensors, and specific satellite platforms are covered in the course. Hands-on exercises are given that makes use of software to create stereo models, orthophotos, and perform image processing.
- GEM 3379 Introduction to Least Squares Adjustment (3)**
The theoretical principle of error propagation and least squares adjustment theory to compute optimized solutions to geomatics problems involving redundant data. The use of mathematical scripts and least squares software to solve spatial data adjustment problems in land surveying and geomatics applications.
Prerequisites: MTH 1125, STAT 2210, MTH 2230, GEM 3330 or instructor approval.
- GEM 3395 Cooperative Work Experience I (1)**
The course provides students with experience working with an employer approved for the Cooperative Work Experience component of the Surveying and Geomatics Sciences Program. The student is expected to submit a written and oral report to the faculty member directing the project, detailing the work experience.
Prerequisites: GEM 2220, 2.0 overall grade point average, and approval of the Geomatics Program Director.
- GEM 4405 Route and Construction Surveying (3)**
Explores the theoretical foundations of route and construction surveying. Course topics are coordinate geometry (COGO), horizontal and vertical curve models, spirals, alignments, stationing, cross sections, areas, volumes, and route design elements.
*Prerequisites: GEM 3330.
Co-requisite: GEM L405.*
- GEM L405 Route and Construction Surveying Lab (1)**
This field laboratory applies the principles of route and construction surveying, the use of civil design software, and the use of data collectors for practical design and field layout.
Co-requisite: GEM 4405.
- GEM 4407 Land Development (3)**
Explores the concepts and problems associated with the design and construction of subdivisions and related infrastructure.
*Prerequisites: GEM 4409.
Co-requisite: GEM L407.*
- GEM L407 Land Development Lab (1)**
This computer laboratory provides the student the opportunity to design and create those drawings necessary for local government approval of the typical subdivision.
Co-requisite: GEM 4407.
- GEM 4408 Geodesy and Geodetics (3)**
Focuses on mathematical models of the earth, survey astronomy, the earth's gravity field, and coordinate systems, and geodetic reference framework. Important skills developed in this course include coordinate and datums transformations, map projections, astronomic observation, geodetic computations, surveying network design, and geodetic control survey.
- Prerequisites: MTH 1125 or instructor approval.*
- GEM 4409 Hydrology (3)**
Explores several models used to compute runoff estimates based on particular rainfall events. Course topics are the hydrologic cycle, rainfall intensity, runoff models, hydrographs, storm sewer design, culvert design, open channel flows, watershed delineation, water detention and retention structures, and onsite sewage disposal systems.
- GEM L409 Hydrology Lab (1)**
Compute peak runoff estimates, and open channel designs. Computer models are explored with respect to solving and presenting peak runoff solutions. A design project involving the use of large-scale topographic maps will be assigned.
- GEM 4410 Introduction to Global Positions (GPS) (3)**
Introduction to history and development of GPS and global navigation satellite systems (GNSS); GPS signals and observables; basic principles of GPS operations; GPS error analysis, GPS survey methods and procedures; and GPS data collection, processing; and GPS applications to Geomatics.
Prerequisite: GIS 3390.
- GEM 4490 Geomatics Capstone (1)**
This course prepares students for the national Fundamentals of Surveying exam to cover all aspects of the exam.
Prerequisite GEM 4409
- GEM 4493 Guided Independent Study (1-3)**
Supervised study through creative field and laboratory projects in the Surveying and Geomatics field. A written request is to be submitted to the guiding professor and Program Director at least two weeks in advance of the term in which the study is to be undertaken. This study is NOT to be used to repeat a course for which a grade of 'D' or below has been earned. Application forms are available in the office of University Records. For more information see index for "Independent Study and Research".
Prerequisites: GPA of 3.0, permission of guiding professor, approval of Geomatics Program Director, Department Chair, and Dean.
- GEM 4494 Guided Independent Study (1-3)**
Supervised study through guided readings, creative endeavors in the Surveying and Geomatics field. A written request is to be submitted to the guiding professor and Program Director at least two weeks in advance of the term in which the study is to be undertaken. This study is NOT to be used to repeat a course for which a grade of 'D' or below has been earned. Application forms are available in the office of University Records. For more information see index for "Independent Study and Research".
Prerequisites: GPA of 3.0, permission of guiding professor, approval of Geomatics Program Director, Department Chair, and Dean.
- GEM 4496 Cooperative Work Experience II (1)**
The student must be in residence at Troy University for a minimum of one semester after completion of GEM 3395 before leaving for cooperative work experience under GEM 4496. The student is expected to submit a written and oral report to the faculty member directing the project, detailing the work experience.
Prerequisites: GEM 3395 and approval of the Geomatics Program Director.
- GEM 4499 Geomatics/GIS Projects (2)**
This course offers the Geomatics/GIS student the opportunity to apply the fundamental principles and concepts learned in the study of Geomatics/GIS to a particular problem or project. The student will state the problem, design an experiment to test a hypothesis concerning the problem statement, take the measurements, array the data, analyze the data,

state conclusions, and write a final report based on the analysis and conclusions.
Pre-requisite: GEM 4409.

GEOGRAPHY COURSES (GEO)

- GEO 2210 World Regional Geography (3)**
 Physical and cultural features, economy, and populations of the geographic regions of the world.
- GEO 2220 Digital Exploration of the World (3)**
 Using digital technologies to collect and present multimedia information tied to locations and landscapes around the world. With storytelling as a communication methodology, this course teaches skills in exploring and visualizing historical change in space and time on the earth using mobile devices, internet, Augmented Reality (AR) and Virtual Reality (VR) technologies.
- GEO 2225 Geography of North America (3)**
 This course is designed to introduce the student to the region of North America from a geographic perspective. This course examines the North American by investigating the survey of agricultural, industrial, and commercial development of Anglo-America, as well as covering physical and cultural environment, resource distribution, economy, and population characteristics. In examining the regional geography of North America, we will begin the course by exploring the basics in terms of the physical environment, historical development and political economy, and subsequently explore North America by breaking it down to its sub-regions—each of which will include the above topics plus examinations of the sociocultural aspects of the sub-regions.
- GEO 2299 Basic GIS (3)**
 This course is for students who are interested in learning the basics about Geographic Information System (GIS) and use of this powerful technology to create maps, collect data, and perform advanced analysis. This course is designed for a broad audience.
- GEO 3300 Principles of Physical Geography (3)**
 Earth geography including climate, soils, natural vegetation, water resources, rocks, minerals, and surface structures.
- GEO 3301 Principles of Cultural Geography (3)**
 Interrelationship of geographical elements in various world situations.
- GEO 3306 Geography of Asia (3)**
 This course is designed to introduce the physical and cultural geography of the Asian region. Students will be provided with an overview of Asian landform features and climate coupled with a discussion of human interaction with a variety of Asian landscapes in terms of historical, political, economic, religious, and ethnic factors using geographic and cartographic analytical techniques.
- GEO 3307 Geography of Europe (3)**
 Selected topic studies in the physical and cultural environment, resource distribution, economy, and population characteristics of the European-Slavic land areas. Special attention will be devoted to the study of the geo-political influence of this area on lesser developed nations and the U.S.
- GEO 3309 GIS/Spatial Data Applications in Criminal Justice (3)**
 An introduction to the use of spatial data applications in a wide range of real world policing endeavors; i.e., monitoring sexual predators, traffic accident reporting and modeling, crime scene analysis. One field trip to the Department of Public Safety in Montgomery, Ala. is required.
- GEO 3312 Geography of Latin America (3)**
 An analysis of the major physical and cultural aspects of Middle and South America.
- GEO 3326 Geography of the Russian Realm (3)**
 An analysis of the physical and cultural aspects of Russia and the other former republics of the Soviet Union.
- GEO 3331 Geography of the Middle East and North Africa (3)**
 Physical setting, resource distribution, economy, population characteristics, and geopolitical importance of the region.
- GEO 3350 Weather and Climate (3)**
 A study of the physical properties of weather and climate.
- GEO 4402 Political Geography (3)**
 Analysis of the reciprocal effects of geography and political organization on the behavior of states including boundaries and frontiers, national resources, spatial strategy, and maritime power.
- GEO 4403 Conservation (3)**
 The conservation of natural and human resources with emphasis on population expansion as the major element in changing ecology.
- GEO 4404 GIS/Spatial Data Applications in Economics (3)**
 An introduction to the use of spatial data applications in the fields of business and economic development, including site selection and analysis of customer characteristics.
- GEO 4406 Urbanism (3)**
 Historical, physical, economic, and societal evolution of the urban area. American metropolitan problems and implications for policy and planning.
Note: One field trip required at student's expense. This course may be taken for sociology credit.
- GEO 4408 Rural America: Past and Present (3)**
 A study of rural society, its organization, agencies, institutions, population trends and composition, patterns of settlement, social processes, and change in character.
- GEO 4411 Population and Society (3)**
 This course provides an overview of how to analyze and think about changing population trends in the U.S. as well as around the world. Students will learn how to relate contemporary and pressing problems such as migration, population growth, fertility, death rates, and other population changes to current social and economic policy debates (e.g., funding for Social Security, education, healthcare, etc.).
- GEO 4435 Historical Geography of North America (3)**
 An analysis of the physical and cultural factors in the development of North America from early European settlement to the present.
- GEO 4485 Practicum in GIS/Spatial Data (3)**
 Supervised GIS projects on a topic chosen by the student. Intended to give practical experience for the student seeking GIS employment post-graduation.
- GEO L485 GIS/Spatial Data Modeling Lab (2)**
 The purpose of this lab is to allow the students to demonstrate their ability to collect, formulate, analyze, and draw conclusions based upon a real world modeling exercise.
- GEO 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
 Undergraduate research with attention to critical evaluation of research techniques, methods and procedures.
Prerequisites: Junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department

chair at least two weeks in advance of the term in which the study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."

GEO 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)

Supervised study through field and laboratory projects, guided readings, creative endeavors or achievement of specific skills.
Prerequisites: Junior or senior standing, with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which the study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."

GEO 4498 Honors Independent Study (1 to 3 credit hours)
 Advanced research and study for outstanding students in their major field. Culminates in report to a department committee which includes invited faculty members in related fields.

GERMAN COURSES (GER)

Note: For additional information, see Placement in Academic Courses.

GER 1121 Introductory German I (3)
 Introduction to the German language and culture.

GER 1122 Introductory German II (3)
 Introduction to the German language and culture.
Prerequisite: GER 1121 or permission of instructor.

GER 2221 Intermediate German I (3)
 Emphasis on basic language skills and knowledge of German culture.
Prerequisite: GER 1122 or permission of instructor.

GER 2222 Intermediate German II (3)
 Emphasis on basic language skills and knowledge of German culture.
Prerequisite: GER 2221 or permission of instructor.

GER 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)
 Additional information is indexed under Independent Study and Research.

GREEK COURSES (GRK)

Note: For additional information, see Placement in Academic Courses.

GRK 1111 Introductory Greek I (3)
 Introduction to the ancient Greek language with emphasis on pronunciation, basic vocabulary, fundamentals of grammar, and graded readings.

GRK 1112 Introductory Greek II (3)
 Continuation of GRK 1111.
Prerequisite: GRK 1111 or permission of instructor.

GEOGRAPHIC INFORMATION SCIENCES COURSES (GIS)

GIS 3301 Cartography & Geovisualization (3)
 Skills and knowledge required to design, produce

and reproduce maps, and understand the computation issues relating to these workflows, and capabilities for representing and interpreting spatial information through maps and related mapping products.

GIS 3305 Spatial Information and Analysis (3)
 Skills and knowledge related to spatial processes, point patterns, and autocorrelation in area data, as well as in continuous fields.

Prerequisite: GIS 3390

GIS 3310 Introduction to Remote Sensing (3)
 The course introduces the basics and application of remote sensing for earth observation. It covers physical principles of remote sensing technologies, different types of remote platforms and sensors, data acquisition, storage, processing, interpretation, analysis, and applications.

GIS 3390 Fundamentals of Geographic Information and Analysis (3)
 This course is the first course in a one-year study of the fundamentals of Geographic Information Systems (GIS). Topics of study are digital mapping, data capture, data conversion, data structures, and spatial data concepts. Hands-on exercises are included using some of the common GIS software.

GIS 3391 Application of Geospatial Information Sciences (3)
 This course provides a study of common applications of GIS. The course provides further study in database design, digital base map analysis and testing, and spatial analysis. Hands-on exercises are included using some of the common GIS applications.
Prerequisite: GIS 3390.

GIS 3395 Study Abroad in Geospatial Information Sciences (3)
 This course provides an opportunity for Geomatics/GIS students to explore spatial applications on a global scale through study abroad and an international field trip, to expand their understanding of their global identity, and to enhance their intercultural competence within their personal and professional development.
Prerequisite: GIS 3390

GIS 4401 Spatial Database Design and Management (3)
 Introduction to design, implementation, and management of spatial data base systems; modeling and representation of spatial objects; fundamentals of relational database design, normalization, and SQL; spatial data queries, spatial indices, and integrity constraints; and spatial database management and applications.
Prerequisite: GIS 3390.

GIS 4405 Spatial Modeling and Programming (3)
 Introduction to geospatial analysis and modeling process using GIS modeling tools and programming languages. Focuses on GIS customization, integration of basic geoprocessing tools, programming fundamentals of Python, spatial data access and manipulation with Python, design and implementation of geospatial solutions to automate geoprocessing tasks using Python.
Prerequisite: GIS 3390.

GIS 4415 Advanced Geospatial Technologies (3)
 This course provides students an introduction to advanced technologies in geospatial data collection and analysis, including GNSS, LiDAR, terrestrial 3D scanner, UAS, and their integration with Geographic Information Systems.
Prerequisite: GIS 3390

GIS 4420 Web Based GIS/ Spatial Data Applications (3)
 The student will learn the techniques and protocols needed to develop and transmit spatial databases for

use by a variety of interests on the World Wide Web. "Remote" spatial data analysis on existing databases will be an important component of the course.

Prerequisite: GIS 3390

- GIS 4490 GIS Senior Project (3)**
This course offers students, with senior status, an opportunity to independently apply fundamental principles and concepts learned in the study of geospatial information science to a specific application. Each student will identify a specific problem, conduct background and literature research, collect and analyze spatial data, design and implement GIS functions/models to solve the problem, state conclusions and present the study in a final report.
Prerequisite: Senior standing
- GIS 4491-92 Guided Independent Research (1-3)**
Additional information is indexed under Independent Study and Research
- GIS 4493-94 Guided Independent Study (1-3)**
Additional information is indexed under Independent Study and Research
- GIS 4499 GIS Internship (3)**
The course provides students with real work experience with an employer approved for the internship component of the GIS major. The student is expected to submit a written report and oral presentation to the faculty member directing the project, detailing the work experience.
Prerequisite: GIS 3391

HISTORY COURSES (HIS)

- HIS 1101 Western Civilization I (3)**
Survey of developments in Western history from the pre-historic era to early modern times, including classical antiquity, Middle Ages, and Renaissance and Reformation.
- HIS 1102 Western Civilization II (3)**
Survey of developments in Western history from modern times to the contemporary era, including the Scientific Revolution, Enlightenment, French Revolution and Napoleon, nationalism, imperialism, two world wars, and the postwar era.
- HIS 1103 Honors Western Civilization I (3)**
Chronological coverage same as HIS 1101.
Enrollment restricted to superior students.
Prerequisite: Permission of department chair.
- HIS 1104 Honors Western Civilization II (3)**
Chronological coverage same as HIS 1102.
Enrollment restricted to superior students.
Prerequisite: Permission of department chair.
- HIS 1111 U.S. to 1877 (3)**
Survey of American history from the colonial period through Reconstruction, including the Revolution, Constitution, Early National Era, sectional problems, and the Civil War.
- HIS 1112 U.S. since 1877 (3)**
Survey of American history from post-Reconstruction to the contemporary era, including industrialization, emergence as a world power, World War I, Great Depression, World War II, Cold War, the expanding role of government, and global issues in the post-Communist era.
- HIS 1113 Honors U.S. to 1877 (3)**
Chronological coverage same as HIS 1111.
Enrollment restricted to superior students.
Prerequisite: Permission of department chair.
- HIS 1114 Honors U.S. since 1877 (3)**
Chronological coverage same as HIS 1112.
Enrollment restricted to superior students.
Prerequisite: Permission of department chair.
- HIS 1122 World History to 1500 (3)**
This course surveys the origins, development, and character of the major centers of civilizations and their relationships to one another from the earliest civilizations to 1500.
- HIS 1123 World History from 1500 (3)**
This course surveys the growth, development, and character of the major centers of civilizations from 1500 to the present. The course focuses on the growing interconnections among societies around the globe in politics, economics, culture, and technology and examines the wide processes leading to the emergence of the present world.
- HIS 1124 Honors World History I to 1500 (3)**
Chronological coverage same as HIS 1122.
Enrollment restricted to superior students.
Prerequisite: Permission of department chair.
- HIS 1125 Honors World History II to 1500 (3)**
Chronological coverage same as HIS 1123.
Enrollment restricted to superior students.
Prerequisite: Permission of department chair.
- HIS 2210 History Through Games (3)**
This course will utilize a variety of different game formats, including video games, role-playing games, board games, and sports to explore historical concepts and events. Students will be encouraged to think analytically about the ways games interpret historical events versus textbook explanations.
- HIS 2215 History Through Movies and Music (3)**
This course will explore historical topics through various popular culture sources, including movies and music. Students will be encouraged to compare the popular culture material with historical events as well as analyze the sources in the context of their times.
- HIS 2220 Cultural History of Alcohol and Drug Use in the United States (3)**
This course examines attitudes, laws, religious structures, and political movements related to the prohibition and promotion of alcohol and other drugs in various periods in America's past. The course will examine films, music, novels, and dramatic works in an attempt to understand the role of mood-altering substances in American life. Particular attention will be paid to attempts to provide solutions to problems associated with alcohol and drug use such as the prohibition movement, Alcoholics Anonymous, medical-based treatment programs, and prevention programs.
- HIS 2225 The African-American Experience (3)**
This course explores African-American history from slavery through the present day, with a focus on societal roles and contributions, along with political thought and cultural movements. The course emphasizes the importance of this history and culture in understanding the world today.

- HIS 2230 General Topics in History (3)**
Historical examination of a designed topic of special and/or current interest and importance generally not covered in regularly offered courses by the department. This course may be repeated once for credit.
- HIS 2235 History of the American Civil War (3)**
This course introduces students to the legal, political, cultural, and military conflicts that redefined the United States between 1845-1877.
- HIS 2280 Travel Study in History (1-3)**
Supervised investigation of relevant topics in history through travel-study abroad or within the interior of United States.
Prerequisite: Permission of instructor. Course may be repeated with permission of instructor.
- HIS 3302 History of Religion in the United States (3)**
A study of the development of religion in the United States, including denominations, beliefs, church life, and the relationship of religious beliefs to other beliefs and institutions.
Prerequisite: HIS 1111 and 1112 or permission of instructor
- HIS 3304 Military History of the United States (3)**
A study of war in United States history from the Colonial period to the present, with emphasis on the role of warfare in United States history and the relationship of the military to the civilian.
Prerequisite: HIS 1111 and 1112 or permission of instructor.
- HIS 3311 Civilization of Greece (3)**
Historical and cultural achievements of the Greeks and their legacy to the modern world.
- HIS 3312 Civilization of Rome (3)**
Historical and cultural achievements of the Romans and their legacy to the modern world.
- HIS 3314 History of Game Design (3)**

This course is designed to introduce the student to marketing principles and practices of hospitality and tourism. The course will review terminology, systems, techniques, and processes that are used in the specialized application of hospitality and tourism marketing. This course will also encourage students to consider how traditional marketing

strategies may be applied to these substantial and growing industries.

Prerequisites: HSTM 2230 and HSTM 2220.

- HSTM 4465 Hospitality Service (3)**
This course provides students with the study of basic and exceptional service throughout the various hospitality industries including: food & beverage, gaming, lodging, country clubs, events, and travel and tourism.
Prerequisite: HSTM 2230
- HSTM 4466 Food and Beverage Management (3)**
This course examines the practical application of managerial skills necessary for food service operations, specifically focusing on facility design, equipment usage, food safety, cost controls, and operational function.
Prerequisite: HSTM 2230
- HSTM 4468 Recreation Administration (3)**
This course is designed to provide the student with a comprehensive understanding of the management and administration of leisure and recreation organizations. This course will emphasize leadership roles of administrators, human resource management, budgeting and financial management, marketing, communication, technology, and facility planning and operations.
Prerequisites: HSTM 2240 and HSTM 3345
- HSTM 4470 Revenue Generation in Hospitality, Sport and Tourism Management (3)**
This course will provide professional sales techniques needed to form a framework for revenue generation in the hospitality, sport and tourism industries. Students will examine the foundations, theory, and framework associated with sales, and the dynamics associated with building and fostering relationships necessary for a vibrant client base.
Prerequisites: HSTM 4462 or HSTM 4430.
- HSTM 4480 Event Planning and Operation (3)**
This course is an in-depth look at the skills and knowledge required to develop, plan, and execute events. This course is designed to extend beyond basic planning functions and develop core competencies including: strategic planning, project management, risk management, financial management, administration and HR management, site selection, marketing, and event design.
Prerequisite: Instructor Approval Required
- HSTM 4485/86 Practicum (3)**
The practicum opportunity is designed to provide practical experiences for Hospitality, Sport and Tourism Management Students. The practicum allows the student to develop and mature through exposure to and practical experience with a variety of tasks under the guidance of trained, established leaders in the field. This is a supervised learning experience with an approved hospitality, sport, tourism, or event service agency, organization, or institution.
Prerequisite: Instructor Approval Required
- HSTM 4488 Internship I in Hospitality, Sport, and Tourism Management (3)**
A supervised experience in planning, staging, and evaluating a form practicum in related field. This is the first term in a two term internship experience.
Prerequisite: Permission of internship coordinator and Troy Online home location.
- HSTM 4489 Internship II in Hospitality, Sport, and Tourism**

Management (3)

A supervised experience in planning, staging, and evaluating a formal practicum in related field. This is the second part in a two part internship experience.

Prerequisite: HSTM 4488 and permission of internship coordinator, and Troy Online home locator.

- HSTM 4490 Internship in Area of Concentration (6)**
A supervised experience in planning, staging, and evaluating a formal practicum in related field.
Prerequisite: Permission of Instructor and Troy campus-home location.
- HSTM 4491/92 Guided Independent Research (3)**
Additional information is indexed under Independent Study and Research.
- HSTM 4493/94 Guided Independent Study(3)**
Additional information is indexed under Independent Study and Research.
- HSTM 4499 Seminar in Hospitality, Sport and Tourism Management (3)**
Students enrolled in this capstone course will examine trends, career paths, and discuss current topics in the hospitality, sport and tourism industries. Students will also prepare cover letters, resumes, undergo a mock job interviews, develop career path portfolios, and undergo supervised experiences in a related field.
Prerequisite: Permission of instructor..

HUMAN SERVICES COURSES (HS)

- HS 2230 Survey of Human Services (3)**
A survey of the major human service delivery systems to include historical development, populations served, professional roles, and interrelationships between targeted social problems and services delivered. Introduction to the ecological/systems perspective as a tool for understanding these relationships. Includes observations and field trips.
- HS 2240 Ethics in the Helping Profession (3)**
Ethical decision-making and skill development within the helping professions.
- HS 2250 Fundamentals of Case Management (3)**
This course will introduce the foundation of case management to include the process of assessment, planning, facilitation, care coordination, evaluation, documentation and advocacy of options and service. Case studies will be utilized to facilitate practical application.
- HS 2260 Introduction to Non-Profit Organizations (3)**
This seminar in non-profit organizations is designed to aid helping professional students develop a basic understanding and knowledge of the history, operation, and structure of non-profit organizations. Will include management, grant writing, and leadership roles.
- HS 3300 US Justice and the Helping Profession(al) (3)**
This course will explore historical and current issues in the US justice system that have resulted in the marginalization of disadvantaged populations, who typically enter into this system. - HS 3325 Wellness Across the Lifespan I (3)**
Introductory examination of several aspects of wellness to include nutrition, physical activity, and mental wellness, from birth to young adulthood. This course exposes the student to resources related to a wellness plan.
- HS 3335 Wellness Across the Lifespan II (3)**
Introductory examination of several aspects of wellness to include nutrition, physical activity, and mental wellness, adulthood to death and dying. This course exposes the student to resources related to a wellness plan.
- HS 3370 Professional Communication in the field of Human Services (3)**
Principles and techniques of interviewing for human services professionals. Major emphasis is the building of empathic skills.
- HS 3375 Practicing Culotural Competency (3)**
This course provides students with an understanding and appreciation of cultural diversity, ethnic and gender sensitivity, as well as ageism, in social work practice with a variety of populations is highlighted.
- HS 3380 Human Services Study Abroad (3)**
Students will study abroad and engage in service learning opportunities in another culture. Students will develop an understanding of the economy, culture, customs and human services practices of the country while observing and engaging in direct human service practice.
Prerequisites: successful completion of Troy Study Abroad Program requirements and fees.
- HS 3399 Pre-Practicum Seminar (3)**
This course will evaluate the student's ability (knowledge, values, and skills) required to begin Human Service Field Experience. The class will focus upon areas essential for competent human service practice, including social policy and contemporary topics. Human Services majors must complete this course with a grade of "C" or better.
Prerequisite: Completing of HS Major requirements. The practicum site must be approved.
- HS 4400 (6)/4420 (3) Human Service Field Experience**
Provides experiences in a variety of social and human services settings with an emphasis on the multiple natures of human problems and the impact these problems have on the disabled and disadvantaged. Includes a weekly seminar plus a minimum of 240 clock hours per course hour spent in a particular agency for HS 4400 I (6). For HS 4420 II (3) it is 120 clock hours. Clinical hours and responsibilities will be determined by internship supervisor. Human Services majors must complete this course with a grade of C or better.
Prerequisites: Senior level, HS 2230, HS 3370 and HS 3399 or permission of instructor.
- HS 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.
- HS 4493-94 Guided Independent Study (1 to 3 credit hours**

per course per semester)

Additional information is indexed under Independent Study and Research.

INTEGRATED ARTS COURSES (IA)

- IA 1150 Integrated Arts and the Creative Habit (1)**
Discover the Integrated Arts approach to developing creative habits. Engage not only your curiosity and imagination, but also discover new ways of working and connecting through active innovation, boundary-crossing, challenging assumptions, and moving beyond inhibitions.
- IA 2220 Fundamentals of 3D Modeling and Printing (3)**
Introduces students to the fundamental skills required to begin 3D design and printing using CAD (Computer Aided Design) software. Digital design terminology and techniques combined with an understanding of how 3D printers function will be delivered through a series of fundamental projects. Includes access to the 3D Printing Lab.
- IA 2225 3D Printing Lab (1)**
Through project-based learning students apply 3D design and printing skills for applied experience with printers and other technologies offered in the lab. May be repeated for credit.
Prerequisite: IA 2220
- IA 2230 Large Format Printing and Sustainable Materials (3)**
Utilizing sustainable materials like recycled plastics, concrete, and clay, this class will explore eco-innovative approaches to large format design and manufacturing. 3D scanning, scaling, and reverse engineering will also be taught. Includes access to the 3D Printing Lab.
Prerequisites: IA 2220
- IA 2235 Creative Collaborations, Teams, and Partnerships (2)**
Work dynamically together and achieve more. Students explore collaborative ideas and experiment with hands-on application of new communication skills and tools. Emphasis on creative thinking and problem-solving, role play within different types of teams, partnerships, and collaborative groups. Learn how to lead or enrich your participation in creative ventures of any kind.
- IA 2240 Product Design for 3D Printing (3)**
Design skills and processes utilizing human-centered thinking. Questioning, Empathy, Collaboration, and Interactive Workflow processes are applied to unique challenges. Intermediate CAD (Computer Aided Design) skills will be taught. Includes access to the 3D Printing Lab.
Prerequisite: IA 2220
- IA 3320 Constructive Disruption: Design Process and Workflow (3)**
Applying 3D design and production skills, students will learn to offer constructive disruption applying innovative concept, design, and manufacturing workflows and communication. This course will exercise the problem-solving mindset utilizing the skills developed in this program. Includes access to the 3D Printing Lab.
Prerequisites: IA 2220
- IA 3330 Product Development and Assistive Design (3)**
Product development will be taught and applied through practical and creative 3D printing projects. Students will learn intermediate solid modeling and with an emphasis on assistive design. Includes access to the Virtual and Physical Lab
Prerequisites: IA 2220

- IA 3335 Integrated Arts Concept and Design (2-3)**
Students collaborate in the design and conceptual development of a unique creative production or project with a focus on multidisciplinary work and innovative integration of arts with other areas and disciplines. Outcomes aimed at public presentation and/or service.
May be repeated for credit
- IA 3340 Integrated Arts Production (1-3)**
Students collaborate in the process for unique creative production or project with a focus on multidisciplinary work and innovative integration of arts with other areas, disciplines, and enterprises culminating in public presentation and/or service.
May be repeated for credit.
- IA 3365 Special Topics in Integrated Arts (1-3)**
Examination of selected topics not included in the established curriculum, with emphasis on topics and approaches of a multi-disciplinary nature.
May be repeated for credit.
- IA 3366 Special Topics in Integrated Arts (1-3)**
Examination of selected topics not included in the established curriculum, with emphasis on topics and approaches of a multi-disciplinary nature.
May be repeated for credit.
- IA 4496 Integrated Arts Internship (3-6)**
In this individualized internship, students work with an organization, business, or enterprise to engage in creative problem-solving in a professional setting, utilizing the arts integration process and skill sets. Expectations for collaborative goal-setting and measurable beneficial outcomes in partnership with host(s) and other stakeholders.
Prerequisites: Permission of instructor and IA advisor
- IA 4498 3D Design and Production Internship (3-6)**
Students will identify or be partnered with a business or enterprise for internship to gain applied experience with the skill sets developed in these courses. Includes access to the Virtual and Physical Lab.
Prerequisites: IA 2220, IA 2230, IA 3320 and IA 3330 or permission of chair

**INTERDISCIPLINARY STUDIES COURSES
(IDS)**

- IDS 1101 Global Challenges (3)**
Students will build knowledge and skills for globally competent citizenship and public service to address global challenges (population, resources, technology, information, economies, governance) faced in the 21st century.
- IDS 2200 Crossroads: Sophomore Interdisciplinary Seminar in Creative Thinking (3)**
This seminar examines specific academic themes from a variety of interdisciplinary perspectives that reach across the human, natural, and social sciences. By capitalizing on the distinctive methodologies offered by faculty members from different academic disciplines, the seminar involves students and faculty in creating original approaches to course.
- IDS 2201 Applications in Public Service (3)**
An overview of strategies for civic enrichment that engage various forms of community capital (social, religious and governing institutions, citizens, and business/economic interests) to address defined civic issues. Focus is given to diagnosing civic issues, developing and implementing an intervention and evaluating its impact.
- IDS 2230 International Engagement**
This course is designed to introduce and connect international students to life and culture in the

United States at Troy University. The class explores variety of topics central to being a new international student including the history, geography, and culture of the U.S.; navigating various systems at the university and the U.S. (transportation, medical, employment, and campus resources); and interpersonal qualities and skills for success as an international student.

- IDS 3305 Study Abroad through Partnerships**
This course acts as a placeholder for students studying abroad. Students studying abroad for a semester or longer through a Troy University exchange partner should be registered for this course by the Study Abroad Coordinator in the TroyAbroad Office.
Prerequisites: completion of TroyAbroad advising and application process.
- IDS 3310 Principled Public Service in a Modern Age (3)**
This course concentrates on exploring ethical practices when individuals come together and address social problems in their communities. Emphasis will be on ethical leadership in the context of teamwork, participatory decision-making, and citizen empowerment.
Prerequisites: IDS 1101 and IDS 2201.
- IDS 3315 Systems and Structures of Public Service (3)**
Students will learn basic principles of public management and administration, including history and development, organizational structures, and modern functions of public service organizations and advocacy efforts.
Prerequisites: IDS 1101 and IDS 2201.
- IDS 4410 Social and Policy Entrepreneurship (3)**
This course introduces students to social and policy entrepreneurship through case studies, key readings, and primary information resources. The class will explore the sources of funding for social enterprises, such as philanthropy, governmental funding, grant writing, as well as income generating, self-sustaining arrangements that promote long-term change.
Prerequisites: IDS 1101 and IDS 2201.
- IDS 4495 Capstone Experience in Public Service and Civic Engagement (3)**
300 hour field experience internship based at a community agency, healthcare facility, school or government agency focused on application of student's personal plan for community engagement and public leadership. Through the course, students will build applied public leadership skills and use various applications and strategies for civic enrichment.

**INTERDISCIPLINARY EDUCATION
COURSES (IED)**

- IED 4454 Internship Seminar for Interdisciplinary Education (3)**
This course provides seniors an opportunity during internship to examine broad educational issues and concerns, topics on the state and local levels, and those of personal interest. The scope of the course ranges from juvenile law, classroom management professionalism, professional development for teachers and other course topics.
*Prerequisite: admission to TEP.
Co-requisite: IED Internship.*
- IED 4472 Internship in Grades P-12 (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a

university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience.

Prerequisite: admission to TEP.

Co-requisite: IED 4454.

IED 4491-92 Guided Independent Research (1 to 3 credit hours)

Undergraduate research with attention to critical evaluation of research techniques, methods and procedures.

Prerequisites: Junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the Office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."

IED 4493-94 Guided Independent Study (1 to 3 credit hours)

Supervised study through field or laboratory projects, guided readings, creative endeavors or achievement of specific skills.

Prerequisites: Junior or senior status, permission of guiding professor, approval of department chair and the dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Also see index for "Independent Study and Research."

INFORMATION SYSTEMS COURSES (IS)

IS 2241

Computer Concepts and Applications (3)

This course provides an interdisciplinary introduction to computer literacy, security, word processing software, electronic spreadsheets, database software, presentation software, file management, and data storage.

IS 3310

Introduction to Information Systems & Data Analytics (3)

An introduction of information systems, their roles, and practical application in a digital business environment. Topics discussed include the fundamentals of modern business information systems for operational, strategic, and competitive decision-making is introduced and applied in real-world scenarios.

IS 3315

Advanced Applications for Accounting

A computer software applications course in which students use electronic spreadsheet software and other application software to design and implement solutions to common accounting problems and issues.

Prerequisites: ACT 2292, BUS 3310 and IS 2241.

IS 3320

Data Communication & Networks (3)

This course introduces the theory and practical applications of current technologies in data communication and computer networks. Emphasis is placed on data communication principles, local and wide area networks and an understanding of the basic features, operations, and limitations of data communications and computer networks. Coverage includes wireless technologies, industry convergence, compression techniques, network security, LAN technologies, VoIP, and error detection and correction.

Prerequisite: IS 2241, IS 3310.

IS 3346

Database Management Systems I (3)

This course is an introduction to database management systems (DBMS) and design via

conceptual, logical, and physical modeling techniques. The emphasis is on relational DBMS, including modeling organizational data, representation of data relationships, data definition and manipulation, database design and normalization concepts, database generation, and database administration.

Prerequisites: IS 2241, IS 3310, or consent of instructor.

IS 3347

Honors Database Management Systems (3)

This course is an introduction to database management systems (DBMS) and design via conceptual, logical, and physical modeling techniques. Emphasis is on relational DBMS, including modeling organizational data, representation of data relationships, data definition and manipulation, database design and normalization concepts, database generation, and database administration. This course is designed for Sorrell Global Scholars honors students.

Prerequisites: Sorrell Global Scholars student or permission of Associate Dean; IS 2241.

IS 3350

Business Programming (3)

The course introduces and develops programming fundamentals, including program structure, assignment, data types, input/output, control flow, functions, arrays, strings, object structures, list processing, and advanced I/O. Using an integrated development environment (IDE), students will use packages and libraries to develop object-oriented programs with a focus on data analysis and data visualization.

Prerequisites: Grade of 'C' or higher in IS 2241 and MTH 1112.

IS 3351

Honors Business Programming (3)

The course introduces and develops programming fundamentals, including program structure, assignment, data types, input/output, flow of control, functions, arrays, pointers, strings, object structures, list processing, and advanced I/O. Using an integrated development environment (IDE), students will use packages and libraries to develop object-oriented programs with a focus on data analysis and data visualization. This course is designed for Sorrell Global Scholars honors students.

Prerequisites: Sorrell Global Scholars student or permission of Associate Dean; Grade of 'C' or higher in IS 2241 and MTH 1112.

IS 4446

Honors Systems Analysis and Design (3)

This course discusses the processes, methods, techniques, and tools to develop information system. The course covers a systematic methodology to analyze business requirements, design information system solution, implement and test information system. This course is the capstone course for the concentration. This course follows a project-based approach that requires students to complete a software implementation project using a systems development lifecycle methodology. This course is designed for Sorrell Global Scholars honors students.

Prerequisites: Sorrell Global Scholars student or permission of Associate Dean; Permission of DSS Department Chair.

IS 4447

Systems Analysis and Design (3)

This course discusses the processes, methods, techniques, and tools to develop information systems. The course covers a systematic methodology to analyze business requirements, design information system solutions, implement and test information systems. This course is the capstone course for the concentration. This course follows a project-based approach that requires students to complete a software implementation

project using a systems development lifecycle methodology.
Prerequisites: Permission of the DSS Department Chair

IS 4451 Information Security, Assurance and Compliance (3)
 This course introduces information security awareness, governance, assurance, and compliance associated with essential network infrastructure. Emphasis is placed on understanding information systems security policy and technology countermeasures across network infrastructure access points including physical security, authentication, access control, encryption, and system management.
Prerequisites: IS 3320.

IS 4460 E-Commerce Design (3)
 This course introduces the basic concepts and language of e-commerce. Coverage includes the planning and development of an e-commerce site, including such issues as security, customer service, payment, and marketing. The course is designed to teach students to explore and evaluate e-commerce technologies, sites, and issues.
Prerequisite: IS 4447.

IS 4470 Server-Side Web Development and Administration (3)
 This course introduces server-side web application development and administration technologies. The course emphasizes on the ability to design and implement real-world web applications and server-related issues including security and scalability.
Prerequisites: IS 3346, IS 3350.

IS 4475 Internet Technology Development (3)
 This course introduces web application development technologies in an Internet environment and the related scripting languages. The course emphasizes developing secure client-side web applications with HTML and JavaScript, and consuming web services.
Prerequisites: IS 3350.

IS 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)
 Additional information is indexed under Independent Study and Research.
Note: This course may not be substituted for any required course.

IS 4498 Information Systems Internship (3)
 The Information Systems Internship provides students with the opportunity to gain real-world insurance experience in their field of study. Students are interviewed and selected by the individual companies offering the internship. See the Chair of the Information Systems Division for details.
Prerequisite: Student must have completed all four required IS courses with a "B" average. Student must have Internship Proposal approved prior to registering for class.

interpreting work, multiculturalism and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Professional Conduct are explored. The course culminates in the students mapping out the competencies required to be successful on interpreting certification exams and resources (including Troy University classes, extra-curricular activities, organizations, etc.) to acquire the competencies.
Pre-requisite: ASL 2242 with a grade of C or better, or permission of ITP academic Advisor.

ITP 3351 ASL/English Linguistics (3)
 This course is designed to introduce the linguistics of ASL, including phonology, morphology, syntax and semantics. Geographical, generational, racial and gender differences are explored. English and ASL similarities and differences are highlighted.
Prerequisites: Sign Language Proficiency Interview rating of Intermediate Plus, and ASL 2242 with a grade of C or better, or permission of ITP Academic Advisor.

ITP 3353 Introduction to Interpreting English to ASL (3)
 This is a theory-to-practice course in which interpreter trainees are required to analyze message input from a person using the source language (English), and process and produce an equivalent message intended for an individual using the target language (ASL). Offensive and defensive techniques, purchase and care of equipment, budgeting, squad organization, rules, scouting and team conditioning.
- KHP 3303 Testing and Statistical Interpretation (3)**
Test selection, analyzing test scores and measurement as a technique of evaluation in health education, physical education and exercise science.
Prerequisite: MTH 1112
- KHP 3310 Introduction to Food Science (3)**
This course provides a basic study of the chemical and biological principles of food and food preparation techniques including food quality, nutrition, safety, processing, meal management, and laws regulating food handling.
Co-requisite: KHP L310.
Prerequisites: None. Open to all majors.
- KHP L310 Introduction to Food Science Lab (1)**
Experimental and observational techniques in food preparation.
Co-requisite: KHP 3310.
Prerequisites: None. Open to all majors.
- KHP 3311 Nutritional Assessment (3)**
This course provides a study and application of techniques for assessing dietary, anthropometric, and biochemical indices in normal and selected clinical and community settings. Assessment techniques will be explored in the context of nutrition screening, chronic disease prevention, and intervention effectiveness.
Prerequisite: Grade of "C" or better in KHP 2211 or NSG 2204.
- KHP 3315 Complementary and Alternative Therapies (2)**
This course provides the study and application of knowledge of contemporary and alternative therapies (CAT). Federal regulations, cultural beliefs, evidence-based research, perceived benefits, and risks will be explored.
Prerequisite: Grade of "C" or better in KHP 2211 or NSG 2204.
- KHP 3316 Community Nutrition (3)**
This course provides knowledge relevant to public health nutrition and the role of the federal government in establishing nutrition policy in the context of the demographic profile of the United States. Concepts include nutritional epidemiology, public health monitoring through food and nutrition surveys, nutrition programs to reduce health disparities and address diet-related chronic disease, and nutrition issues of special populations.
Prerequisites: Grade of "C" or better in KHP 2211 or NSG 2204.
- KHP 3330 Physical Skills Proficiency (2)**
This course covers rules, regulations, terms, origin, development, safety, equipment and performance of skills of specified sport activities including archery, soccer, conditioning and track and field which are related to KHP 4485/4486.
- KHP 3340 Diverse Learners (3)**
This course explores programs to serve the needs of the exceptional child in schools.
Prerequisites: KHP 3361.
- KHP 3345 Medical Terminology (1-2)**
A course intended to instruct in the proper interpretation of medical and allied health terminology. Topics covered include Arabic, Greek, and Latin prefixes, suffixes, and root works common across medical and health-related fields, and their definitions and rules of usage.
- KHP 3350 Psychology of Wellness and Performance (3)**
Theory and practical application of psychological factors that impact wellness and performance of individuals and groups.
- KHP 3352 Kinesiology and Efficiency of Human Movement (3)**
General anatomy, joint and muscle function, and analysis of body movements.
Prerequisites: Grade of C or better in KHP 3360 or BIO 3347/L347 and BIO 3348/L348.
- KHP 3360 Physiological Principles of Body Systems (3)**
This course will examine the structure, function and control mechanisms of the following body systems: musculoskeletal, nervous, endocrine, cardiovascular, and respiratory. Metabolism, temperature regulation and fluid, electrolyte and acid base balance will also be discussed.
Prerequisites: Grade of "C" or better in BIO 1100/L100 and CHM 1142/L142; or SCI 2233/L233; or PHY 2252/L252.
- KHP 3361 Integrating HPER into the Curriculum (3)**
Methods and materials of teaching physical education for grades K-6.
- KHP 3363 Lifeguard Training Instructor (3)**
Review of all physical skills included in lifeguard training. Course will consist of theory and techniques of organizing and conducting the lifeguard training instructor course.
Prerequisite: KHP 2263.
- KHP 3368 Water Safety Instructor (WSI) (2)**
Organization and teaching swimming and water safety programs.
Prerequisite: Swimming Certificate.
- KHP 3369 Scuba (2-4)**
Basic techniques of scuba diving.
Prerequisites: In addition to lab fee, a student is required to purchase mask, fins, snorkel, weight belt and weights. Students are also required to make two trips for final certification. The student will be responsible for the cost of transportation, food and lodging during the two trips.
- KHP 3370 Occupational Health Sciences (3)**
This course will introduce students to various occupations in the health science/health service field. Interdisciplinary information will be discussed to provide knowledge of options for future education and/or career endeavors. Students will explore various health science/health service fields to determine areas of interest.
Prerequisite: Must be an Interprofessional Health Science Major.
- KHP 3394 Lifting Techniques for Conditioning and Rehabilitative Exercise (1)**
Students will gain knowledge for spotting techniques, safety techniques, exercises, periodization and development of strength and conditioning programs on the physically active.
Prerequisites: KHP 3352
- KHP 3395 Care and Prevention of Athletic Injury (2)**
The study of basic care and prevention, evaluation, management and rehabilitation of athletic injuries.

- Prerequisites: Grade of C or better in BIO 3347/L347 and BIO 3348/L348 or KHP 3360.*
- KHP 4400 Sports Officiating and Programs in Intramurals (3)**
Focuses on school and community recreation programs, including sports, games and officiating techniques.
- KHP 4405 Physical Activity and Disease Prevention (3)**
This course will explore the link between physical activity and the major diseases experienced by modern day humans. Evidence for and against the potential benefits of physical activity will be reviewed for conditions such as coronary heart disease, cancer, stroke, diabetes, arthritis, low back pain, asthma, infection, high blood cholesterol, high blood pressure, obesity and stress.
Prerequisites: Grade of C or better in BIO 1100/L100 or BIO 3372/L372, and CHM 1142/L142, and KHP 3360 or BIO 3347/L347, and BIO 3348/L348.
- KHP 4410 Motor Development (3)**
An analysis of the ways in which children develop movement capabilities.
Prerequisite: Junior standing or above.
- KHP 4425 Pathophysiology (3)**
This course explores the differences in normal and disordered physiological processes in human body cells, organs, and organ systems. In addition, this course examines the scientific evidence in support of the beneficial effect of regular physical activity on reduced mortality from all causes including cardiovascular diseases and metabolic disorders
Prerequisites: Grade of "C" or better in BIO 3348/L348 and KHP 4474/L474
- KHP 4427 Health and Fitness Education (3)**
This course will discuss how to educate various age groups on health and fitness-related components of physical fitness, health behavior, and their application to health practice.
- KHP 4435 Current Issues in Athletics (3)**
This course provides current information, technology and legal issues for coaches and athletics. Students will identify ways to stay current with contemporary developments in athletics and how changes may be applied in the athletic setting.
Prerequisites: Nine hours of 3000 level or above KHP courses.
- KHP 4442 Health Education (3)**
This course provides constructed opportunities for learning involving communication designed to improve health literacy, including improving knowledge and developing skills which are conducive to individual and community health and health-care related fields.
- KHP 4446 Secondary Physical Education Resistance Training Practices (3)**
This course will enable the physical education major to develop scientific-evidence based knowledge and expertise in the areas of strength training, cardiovascular endurance, flexibility, reaction time, speed and agility in traditional and non-traditional sports. This course will also give students the opportunity to learn how to test and evaluate athletes and to practice performing correct exercise technique. Emphasis will be placed on implementation and measurement of the above programs in conjunction with prescribed workout regimes for athletic development in youth athletes in a physical education setting.
Prerequisite: Grade of "C" or better in KHP 3352, KHP 4474/L474 and must be a Physical Education major.
- KHP 4458 Lifecycle Nutrition (3)**
This course provides an examination of nutrition concerns, requirements and metabolism from a biological, psychosocial, and cultural perspective from conception through late adulthood. The impact of nutrition on preconception, pregnancy, lactation, infancy, adolescence, adulthood, and aging will be studied in the context of normal nutrition and nutrition-related special conditions and interventions.
Prerequisites: Grade "C" or better in KHP 2211 or NSG 2204.
- KHP 4459 Sport and Exercise Nutrition (3)**
This course examines the special dietary requirements of physically active individuals and athletes in training. The course will cover the basics of nutrition and bioenergetics along with current issues such as fad diets and disordered eating, pre-competition meals, sports drinks, mineral supplements, and other various ergogenic aids.
Prerequisites: Grade of C or better in KHP 4474/L474.
- KHP 4460 Principles of Strength and Conditioning (3)**
This course will enable the student to develop knowledge and expertise in the areas of strength training, cardiovascular endurance, flexibility, reaction time, speed, and agility in traditional and non-traditional sports. Emphasis will be placed on implementation and measurement of the above programs in conjunction with athletic development.
Prerequisites: Grade of C or better in KHP 3360 or BIO 3347/L347 and BIO 3348/L348 and KHP 3352. Co-requisite: KHP L460.
- KHP L460 Principles of Strength and Conditioning Lab (1)**
This lab is designed to develop practical knowledge and expertise in the areas of strength training, cardiovascular endurance, flexibility, reaction time, speed, and agility in traditional and non-traditional sports. Emphasis will be placed on implementation and measurement of the above programs in conjunction with athletic development.
Co-requisite: KHP 4460.
- KHP 4465 Classroom Management for Physical Educators (3)**
This course will explore the issues of organization, curriculum, and classroom management as they relate to the physical education environment. Directed field requirements will be presented and observation hours will be conducted.
Prerequisite: Junior Standing or above.
- KHP 4466 Physical Education Practicum (3)**
Practicum is designed to provide a supervised experience related to instruction in physical education in the elementary and secondary settings. A diverse set of concepts, skills and pedagogical practices pertaining to these three core areas will be emphasized. Students will determine their population's strengths and weaknesses, design a unit of instruction to include those with identified modifications/accommodations, implement the unit, assess student's performance, analyze results and reflect on teaching needs, changes and future practice using theory and research for support.
Prerequisite: KHP 4481
- KHP 4472 Internship in Health/Physical Education (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience.
Prerequisite: admission to TEP. Co-requisite: IED 4454.

- KHP 4474 Exercise Physiology (3)**
Physiological mechanisms and adaptations of cells, tissues, organs and systems during physical activity.
Prerequisites: Grade of C or better in KHP 3360 or BIO 3347/L347 and BIO 3348/L348.
Co-requisite: KHP L474.
- KHP L474 Exercise Physiology Lab (1)**
Course will provide experience for applied exercise physiology principles as students are introduced to laboratory and field tests of muscular strength, anaerobic power, maximal oxygen uptake, body composition and other physiological measurements.
Co-requisite: KHP 4474.
- KHP 4475 Exercise Testing and Prescription (3)**
Course will examine the criteria for evaluation of health status of persons wishing to begin an exercise program, guidelines of establishing current fitness level, and the basic principles of exercise prescription. Levels of certification and criteria by ACSM will also be discussed.
Prerequisites: Grade of C or better in KHP 4474/L474.
- KHP 4476 Laboratory Practicum in Exercise Performance (2)**
Students will be introduced to some of the measurement techniques routinely used in exercise physiology and will gain practical experience in administration of these tests. Emphasis will be placed on how to avoid measurement errors.
Prerequisite: Grade of C or better in KHP 4475.
- KHP 4481 Methods and Materials for the P-12 Physical Educator (3)**
Teaching methods, selection, organization and use of physical education materials in grades P-12. Topics addressed will include teacher evaluation in the public schools, collaboration with special education teachers, and lesson plan formatting. A professional laboratory experience is included in this course.
Prerequisite: admission to TEP.
- KHP 4485 Teaching Individual and Team Sports I (3)**
Teaching methods, techniques, and officiating secondary team sports and individual physical fitness activities.
Prerequisite: KHP 3330
- KHP 4486 Teaching Secondary Physical Education (3)**
Teaching methods, techniques, and officiating secondary team sports and individual physical fitness activities.
Prerequisite: KHP 3330, and KHP 3331.
- KHP 4487 Special Topics in Exercise Performance (2)**
An intensive study of selected topics in exercise science. Topics to be taught each term TBA.
Prerequisite: KHP 4474 or permission of instructor.
- KHP 4488 Cardiovascular Physiology (3)**
This course will cover the function of the cardiovascular system in health and disease. Topics covered will include anatomy and physiology of the heart and circulatory system, regulation of heart rate, blood pressure, and blood flow, as well as regulation of cardiovascular function during rest and exercise.
Prerequisite: Grade of "C" or better in KHP 4474/L474.
- KHP 4490 Internship in Area of Concentration (6)**
A supervised experience in planning, staging and evaluating a formal practicum in related field.
Prerequisite: KHP 4443, 4499, permission of the department chair.
- KHP 4491-92 Guided Independent Research (1 to 3 credit hours)**
Additional information is indexed under Independent Study and Research.
- KHP 4493-94 Guided Independent Study (1 to 3 credit hours)**
Additional information is indexed under Independent Study and Research.
- KHP 4495 Advanced Exercise Physiology (3)**
This course will allow students to experience and explore advanced concepts and topics related to exercise physiology.
Prerequisites: Grade of C or better in KHP 4474.
- KHP 4496 Biomechanics (3)**
The study of anatomical, mechanical, and neurophysiological factors influencing human motion. Emphasis is given to the qualitative and quantitative application of biomechanical principles to analyze human movement.
Prerequisites: Grade C or better in KHP 3352
Co-requisite: KHP L496.
- KHP L496 Biomechanics Lab (1)**
The measurement and assessment of anatomical, mechanical, and neurophysiological factors influencing human motion. Emphasis is given to the qualitative and quantitative application of bio-mechanical principles to analyze human movement.
Co-requisite: Grade of C or better in KHP 4496.
- KHP 4497 Senior Seminar in Exercise Science (1)**
Students will examine trends in the industry, career paths, and discuss current topics in wellness, fitness, sport, nutrition, athletic training, and physical therapy. This course will also address the standards, behaviors, and expectations of the exercise scientist.
Prerequisite: Sr. standing or permission of instructor.
- KHP 4498 Internship in Exercise Science (3)**
A supervised experience in planning, staging, and evaluating a formal practicum in exercise science or a related field.
Prerequisite: Senior standing or permission of instructor.
-
- KOREAN COURSES (KOR)**
-
- KOR 1101 Introductory Korean I (3)**
Introduction to the Korean Language.
- KOR 1102 Introductory Korean II (3)**
Introduction to the Korean Language.
Prerequisite: KOR 1101 or permission of instructor.
- KOR 2201 Intermediate Korean I (3)**
Progressive development of basic language skills in Korean.
Prerequisite: KOR 1102 or permission of instructor.
- KOR 2202 Intermediate Korean II (3)**
Progressive development of basic language skills in Korean.
Prerequisite: KOR 2201 or permission of instructor.
-
- LANGUAGE AND CULTURE ON LOCATION (LCL)**
-
- LCL 2201 Language and Culture on Location I (1-3)**
The study of selected languages and/or cultures on location.
- LCL 2202 Language and Culture on Location II (1-3)**
The study of selected languages and/or cultures on location.
-
- LATIN COURSES (LAT)**
-
- Note: For additional information, see Placement in Academic Courses.*

- LAT 1131 Introductory Latin I (3)**
Introduction to the Latin language with emphasis on pronunciation, basic vocabulary, fundamentals of grammar, and graded readings.
- LAT 1132 Introductory Latin II (3)**
Continuation of LAT 1131.
Prerequisite: LAT 1131 or permission of instructor.
- LAT 2231 Intermediate Latin I (3)**
Continuation of LAT 1131-1132.
Prerequisite: LAT 1132 or permission of instructor.
- LAT 2232 Intermediate Latin II (3)**
Continuation of LAT 2231, culminating in the reading of authentic passages from selected Latin authors.
Prerequisite: LAT 2231 or permission of instructor.
- LAT 3331 Readings in Latin Literature (3)**
Readings in a selected author, period, or genre.
May be repeated for credit. Prerequisite: LAT 2232 or permission of instructor.

LAW COURSES (LAW)

- LAW 2221 Legal Environment of Business (3)**
This course is an introduction to the fundamental concepts, principles, and rules of law and equity that apply to business activities. This course provides an overview of law in general, the American legal system, federal and state court procedures, effects on law-making by legislative, judicial, and administrative procedures. The course may also include constitutional law, business ethics, contracts, products liability, sales and commercial paper.
- LAW 3323 Entrepreneurial Law (3)**
This course is designed to explore in-depth the type of legal and ethical issues that entrepreneurs, small business owners, and family business owners encounter in the marketplace.
Prerequisite: Lower-level Core, MGT 4475.
- LAW 4420 Administrative Law (3)**
Administrative law is the law relating to administrative agencies. An overview of the legal environment of public administration. The focus is on the powers and procedures of administrative agencies including administrative discretion, rule-making, investigations, prosecuting, negotiating and settlement based on Constitutional law, statutory law, common law, and agency-made law and the liability of governments and their officers.
Prerequisite: LAW 2221.
- LAW 4425 Investigation and Evidence (3)**
An examination of theories and practices of the investigation process in the criminal justice system. An analysis of information and application of operational techniques relating to crime scenes, forensic sciences, interviews, and interrogations. A study of issues concerning rules of evidence, trial testimony, and other constitutional processes.
Prerequisites: LAW 2221.
- LAW 4465 Special Topics in Law (3)**
This course examines a selected legal topic of interest that is not covered in other course offerings. The topic for the semester will be indicated in advance. Students may repeat the course for credit so long as the selected topics are different. Maximum credit of six hours.
Note: This course may not be substituted for any required course.

LEADERSHIP COURSES (LDR)

- LDR 1100 Introduction to Leadership (3)**
This course helps students apply leadership knowledge, skills and techniques to campus and

community activities. Practical exercises, role-playing, class interaction and lecture / discussion with established leaders reinforce learning and aid each student in developing a personal leadership plan.

- LDR 2200 Tools for Leaders (3)**
This course helps developing leaders use tools essential to effective leadership including briefing, writing, delegation, media relations, meeting management and group dynamics skills.
Prerequisite: LDR 1100.
- LDR 2210 Leadership and Interpersonal Skills (3)**
This course will focus on analyzing and applying the theories and research regarding the interpersonal skills required for leaders. Emphasis will also be placed on enhancing and developing interpersonal leadership skills in each student
- LDR 2220 Contemporary Issues of Women and Leadership (3)**
Through an understanding and analysis of culture and current issues, this course will help each student explore the capabilities and leadership women bring to organizations. Through an application of models, styles, and theory, students will develop better self-awareness and understand the unique capabilities of women in leadership positions.
- LDR 2221 Case Studies in Leadership I (1)**
Case Study/Studies of a specific person or persons who have demonstrated leadership attributes that can be applied to leadership development today.
Permission of Instructor required.
- LDR 2222 Case Studies in Leadership II (1)**
Case Study/Studies of a specific person or persons who have demonstrated leadership attributes that can be applied to leadership development today.
Permission of Instructor required.
- LDR 2223 Case Studies in Leadership III (1)**
Case Study/Studies of a specific person or persons who have demonstrated leadership attributes that can be applied to leadership development today.
Permission of Instructor required.
- LDR 3300 Leadership Theory (3)**
This course helps students understand and apply what writers, theorists and leaders tell us about how to lead effectively in a rapidly changing world. The course also exposes students to what leaders are reading. Experienced leaders will provide guest instruction.
Prerequisite: LDR 2200.
- LDR 3320 Great Leaders (3)**
We significantly increase our understanding of leadership if we view leadership as practiced in the context of the world around us. An excellent way to do this is to evaluate the lives of those who have been recognized as great leaders in many different eras, fields, and environments. The issues they faced and how they led provide wonderful insight on how to lead. We will analyze their successes and their failures and learn from both. We will evaluate the best of leadership practices by studying the lives of great leaders throughout history.
Prerequisites: LDR 3300.
- LDR 4400 Leadership Seminar (3)**
A capstone course that includes principles, practices and presentations by experienced leaders from the public and private sectors. This course helps developing leaders synthesize knowledge and prepare for future leadership challenges.
Prerequisites: Leadership minor or enrollment in the University Honors Program or permission of instructor.
- LDR 4402 Leadership Seminar Field Experience (2)**
This course includes field trips to visit CEOs, senior state government officials and military

leaders, as well as business and dinner etiquette training and one-on-one mentoring by campus faculty and administrative leaders. This course is open to a limited number of developing leaders who have been active in campus and/or community activities.

*Prerequisite: Permission of instructor.
Co-requisite: LDR 4400.*

- LDR 4444 Leadership Internship (3 to 6 credit hours, may be repeated for no more than 6 total hours)**
Supervised internship in an office or location approved by the director of the Institute for Leadership Development, resulting in deliverables agreed upon by the director and intern.
Prerequisites: junior or senior status, and permission of leadership adviser. Students will submit a written request to the director at least two weeks in advance of the term in which study is to be undertaken.
- LDR 4450 Leadership Service Learning (1 to 6 credit hours, may be repeated for no more than 6 total hours)**
Supervised service learning leadership on a project with an agency or aligned with a service organization as approved by the director of the Institute for Leadership Development.
Prerequisites: junior or senior status and permission of leadership adviser. Students will submit a written request to the director at least two weeks in advance of the term in which study is to be undertaken.
- LDR 4493-94 Guided Independent Study (1 to 3 credit hours)**
Supervised study through field or laboratory projects, guided readings, creative endeavors or achievement of specific skills.
Prerequisites: junior or senior status, permission of leadership adviser. A written request must be submitted to the instructor at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course in which a grade of D or below has been earned.

LEGAL STUDIES COURSES (LGL)

- LGL 2200 Introduction to Legal Studies (3)**
This course provides an introduction to the structure and processes of the American legal system as well as study of the development and patterns of growth of the legal profession (including, but not limited to the responsibilities, requirements and benefits for attorneys, judges, prosecutors, jury analyst, specialized testimony experts, forensic investigators and paralegals). Focus is placed on the examination of the central issues and processes of the entire legal system and how individuals and “workgroups” cooperatively organize and influence the American legal system. *This course will satisfy the prerequisite of CJ 1101 for CJ 3352, CJ 4442 and CJ 4447 for Legal Studies minors and Non-Criminal Justice Majors.*
- LGL 3300 Legal Research and Writing (3)**
This course will provide a comprehensive working knowledge and understanding of research materials and research tools. Key competencies will include the use of both manual and automated forms of legal references, understanding and distinguishing sources of law, legal research skills and the analysis of legal research problems.
Prerequisite: ENG 1101.
- LGL 4400 Seminar in Legal Studies (3)**
The course will include an overview of the legal assisting profession, the duties and ethical responsibilities of the legal professionals including the attorney’s code of conduct. It will examine law office practices and procedures, which includes case assignment, document handling and filing,

time keeping, billing and law office communication. Furthermore, this course provides the facts and principles that form the basis of law related to Criminal Prosecution and Defense, Bankruptcy, Business Organizations, Litigation, Real Estate, and Estate Planning and Probate.

MARINE BIOLOGY COURSES (MB)

- Offered at Dauphin Island Sea Lab (DISL) only
Courses are offered during the summer semester only. Because course offerings change, check current DISL summer bulletin for specific course offerings and descriptions.*
- MB 4402 Marine Invertebrate Zoology (4)**
A study of the natural history, systematics, and morphology of marine invertebrates from a variety of habitats in the Gulf of Mexico. Participation in extended field trips is a required part of the course.
Prerequisites: BIO 1101/L101, 2229/L229, CHM 1143/L143.
- MB 4403 Marine Vertebrate Zoology (4)**
Biology of marine vertebrates emphasizing systematics, behavior, physiology, and ecology of local forms.
Prerequisites: BIO 1101/L101, BIO 2229/L229, CHM 1143/L143.
- MB 4404 Marine Botany (4)**
A general survey of algae and vascular plants associated with the marine and estuarine environment.
Prerequisites: BIO 1101/L101, 2229/L229, CHM 1143/L143.
- MB 4410 Introduction to Oceanography (4)**
A general introduction to the physics, chemistry, geology, and biology of the oceans.
Prerequisites: BIO 1101/L101, 2229/L229, CHM 1143/L143.
- MB 4419 Marine Aquaculture (2)**
Techniques in live animal culture with an emphasis on basic principals that can be applied to the culture of any organism for research, display, or commercial profit.
Prerequisites: BIO 1101/L101, 2229/L229, CHM 1143/L143.
- MB 4423 Marine Ecology (4)**
Lecture and laboratory studies of bioenergetics, community structure, population dynamics, predation, competition, and speciation in marine ecosystem.
Prerequisites: BIO 1101/L101, BIO 2229/L229, CHM 1143/L143.
- MB 4427 Ecology of the Florida Everglades (2)**
This course examines the natural history and ecology of one of the world’s rarest and most endangered wilderness areas. The Everglades is the only area of our planet to be designated as a National Park, an International Biosphere Reserve, and a World Heritage Park. This two-week course will consist of a week of intensive lectures and discussions focusing on the history, geology, hydrology, and biota of this system, and then a week of intense field time to examine the Everglades and associated systems.
Prerequisites: CHM 1143/L143, BIO 2229/L229
- MB 4428 Shark and Ray Biology (2)**
An introduction to the biology of sharks and rays, with special emphasis on regional shark fauna and field techniques.
Prerequisites: BIO 1101/L101, BIO 2229/L229, CHM 1143/L143.
- MB 4430 Dolphins and Whales (2)**
Lectures, audiovisual presentations, and practical exercises to guide students to further study of cetaceans.

	<i>Prerequisites: BIO 1101/L101, BIO 2229/L229, CHM 1143/L143.</i>		<i>Prerequisites: Lower-level Core, MGT 3300.</i>
MB 4432	Biology and Conservation of Marine Turtles (2) An overview of the biology and conservation of marine turtles, including identification, distribution, nesting behavior, migratory behavior, and feeding ecology. <i>Prerequisites: BIO 1101/L101, BIO 2229/L229, CHM 1143/L143.</i>	MGT 4430	Purchasing Management (3) This course presents an introduction to core principles and procurement activities within the broader context of an organization's supply chain. Topics focus on the development of effective purchasing practices, quality methods, and supplier relationships. <i>Prerequisites: Lower-level Core, MGT 3300, MKT 3300.</i>
MB 4438	Coastal Wetlands Ecology (3) This course will focus on coastal and near shore wetland areas, with an emphasis on the biogeochemical processes that occur within. <i>Prerequisites: BIO 1101/L101, BIO 2229/L229, CHM 1143/L143.</i>	MGT 4440	Developing and Leading Effective Teams (3) An in-depth study of team development and team leadership in the work setting focused to better understand team functions under varying task conditions. Special emphasis will be placed on the leadership of work teams in both face-to-face and virtual settings for effective performance and member satisfaction. This course deals extensively with maintenance and task behaviors of team members. <i>Prerequisites: Lower-level Core, MGT 3300</i>
MB 4451	Marine Technical Methods (2) This course will provide an introduction to different methods of sensing the ocean, including building and testing simple sensors, e.g., temperature and light, using Arduino microcontrollers and software, use of instruments to collect high-resolution data, and some background on how technology has led to key advances in marine science. The course will be primarily project-based, with students working together to build instruments, learn basic programming skills to control sensors, and going in the field to test instruments and collect environmental data. <i>Prerequisite: CHM 1143/L143, BIO 2229/L229</i>	MGT 4450	Corporate Social Responsibility and Sustainability (3) This course will enable students to understand the rationale behind corporate social responsibility (CSR) and sustainability. It will take students through an evaluation of risks and potential impacts in decision making, enabling them to recognize the links between the success of an organization and the well-being of a community/society along with introducing methods and standards of integrating CSR throughout an organization. <i>Prerequisites: Lower-level Core, MGT 3300</i>
MB 4460	Introduction to Neurobiology (4) The study of the structure, development, physiology, and pharmacology of the nervous systems and sense organs. <i>Prerequisite: Permission of instructor.</i>	MGT 4460	Introduction to Project Management (3) This course provides an introduction to essential principles governing effective project management and an application of tools and techniques that can be applied to defining projects, establishing task structure, planning and budgeting, managing of resources to achieve the project objectives, and post project evaluation. <i>Prerequisites: Lower-level Core, MGT 3300, QM 3345.</i>
MB 4461	Environmental Application of Geographic Information Systems (2) This course consists of learning applied mapping and analysis with GIS and will leverage other geospatial techniques including remote sensing, geo-visualization, and spatial analysis with particular emphasis on environmental application. <i>Prerequisite: CHM 1143/L143, BIO 2229/L229</i>	MGT 4471	Leadership and Change (3) A study of leadership and change concepts applied to foundational concepts of leadership, motivational theories, and organizational change theories. The primary focus of the course will be directed toward the application of these theories, practices, and concepts in an organizational setting, designed to enable an achievement of organizational goals and objectives, while also undertaking application oriented activities that encourage the development of critical thinking skills about the concepts. Emphasis will be placed on key similarities and differences between US organizations and international organizations. <i>Prerequisite: Lower-level Core, MGT 3300.</i>
MB 4470	Marine Restoration Ecology (2) The course provides an overview of the scientific and technical principles of marine habitat restoration. The students will discuss the role of key ecological concepts in restoration and the role of restoration in science and society. Students will learn how to design restoration projects and monitoring plans. <i>Prerequisites: CHM 1142/L142, BIO 2229/L229.</i>	MGT 4472	Organizational Behavior (3) A study of individual and group behavior in business organizations. <i>Prerequisite: Lower-level Core, MGT 3300.</i>
MANAGEMENT COURSES (MGT)			
MGT 3300	Principles of Management (3) An introduction to management functions, principles, and techniques. The course includes a discussion of planning, organizing, influencing through leadership, and control within the organization.	MGT 4475	Entrepreneurial Management (3) This course examines how startups, small companies & family enterprises reach the marketplace and sustain their businesses. The course centers around the development of the business plan, focusing on creativity and innovation. Emphasizes entrepreneurial opportunities & new venture processes both domestically and internationally. <i>Prerequisite: Lower-level core, MGT 3300.</i>
MGT 3301	Honors Principles of Management (3) An introduction to management functions, principles, and techniques. The course includes a discussion of planning, organizing, influencing through leadership, and control within the organization for the superior student. <i>Prerequisites: SCOB Honors students and permission of the Associate Dean.</i>	MGT 4478	Managing in a Global Environment (3)
MGT 3380	Principles of Supervision (3) An introduction to supervision principles, best practices and concepts. Topics discussed include delegation, planning and goal setting, employee training and motivating team coaching, communicating, and appraising.		

(capstone)

This course is a survey and analysis of topics important to successfully managing multinational business operations. Included in the course are considerations of environmental analysis, modes of entry, planning and cross-cultural issues in directing, decision-making, organizing and staffing operations in multinational enterprises. Capstone for the Global Business Core.

Prerequisites: Lower-level Core, ECO 4451, HRM 3375, MGT 4471, and MKT 4468.

MGT 4479 Management Seminar (3) (capstone)
 This course is a study of current management issues which examines the application of traditional management theory in the context of current management problems. This is the capstone course for the Management Concentration.
Prerequisites: Lower-level Core, MGT 4440, MGT 4450, and MGT 4472.

MGT 4486 Honors Leadership and Change (3)
 A study of leadership and change concepts applied to foundational concepts of leadership, motivational theories, and organizational change theories for the superior student. The primary focus of the course will be directed toward the application of these theories, practices, and concepts in an organizational setting, designed to enable an achievement of organizational goals and objectives, while also undertaking application oriented activities that encourage the development of critical thinking skills about the concepts. Emphasis will be placed on key similarities and difference between US organizations and international organizations.
Prerequisites: Lower level core, MGT 3301, SCOB Honors student, and permission of the Associate Dean.

MGT 4487 Honors Managing in a Global Environment (3)
 This course is a survey and analysis of topics important to successfully managing multinational business operations for the superior student. Included in the course are considerations of environmental analysis, modes of entry, planning and cross-cultural issues in directing, decision-making, organizing and staffing operations in multinational enterprises. Capstone for the Global Business Core.
Prerequisites: Lower-level core, MGT 3301, SCOB Honors Student, and permission of the Associate Dean.

MGT 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)
 Additional information is indexed under Independent Study and Research. *Note: This course may not be substituted for any required course.*

MGT 4496 Special Topics in Management (3)
 This course examines a selected management topic of interest that is not covered in depth in other course offerings. Prior topic approval by the Associate Dean of the Sorrell College of Business is required.
Prerequisite: Lower-level Core, MGT 3300.

MGT 4499 Management Internship (3)
 The Management Internship provides students with the opportunity to gain real-world work experience in the field of management. Students gain practical, professional experience in conjunction with academic development under the supervision of both a faculty member and a supervisor within an organization. A written request must be submitted to the department chair at least two weeks in advance of the semester or term in which the study is to be undertaken.
Note: This course may not be substituted for any required course. Students may earn no more than 6

hours of internship credit.

Prerequisite: Junior or senior standing, department chair approval.

MARKETING COURSES (MKT)

MKT 3300 Principles of Marketing (3)
 This course examines principles and practices for creating, delivering, capturing, and communicating value to customers. Topics focus on the marketing function of an organization; environmental factors influencing marketing decisions; and, the development of marketing strategies to deliver long-term customer value.

MKT 3301 Honors Principles of Marketing (3)
 This course examines principles and practices for creating, delivering, capturing, and communicating value to customers. Topics focus on the marketing function of an organization; environmental factors influencing marketing decisions; and, the development of marketing strategies to deliver long-term customer value for the superior students
Prerequisites: SCOB Honors Student, and permission of the Associate Provost

MKT 3362 Promotion Management (3)
 This course examines the concepts and techniques associated with developing an effective marketing communications strategy. Topics focus on the planning, creation, utilization, and placement of promotional programs designed to support marketing strategy.
Prerequisite: MKT 3300.

MKT 3364 Product and Service Innovation (3)
 This course examines the role of marketing in innovation and its critical contribution to marketplace success. Topics focus on the principles used to identify marketing opportunities and the creative thinking needed to respond to them with new ideas, products and services.
Prerequisite: MKT 3300.

MKT 3367 Digital Marketing (3)
 This course provides a broad overview of the digital marketing strategies and techniques required for successful marketing efforts in a digital environment. Students will gain a fundamental understanding of the digital marketing core principles. Topics ranging from web page design, analytics, email marketing, social media marketing, and mobile marketing.

MKT 4461 Professional Selling (3)
 This course examines personal selling as a professional marketing activity. It centers on fostering relationships by developing interpersonal communication skills, understanding buyer motivations, and adding value to clients through long-term relationships. Topics focus on the economic, psychological, and social aspects of professional selling; direct selling techniques, and the sales process with an emphasis on building customer relationships.
Prerequisite: MKT 3300.

MKT 4462 Consumer Behavior (3)
 This course examines the consumer as a decision maker. Topics focus on the internal and external influences underlying purchase decisions and their implications for marketing strategy. Primary emphasis is on final consumers with a secondary emphasis on organizational buyers.
Prerequisite: MKT 3300.

- MKT 4463 Retailing (3)**
This course examines the principles and practices of retail management. Topics focus on retail format; store location and layout; merchandise planning; inventory management; atmospherics; and customer service.
Prerequisite: MKT 3300.
- MKT 4464 Marketing Research (3)**
This course examines the foundational role of research to the formulation of sound strategic marketing decisions. Topics focus on problem definition, research design, data acquisition, analysis, and interpretation. The systematic approach of harnessing data/information to drive effective marketing decision-making is also considered.
Prerequisite: MKT 3300.
- MKT 4465 Supply Chain Management (3)**
This course examines the key concepts and principles associated with the flow of materials and information from suppliers to customers for both manufacturing and service firms. Topics focus on the procurement, operations, transportation, and integration activities associated with a firm's distribution system.
Prerequisite: MKT 3300.
- MKT 4468 Global Marketing (3)**
This course examines the impact the global environment has on marketing strategy. Topics focus on the cultural, political, legal, and economic differences among nations as they affect marketing opportunities and operations.
Prerequisites: Lower-level Core, MKT 3300.
- MKT 4469 Marketing Management (3)**
This course is the "capstone" marketing course. It examines the managerial aspects of marketing which involve the integration of marketing research, customer analysis and marketing strategy to provide long-term value to customers. Topics focus on the application of marketing concepts, procedures, and practices to solve marketing problems and develop strategic marketing plans.
Prerequisite: 15 semester hours in marketing courses beyond MKT 3300.
- MKT 4470 Honors Global Marketing (3)**
This course examines the impact the global environment has on marketing strategy for the superior student. Topics focus on the cultural, political, legal, and economic differences among nations as they affect marketing opportunities and operations.
Prerequisites: Lower-level core, MKT 3301, SCOB Honors Student, and permission of the Associate Dean.
- MKT 4472 Sales Force Management (3)**
This course examines the key concepts used to formulate, implement, and evaluate a sales program. Topics focus on forecasting sales and sales management responsibilities including recruitment, training, leadership, organization, motivation and retention of the sales force.
Prerequisites: MKT 3300 and MGT 3300.
- MKT 4480-81 Special Topics in Marketing (3)**
This course examines a selected marketing topic of interest that is not covered in other course offerings. The topic for the semester will be indicated in advance. Students may repeat the course for credit so long as the selected topics are different. Maximum credit of six hours.
Note: This course may not be substituted for any required course.

Prerequisite: MKT 3300

- MKT 4491-92 Guided Independent Research (3)**
This course involves directed research on marketing topics of mutual interest to a student and faculty member. Maximum credit of six hours.
Note: This course may not be substituted for any required course.
Prerequisite: MKT 3300.
- MKT 4493-94 Guided Independent Study (3)**
This course involves directed project work of mutual interest to a student and faculty member. Maximum credit of six hours. *Note: This course may not be substituted for any required course.*
Prerequisite: MKT 3300
- MKT 4499 Marketing Internship (3)**
This course involves the practical application of marketing principles and theories in an actual business setting. Students gain practical, professional experience in conjunction with academic development under the supervision of both a faculty member and a manager within an organization.
Note: This course may not be substituted for any required course.
Prerequisites: Six semester hours in marketing courses beyond MKT 3300 and permission of instructor.

MEDICAL COURSES (MLS)

(Offered in hospital internship only)

- MLS 4400 Clinical Urinalysis (1)**
The imparting of skills for performing and interpreting routine urinalyses as well as special urinalysis procedures.
- MLS 4401 Clinical Urinalysis Lab (1)**
This lab section includes specimen handling procedure manual, audio-visual, quality control, record keeping, and reporting system.
- MLS 4402 Clinical Microbiology (4)**
This lecture course covers areas of bacteriology, mycology, and virology.
- MLS 4403 Clinical Microbiology Lab (2)**
This lab teaches identification methods, isolation methods, and current clinical techniques for working with bacteria, molds, viral, and rickettsia organisms.
- MLS 4404 Clinical Parasitology (1)**
Discussions concerning proper collection and handling of specimens for detection of parasites, techniques used to detect parasites and morphological features, and life cycles of important organisms.
- MLS 4405 Clinical Parasitology Lab (1)**
Use of the laboratory procedures and techniques for isolation and identification of parasitic organisms.
- MLS 4406 Clinical Hematology (4)**
Detailed studies of blood, including cell types, functions, number of cells, clotting mechanisms, coagulation disorders, platelet disorders, and other pertinent topics.
- MLS 4407 Clinical Hematology Lab (2)**
Special studies and training involving cell counts, hemoglobin and hematocrit determinations, and other special hematology procedures.

- MLS 4408 Immunohematology (3)**
This block involves blood banking, studies of the ABO blood group system, the Rh system, blood typing, antibody studies, and effects of transfusion.
- MLS 4409 Immunohematology Lab (1)**
Blood banking studies and techniques. Clinical applications of procedures under direct supervision.
- MLS 4410 Clinical Serology (2)**
Lectures emphasizing the principles and interpretations of immunological procedures. The study of the immune systems of the body. Antigen-antibody studies and techniques.
- MLS 4411 Clinical Serology Lab (1)**
In this lab, the student becomes proficient in running and interpreting serology (immunology) tests.
- MLS 4412 Clinical Chemistry (6)**
This lecture course focuses on the principles and interpretations of biochemical analytical methods, clinical calculations, and quality control.
- MLS 4413 Clinical Chemistry Lab (4)**
This lab rotation provides the practical experience of running biochemical tests and interpreting their results. Some prior experience with instrumentation is required in order to understand how to use and care for clinical instruments.

MILITARY SCIENCE AND LEADERSHIP COURSES (MSL)

- MSL 1101 Foundations of Officership (1)**
This course features an introduction to life in the U.S. Army. Topics include leadership, the unique duties and responsibilities of officers, the organization and role of the Army, basic life skills pertaining to fitness and communication, and an analysis of Army values and expected ethical behavior.
Co-requisite: MS 1104.
- MSL 1102 Basic Leadership (1)**
This course provides students with a basic knowledge of common military skills and presents the fundamental leadership concepts and doctrine of the U.S. Army. Topics include the practice of basic skills that underlie effective problem solving, application of active listening and feedback skills, examination of factors that influence leader and group effectiveness, and an examination of the officer experience.
Co-requisite: MS 1105.
- MSL 1104 Military Basic Leadership Lab I-A (1)**
Leadership lab is required for Army ROTC students. The student will receive training in drill and ceremonies, field craft, individual movement techniques, squad tactics, map reading and land navigation, first aid, and use and maintenance of the M16 Rifle.
- MSL 1105 Military Basic Leadership Lab I-B (1)**
Leadership lab is required for Army ROTC students. The student will receive training in drill and ceremonies, field craft, individual movement techniques, squad tactics, map reading and land navigation, first aid, and use and maintenance of the M16 Rifle.
- MSL 2201 Individual Leadership Studies (2)**
This course develops the knowledge of self, self-confidence and individual leadership skills as well as develops problem solving and critical thinking skills and the application of communication, feedback, and conflict resolution. Emphasized areas include personal development, goal setting, communication, problem solving and decision-making, leadership, teamwork, the group.
Co-requisite: MS 2204.

- MSL 2202 Leadership and Teamwork (2)**
This course focuses on self-development guided by knowledge of self and group processes by focusing on challenging current beliefs, knowledge and skills.
Co-requisite: MSL 2205.
- MSL 2204 Military Basic Leadership Lab II-A (1)**
Leadership lab is required for Army ROTC students. The students will receive training in drill, physical training, rappelling, water survival, tactics, marksmanship, night operations, and land navigation.
- MSL 2205 Military Basic Leadership Lab II-B (1)**
Leadership lab is required for Army ROTC students. The students will receive training in drill, physical training, rappelling, water survival, tactics, marksmanship, night operations, and land navigation.
- MSL 3301 Leadership and Problem Solving (3)**
This course examines the basic skills that underlie effective problem solving by analyzing the role officers played in the transition of the Army from Vietnam to the 21st Century, analysis of military missions and the planning of military operations, the features and execution of the Leadership Development Program, and the execution of squad battle drills.
Prerequisite: Permission of the Professor of Military Science for non-contracted cadets.
Co-requisite: MSL 3304.
- MSL 3302 Leadership and Ethics (3)**
This course probes leader responsibilities that foster an ethical command climate by developing cadet leadership competencies and applying principles and techniques of effective written and oral communication. Students are prepared for success at the ROTC National Advanced Leadership Course.
Prerequisite: Permission of the Professor of Military Science for non-contracted cadets.
Co-requisite: MSL 3305.
- MSL 3304 Military Advanced Leadership Lab III-A (1)**
Leadership Lab is required for all Army ROTC students. The student will receive training in troop-leading procedures, mission planning, squad tactics, land navigation, individual movement techniques, water survival and rappelling.
- MSL 3305 Military Advanced Leadership Lab III-B (1)**
Leadership Lab is required for all Army ROTC students. The student will receive training in troop-leading procedures, mission planning, squad tactics, land navigation, individual movement techniques, water survival and rappelling.
- MSL 4401 Leadership and Management (3)**
This course builds on the experience gained at the National Advanced Leadership Course in order to solve organizational and staff problems a discusses staff organization and functions, analysis of counseling responsibilities and methods, the principles of subordinate motivation and organizational change. Students will apply leadership and problem solving principles to a case study and or simulation.
Prerequisite: Permission of the Professor of Military Science for non-contracted cadets.
Co-requisite: MSL 4404.
- MSL 4402 Officership (3)**
This course is designed to explore topics relevant to Second Lieutenants entering the U.S. Army and focuses on the legal aspects of decision making leadership, analyzing Army organization from the tactical to the strategic level, assessing administrative and logistical functions performance of platoon leader actions, and an examination of leader responsibilities that foster

an ethical command climate.

Prerequisite: Permission of the Professor of Military Science for non-contracted cadets.

Co-requisite: MSL 4405.

MSL 4404 Military Advanced Leadership Lab IV-A (1)
Leadership lab is required for all Army ROTC students. The student will receive training in troop-leading procedures, mission planning, squad tactics, land navigation, individual movement techniques, water survival and rappelling.

MSL 4405 Military Advanced Leadership Lab IV-B (1)
Leadership lab is required for all Army ROTC students. The student will receive training in troop-leading procedures, mission planning, squad tactics, land navigation, individual movement techniques, water survival and rappelling.

MSL 4497 Senior Seminar in Military Science (1-3)
This is a capstone course for Senior Army ROTC Contracted Cadets designed to: 1.) help senior cadets integrate the knowledge gained from their other required Military Science Leadership courses; and 2.) assist them in developing analytical thinking skills through practical use of these skills in simulated leadership roles among their peers using a seminar approach.

Note: This MSL 4497 Senior Seminar in Military Science course is repeatable up to 3 times and receive 1 credit hour per course per semester. This course may not be substituted for any other required Military Science courses.

Prerequisite: Completion of all other advanced level Military Science Leadership courses in the Military Science Leadership minor or Army ROTC program and will require permission of the Professor of Military Science to enroll.

MATHEMATICS COURSES (MTH)

MTH 0096 Pre-Algebra (3)
Developmental / remedial instruction including operations with whole numbers, decimals, and fractions. Ratio, percent and equation solving will be emphasized.

Note: This course is for institutional credit only and will not be used in meeting degree requirements. This course will not substitute for any general studies requirement.

MTH 1100 Fundamentals of Algebra (3)
Developmental / remedial instruction including integer and rational arithmetic, linear equations, inequalities, integer exponents, polynomials and factoring, rational expression.

Prerequisite: Placement or a grade of C or better in MTH 0096. *Note:* This course is for institutional credit only and will not be used in meeting degree requirements. This course will not substitute for any general studies requirement.

MTH 1105 Intermediate Algebra (3)
Developmental / remedial instruction including real and complex numbers; polynomials and factoring; rational exponents; roots and radicals; linear equations and inequalities; quadratic equations; and graphing.

Prerequisite: placement or a grade of C or better in MTH 1100. *Note:* This course is for institutional credit only and will not be used in meeting degree requirements. This course will not substitute for any general studies requirement.

MTH 1110 Finite Mathematics (3)
Topics include a survey of logic, sets, counting, permutations, combinations, basic probability, an introduction to statistics, and matrices and their applications to graph theory.

Prerequisite: appropriate score on mathematics placement test, advanced placement, or a grade of C or better in MTH 1105.

Note: Credit will not count toward a major or minor in mathematics.

MTH 1112 Pre-Calculus Algebra (3)
Topics include the algebra of functions, including polynomial, rational, exponential, and logarithmic functions. The course also contains systems of equations and inequalities, linear and quadratic equations and inequalities, graphs of polynomials, and the binomial theorem.

Prerequisite: appropriate score on mathematics placement test, advanced placement, or a grade of C or better in MTH 1105. *Note:* Credit will not count toward a major or minor in mathematics.

MTH 1114 Pre-Calculus Trigonometry (3)
This course covers trigonometric functions including definitions, identities, and trigonometric equations, applications as well as properties and graphs of trigonometric functions and their inverses. Also included are the law of sines, the law of cosines, polar coordinates, vectors, and conic sections.

Prerequisite: MTH 1112 with a grade of C or better or advanced placement. *Note:* Credit will not count toward a major or minor in mathematics.

MTH 1125 Calculus I (4)
Topics include limits of functions, derivatives of algebraic, trigonometric, exponential and logarithmic functions and their inverses and the definite integral and its application to area problems. Applications of the derivative including maximum and minimum problems, and curve sketching using calculus.

Prerequisite: A grade of C or better in MTH 1114 or advanced placement.

MTH 1126 Calculus II (4)
Applications of integration (such as volume, arc length, work, and average value), techniques of integration, indeterminate forms, infinite series, polar coordinates, and parametric equations.

Prerequisite: MTH 1125.

MTH 2201 Calculus and its Applications (3)
An introduction to the basic ideas and techniques of differential and integral calculus, especially as they relate to problems involving maximum and minimum values of functions and marginal analysis.

Prerequisite: MTH 1112 or 1114 with a grade of C or better, or advanced placement. *Note:* Credit will not count toward a major or minor in mathematics.

MTH 2215 Applied Discrete Mathematics (3)
Discrete mathematics with a computer science orientation is presented. Topics include sets, relations, logic, algorithms, and recursion.

Prerequisite: A grade of C or better in MTH 1112.

Note: Credit will not count toward Area III requirements nor will it count toward any major or minor in mathematics.

MTH 2220 Computer Programming for Mathematics (3)
Structured programming of a mathematical nature, arithmetic computations, algorithm design and control structures, functions and subroutines intrinsic functions, array processing.

Prerequisite: MTH 1125.

MTH 2227 Calculus III (4)
Topics include vector functions, multi-variable functions, partial derivatives and their applications, quadric surfaces, multiple integrals, and vector calculus, including Green's theorem, curl, divergence, surface integrals, and Stoke's theorem.

Prerequisite: MTH 1126.

- MTH 2230 Applied Linear Algebra (3)**
This course covers some topics in Linear Algebra with an orientation towards applications in fields that use least squares regression. Topics include the algebra and geometry of vectors, matrices and their operations, determinants, systems of linear equations, linear independence, transformations, linearization and least square problems.
Prerequisite: MTH 1125
- MTH 2251 Mathematical Concepts for K-6 Teachers I (3)**
An examination of some of the major topics encountered in the teaching of elementary mathematics with emphasis on number theory order of operations, definitions of and operations with rational and irrational numbers, estimation, definitions and algorithms of the four operations, numeration systems, bases other than 10, and problem solving.
Prerequisite: MTH 1110 or 1112. Note: Credit will not count toward Area III requirements nor will it count toward any major or minor in mathematics.
- MTH 2252 Mathematical Concepts for K-6 Teachers II (3)**
An examination of some of the major topics encountered in the teaching of elementary school geometry with emphasis on measurement, area, volume, congruence, polygons, circles, constructions, motion geometry, polyhedra, and similarity.
Prerequisite: MTH 1110 or 1112. Note: Credit will not count toward Area III requirements nor will it count toward any major or minor in mathematics.
- MTH 3300 Selected Topics (3)**
Examination of a designated topic of special and/or current interest and importance, which is generally not covered in regularly offered courses in the mathematics curriculum.
- MTH 3311 Differential Equations (3)**
An introduction to ordinary differential equations. Topics include first order methods, linear equations, the Laplace transforms, systems of equations, and applications.
Prerequisite: MTH 2227.
- MTH 3318 Introduction to Advanced Mathematics (3)**
Topics include set theory, equivalence relations and partitions, logic, number systems, functions, and proof writing techniques.
Prerequisite: MTH 1126.
- MTH 3325 College Geometry (3)**
Axiomatic systems; incidence and separation properties of planes and space; metric and synthetic approaches; geometric inequalities; parallel postulate; area-theory; circles in a plane; models for hyperbolic and elliptic geometries; and constructions with a straightedge and compass.
Prerequisite: MTH 3318.
- MTH 3331 Linear Algebra (3)**
Matrices, systems of equations, determinants, eigenvalues and eigenvectors.
Prerequisite: MTH 1126.
- MTH 3364 Vector Calculus (3)**
Differentiation in several variables. Line and surface integrals. Potential theory and differential forms.
Prerequisite: MTH 2227.
- MTH 4412 Discrete Mathematics (3)**
Topics can include counting techniques such as Pigeonhole Principle, permutations, combinations, binomial coefficients, inclusion-exclusion, and relations and graphs.
Prerequisites: MTH 2227 and 3318.
- MTH 4415 Introduction to Partial Differential Equations (3)**
Partial differential equations and boundary value problems, Fourier series, the heat equations,
- vibrations of continuous systems, the potential equation, spectral methods.
Prerequisites: MTH 3311 and MTH 3331
- MTH 4420 Graph Theory (3)**
The elements of graph theory including: trees; bipartite, chordal and planar graphs; graph coloring; graph traversals; and flows.
Prerequisites: MTH 2227 and 3318 or permission of instructor.
- MTH 4422 Numerical Analysis (3)**
Topics include finite differences, interpolation, numerical integration and differentiation, solutions of equations of one variable, linear systems, and numerical solutions of ordinary differential equations.
Prerequisites: MTH 2220, 2227 and 3331, or permission of instructor.
- MTH 4424 Real Analysis I (3)**
The real number system, completeness, limits, continuity, sequences, differentiation, and the Riemann integral.
Prerequisites: MTH 2227 and 3318.
- MTH 4425 Real Analysis II (3)**
Sequences and series of functions, series, and a continuation of the integral to include the Fundamental Theorem of Calculus.
Prerequisite: MTH 4424.
- MTH 4426 Complex Analysis (3)**
Complex numbers, elementary functions and their mappings, complex limits and power Cauchy integral formula.
Prerequisites: MTH 2227 and 3318 or permission of instructor.
- MTH 4436 Number Theory (3)**
Divisibility, congruencies, prime numbers, Fermat's theorem, Diophantine equations, number theoretic functions.
Prerequisites: MTH 2227, 3318.
- MTH 4437 Matrix Analysis and Applications (3)**
Fundamentals of operators in finite dimensional Hilbert spaces, mapping and algebras, functional calculus, matrix monotone and matrix convex functions, quantum entropy, matrix means, majorization and singular values.
Prerequisites: MTH 4424 and MTH 3331
- MTH 4441 Abstract Algebra I (3)**
Properties of the integers, modular arithmetic. Elementary theory of groups, finite groups, subgroups, cyclic groups, permutation groups. Group isomorphisms and homomorphisms.
Prerequisites: MTH 2227, 3318, and 3331-
- MTH 4442 Abstract Algebra II (3)**
Elementary theory of rings, polynomial rings, divisibility, unique factorization domains. Integral domains, ideals, factor rings, divisibility in integral domains. Elementary theory of fields. Extension fields.
Prerequisite: MTH 4441.
- MTH 4460 Topology (3)**
An introduction to metric and topological spaces and associated topics, separation axioms, compactness, and connectedness.
Prerequisites: MTH 2227, 3318.
- MTH 4474 Internship in Mathematics Education (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the

informed, reflective decision maker throughout the internship experience.

Prerequisite: admission to TEP.

Co-requisite: SED 4454.

- MTH 4480 Study Abroad in Mathematics (1-3)**
Provides the opportunity for students to experience mathematics in the global community through cultural immersion in a study abroad program.
Prerequisites: 6 credit hours at the 4000-level, permission of instructor, and successful completion of TROY Study Abroad Program requirements and fees.
- MTH 4481 Methods and Materials for the Secondary Teacher (3)**
A survey of teaching methods and materials appropriate for teaching in the content areas for grades 6-12. Topics addressed will include teacher evaluation in the public schools, collaboration with special education teachers, and lesson planning formats. In addition, teaching methods, selections organization and use of mathematics materials for grades 6-12 will be covered in detail. A professional laboratory experience is included in this course.
Prerequisite: admission to TEP.
- MTH 4490 Senior Seminar (1 to 3 credit hours)**
Individualized study of a topic in mathematics culminating in a written and oral presentation.
Prerequisites: MTH 3318 and senior status.
- MTH 4491-92 Guided Independent Research (1 to 3 credit hours)**
Additional information is indexed under Independent Study and Research.
- MTH 4493-94 Guided Independent Study (1 to 3 credit hours)**
Additional information is indexed under Independent Study and Research.
- MTH 4498 Math Education Capstone (3)**
This course is designed to culminate the student's experience in the Math Education program. Students will complete a comprehensive exam and a capstone project that integrates educational research, curriculum design, math content application, and assessment. Based on a literature evaluation of a specific concept or problem in math teaching, the student will develop a new curricular unit, or redesign an existing one, to be implemented in a college, high school, or middle school math course. This unit must apply math content from their degree program courses and the student must assess the impact of the new/revised unit on student learning.
Prerequisite: Junior Status
- MTH 4499 Internship in Mathematics/Statistics (1-3)**
A supervised experience in planning, staging, and evaluating a formal practicum in a related field.
Prerequisites: 6 credit hours at the 4000-level or MTH 4451, or permission of the department chair.

this course is designed to provide a strong foundation that can be applied to multiple styles of American popular music. Students who complete the course will have the necessary tools to improvise at a basic harmonic level.

- MUI 3305 Music Technologies (3)**
Study of the computer-based applications as currently used in the music industry for audio production including MIDI sequencing, multi-track recording, audio editing and music notation.
Prerequisite: MUI 2230.
- MUI 3310 Audio Principles and Techniques I (3)**
A basic course to develop the understanding and skills to produce audio recordings. Listening skills will be emphasized along with editing, recording, and basic sound design for film/video.
Prerequisite: MUI 2230, MUI 3305.
- MUI 3315 Song Writing (2)**
Study of basic skills and techniques of songwriting including lyric writing, melodic construction, and harmonic progression.
Prerequisites: MUI 2230, MUI 3305, MUS 1103.
- MUI 3325 Recording Studio I (2)**
An examination of the art of studio recording. The mixing console, microphones, signal processing, and digital recording systems will be studied and experienced.
Prerequisite: MUI 3360.
- MUI 3326 Recording Studio II (2)**
In-depth study of audio recording in the studio environment. Remote and studio recording techniques, studio process/protocol, and post production will be studied and experienced. Students will prepare a recording project portfolio.
Prerequisite: MUI 3325.
- MUI 3340 Live Sound Reinforcement (2)**
An overview of contemporary live sound reinforcement techniques. Students will experience various aspects of working in the live sound environment including: audio component types, venue/acoustical considerations, signal processing/application, specific technical considerations, microphone techniques, mixing techniques, and sound crew protocol.
Prerequisite: MUI 3360.
- MUI 3345 Audio for Producers (2)**
An overview of audio production in the recording studio environment, including industry-standard process and procedures. In addition, the roles of the producer, engineer, and musician are explored through a series of recording sessions while working in digital audio environments. A final recording project will be completed as a part of the student's portfolio.
Prerequisite: MUI 3310.
- MUI 3346 Studio Repair & Maintenance (2)**
Course includes basic electric instrument adjustment, maintenance, and repair, common industry standards and guidelines, practical evaluation, and hands-on adjustment and repair.
Prerequisite: MUI 3326, MUI 3340.
- MUI 3360 Audio Principles and Techniques II (2)**
This course is an in-depth examination of audio recording. The curriculum will cover remote and studio recording techniques. The related areas of sound reinforcement and post-production will be

MUSIC INDUSTRY COURSES (MUI)

Prerequisite: permission of instructor.
- MUS 3382 Choral Techniques (3)**
Organizational and instructional strategies for teaching music through performance in choir. Includes a field component.
Prerequisite: MUS 1103 and junior standing.

- MUS 3384 Band Techniques (3)**
Organizational and instrumental strategies for teaching music through performance in band. Includes a field experience component.
Prerequisite: MUS 1103 and junior standing.
- MUS 3385 Symphony Band (1)**
Select concert organization for performance of advanced literature for band and wind ensemble.
Prerequisite: Audition.
- MUS 3386 Jazz Ensembles (1)**
Select ensemble for performance in a wide variety of jazz styles.
Prerequisite: Audition.
- MUS 3387 Concert Chorale (1)**
This mixed chamber choir performs challenging classical, traditional, and contemporary choral repertoire.
Prerequisite: Audition.
- MUS 4400/01/02 Selected Topics (1-3 per course)**
Detailed investigation of a specialized topic not covered in regularly offered courses, or an advanced section for intensive study.
- MUS 4403 Classroom Management for the Music Educator (3)**
The purpose of this course is to establish a foundation of content and application relative to classroom management for the music educator (P-12). Provides opportunities for analysis and application of behavioral management techniques in general music and performance-based pedagogical settings.
- MUS 4430 Flute Choir (1)**
This course is designed to increase student knowledge of flute choir repertoire through performance, listening, and discussion.
- MUS 4431 Trumpet Ensemble (1)**
Ensemble course open to all students.
- MUS 4432 Percussion Ensemble (1)**
Ensemble course open to all students.
- MUS 4433 Clarinet Choir (1)**
Ensemble course open to all students.
- MUS 4435 Campus Concert Band (1)**
Ensemble course open to all students.
- MUS 4436 Vocal Jazz Ensemble (1)**
This ensemble is designed to provide a quality performance experience for students of all majors and levels, utilizing excellent ensemble vocal jazz repertoire.
Prerequisite: Audition.
- MUS 4440 Marching Band Techniques (3)**

- MUS 4481 Methods and Materials for the Secondary Music Teacher (3-4)**
Teaching methods, selection, organization and use of music materials in grades 6-12. Observation and teaching experiences will be included.
Prerequisites: MUS 4471 and admission to TEP.
- MUS 4491-92 Guided Independent Research (1 to 3 credit hours per course)**
Additional information may be found under Independent Study and Research.
- MUS 4493-94 Guided Independent Study (1 to 3 credit hours per course)**
Additional information may be found under Independent Study and Research.
- MUS 4499 Senior Recital (1)**
Required for all music majors.
Prerequisite: Approval Jury.

NURSING COURSES (NSG)

(ASN Program)

- NSG 1130 Basic Nursing Concepts (2)**
Introduces the nursing process and the concept of evidence-based practice as a basis for making clinical nursing judgments. Incorporates theoretical knowledge from nursing, scientific, environmental and humanistic disciplines. Introduces the concepts of client needs, safety, communication, teaching/learning, critical thinking, ethical-legal, cultural diversity, nursing history, and the program's philosophy of nursing. Requires basic understanding of medical terminology. Focuses on the role of the professional nurse in providing care to diverse patient populations.
*Prerequisites: Admission to the ASN Program, ENG 1101, MTH 1112 or MTH 1110, PSY 2200.
Prerequisites or Co-requisites: BIO 3347/ L347.*
- NSG 1131 Basic Nursing Concepts Practicum (2-4)**
Introduces psychomotor nursing skills needed to assist individuals in meeting basic human needs. Skills necessary for maintaining microbial, physical, and psychological safety are introduced along with skills needed in therapeutic interventions. Focuses on the role of the professional nurse in applying basic nursing skills to diverse patient populations with common health alterations.

- Prerequisites: admission to the ASN Program, ENG 1101, MTH 1112 or MTH 1110, PSY 2200, BIO 3347/L347.*
Prerequisites or Co-requisites: NSG 1130, NSG 1135.
- NSG 1135 Health Assessment Practicum (1-2)**
 Focuses on applying knowledge and skills required to perform health assessments on diverse patient populations. Utilizes an evidence-based systemic approach to collect data in the assessment phase of the nursing process.
Prerequisites: Admission to the ASN Program, ENG 1101, BIO 3347/L347, PSY 2200, MTH 1112 or MTH 1110.
- NSG 1140 Foundations of Adult Health Nursing (3)**
 Builds upon knowledge from previous nursing courses and other scientific disciplines to explore patient-centered care for adults with actual or potential health deviations. Focuses upon an evidence-based approach to the nursing process within a culture of quality and safety. Emphasizes the role of the professional nurse as educator, collaborator and change agent within the interprofessional health team.
Prerequisites: NSG 1130, 1131, 1135, 1151, KHP 2211 OR NSG 2213, BIO 3348/L348, PSY 2210, and TROY 1101.
- NSG 1141 Foundations of Adult Health Nursing Practicum (3-6)**
 Utilizes an evidence-based approach in the application of the nursing process, emphasizing clinical decisions that are safe, ethical, patient-centered and collaborative, to assist a diverse population of adults with common health alterations.
Co-or Prerequisite: NSG 1140.
Prerequisites: NSG 1130, 1131, 1135, 1151, KHP 2211 or NSG 2213, BIO 3348/L348, PSY 2210, TROY 1101.
- NSG 1151 Hospital Measurements (1)**
 An introduction to using mathematical computations in health-related situations. Focuses on mathematics computations as applied in selected healthcare settings. Different systems of measurement will be a priority. Includes an exam on computation of dosages and solutions, requiring completion with 90% accuracy.
Prerequisites: admission to the ASN Program, ENG 1101, MTH 1112 or MTH 1110, PSY 2200, BIO 3347/L347.
- NSG 2202 Pharmacology (2)**
 Focuses on specific classification of drugs, pharmacokinetics, pharmacodynamics, clinical usage, methods of administration, dosages, side effects, contraindications, reactions, and related nursing implications.
Prerequisites: NSG 1130, NSG 1131, NSG 1135, NSG 1151.
- NSG 2213 Nutrition (2)**
 An evidence-based study of macro and micronutrients as they impact health promotion and disease prevention of diverse individuals across the lifespan. Focus is placed on basic nutrition concepts as they relate to body systems, medical nutrition therapies, drug interactions, food safety, and nutrition assessment.
- NSG 2255 Maternal-Infant Nursing (2)**
 Focuses on the nursing process and evidence-based practice as a basis for in assisting the family during childbearing experiences. Applies theoretical knowledge from nursing, scientific, environmental and humanistic disciplines.
Prerequisites: NSG 1140, 1141, 2202, 2271, 2272, BIO 3372/L372.
- NSG 2256 Maternal-Infant Nursing Practicum (2-4)**
 Focuses on the role of the professional nurse in providing high quality nursing care to childbearing individuals and families. Utilizes antepartal, intrapartal, postpartal, and neonatal experiences.
Pre or Co-requisite: NSG 2255.
Prerequisites: NSG 1140, 1141, 2202, 2271, 2272, BIO 3372/L372.
- NSG 2265 Nursing of Children (2)**
 Focuses on the use of the nursing process and evidence-based practice as a basis for assisting the family during childrearing experiences. Applies theoretical knowledge from nursing, scientific, environmental and humanistic disciplines.
Prerequisites: NSG 1140, 1141, 2202, 2271, 2272, BIO 3372/L372.
- NSG 2266 Nursing of Children Practicum (2-4)**
 Focuses on the role of the professional nurse in providing high quality nursing care to children and their families. Concepts of growth and development are applied in the care of children with altered health states including multiple disabilities.
Pre or Co-requisite: NSG 2265.
Prerequisites: NSG 1140, 1141, 2202, 2271, 2272, BIO 3372/L372.
- NSG 2271 Psychosocial Nursing Concepts (2)**
 Focuses on the role of the professional nurse utilizing evidence-based practice to promote the adaptation of diverse individuals and families experiencing bio-psychosocial stressors.
Prerequisites: NSG 1130, 1131, 1135, 1151, BIO 3348/L348, PSY 2210, TROY 1101, KHP 2211 or NSG 2213.
- NSG 2272 Psychosocial Nursing Practicum (2-4)**
 Focuses on the role of the professional nurse in the application of evidence-based nursing process in the care of diverse individuals and families experiencing bio-psychosocial stressors.
Pre or Co-requisite: NSG 2271.
Prerequisites: NSG 1130, NSG 1131, 1135, 1151, 2204, 2213, BIO 3348/L348, PSY 2210, TROY 1101, KHP 2211.
- NSG 2280 Advanced Nursing Concepts (4)**
 Provides advanced knowledge for care of individuals and families in complex or life threatening situations. Focuses on the leadership role of the professional nurse using evidence-based practice while providing safe, high-quality, holistic, patient-centered care for diverse patient populations in complex or life-threatening situations.
Prerequisites: NSG 2202, 2255, 2256, 2265, 2266, 2282, 2283.
- NSG 2281 Advanced Nursing Practicum (6-12)**
 Provides opportunity to demonstrate the role of professional nursing using judgment in practice, substantiated by evidence to assess and provide high quality care for individuals and families with complex multi-system stressors. Emphasizes health promotion, prevention, education and evidenced-based intervention in complex and life-threatening situations. Facilitates transition into the professional nursing role by examining legal, ethical, political, economic, and socio-cultural issues in nursing. Provides opportunity to apply leadership knowledge, refine nursing skills and develop greater understanding in a selected clinical area under the guidance of an approved professional nurse.
Pre or Co requisite: NSG 2280.
Prerequisites: NSG 2202, 2255, 2256, 2265, 2266, 2282, 2283.
- NSG 2282 Adult Health Nursing II (2)**
 Continues to explore patient-centered care for adults with acute health alterations. Focuses on an evidence-based approach to the nursing process within a culture of quality and safety. Emphasizes

- the role of the professional nurse for adults in acute and long-term settings. Applies theoretical knowledge from nursing, scientific, environmental and humanistic disciplines.
Prerequisites: NSG 1140, 1141, 2202, 2271, 2272, BIO 3372/L372.
- NSG 2283 Adult Health Nursing II Practicum (2-4)**
Focuses on the role of the professional nurse in providing high quality nursing care to adults. Utilizes an evidence-based approach in the continued application of the nursing process, emphasizing clinical decisions that are safe, ethical, patient-centered and collaborative to assist a diverse population of adults with acute health alterations.
Pre or Co-requisite: NSG 2282.
Prerequisites: NSG 1140, 1141, 2202, 2271, 2272, BIO 3372/L372.
- (BSN Program)**
[Course credit hours/contact hours (if different) per week are noted in parentheses]
- NSG 1101 Health Concepts (1)**
Provides opportunity for exploration of individual health values, beliefs, and behaviors. Examines impact of exercise, nutrition, and stress on health. Explores beliefs of time management, relaxation, and play in promoting and maintaining health. Open to all majors.
- NSG 1105 Medical Terminology (1)**
Develops the use of Latin and Greek prefixes, root words, and suffixes to understand medical terminology. Open to all majors.
- NSG 1150 First Responder (1-2)**
Provides the learner with cognitive and psychomotor skills to act in emergency situations. Topics include CPR, patient head-to-toe evaluation, bleeding and shock, internal and external body injuries, splinting, poisons, bites, burns, and drownings. May audit for recertification. Open to all majors.
- NSG 1160 Introduction to Technology in Nursing Education (1)**
Provides a foundation for using computer technology in nursing education. Addresses digital communication, resources, and research used in learning. Includes communication through electronic mail and course discussion using the World Wide Web as an information tool, online scholarly research, and digital presentations. Open to all majors.
- NSG 1170 The Art of Caring and Nursing Practice (3)**
Introduces students to the art of nursing and the holistic care of individuals and populations in a globally diverse society. Open to all majors.
- NSG 2204 Nutrition (2)**
A study of macro and micronutrients, their metabolism in the body, and their influence on health states of individuals from diverse cultural, ethnic and religious groups of all ages. Examines nutritional research and health policy. Compares nutritional adequacy to evidence-based national standards. Open to all majors.
- NSG 2205 Human Growth and Development (3)**
Examines developmental theories and internal and external dimensions of growth and development. Emphasizes tasks, stressors, common health alterations, and anticipatory guidance specific to developmental stages throughout the life span. Open to all majors.
- NSG 2211 Human Nutrition (3)**
Explores the relationship between nutrition and health. Emphasizes the roles of nutrients, their utilization in the human system and their contributions to the health of individuals of all ages.
- NSG 2220 Health Science Informatics (3)**
Provides a foundation for the study of information and its utilization through computer technology; encompasses access, dissemination, and management of health science information and Internet communication. General topics include communication through electronic mail, using the World Wide Web as an information tool, online scholarly research, and digital presentations and publishing. Course focus is the application of technology skills in health science fields. Open to all majors.
Prerequisite: sophomore standing.
- NSG 2230 Advanced Medical Terminology (3)**
Focuses on health and disease medical terms and building of knowledge of medical vocabulary with an emphasis on prefixes, suffixes, roots, and combining vowels. Anatomical, physiological, and pathological terminology are covered. Includes terminology related to the body systems. Open to all majors.
- NSG 2240 Spanish for Healthcare Providers (2)**
Elementary-level instruction in Spanish language and culture, all oriented to the practice of medicine with Spanish-speaking patients. No prior knowledge of Spanish is required. Students develop basic listening, speaking, reading and writing skills to successfully perform linguistic tasks allowing them to communicate in everyday situations (e.g. greeting, narrating present and past events, describing, ordering, comparing and contrasting).
Prerequisite: permission of instructor.
- NSG 2285 Perspectives of Aging (3)**
Presents interrelationships among physical, psychosocial, cultural, and spiritual components related to the older adult. Identifies senescence and alterations associated with the aging process in response to internal and external environmental dimensions. Open to all majors.
- NSG 2290 Nursing in the Global Community (1)**
Explores issues, philosophies and cultural differences in nursing in the global community. Compares nursing and healthcare in the United States to that of other nations.
Prerequisite: sophomore standing or permission of instructor.
- NSG 2291 Nursing Study Abroad (1-3)**
Provides the opportunity for students to experience nursing in the global community through a cultural immersion in a study abroad program. Focuses on the comparison of nursing in the United States to nursing in the international community.
- NSG 3300 Dosage Calculations (2)**
Uses mathematical principles, symbols, conversions and computations for accurate calculation of dosages for safe and effective medication administration for patients of all ages. Explores current evidence and health care policy related to safe and effective medication administration.
Prerequisite: admission to BSN program.
- NSG 3301 Pharmacology (3)**
Focuses on key pharmacological principles and the role of the nurse in management of drug therapy, including appropriate evidence-based patient teaching, counseling, and safety and quality controls. Presents drug classifications and related nursing implications for individuals of all ages.
Prerequisite: NSG 3300, NSG 3306, NSG 3309/3310, NSG 3313/3314, NSG 3315

- NSG 3306 Perspectives of Professional Nursing (1)**
Explores the roles of the baccalaureate degree nurse. Presents the principles, standards, and values implicit in the profession of nursing. Introduces the theories used in the definition of concepts of humanity, environment, health, and nursing. Introduces the development of key elements used in professional nursing practice: caring, evidence-based clinical decisions, communication, collaboration, cultural humility, ethical competence, research, and information technology. Explores the influence of internal and external dimensions on professional nursing practice.
Prerequisite: admission to the BSN Program.
- NSG 3309 Health Assessment (2)**
Focuses on the assessment phase of the nursing process as a means of collecting data for use in making clinical decisions for the promotion of safe, quality care. Emphasizes acquisition of knowledge and skills required to perform health assessments focusing on physical, psychosocial, cultural, and spiritual components of individuals at various ages and communication of findings.
Prerequisites: BIO 3347/L347, 3348/L348.
Co-requisite: NSG 3310.
- NSG 3310 Health Assessment Practicum (1-2)**
Provides opportunities for students to practice health assessment skills required for culturally diverse individuals of all ages. Includes analysis and communication of findings for the promotion of safe, quality care. Requires demonstration of effective communication and performance of health assessment skills consistent with best practices.
Prerequisites: BIO 3347/L347, 3348/L348.
Co-requisite: NSG 3309.
- NSG 3313 Nursing Concepts (3)**
Explores common health alterations for individuals of all ages in response to internal and external environmental dimensions. Examines the physical, psychosocial, cultural, and spiritual components influencing health states. Introduces the concept of illness as an alteration in health. Presents fundamental skills used in the implementation of therapeutic nursing interventions. Introduces evidence-based clinical decisions in the application of the nursing process for health promotion and clinical prevention.
Prerequisite: admission to BSN Program.
Prerequisite or Co-requisite: NSG 3300, 3306 3309/3310, 3315.
Co-requisite: NSG 3314.
- NSG 3314 Nursing Concepts Practicum (3-6)**
Provides clinical learning opportunities for students to develop basic nursing knowledge and skills for the care of individuals of all ages who require assistance in meeting basic health needs and adapting to common health alterations. Uses key elements in professional nursing practice in the application of the nursing process as a systematic approach to clinical prevention, health promotion and maintenance, and illness and restorative care. Requires validation of competencies related to safe performance of basic nursing skills.
Prerequisite: admission to BSN Program.
Prerequisite or Co-requisite: NSG 3300, 3306, 3309/3310, 3315.
Co-requisite: NSG 3313.
- NSG 3315 Pathophysiology (3)**
Explores the relationship between normal and altered physiology in human systems. Examines physiological adaptive responses to internal and external dimensions, including genetics, ethnicity, environment and age. Emphasizes pathophysiologic responses to altered states of health and disease on structures and functions of body cells, organs and systems. Open to all majors.
- NSG 3319 Informatics in Nursing (3)**
Focuses on development of knowledge and skills in information management and patient care technology, including data gathering, technological supports for therapeutic nursing interventions, and clinical decision-support systems. Explores use of technology to gather evidence for support of best practices for the delivery of safe and quality nursing care. Presents software applications used in nursing informatics.
Prerequisites: NSG 3325/3326, 3334/3335 or admission to the RN Mobility Program.
- NSG 3323 Maternal-Infant Health Nursing (3)**
Explores both normal childbearing families and childbearing families with health alterations in response to internal and external environmental dimensions. Examines the interrelationships among the physical, psychosocial, cultural, and spiritual components of the childbearing experience. Emphasizes evidence-based clinical decisions for the utilization of therapeutic nursing interventions, communication, and collaboration in a caring environment for the promotion of optimal health states of childbearing families.
Prerequisites: NSG 3301, 3325/3326, 3334/3335. *Co-requisite:* NSG 3324.
- NSG 3324 Maternal-Infant Health Nursing Practicum (2-4)**
Provides clinical learning opportunities for students to provide nursing care for childbearing families during the antepartal, intrapartal, postpartal, and neonatal periods. Emphasizes the use of clinical reasoning in the application of the nursing process in facilitating human adaptive responses to childbearing in the provision of safe, quality nursing care.
Prerequisites: NSG 3301, 3325/3326, 3334/3335. *Co-requisite:* NSG 3323.
- NSG 3325 Adult Health Nursing I (3)**
Continues to explore the concept of illness as an alteration in health states. Presents principles of safe, effective medication and intravenous therapy administration. Explore health alterations in adults in response to internal and external environmental dimensions, focusing on surgery, gastrointestinal, endocrine, integumentary, immune, and musculoskeletal systems. Examines selected theories for interrelationships among physical, psychosocial, cultural, and spiritual components. Emphasizes evidence-based clinical decisions in a caring environment for the utilization of therapeutic interventions, communication, and collaboration for promotion of optimal health states in adults.
Prerequisites: NSG 3300, 3306, 3309/3310, 3313/3314, 3315.
Co-requisite: NSG 3326.
- NSG 3326 Adult Health Nursing I Practicum (3-6)**
Provides clinical learning opportunities for students to refine basic clinical skills and provide nursing care of adults with health alterations. Emphasizes clinical reasoning in the application of the nursing process in facilitating human adaptive responses to health alterations in the adult. Validates competencies related to medication and intravenous therapy administration.
Prerequisites: NSG 3300, 3306, 3309/3310, 3313/3314, 3315.
Prerequisite or co-requisite: NSG 3301.
Co-requisite: NSG 3325.
- NSG 3334 Psychiatric-Mental Health Nursing (3)**
Explores mental health alterations of all ages in response to internal and external environmental dimensions. Examines selected theories of mental health and illness for interrelationships among physical, psychosocial, cultural, and spiritual components. Emphasizes evidence-based clinical decision-making in the utilization of therapeutic

- nursing interventions, communication and collaboration for the promotion of optimal states of mental health.
Prerequisites: NSG 3300, 3306, 3309/3310, 3313/3314, 3315.
Co-requisite: NSG 3335.
- NSG 3335 Psychiatric-Mental Health Nursing Practicum (2-4)**
Provides clinical learning opportunities for students to provide illness and restorative care for individuals experiencing alterations in mental health states. Emphasizes evidence-based clinical reasoning in the application of the nursing process in facilitating human adaptive responses to mental health alterations
Prerequisites: NSG 3300, 3306, 3309/3310, 3313/3314, 3315.
Co-requisite: NSG 3334.
- NSG 3336 Adult Health Nursing II (3)**
Continues to explore health alterations for adults in response to internal and external environmental dimensions, focusing on cardiovascular, respiratory, nervous, sensory, renal, reproductive, and multi-system trauma and shock. Examines selected theories for interrelationships among physical, psychosocial, cultural, and spiritual components. Emphasizes evidence-based clinical decisions in a caring environment for the utilization of therapeutic interventions, communication, and collaboration for promotion of optimal health states in adults.
Prerequisites: NSG 3301, 3325/3326, 3334/3335. *Co-requisite:* NSG 3337.
- NSG 3337 Adult Health Nursing II Practicum (2-4)**
Provides clinical learning opportunities for students to further refine clinical skills and provide nursing care for adults with alterations in health states. Emphasizes clinical reasoning in the application of the nursing process in facilitating human adaptive responses to health alterations in the adult in the provision of safe, quality nursing care.
Prerequisites: NSG 3301, 3325/3326, 3334/3335.
Co-requisite: NSG 3336.
- NSG 3340 Ethics in Nursing (3)**
A discussion of traditional ethical theories, principles and meta-ethical concerns will provide the necessary background required to explore a variety of controversial issues such as euthanasia, abortion, and the new reproductive technologies. Objective and critical reflection about the issues will be developed into active discussions by the students.
Prerequisite: *Permission of instructor.*
- NSG 3345 Physical Examination for Allied Health Professionals (2)**
Focuses on physical examination of individuals by allied healthcare professionals as a means of collecting data for use in the making of clinical decisions. Emphasizes acquisition of knowledge and skills required to perform health assessments focusing on physical, psychosocial, and cultural components of individuals at various ages and communication of findings.
Prerequisites: BIO 3347, BIO L347, BIO 3348, BIO L348.
Co-requisites: NSG 3346.
- NSG 3346 Physical Examination for Allied Health Professional Practicum (1)**
Provides opportunities for allied health professional students to practice physical examination skills required for culturally diverse individuals of all ages. Includes analysis and communication of findings for the promotion of safe, quality care. Requires demonstration of effective communication and performance of physical examination skills consistent with best practice.
Prerequisites: BIO 3347, BIO L347, BIO 3348, BIO L348.
Co-requisites: NSG 3345
- NSG 3350 Case Management in Healthcare (3)**
Provides theoretical foundation and practical information about case management in healthcare. Introduces the roles of the nursing case manager in a changing healthcare environment.
Prerequisite: NSG 3309/3310 or NSG 3345/3346.
- NSG 3370 Professional Nursing (2)**
Explores current issues, trends, principles, values, and standards impacting the profession of nursing. Examines theories related to the leadership/management role of the professional nurse. Discusses evidence-based practice, information technology, quality improvement, patient safety and other current nursing practice topics related to meeting the emerging health needs in changing diverse global society in response to internal and external environmental dimensions.
Prerequisites: Admission to the RN Mobility Program.
- NSG 3380 Pathophysiology and the Human Response (3)**
Explores the relationship between normal and altered physiology in human systems. Examines physiological adaptive responses to internal and external dimensions, including genetics, ethnicity, environment and age. Emphasizes pathophysiologic responses to altered states of health and disease structures and functions of body cells, organs, and systems. Open to all majors.
Prerequisite: BIO 3347/L347, 3348/L348
- NSG 3390 Global Identity: Connecting Your International Experience to Your Future (3)**
Studying abroad is a transformative experience that has the power to challenge our thinking and our perspective on the world. This course aims to attract students across disciplines, to promote inter-professional development, and to prepare them to expand their understanding of their global identity and communicate their growth in intercultural competence toward their personal and professional development. Students make connections between their study abroad experience and the broader range of skills connected with this experience, to become a competitive member of a global workforce.
- NSG 4403 Child Health Nursing (3)**
Explores health alterations in children in response to internal and external environmental dimensions. Examines selected theories of child health for interrelationships among developmental, physical, psychosocial, cultural, and spiritual components. Emphasizes evidence-based clinical decisions, communication and collaboration in a caring environment. Presents the role of the nurse in the promotion of optimal health for children of all ages.
Prerequisites: NSG 3319, 3323, 3324, 3336, 3337.
Co-requisite: NSG 4404.
- NSG 4404 Child Health Nursing Practicum (2-4)**
Provides clinical learning opportunities for students to integrate clinical prevention, health promotion and maintenance, and illness and restorative care for children experiencing alterations in health states. Emphasizes clinical reasoning in the application of the nursing process in facilitating human adaptive responses to health alterations in the child in the provision of safe, quality nursing care. Uses a variety of hospital and community settings.
Prerequisites: NSG 3319, 3323, 3324, 3336, 3337.
Co-requisite: NSG 4403.
- NSG 4405 Public Health Nursing (3)**
Provides a theoretical and empirical foundation for public health nursing practice. Explores the environmental, global, cultural, political and financial dimensions of public health. Emphasizes the nurse's role in the delivery of public health

- nursing care in health promotion and clinical prevention health for individuals, families, communities and populations.
Prerequisites: NSG 4403/4404, 4413/4414, 4419 Co-requisite: NSG 4406.
- NSG 4406 Public Health Nursing Practicum (2-4)**
Provides clinical learning opportunities for students to engage in public health nursing practice. Explores use of advocacy and application of environmental, global, cultural, political, and financial dimensions of public health nursing practice in health promotion and clinical prevention for individuals, families, communities and populations. Emphasizes clinical reasoning in the application of the nursing process for promotion of optimal public health.
Prerequisites: NSG 4403/4404, 4413/4414, 4419 Co-requisite: NSG 4405.
- NSG 4407 Clinical Nutrition (1)**
A study of clinical nutrition therapy for support of adaptive responses to potential or actual major disease-specific health alterations. Presents best practices with consideration of physical, psychosocial, cultural and developmental components for clinical decisions in the design and implementation of therapeutic nursing interventions for health promotion and clinical prevention for individuals, families, communities, and population.
Prerequisites: NSG 4403/4404, 4413/4414.
- NSG 4410 Population Health Nursing (3)**
Provides a theoretical and empirical foundation for nurses to explore the environmental, global, cultural, political and financial dimensions of a specific population. Emphasizes the nurse's role in the delivery of population-focused care in health promotion, clinical prevention, and overall health for diverse communities.
Prerequisites: Admission to the RN Mobility Program . Co-requisite: NSG 4411.
- NSG 4411 Population Health Nursing Preceptorship (2-2)**
Provides clinical learning opportunities for students to engage in population-focused care. Explores use of advocacy and application of environmental, global, cultural, political, and financial dimensions of population-focused nursing practice in health promotion, clinical prevention, and overall population health. Emphasizes clinical reasoning in the application of the nursing process for promotion of optimal population health.
Prerequisites Admission to the RN Mobility Program Co-requisite: NSG 4410.
- NSG 4413 Complex Nursing (3)**
Interprets complex, multi-system health alterations in response to internal and external environmental dimensions. Examines theories related to stress and crisis management. Emphasizes evidence-based clinical decisions in a caring environment, utilization of communication and collaboration, and the integration of information technology, research findings, ethical competence, and cultural humility in nursing practice for the promotion of optimal health in individuals with complex, multi-system health alterations.
Prerequisites: NSG 3323/3324, 3336/3337, 3319. Co-requisite: NSG 4414.
- NSG 4414 Complex Nursing Practicum (2-4)**
Provides clinical learning opportunities for students to provide nursing care for individuals and groups experiencing complex, multi-system health alterations in response to internal and external dimensions. Emphasizes clinical reasoning in the application of the nursing process in collaboration for promotion of optimal health states in response to complex, multi-system health alterations. Focuses on performance of complex care skills required for safe, quality nursing care.
Prerequisites: NSG 3323/3324, 3336/3337, 3319. Co-requisite: NSG 4413.
- NSG 4415 Nursing Leadership/Management (2)**
Provides the theoretical foundation for implementation of the leadership and management roles of the professional nurse within nursing and health care organizations. Evaluates effective models and strategies for organizational management. Emphasizes evidence-based decisions in the management of the nursing organization within a caring environment.
Prerequisites: NSG 4403/4404, 4413/4414, 4419. Co-requisite: NSG 4421.
- NSG 4417 Professional Nursing Seminar (1)**
Provides analysis of internal and external dimensions of selected professional, legal, ethical, political, economic, and sociocultural issues affecting nursing. Discusses the transition from student into the professional nurse's role, professional role development, and preparation for licensure. Requires completion of a comprehensive exam per the BSN program policy.
Prerequisites: NSG 4403/4404, 4413/4414, 4419. Co-requisite: NSG 4421.
- NSG 4419 Research and Evidence in Nursing Practice (2)**
Explores the process for research and evaluation of best evidence in developing strategies for improvement of clinical outcomes. Examines the interrelationships among theory, practice, and research. Emphasizes the ethical and legal considerations in the conduct of research and appraisal of evidence.
Prerequisites: NSG 3323/3324, 3336/3337, 3319.
- NSG 4421 Professional Nursing Clinical Preceptorship (3-12)**
Facilitates transition into professional nursing practice. Provides opportunities for refinement of roles as a designer, manager, and coordinator of nursing care and provider of direct and indirect nursing care for individuals and families in a selected clinical area under the guidance of an approved preceptor.
Prerequisites: NSG 4403/4404, 4413/4414, 4419. Co-requisite: NSG 4415, 4417.
- NSG 4430 Leadership and Management in Nursing (3)**
Presents application of the leadership and management theories to manage care of individuals, families, communities, or populations adapting to internal and external environmental dimensions in a variety of dynamic and complex healthcare settings. Emphasizes the leadership and management role of the baccalaureate nurse. Integrates evidence-based practice, quality improvement, patient safety, information technology and healthcare policy.
Prerequisites: Admission to the RN Mobility Program Co-requisite: NSG 4431.
- NSG 4431 Leadership and Management in Nursing Preceptorship (2-2)**
Provides clinical learning opportunities for students to apply leadership and management theories in the management of individuals, families, communities or populations adapting to internal and external dimensions in a variety of healthcare settings. Emphasizes the leadership and management roles of the baccalaureate nurse. Integrates evidence-based practice, quality improvement, patient safety, information technology and healthcare policy.
Prerequisites: Admission to the RN Mobility Program Co-requisite: NSG 4430.

- NSG 4440 Research and Evidence for the Practicing Registered Nurse (3)**
Designed for practicing registered nurses to develop knowledge and understanding in the research process, to become research consumers, and evaluate and integrate current evidence for best practice. Examines the interrelationships among theory, practice, and research. Emphasizes the ethical and legal considerations in the conduct of research and appraisal of evidence. Incorporates professional writing skills in the appraisal and dissemination of evidence.
Prerequisites: Admission to RN Mobility Program; PSY 3301, QM 2241, OR STAT 2210
- NSG 4493-94 Guided Independent Study (1 to 3 credit hours)**
Additional information is indexed under Academic Regulations.
Prerequisite: Permission of instructor. Also see index for "Independent Study and Research.."

PHILOSOPHY COURSES (PHI)

- PHI 2201 Introduction to Political Philosophy (3)**
Major Classical sources of political thought and the application of these sources to contemporary political issues.
- PHI 2203 Introduction to Philosophy (3)**
Brief history of philosophical ideas and the basics of Aristotelian logic.
- PHI 2204 Ethics and the Modern World (3)**
An introduction to basic ethics and to contemporary ethical issues.
- PHI 2205 Introduction to Logic (3)**
An introduction to the basic concepts, principles, and methods of argument analysis and evaluation.
- PHI 2210 Critical Thinking (3)**
Examines problem solving techniques; decision making; basic concepts of inductive and deductive reasoning. Promotes reasoning skills applicable to career- and real-life situations.
- PHI 2215 General Topics in Philosophy (3)**
An examination of a designed topic of special and/or current interest and importance generally not covered in regularly offered courses by the department. This course may be repeated once for credit.
- PHI 2280 Travel Study in Philosophy (1-3)**
Supervised investigation of relevant topics in philosophy through travel-study abroad or within the interior of United States.
Prerequisite: Permission of instructor. Course may be repeated for credit with permission of instructor.
- PHI 3301 Western Philosophy (3)**
Survey of philosophical ideas from the ancient Greeks through the 20th century.
- PHI 3310 Applied Ethics (3)**
Advanced study of the ethical issues that arise in such intellectual endeavors as medicine, law, business, military science, engineering, etc.
- PHI 3320 Non-Western Philosophies (3)**
Introduces students to the philosophical traditions of the non-western world. Emphasis is on non-contemporary traditions of metaphysics, cosmology, ethics, philosophy of religion, social and political philosophy and logic.
- PHI 3322 Philosophy of Religion (3)**
Examines philosophical issues relating to religion, including arguments for and against God's existence, the problem of evil, the relation between divine foreknowledge and human freedom, the relation between religion and science, the problem of faith and reason, and personal immortality.
- PHI 3365 Bioethics in Historical Context (3)**
Examines moral problems in biomedical and scientific research, including ethical issues surrounding research involving human and animal subjects, eugenics, the human genome project, cloning and stem cell research.
- PHI 3380 Travel Study in Philosophy (1-3)**
Supervised investigation of relevant topics in philosophy through travel-study abroad or within the interior of the United States.
Prerequisite: Permission of Instructor
May be repeated for credit with permission of instructor.
- PHI 4493-94 Guided Independent Study (1-3)**
Guided independent study of a designed topic of special interest.
Prerequisites: PHI 2203 or 2204 or permission of instructor.
- PHI 4495 Selected Topics in Philosophy (3)**
Advanced study of a designed topic of special interest.
Prerequisites: PHI 2203 or 2204 or permission of instructor.
- PHI 4499 Internship in Philosophy (1-3)**
Supervised work in an agency that can provide practical experience in the field of study.
Prerequisite: Senior standing, at least 2.5 GPA, 12 hours in upper-division courses in the field, and permission of supervising instructor, department chair, and/or dean. Course may be repeated for credit with permission of instructor.

PHYSICS COURSES (PHY)

- PHY 2252 General Physics I (3)**
An introduction to the laws of mechanics and thermodynamics.
Prerequisite: MTH 1114.
Co-requisite: PHY L252.
- PHY L252 General Physics I Lab (1)**
Laboratory work emphasizes basic principles of mechanics and thermodynamics, the use of measuring instruments, and the interpretation of data.
Co-requisite: PHY 2252.
- PHY 2253 General Physics II (3)**
An introduction to the laws of optics, electricity and magnetism.
Prerequisite: PHY 2252/L252.
Co-requisite: PHY L253.
- PHY L253 General Physics II Lab (1)**
Laboratory work emphasizes basic principles of electricity, magnetism and optics, the use of measuring instruments, and the interpretation of data.
Co-requisite: PHY 2253.
- PHY 2262 Physics I with Calculus (3)**
Introduction to the principles and laws of mechanics and thermodynamics, utilizing the methods of calculus.
Co-requisite: MTH 1125 or higher math course, PHY L262.
- PHY L262 Physics I with Calculus Lab (1)**
Laboratory work emphasizes basic principles of thermodynamics and mechanics, the use of measuring instruments, and the interpretation of data.
Co-requisite: PHY 2262.
- PHY 2263 Physics II with Calculus (3)**
Introduction to the principles of electricity, magnetism and optics, utilizing the methods of calculus.
Prerequisite: PHY 2262/L262.
Co-requisite: PHY L263.

- PHY L263 Physics II with Calculus Lab (1)**
Laboratory work emphasizes basic principles of electricity, magnetism and optics, the use of measuring instruments, and the interpretation of data.
Co-requisite: PHY 2263.
- PHY 3310 Modern Physics (3)**
Topics covered include special relativity, quantum mechanics, statistical physics, and nuclear physics.
Prerequisites: MTH 1126, PHY 2263/L263.
Co-requisite: PHY L310.
- PHY L310 Modern Physics Lab (1)**
Selected experiments in modern physics.
Co-requisite: PHY 3310.
- PHY 3320 Mathematical Methods for Physicists (3)**
In this course, students will develop a basic understanding of the mathematical skills necessary to undertake a study in Dynamics, Electromagnetism, and Quantum Physics. *Prerequisite: MTH 1126.*
- PHY 3321 Scientific Computing (3)**
Computational methods in Engineering and Physics.
Prerequisite: PHY 3320.
- PHY 3325 Thermodynamics (3)**
In this course, students will be introduced to the basic principles of thermodynamics. Topics include, energy conservation, entropy, isolated systems at constant pressure and temperature and the corresponding thermodynamic potentials. Students will learn to apply these principles to other branches of science and engineering.
Prerequisites: PHY3310/PHYL310.
- PHY 3359 Waves and Optics (3)**
Topics of study in this course will include properties of waves, image formation, refraction, diffraction, origin of spectra, polarized light, and optical activity.
Prerequisite: PHY 2253/L253 or PHY 2263/L263.
Co-requisite: PHY L359.
- PHY L359 Waves and Optics Lab (1)**
Students will conduct selected experiments in waves, geometric and physical optics. Laboratory work emphasizes the basic principles of optics, the use of measuring instruments, and the interpretation of data.
Co-requisite: PHY 3359.
- PHY 4420 Mechanics (3)**
Introduction to the kinematics and dynamics of particles: escape and terminal velocity, drag, rotational motion and rotating frames, Foucault pendulum, planetary motion and Kepler's laws.
Prerequisites: PHY 2253/L233 or PHY 2262/L262 and MTH 1126.
- PHY 4435 Electricity and Magnetism (3)**
Topics include static electric and magnetic phenomena. electric and magnetic potentials, motion of charged particles, dielectric and magnetic media, and fields in conductors.
Prerequisite: PHY 2263/L263, MTH 2227.
- PHY 4438 Electromagnetic Fields (3)**
Topics include electric and magnetic circuit elements. Maxwell's equations and boundary condition problems in one, two and three dimensions.
Prerequisite: PHY 4435.
- PHY 4440 Dynamics of Particles & Systems (3)**
Introduction to the dynamics of rigid body rotation, calculus of variations and minimization and the canonical formalism.
Prerequisite: PHY 4420.
- PHY 4445 Quantum Mechanics I (3)**
Introduction to the principles of quantum mechanics, one dimensional systems including the square well and the simple harmonic oscillator, uncertainty relations and multi-particle systems.
Prerequisites: PHY 3310, MTH 2227 or PHY 3320.
- PHY 4446 Quantum Mechanics II (3)**
Topics include quantum mechanics higher dimensional systems, angular momentum in quantum mechanics, spin, the Hydrogen atom, addition of angular momentum, WKB approximation, and perturbation theory.
Prerequisite: PHY 4445.
- PHY 4460 Relativity I (3)**
Topics include Lorentz transformation, inertial coordinates, causal Structure of Spacetime, equivalence principle, gravitational effects in SR, curved Spacetime, and introduction to black holes.
Prerequisites: Permission of Instructor
- PHY 4475 Particle Physics (3)**
The basic building blocks of matter and their interactions will be developed emphasizing their relationship to symmetry groups. We will introduce the photon, basic quantum electrodynamics, and introduce Feynman rules for interacting theories.
Prerequisite: PHY 4445.
- PHY 4478 Relativity II (3)**
Topics include rotating black holes, Hawking radiation, cosmology, tensor calculus, and Einstein field equations.
Prerequisites: Permission of instructor.
- PHY 4483-85 Seminar in Relativity (1)**
Selected topics of interest within the field of relativity. *Note: may be taken up to three times for credit.*
- PHY 4490 Travel Study in Physics (1-3)**
Supervised investigation of relevant topics in Physics through travel-study abroad or within the interior of the United States.
- PHY 4491-92 Guided Independent Research (1 to 4 credit hours)**
A physics research project under the direction of a faculty member. The project must culminate in a written report with the results reported at a department seminar.
Prerequisite: Senior standing or permission of department chair. Also see index for "Independent Study and Research.."
- PHY 4493-94 Guided Independent Study (1 to 4 credit hours)**
Independent study for advanced students under the direction of a faculty member.
Prerequisite: Permission of department chair. Also see index for "Independent Study and Research.."
- PHY 4495 Topics in Physics (3)**
Focus on a topic of timely nature and/or special interest.
Prerequisites: Permission of instructor.
- PHY 4498 Internship in Physics (1-3)**
Supervised work experience in the biotechnology industry, governmental agency, business, or other working environment in which a student will learn and apply pertinent professional skills.
- PHY 4499 Senior Seminar (2)**
The main objective of this course is to complete a research project in physics. You will be bringing together many of the ideas presented to you in your physics classes. In addition, you will need to acquire skill in project definition, time management, project completion timeline and schedule, clear and concise writing, and project presentation.
Prerequisite: Permission of the instructor.
-
- POLITICAL SCIENCE COURSE (POL)**
- POL 1101 Pop Culture and Politics (3)**
Politics and popular culture have always been closely connected. Politicians seek to show how connected they are to the public, and try to use media and popular culture to do this. In this class,

- we will spend time learning how to define “politics” and “popular culture” so that we can understand how they interact. We will identify examples of politics being expressed in popular culture, and explore times when popular culture appears to have affected politics. There is an emphasis on the historical progression of mass media, as well as the influence of the media on politics and policies.
- POL 1110 Social Media and Politics (3)**
The digital age has revolutionized the way that people get information and communicate. Where communication and information-gathering once took time and expertise, in the digital age, information and communication is now virtually instantaneous. This is both a benefit and hindrance to politics. On the one hand, candidates can have instant communication with supporters and the people that they represent. On the other hand, the ease of sharing information and communication lends itself to false narratives and presenting alternative truths. This class will examine digital media as a political tool. Students will learn how different digital media is from traditional media. They will learn positive and negative aspects of politics in the digital age. Students will be expected to actively engage in the political process through digital media. This class is a general studies course and will fulfill the general studies requirement.
- POL 2240 Honors American National Government (3)**
This course explores the stable political values that frame the US Constitution and have guided our societal environment for two hundred years. The course is intended for superior students and political science majors.

Prerequisite: PRJ 3321.
Co-requisite: PRJ 4419.

PSYCHOLOGY COURSES (PSY)

- PSY 2200 Introduction to Psychology (3)**
 A survey of the basic theories, concepts, principles, and research findings in the field of psychology.
- PSY 2201 Honors General Psychology (3)**
 A survey of the basic theories, concepts, principles, and research findings in the field of psychology.
- PSY 2205 Psychology of Adjustment (3)**
 A course in mental health, designed to assist the individual in making a good adjustment to the changing requirements of the environment.

- PSY 2210 Developmental Psychology (3)**
A study of human development across the life-span with emphasis on psychosocial, physical, emotional, and cognitive changes.
- PSY 2230 Orientation to the Psychology Major (3)**
Introduction to the language of psychology, APA writing style, and library research. Also includes an over view of career paths in psychology.
- PSY 3301 Basic Statistics (3)**
An introduction to descriptive and inferential statistical concepts, methods, and tools. Topics to be covered include basic terminology, measurement, data description, probability, hypothesis testing, and inferential tests (parametric and non-parametric). May be used for Sociology credit.
Prerequisite: MTH 1110 or higher, with a grade of C or above.
- PSY 3304 Abnormal Psychology (3)**
The study of mental disorders emphasizing their etiology, classification and amelioration as described in the current classification system of the American Psychiatric Association.
- PSY 3309 Advanced Statistics (3)**
Advanced quantitative methods in psychology. Topics include linear regression, analysis of variance, non-parametric techniques, estimation procedures, individual and multiple comparisons, and experimental design.
Prerequisite: PSY 3301.
- PSY 3310 Sensation and Perception (3)**
A study of how sensory information helps both the human species and other animals to thrive. Exploration of the senses including their physiological makeup, development and functioning. Theoretical and empirical foundations of perception and the applications of perceptual knowledge are emphasized.
Prerequisite: six semester hours of psychology and sophomore standing or above.
- PSY 3311 Research Methods (3)**
An introduction to the design, analysis, and interpretation of behavioral research, including strategies for reviewing scientific literature and organizing a research report.
Prerequisite: PSY 2230 and PSY 3301.
- PSY 3312 Psychology of Women (3)**
The study of women's experience and gender issues in the context of psychological theory and research.
- PSY 3315 Cultural and Diversity Psychology (3)**
This course is a theoretical and empirical analysis of how culture is connected to human behavior. Global cultural differences and perspectives will be discussed including research studies, theory, and comparative analyses (i.e. Eastern vs. Western comparative analyses). Discussions will include human behavior across different countries, the evolution of culture, self and personality, mental and physical health, and living in multicultural worlds. Diversity topics will cover such issues as gender, ethnicity, classism, disability, worldviews, and role constructions. Diversity discussions will include stereotypes, biases, ageism, ableism, and gender role development. Sexual orientation and evolving cultural laws will be examined.
- PSY 3316 Mixed Methods Research (3)**
This course examines the advantages and techniques of mixing quantitative research methods in order to answer scientific questions within the field of psychology and other related fields. By learning how to integrate qualitative methodologies, when appropriate, students should gain an understanding that research should be guided by the questions we want to answer and not limited by the methodologies we prefer. Students will learn techniques for collecting, analyzing, integrating, interpreting, and reporting data from mixed methods research.
Prerequisites: PSY 3301.
- PSY 3317 Ethics in Research and Practice (3)**
This course introduces the student to ethical practices in psychology by focusing on the underlying principles of the 80+ standards of the APA Ethics Code. The course begins by covering the basics of the APA Ethics Code, including a brief history and an overview of general concepts. Next, it explores the four ethical concepts applicable to all psychologists: competence, informed consent, privacy and confidentiality, avoiding harm and exploitation. Finally, it relates these key concepts to specific situations, including assessment, treatment, research and publication, and teaching and supervision.
- PSY 3320 Child Psychology (3)**
The development of children from conception to puberty. Includes physical, cognitive, perceptual, language, social and emotional development.
- PSY 3322 Abnormal Child Psychology (3)**
A study of theories, research, etiology, assessment and diagnosis of mental disorders first seen in childhood or adolescence as defined by the current edition of the *Diagnostic and Statistical Manual of Mental Disorders*. Includes such disorders as ADHD, conduct problems, anxiety, mood, mental retardation, and autism.
- PSY 3325 Adolescent Psychology (3)**
Adolescents from puberty to early adulthood. Includes physical, cognitive, social, emotional, and personality development in cultural context.
- PSY 3330 Health Psychology (3)**
This course studies the science that connects behavior to health, including psychological processes and the relationship between health and human behavior.
- PSY 3332 Family Violence (3)**
An in-depth study of violence in families, including spousal abuse, child abuse, elder abuse, relationship dynamics, protection services, treatment programs, legal defense strategies, and current legislation.
Note: May be taken for psychology or sociology credit, but not both.
- PSY 3340 Psychology of Learning (3)**
Introduction to learning and behavior in human and nonhuman animals, including fundamental principles and findings from laboratory investigations of classical, instrumental, cognitive, and social learning.
- PSY 3346 Educational Assessment (3)**
This course provides a study of measurement and evaluation techniques for the classroom teacher. Emphasis will be placed on the selection, evaluation, administration, scoring and interpretation of selected measures of student performance, achievement and behavior. The student will demonstrate skills in utilizing measurement data to plan appropriate learning activities for students.
Prerequisite: admission to TEP. Note: May not be used to meet the requirements for the psychology major or minor.
- PSY 3351 Theories of Learning (3)**
Critical analysis of the major theories of learning, including the works of Pavlov, Thorndike, Guthrie, Tolman, Hull, Skinner, and Mowrer.
- PSY 3360 Forensic Psychology (3)**
Forensic psychology is the application of the science and profession of psychology to questions and issues relating to law and the legal system. This course will introduce students to the specialty area of forensic psychology. Particular emphasis will be on applied aspects of the field.
Prerequisite: six semester hours of psychology.

- PSY 3365 Human Factors Psychology (3)**
Analysis of theoretical issues and research methods related to the interaction between people and machines and human performance. Topics include information processing theory, human control systems and displays, task simulation, perceptual and motor factors limiting human performance.
Prerequisite: six semester hours of psychology.
- PSY 3370 Comparative Psychology (3)**
This course examines the development, causal mechanisms, evolutionary history, and function of the behavior of animals, including humans.
- PSY 3380 Social Psychology (3)**
A theoretical and empirical analysis of social behavior, including selected topics related to social perception, social influence, social interaction, and applied social psychology.
- PSY 3385 Evolutionary Psychology (3)**
An examination of human behavior and cognition from an evolutionary perspective.
- PSY 3390 Special Topics in Psychology (3)**
An examination of selected topics or issues in psychology.
May be repeated for credit when course content varies.
Prerequisite: six semester hours of psychology.
- PSY 4400 Advanced General Psychology (3)**
A comprehensive study of the discipline of psychology designed to expand the student's depth and breadth of knowledge in psychology.
Prerequisite: Senior status (90 semester hours of undergraduate courses) and a minimum of 15 semester hours of psychology.
- PSY 4401 Psychological Tests and Measurements (3)**
Selection, evaluation, administration, scoring, interpretation and uses of tests of intelligence, proficiency, interests, personality, aptitude and social adjustment.
Prerequisite: Additional three semester hours of psychology.
- PSY 4402 Principles of Counseling (3)**
Overview of major counseling theories and techniques, interviewing, assessment, professional issues and ethics, and a review of research and practical problems.
Prerequisite: six semester hours of psychology.
- PSY 4405 Experimental Psychology (3)**
Various techniques for conducting scientific research in psychology will be discussed. Course objectives include designing and conducting an experiment as well as analyzing and reporting the results.
Prerequisite: PSY 2230 and PSY 3301.
- PSY 4410 Industrial/Organizational Psychology (3)**
Application of psychology in business and industry, including employee selection, performance appraisal, motivation, organizational psychology, consumer motivation, group structures, and personnel problems.
- PSY 4420 Physiological Dynamics of Alcohol and Other Drugs (3)**
Study of physiological and psychological dynamics and resultant behavioral implications in use of alcohol and other drugs. Based on assessment of dynamics and behavior and application of diagnostic procedures using appropriate manuals and materials.
- PSY 4421 Physiological Psychology (3)**
The physiological correlates of behavior will be examined, including such topics as neurotransmitters and hormones, drugs, and the biological roots of mental disorders.
- Prerequisite: PSY 2230 and an additional three semester hours of psychology.*
- PSY 4430 Intro to Substance Abuse Counseling (3)**
This course provides an introduction to substance abuse counseling through studies of mind-altering substances; etiological theories of addiction; assessment interviewing and screening tests; individual, group, family, and other treatment options; relapse prevention; and community prevention programs.
- PSY 4434 Drug Education, Prevention and Intervention (3)**
A study of commonly abused drugs, drug abuse prevention, and treatment techniques. Examines characteristics of people at high risk to become substance abusers/addicted.
- PSY 4435 Treatment of Addictive Family Diseases (3)**
A study of typical characteristics of dysfunctional families. Provides the basis for suggested intervention techniques, appropriate areas of family education, and guidelines for effective therapy.
- PSY 4436 Treatment Theories and Modalities of Addictive Diseases (3)**
A study of historical perspectives and the most effective treatment and assessment approaches of addictive diseases.
- PSY 4450 Theories of Personality (3)**
Critical analysis of major theories and systems of personality.
Prerequisite: six semester hours of psychology.
- PSY 4451 History and Systems of Psychology (3)**
Study of the development of psychology from its historical antecedents with special emphasis placed on contemporary schools and systems of psychological thought.
Prerequisite: PSY 2230 and Senior Status (90 semester hours of undergraduate courses).
- PSY 4456 Gerontology (3)**
The study of aging. Emphasis on biomedical, psychological, and social aspects of middle and late adulthood.
- PSY 4459 Applied Behavior Analysis (3)**
This course covers the characteristics of behavior analysis as well as the basics of behavior-change procedures. Students will design, plan, implement, and present a behavior-change project.
- PSY 4460 Cognitive Psychology (3)**
A study of human intellectual functioning including attention, perception, memory, problem solving, reasoning and language.
Prerequisite: PSY 2230 and an additional three semester hours of psychology.
- PSY 4461 Applied Behavior Analysis Field Experience (3)**
Students will be provided individual supervision by an approved supervisor according to the behavior analysis certification board's (BACB) standards while engaged in the practice of applied behavior analysis. Travel to the assigned clinical site will be required. Regular and prompt attendance at the clinical site will be required. The supervisor must directly observe the student engaged in the practice of applied behavior analysis with their client at least once during every supervisory period in accordance to BACB standards. Students will engage in a variety of activities approved by the BACB such as (a) conduct behavioral assessments; (b) provide behavioral therapy to clients; (c) read related articles from the behavior analytic literature; (d) collect, graph, and analyze client and/or procedural integrity data; and (e) design and implement caregiver and/or staff training. This course may be taken for repeat

- credit with a different assigned client.
Prerequisite: PSY 4459 AND Instructor approval.
- PSY 4462 Applied Behavior Analysis Pre-Practicum (1)**
This course prepares students for participating in the applied behavior analysis practicum courses. Students must obtain liability insurance and pass a criminal background check. Students must pass a test on the ethics of working with special populations (e.g., client confidentiality). Students are required to take and pass the behavior analysis certification board's training module on experience and supervision standards. Students are required to complete 15 hours of observation of the practice of applied behavior analysis.
Prerequisite: PSY 4459 AND permission of the course instructor.
- PSY 4470 Advanced Theories of Developmental Psychology (3)**
Comparative study of major developmental theories from the exogenous, endogenous, and constructivist paradigms. Includes history, structural components, contributions, criticisms, evaluation, and relevant research of each theory.
Prerequisite: six semester hours of psychology.
- PSY 4472 Applied Behavior Analysis Fourth to Fifth Edition Bridge Course (4)**
This course allows Applied Behavior Analysis Minors who have taken one or more of Troy University's Board Certified Assistant Behavior Analyst (BCaBA) verified course sequence courses under the Behavior Analysis Certification Board (BACB) Fourth Edition Standards to meet the coursework standards for the Fifth Edition. This course covers topics from the BACB Compliance Code and Disciplinary Systems, Professionalism, Measurements, Data Display and Interpretation, Experimental Design, Behavior Assessment, Behavior-Change Procedures, Selecting and Implementing Interventions, and Personnel Supervision and Management.
- PSY 4474 Evaluation of Research for the Behavioral Treatment of Individuals with Autism and Developmental Delays (3)**
This course will present a behavioral view of autism and provide a brief overview of the history of behavioral treatment of autism and other developmental delays. This course will provide a brief overview of single-subject research designs and data analysis. Students will evaluate research studies that are seminal in the field of the behavioral treatment of children with autism and developmental delays in terms of (a) ethics, (b) research design, and (c) visual analysis.
- PSY 4476 Behavioral Treatment of Individuals with Autism and Developmental Delays (3)**
In this course, students will identify, describe, and practice behavioral change procedures using: (a) positive and negative reinforcement, (b) positive and negative punishment, (c) shaping, (d) each type of verbal operant, (e) extinction, and (f) differential reinforcement. Students will contrast discrete-trial teaching and incidental teaching methods and practice using both.
Prerequisite: PSY 4459.
- PSY 4477 Behavioral Assessment of Individuals with Autism and Developmental Delays (3)**
This course will prepare the student to conduct behavioral assessments including a functional behavior assessment (FBA), VB-MAPP, and ABLLS. Based on the results of the assessment, students will write a behavioral treatment plan.
Prerequisite: PSY 4459.
- PSY 4478 The Behavior Analyst as a Professional and Ethical Practitioner (3)**
Through a variety of topics and activities, this course will prepare the student for working in a professional setting. Topics covered include the Professional and Ethical Code for Behavior Analysts and a selection of topics from Behavior Analyst Certification Board's BCBA/BCaBA Task List.
Prerequisites: PSY 4474, PSY 4477.
- PSY 4480 Senior Seminar in Psychology (3)**
A capstone course designed to integrate subject matter learned in previous courses, encourage critical analysis of contemporary issues, and contemplate future educational and employment opportunities in psychology.
Prerequisite: Senior standing.
- PSY 4485 Psychology Study Aboard (3)**
This course examines how culture is related to human behavior. Relates major principles and theories of psychology to two or more cultures during a Study Abroad experience in a host country or countries.
Prerequisites: PSY 2200 or Psychology Major or Minor.
- PSY 4490 Field Experience in Psychology—I**
This course is designed to provide students majoring or minoring in psychology with practical work experience in a psychology-related work setting within an approved agency or business. Students are required to complete a minimum of 45 documented, supervised clock hours during the semester or term in which enrolled in the course (transportation not provided). This class meets once a week in a seminar format. Students are required to meet with the Field Experience instructor the semester/term prior to the class in order to secure an approved site.
Prerequisites: Junior or senior standing, instructor approval, and an overall institutional GPA of 3.0.
- PSY 4491 Guided Independent Research (3)**
This course is designed to provide supervised research in the area of psychology. Opportunities for undergraduate research will be approved with attention to critical evaluation of research techniques, methods, and procedures. Selection of the problem must be approved by the professor under whom the study is to be conducted and the department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. Preparation of a scholarly paper and oral defense may be required.
Prerequisite: Junior or senior standing with a minimum overall GPA of 3.0. Guided independent research may be taken only in the applicant's major or minor field. May not be used to repeat a course for which a grade of D or below has been earned. Also see index for "Independent Study and Research."
- PSY 4492 Guided Independent Research (1 to 3 credit hours)**
This course is designed to provide supervised research in the area of psychology. Opportunities for undergraduate research will be approved with attention to critical evaluations of research techniques, methods, and procedures. Selection of the problem must be approved by the professor under whom the study is to be conducted and the department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. Preparation of a scholarly paper and oral defense may be required.
Prerequisite: Junior or senior standing with a minimum overall GPA of 3.0. Guided independent research may be taken only in the applicant's major or minor field. May not be used to repeat a course

for which a grade of D or below has been earned. Also see index for "Independent Study and Research."

PSY 4493-94 Guided Independent Study (1 to 3 credit hours)

Supervised study through field or laboratory projects, guided readings, creative endeavors or achievement of specific skills.

Prerequisite: Junior or senior status, permission of guiding professor, approval of department chair and the dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Also see index for "Independent Study and Research".

PSY 4495 Field Experience in Psychology - II

This course is designed to provide students majoring or minoring in psychology with practical work experience in a psychology-related work setting within an approved agency or business. Students are required to complete a minimum of 45 documented, supervised clock hours during the semester or term in which enrolled in the course (transportation not provided). This class meets once a week in a seminar format. Students are required to meet with the Field Experience instructor the semester/term prior to the class in order to secure an approved site.

Prerequisites: Junior or senior standing, instructor approval, PSY 4490 and an overall institutional GPA of 3.0.

PSY 4496 Applied Behavior Analysis Practicum I (3)

Prior to enrollment, students must have a criminal background check and professional liability insurance. Students must complete 250 hours of supervised experience delivering applied behavior analysis services in a clinical setting. Students must meet with the instructor for class, which counts as the group-supervision component. During class, students will practice delivering behavioral-analytic services. Students must meet weekly with an approved Board Certified Behavior Analyst (BCBA) for individual supervision. During individual supervision, the BCBA must (a) observe the student engage in practice and (b) provide written and verbal feedback on that practice according to the BACB guidelines for supervision. The course is limited to 10 students.

Prerequisites: PSY 4462 AND permission of the instructor.

PSY 4497 Applied Behavior Analysis Practicum II (3)

Prior to enrollment, students must have a criminal background check and professional liability insurance. Students must complete 250 hours of supervised experience delivering applied behavior analysis services in a clinical setting. Students must meet with the instructor for class, which counts as the group-supervision component. During class, students will practice delivering behavioral-analytic services. Students must meet weekly with an approved Board Certified Behavior Analyst (BCBA) for individual supervision. During individual supervision, the BCBA must (a) observe the student engage in practice and (b) provide written and verbal feedback on that practice according to the BACB guidelines for supervision. The course is limited to 10 students.

Prerequisites: PSY 4496 AND permission of the instructor.

PSY 4498 Applied Behavior Analysis Practicum III (3)

Students must complete 250 hours of supervised experience delivering applied behavior analysis services in a clinical setting. Students must meet with the instructor for class, which counts as the group-supervision component. During class, students will practice delivering behavioral-analytic services. Students must meet weekly with an

approved Board Certified Behavior Analyst (BCBA) for individual supervision. During individual supervision, the BCBA must (a) observe the student engage in practice and (b) provide written and verbal feedback on that practice according to the BACB guidelines for supervision. The course is limited to 10 students.

Prerequisites: PSY 4497 AND permission of the instructor.

PSY 4499 Applied Behavior Analysis Practicum IV (3)

Students must complete 250 hours of supervised experience delivering applied behavior analysis services in a clinical setting. Students must meet with the instructor for class, which counts as the group-supervision component. During class, students will practice delivering behavioral-analytic services. Students must meet weekly with an approved Board Certified Behavior Analyst (BCBA) for individual supervision. During individual supervision, the BCBA must (a) observe the student engage in practice and (b) provide written and verbal feedback on that practice according to the BACB guidelines for supervision. The course is limited to 10 students.

Prerequisites: PSY 4498 AND permission of the instructor.

**QUANTITATIVE METHODS COURSES
(QM)**

QM 2241 Business Statistics and Data Analytics (3)

An introduction to statistics and data analytics in business that supports business decisions and the solution to business problems utilizing descriptive and inferential statistical concepts and methods. Topics include grouping of data, measures of central tendency and dispersion, probability concepts, sampling, statistical estimation, and statistical hypothesis testing.

Prerequisite: MTH 1112 and IS 2241.

QM 3342 Introduction to Operations Research (3)

An introduction to quantitative techniques applicable to business and economics. Topics include queuing analysis, transportation programming, PERT/CPM, and simple linear regression.

Prerequisite: QM 2241.

QM 3345 Operations Management (3)

A study of how organizational processes add value as they convert inputs to outputs. Topics covered include the strategic relationship of operations with other functional organizations, value chain concepts, and quantitative methods including forecasting models, inventory models, statistical process control, process models and project management methods. The course also provides a review of current supply chain philosophies such as JIT, MRP, and EOQ inventory management methods.

Prerequisites: Lower-level Core, MGT 3300, QM 2241, IS 2241.

READING/LITERACY COURSES (RED)

RED 0098 Reading I (3)

A Developmental / Remedial instruction course for those students who are deficient in basic reading skills such as word recognition comprehension and study skills. A placement test will be required.

Note: May not be audited. Institutional credit only.

- RED 3310 Language and Literacy K-6 (3)**
Literacy instruction for the K-6 learner with emphasis on child development, learning theories, individual differences, emergent and early literacy, principles of reading and language arts instruction, teaching strategies, and examination of current materials and instructional practices used in teaching literacy.
Prerequisite: admission to TEP.
- RED L310 Language and Literacy Lab (1)**
This course includes Lab/Field-oriented experiences designed to enhance understanding of Literacy instruction for the K-6 learner with emphasis on child development, learning theories, individual differences, emergent and early literacy, principles of reading and language arts instruction, teaching strategies, and examination of current materials and instructional practices used in teaching literacy.
Prerequisite: admission to TEP.
Co-requisite: RED 3310.
- RED 3380 Children's Literature (3)**
The purpose of this course is to assist undergraduate students as they investigate and construct an understanding of and techniques to incorporate children's literature across the curriculum. Pertinent topics include award-winning authors and titles found in children's literature among a variety of genre, along with developmentally appropriate instructional techniques.
- RED 4401 Reading in the Content Areas (3)**
This course provides a study of teaching reading in grades P-12, emphasizing methods in the content areas.
Prerequisites: Admission to TEP.
- RED 4465 Literacy Practicum (3)**
The practicum is designed to provide a supervised experience related to instruction in the area of literacy development, which may include phonemic awareness, phonics, fluency, vocabulary, sequencing, and comprehension, among others. The application of literacy skills, concepts, and principles acquired in corequisite course work, as well as current research and evidence based literacy instructional practices, will be hallmarks of the practicum experience.
Prerequisites: Admission to TEP.
- RED 4483 Reading Intervention Strategies (3)**
Principles of assessment and evaluation for improving the language and literacy learning. Pre-service teachers will be introduced to the variety of screening and testing instruments for use in modifying students' instructional programs. Formal and informal methods for classroom observations will be explored, and methods for translating data collected for classroom management and/or communication to learners' parents will be introduced. The issues of privacy and ethical treatment of confidential records will also be addressed.
Prerequisites: : (1) Admission to TEP and (2) RED 3310 or with the permission of the department chair or designee.
- RED L483 Reading Intervention Strategies Lab (1)**
This course includes Lab/Field-oriented experiences designed to enhance understanding of principles of assessment and evaluation for improving the language and literacy learning.
Prerequisite: admission to TEP.
Co-requisite: RED 4483.
- RED 4491-92 Guided Independent Research (1 to 3 credit hours)**
Undergraduate research with attention to critical evaluation of research techniques, methods and procedures.
Prerequisites: Junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the Office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."
- RED 4493-94 Guided Independent Study (1 to 3 credit hours)**
Supervised study through field or laboratory projects, guided readings, creative endeavors or achievement of specific skills.
Prerequisites: Junior or senior status, permission of guiding professor, approval of department chair and the dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Also see index for "Independent Study and Research."
-
- REHABILITATION COURSES (RHB)**
-
- RHB 2280 Rehabilitation Research I (3)**
Introduction to statistical analysis concepts and principles necessary for understanding research reports and for the interpretation of data. Use of microcomputer statistical programs in the analysis of univariate, bivariate, and multivariate data including parametric and non-parametric analysis techniques. Topics include descriptive techniques, averages and measures of variation, tests of statistical significance, correlation and regression, and analysis of variance.
Prerequisite: MTH 1110 or 1112 and IS 2241.
- RHB 2281 Rehabilitation Research II (3)**
Introduction to research methodology and process with emphasis placed on the evaluation of practice. Understanding and using the journal research article as a tool for selecting appropriate intervention. Skills are built in using electronic data bases and information retrieval systems and integrated with writing skills necessary to critically evaluate the usefulness of research studies in practice application.
Prerequisite: RHB 2280.
- RHB 3320 Human Behavior In the Social Environment II (3)**
An examination of the social dynamics of discrimination and oppression and particularly, how discriminatory and oppressive environments have potential for negatively affecting bio psychosocial growth and development.
- RHB 3330 Introduction to Attachment Theory and Pathology in Infant/Early Childhood Mental Health (3)**
This is an undergraduate level course and will provide a broad overview of Attachment theory from its origins to current research and understanding. Pathology versus wellness will be understood through the use of the Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood (DC:05) and other models of cultural and societal influences including policy, ethics and Infant/Early Childhood Mental Health trends. Additionally, reflective supervision/consultation models will be explored. Course readings and recordings are pulled from clinical and nonclinical infant/early childhood mental health and parent mental health sources.

- RHB 3335 Introduction to Infant/Early Childhood Neuroscience, Testing, and Assessment in Mental Health (3)**
This is an undergraduate level course and will provide a broad overview of Neuroscience and interpersonal neurobiology, which will be discussed and considered together with ethics, cultural and other specific influences. Additionally, various models of assessment will be examined, such as, biopsychosocial development and cultural formation of infants and their families through reflective lens of attachment, neurobiology, ethics, caser conceptualization, and other factors using clinical observations of infants, families, and relationships; informal and formal assessments. Course readings and recordings are pulled from clinical and nonclinical infant/early childhood mental health and parent mental health sources.
- RHB 3340 Social Policy and Planning (3)**
Exploration of the social policy formulation process and the building of analysis skills in the evaluation of social policy and programs. The impact of political, economic, and social forces is a focal point, and the process of incrementalism in implementation is examined.
- RHB 3345 Foundations of Rehabilitation (3)**
Review of historical, philosophical, and legislative development of the rehabilitation movement; focuses on current service delivery systems and trends.
- RHB 3350 Disability and Employment (3)**
An orientation to the complex interaction between disability and employment along with the meaning and importance of work to the individual, family and community. Includes career development theories and strategies for integrating people with disabilities into meaningful careers.
- RHB 3355 Introduction to Developmental Infant/Early Childhood Mental Health (3)**
This is an undergraduate level course and will provide a board overview of early human development for infants and their families. A basic understanding of influences that lead to mental health wellbeing and influences that can push development off track will be examined through the lens of attachment, neurobiology, and biopsychosocial factors. A clinical mental health and reflective perspective will be employed to inform understanding, case conceptualization, assessment and treatment of infants and their families. Course readings and recordings are pulled from clinical and nonclinical infant/early childhood mental health and parent mental health sources.
- RHB 3360 Vocational Assessment (3)**
Processes, principles, and techniques used to diagnose vocational assets and liabilities of the individual. Emphasis upon the use of psychometric tests, work samples, and job samples.
- RHB 3365 Introduction to Visual Impairment (3)**
This course will provide an understanding of the medical, psychological, social, educational, and vocational issues that professionals must understand in order to work effectively with persons who are visually impaired.
- RHB 3375 Diversity (3)**
This course provides students with an understanding and appreciation of cultural diversity, Ethnic and gender sensitivity, as well as ageism, in social work practice with a variety of populations is highlighted.
- RHB 3380 Medical and Vocational Aspects of Disabilities (3)**
Examines specific physical, psychiatric, and cognitive disabilities from medical, psychological, and vocational points of view. Covers a number of disabling conditions including etiology, characteristics, and implications for treatment and accommodation.
- RHB 3385 Rehabilitation of Persons with Severe Disabilities (3)**
Course explores rehabilitation needs of persons with severe disabilities. Concepts, approaches, philosophy and ethical considerations related to independent living, supported employment, and advocacy efforts.
- RHB 4405 Juvenile Rehabilitation and Counseling (3)**
Treatment modalities, diagnostic techniques, intervention systems, concurrent problems, and counseling techniques with adolescents. Emphasis is upon evaluation of services, i.e., vocational, self-concepts, academic, psychotherapy, peer relations, group counseling, family relations, and life skill development.
- RHB 4410 Rehabilitation Pre-practicum (1)**
Preparation for RHB 4420.
Prerequisites: RHB major with senior standing or permission of instructor.
- RHB 4420 Rehabilitation Practicum I (3)**
Supervised experience in a rehabilitation setting with an emphasis on the diversity of human problems and the impact these problems have on people with disabilities. Includes a weekly seminar plus a minimum of 120 hours in a particular agency setting.
Prerequisites: Rehabilitation major, RHB 4410. Practicum site must be approved by instructor during RHB 4410.
- RHB 4430 Rehabilitation Practicum II (3)**
Supervised experience in a rehabilitation setting with an emphasis on the diversity of human problems and the impact these problems have on people with disabilities. Includes a weekly seminar plus a minimum of 120 hours in a particular agency setting.
Prerequisites: Rehabilitation major, RHB 4410. Practicum site must be approved by instructor during RHB 4410.
- RHB 4440 Rehabilitation Practicum III (3)**
Supervised experience in a rehabilitation setting with an emphasis on the diversity of human problems and the impact these problems have on people with disabilities. Includes a weekly seminar plus a minimum of 120 hours in a particular agency setting.
Prerequisites: Rehabilitation major, RHB 4410. Practicum site must be approved by instructor during RHB 4410.
- RHB 4450 Senior Seminar (2)**
The impact of recent changes in federal and state legislation and the role and function of professional organizations and their positions on current issues.
Prerequisite: HS/RHB major with senior standing or permission of instructor.
- RHB 9920 Youth Leadership Forum Practicum (3)**
The goal of the Youth Leadership Forum (YLF) is to develop a network of young adults with disabilities who realize their ability to pursue meaningful employment and societal contributions, while helping break down the barriers to independence for people with disabilities. Students taking RHB 9920 serve as group leaders for YLF participants and organize and carry out group activities and participant events. Requires Pre-YLF leadership training during the spring semester and a commitment to live on campus with the YLF participants for approximately a week.
Prerequisite: permission of instructor.

RELIGION (REL) COURSES

- REL 2210 Introduction to Biblical Studies (3)**
An Introduction to the books of the Old Testament (Hebrew Bible) and New Testament in their historical settings, emphasizing textual analyses, literary forms/ their function and use in the past and present in both the Jewish and Christian traditions.
- REL 2230 General Topics in Religion (3)**
Historical examination of a designed topic of special and/or current interest and importance generally not covered in regularly offered courses by the department. This course may be repeated once for credit.
- REL 2280 World Religions (3)**
Historical development and basic beliefs of the world's major religions.
- REL 2285 Travel Study in Religion (1-3)**
Supervised investigation of relevant topics in religion through travel-study abroad or within the interior of United States.
Prerequisite: Permission of instructor. Course may be repeated for credit with permission of instructor.
- REL 3380 Travel Study in Religion (1-3)**
Supervised investigation of relevant topics in religion through travel-study abroad or within the interior of the United States.
*Prerequisite: Permission of Instructor
Course may be repeated for credit with permission of instructor.*
- REL 4445 Selected Topics in Religion (3)**
Advanced study of a designed topic of special interest generally not covered in regularly offered courses by the department. This course may be repeated once for credit.
Prerequisites: REL 2210, REL 2280, or permission of instructor
- REL 4499 Internship in Religion (1-3)**
Supervised work in an agency that can provide experience in the field of study.
Prerequisites: senior standing, at least a 2.5 GPA, 12 hours in upper-division courses in the field, and permission of supervising instructor, department chair, and/or dean. Course may be repeated for credit with permission of instructor.

RISK MANAGEMENT AND INSURANCE COURSES (RMI)

- RMI 3335 Principles of Risk Management and Insurance (3)**
An introduction to the legal principles underlying insurance, the basics of risk management, the application of risk management techniques to personal risk management problems, personal property and liability insurance contracts including the personal auto policy and the homeowner's package, insurance regulation, and the insurance marketplace.
Prerequisite: Lower-level Core or permission of department chair.
- RMI 3346 Life and Health Insurance (3)**
Study of types of life insurance and annuity contracts and their uses; regulations of life and health insurers; development of financial plans utilizing life insurance products; Social Security; group and individual health insurance products including major medical, disability income and long-term care policies and analysis of the marketplace.
Prerequisite: RMI 3335.
- RMI 3348 Property and Casualty Insurance (3)**
This course examines the fundamental coverage and policy provisions of the major types of commercial and personal property and liability insurance

contracts. Also examined are the fundamentals of property and casualty insurance, including analysis of contracts, rating, underwriting, regulation, and financial strength of insurers.
Prerequisite: RMI 4442

- RMI 4425 Special Topics in Risk Management and Insurance (3)**
This course examines a selected risk management and insurance topic of interest that is not covered in other course offerings. The topic for the semester will be indicated in advance. Students may only take this course once for a maximum credit of three hours. Note: This course may not be substituted for any required course within the Global Business RMI major.
Prerequisite: RMI 4442
- RMI 4430 Surplus Lines Insurance Operations & Products (3)**
A study of the excess surplus lines insurance markets as well as the reinsurance sector of the insurance industry. The course covers the formation and classification of these companies, their distribution systems, their regulation, their accounting procedures, and a comparison of these companies to admitted insurers. Special attention is paid to surplus lines insurance products designed for major types of commercial and personal property and liability risks.
Prerequisite: RMI 4442
- RMI 4440 Corporate Risk Management (3)**
A study of the analysis and treatment of the risks faced by the business organization. Topics include the assessment and treatment of traditional risks (such as, property, personnel, and environmental risks) and emerging risks (such as, cyber, social media, and supply chain risks).
Prerequisite: RMI 4442
- RMI 4442 Insurance Operations (3) (capstone)**
An introduction to the various functions performed within an insurance company and a study of insurance ethics. Topics include insurance regulation, marketing, underwriting, ratemaking, adjusting, reinsurance, and accounting. This course is the capstone course for the concentration.
*Prerequisites: RMI 3335
Corequisite: RMI 3348.*
- RMI 4465 Insurance Law (3)**
An introduction to the legal principles underlying insurance contracts and the issuing of insurance contracts, with special emphasis on the U.S. legal system, contract law, property law, tort law, agency law, and employment law.
Prerequisite: RMI 3335.
- RMI 4478 Employee Benefit Planning (3)**
The course is designed to provide the student with a foundation of knowledge regarding the design and management of employee benefit plans. Topics include pensions, profit-sharing plans, 401(k) plans, group life and health plans, and flexible benefit programs.
Prerequisites: RMI 3335,
- RMI 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.
- RMI 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.
- RMI 4498 Internship (3)**
The internship provides students with the opportunity to gain real-world insurance experience as a summer employee of an insurance company. Students are interviewed and selected by the individual insurance

- companies. See the RMI department for specific requirements.
- RMI 4499 London Study Abroad (3)**
The London study abroad trip provide students with first-hand exposure to the center of the excess and surplus lines market, Lloyds. See the RMI department for specific requirements.

RUSSIAN COURSES (RUS)

- RUS 1101 Introductory Russian I (3)**
Introduction to the Russian language.
- RUS 1102 Introductory Russian II (3)**
Introduction to the Russian language.
Prerequisite: RUS 1101 or permission of instructor.

SCIENCE COURSES (SCI)

- SCI 1110 Exploring the Solar System (3)**
This course examines each of the major planets; their surfaces, interiors and atmospheres, and why they are all so different. The course also examines the major moons of the planets, any planetary ring systems, and many minor bodies such as comets and asteroids. Other topics covered include the exploration of the solar system with robotic spacecraft. Extra-solar planets, possibilities of extraterrestrial life and the search for extraterrestrial life.
Co-requisite: SCI L110
- SCI L110 Exploring the Solar System Lab (1)**
Hands-on exercise to study the planets, moons, and planetary motions. Night-time observing of constellations, the Moon and any visible planets.
Co-requisite: SCI 1110
- SCI 2233 Physical Science (3)**
Basic chemistry and physics for non-science majors
Co-requisite: SCI L233. Note: Credit does not count toward a major in any science curriculum.
- SCI L233 Physical Science Lab (1)**
Laboratory experiments in basic chemistry and physics.
Co-requisite: SCI 2233.
- SCI 2234 Earth and Space Science (3)**
Basic astronomy and geology for non-science majors.
Co-requisite: SCI L234. Note: Credit does not count toward any major in the sciences.
- SCI L234 Earth and Space Science Lab (1)**
Laboratory experiments in basic astronomy and geology.
Co-requisite: SCI 2234.
- SCI 2240 Principles of Astronomy, Stars, Galaxies and Cosmology (3)**
Basic facts and theories related to astronomical phenomena.
Co-requisite: SCI L240.
- SCI L240 Principles of Astronomy, Stars, Galaxies and Cosmology Lab (1)**
Star and constellation identification and observations using the telescope.
Co-requisite: SCI 2240.
- SCI 3335 Physical Geology (3)**
Constructive and destructive processes which alter the earth.
Co-requisite: SCI L335.
- SCI L335 Physical Geology Lab (1-2)**
Laboratory studies of constructive and destructive processes which alter the earth.
Co-requisite: SCI 3335.

- SCI 3365 Principles of Applied Science (3)**
In this course, we will learn the scientific method, and how it applies investigations in science and engineering. Students will learn how to ask well defined questions, propose hypotheses, test hypotheses, and learn on what basis one rejects or accepts a hypothesis. We will go on to see how these methods are applied in the fields of biology, chemistry, physics, and engineering. Finally, we will also see how misapplications of the scientific method leads to questionable pseudoscience.
- SCI 3366 Survey of Electronics Technology (3)**
In this course, students will develop understanding of basic concepts in electronics, including component identification and behavior, dc and ac circuit principles, solid-state devices, and both linear and switching circuits without getting into rigors of mathematics. Students will also learn how digital electronics fed to microprocessor technology. Students will be able to apply these learned concepts in design and analysis of electronics systems.
- SCI 3370 Toxic, Radioactive, & Hazardous Materials (3)**
In this course, students will learn the basic principles of hazardous materials management. The course will be suitable for students with limited scientific background knowledge in chemistry and physics. Students will learn how to classify toxic, radioactive, and hazardous materials and evaluate the dangers associated with them. Students will study current industry practices and learn how to manage hazardous materials in a safe, legal, and economical manner.
- SCI 4440 Travel Study in Comprehensive General Science (1-3)**
Supervised investigation of relevant topics in Comprehensive General Science through travel-study abroad or within the interior of the United States.
- SCI 4450 Science in a Regulatory Environment (3)**
An examination of the applications of Biology, Chemistry, and Physical Sciences for compliance with select environmental regulations.
Prerequisites: Biology, Chemistry or Physical Science.
- SCI 4474 Internship in Science Education (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience.
Prerequisite: admission to TEP.
Co-requisite: SED 4454.
- SCI 4481 Methods and Materials for the Secondary Teacher (3)**
A survey of teaching methods and materials appropriate for teaching in the content areas for grades 6-12. Topics addressed will include teacher evaluation in the public schools, collaboration with special education teachers, and lesson planning formats. In addition, teaching methods, selections organization and use of biology/science materials for grades 6-12 will be covered in detail. A professional laboratory experience is included in this course.
Prerequisite: admission to TEP.
- SCI 4491-92 Guided Independent Research (1 to 4 credit hours per course per semester)**
Additional information is indexed under Independent Study and Research.

SCI 4493-94 Guided Independent Research (1 to 4 credit hours per course per semester)
Additional information is indexed under Independent Study and Research.

SCI 4498 Internship in Comprehensive General Science(1-3)
Supervised work experience in the biotechnology industry, governmental agency, business, or other working environment in which a student will learn and apply pertinent professional skills.

SECONDARY EDUCATION COURSES (SED)

SED 4400 Classroom Management (3)
This course is designed for all secondary and P-12 education majors. The purpose of this course is to establish a foundation of content and application relative to classroom management and discipline, emphasizing reflection, decision making, and integrated teaching/learning strategies. Methodologies utilized will include discussion, lecture, field experience, case studies, problem solving sessions, projects, and research.

SED 4454 Internship Seminar for Secondary Education (3)
This course provides seniors an opportunity during internship to examine broad educational issues and concerns, topics on the state and local levels and those of personal interest. The scope of the course ranges from juvenile law, classroom management, professionalism, professional development for teachers and other course topics.
Prerequisite: admission to TEP.
Co-requisite: SED Internship.

SED 4474 Secondary Internship in Grades 6-12 (9)
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience.
Prerequisite: admission to TEP.
Co-requisite: SED 4454.

SED 4481 Methods and Materials for the Secondary Teacher (3)
Teaching methods, selection, organization and use of materials and resources in the secondary school discipline(s). Observation and teaching experiences will be included.
Prerequisites: EDU 3310 and admission to TEP.

SED 4491-92 Guided Independent Research (1 to 3 credit hours)
Undergraduate research with attention to critical evaluation of research techniques, methods and procedures.
Prerequisites: Junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the Office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."

SED 4493-94 Guided Independent Study (1 to 3 credit hours)
Supervised study through field or laboratory projects, guided readings, creative endeavors or achievement of specific skills.

Prerequisites: Junior or senior status, permission of guiding professor, approval of department chair and the dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Also see index for "Independent Study and Research."

SOCIOLOGY COURSES (SOC)

SOC 2275 Introduction to Sociology (3)
Survey of basic sociological concepts and the effect of social phenomena on individuals, groups and institutions. This course will not count toward the required upper level course hours needed for the sociology or social science minor or major.
Prerequisite for all 3000 and 4000 level courses.

SOC 2280 Social Problems in Contemporary Society (3)
An examination of conditions that are harmful to society. Topics include problems with social institutions, inequality, deviance, and social change.

SOC 3300 Social Institutions (3)
An analysis of several major social institutions, their structural components, processes, and resultant problems. Group interrelations and social change will be emphasized.
Prerequisite: SOC 2275.

SOC 3301 Collective Behavior and Social Movements (3)
This course provides an in-depth understanding of the dynamics of collective behavior and social movements and focuses both on domestic and global movements. A variety of social movements and counter movements are considered that span a variety of geographical regions and time periods.
Prerequisite: SOC 2275.

SOC 3305 Visual Sociology (3)
Visual sociology examines and produces visual perspectives on social life. It allows one to apply the sociological imagination in telling a visual story about social phenomena. Visual sociology utilizes all sorts of visual material in its analysis and methodologies. Hands-on use of smart phones and digital cameras will be utilized for applied class projects.
Prerequisite: SOC 2275.

SOC 3315 Sociology of Popular Music (3)
Sociological analysis of a very influential and popular music art form, from its origins in the first half of the twentieth century to more contemporary social contests. Examines the roles of race relations, social class, gender, inequalities, region, genre, commercial exploitation and technology in the evolution of popular music.
Prerequisite: SOC 2275.

SOC 3316 Sociology of Popular Culture and Mass Media(3)
This course will examine popular culture and mass media and the theoretical frameworks that analyze their force in society. Mass media includes everything from television, film, radio, magazines, newspapers and the countless means of mass communication brought about through the Internet. Studying the mass media and its impact through popular culture is vital to sociologists given their profound influence on culture and social life.
Prerequisite: SOC 2275.

SOC 3323 Juvenile Delinquency (3)
An examination of social, economic, psychological, and physiological determinants of young people's behavior as it concerns family, community, and social worker.
Prerequisite: SOC 2275.

- SOC 3331 Sociology of the Family (3)**
Analysis of the family as a social institution and as a social group, with emphasis on the impact of the changing society on traditional family functions, courtship, role expectations, child rearing, and family stability. The course will examine changes in work patterns, marriage, divorce, and cohabitation over time including contemporary problems affecting marital relations and family interactions. Race, ethnicity, age, and gender differences will also be addressed.
Prerequisite: SOC 2275.
- SOC 3332 Family Violence (3)**
A course to provide students with an in-depth study of the problems of violence in families including spouse abuse, child abuse, elder abuse, and the dynamics and dangers of violent relationships. The study will examine the root causes of family violence and the devastating, multi-generational effects of violence on its victims and society. Students will study current societal responses to family violence including protection services, treatment programs, legal defense strategies, and current legislation.
Prerequisite: SOC 2275.
- SOC 3345 Criminology (3)**
Study of crime and its causes and measurements. Topics include various explanations of criminal behavior, typology of crime, criminal justice system, and social relations to crime.
Prerequisite: SOC 2275.
- SOC 3346 Deviant Behavior (3)**
This course will explore the social meaning and construction of social behavior outside normative boundaries. Deviance is relative social behavior that occurs outside social norms. By the end of this course, students will be familiar with, and think critically about the attitudes, behaviors, and meanings associated with society and social deviance. In addition, students will be introduced to topics related to law, social change, social power, conflict, structure, and culture.
Prerequisite: SOC 2275.
- SOC 3351 Sociology Study Abroad (1-3)**
Supervised investigation of relevant topics in sociology through travel study abroad or within the interior of the United States.
Prerequisites: Applicable survey courses and permission of the instructor.
- SOC 3355 Death and Dying (3)**
This course provides an examination of individual and societal attitudes toward death and the dying process. It will include the emotions experienced, cultural variations, theoretical perspectives and institutional relationships.
Prerequisite: SOC 2275.
- SOC 3356 Sociology of Aging (3)**
Sociological examination of global social changes precipitated by the demographic phenomenon of the aging of U. S. society and other societies. Addresses the heterogeneity of the older population, their locations, perceptions, and constraints. Issues such as housing, transportation, health care, and death and dying are explored.
Prerequisite: SOC 2275.
- SOC 3357 Sociological Aspects of Human Sexuality (3)**
An examination of the cultural and social components of sexuality including current perspectives on sexuality, sex research and theory, cross-cultural perspectives and sexual diversity, gender issues, sexual relationships, sexual orientations, pregnancy and parenthood, sexually transmitted diseases, sexual victimization, sexuality across the life span, and recent social changes affecting sexuality in society.
- SOC 3360 Introduction to Qualitative Research Methods (3)**
This course will provide students with an overview of qualitative (non-statistical) research methods. It will also familiarize students with the various areas of sociological study in which qualitative methods is preferred to quantitative research and will offer students the necessary training to engage in high-quality qualitative research. Special emphasis will include: participant observation, interviews, and on-line methodologies.
Prerequisite: SOC 2275.
- SOC 3370 Society and Environment (3)**
This is a course that will focus on the relationship between society and the environment. It will include individual, group (social movements) and institutional impacts on the environment and reciprocal effects.
Prerequisite: SOC 2275.
- SOC 3375 Research Methods in Sociology (3)**
The purpose of this course is to provide a structured opportunity to review, learn, and apply sociological research methods – both qualitative and quantitative methodologies. Using primarily sociological examples, exercises, and theory, each student will develop a research question and a general research design report.
Prerequisite: ENG 1102 or ENG 1104, SOC 2275
- SOC 3376 Sociological Statistics (3)**
A detailed description of what sociologists do with the information they gather. Qualitative and quantitative data from sociological examples are discussed. Particular attention is given to descriptive and inferential statistics, the relationship between research and policy, evaluation research, and research ethics.
Prerequisite: SOC 2275, STAT 2210 or equivalent
- SOC 3380 Sociological Social Psychology (3)**
A survey of Social Psychology from a sociological perspective. Emphasis is placed on classic topics such as the self-concept, the process of socialization, symbolic interactionism and the social construction of reality, as well as contemporary topics such as small group dynamics, power, social exchange and collective behavior.
Prerequisite: SOC 2275.
- SOC 4406 Urban Sociology (3)**
Historical, physical, economic, and social evolutions of urbanized areas. Emphasis on contemporary urban problems with implications for policy and planning.
Prerequisite: SOC 2275.
- SOC 4408 Rural Sociology (3)**
A study of rural society, its organization, agencies, institutions, population trends and composition, patterns of settlement, social processes and change in character.
Prerequisite: SOC 2275.
- SOC 4409 Political Sociology (3)**
An overview of politics and political systems from earliest times to the present with some emphasis on democratic systems in the U. S. and other modern countries.
Prerequisite: SOC 2275.
- SOC 4411 Population and Society (3)**
This course provides an exciting overview of how to analyze and think about changing population trends in the U.S. as well as around the world. Students will learn how to relate contemporary and pressing problems such as migration, population growth, fertility, death rates, and other population changes to current social and economic policy debates (e.g., funding for Social Security, education, healthcare, etc.). In this way, students can see the true impact of

- how population issues affect our society.
Prerequisite: SOC 2275.
- SOC 4413 Sociology of Race and Ethnicity (3)**
This course explores the dynamics of race and ethnicity from a sociological perspective. Students will be introduced to the major sociological concepts and issues concerning racial and ethnic identity, intergroup relations, prejudice, discrimination, racism, immigration, and multiculturalism, including current trends.
Prerequisite: SOC 2275.
- SOC 4421 Social Inequality (3)**
This course examines the structure of social inequality both in the U.S. and in the international context. It reviews theories of inequality and also explores empirical data on stratification both domestically and globally. It also examines how we can try to achieve more social equality and social justice both nationally and globally.
Prerequisite: SOC 2275.
- SOC 4430 Sociology of Religion (3)**
An examination of the social institution of religion. The course will discuss modes of worship, the relationship between various religious systems and other aspects of society, the categorization of religious groups into cults, sects, denominations and ecclesia, and the rise of secularization in the 21st Century.
Prerequisite: SOC 2275.
- SOC 4434 Sociology of Gender (3)**
Provides an analysis of the conceptualization of gender with a focus on the methods of studying gender, historical perspectives on gender, biological and social bases of gender, and how gender intersects with other stratification systems within societies globally. Using a multicultural perspective, special emphasis is placed on how gender is manifested in the family as well as other major social institutions.
Prerequisite: SOC 2275.
- SOC 4444 The Sociology of Cinema (3)**
This course is designed to critically examine sociological issues within American Society via the lens of cinema.
Prerequisite: SOC 2275
- SOC 4445 Trends in Globalization (3)**
The concept of “globalization” explores issues of social, cultural, political, and economic connectivity that are taking place between societies (of people) on our planet. This course examines the historical foundations and current trends of globalization. It also explores the opportunities and constraints that globalization brings to citizens throughout the world.
Prerequisite: SOC 2275.
- SOC 4446 Sociology of Education (3)**
This course provides an overview of the theories, methods and issues in the sociology of education today. Issues include text censorship, school and class size, race and gender inequalities, violence in schools, etc. Classroom activities will also explore various social influences on education and different learning modalities.
Prerequisite: SOC 2275.
- SOC 4451 Peace, Conflict and Human Rights (3)**
Sociological analysis of peace, conflict and human rights, with a focus on the last 100 years. Emphasis will be placed on non-violent struggles at the nation-state level internationally. The role of ethnic and religious affiliations in current war and conflict at home and abroad will also be examined.
Prerequisite: SOC 2275.
- SOC 4456 Gerontology (3)**
Gerontology is the study of the process of human aging in all its many aspects: Physical, psychological, and social. There is a specific emphasis on important elements of aging, such as socialization, family interaction, retirement, physical and psychological aging, and perceptions of older persons in contemporary society.
Prerequisite: SOC 2275.
- SOC 4459 Sociology of Health, Medicine and Illness (3)**
The sociological perspective applied to medicine. Topics include changing ideas of disease causation, the role of practitioners and patients, the institutional setting, differential delivery of health services, differential patterns of morbidity and mortality based on age, gender, race and socio-cultural variables, and the politics of health.
Prerequisite: SOC 2275.
- SOC 4462 Applied Sociology (3)**
This course will provide an overview of applied sociology.
Prerequisite: SOC 2275.
- SOC 4465 The Sociology of Sport (3)**
An examination of the sociological perspective of sport as an institution. Particular emphasis is placed on the impact of sport on the individual, small groups, other institutions, and society.
Prerequisite: SOC 2275.
- SOC 4489 Internship in Sociology (3)**
Applications of skills and knowledge of sociology in government agency, foundation, public service institution or similar situation under the supervision of a faculty member.
Prerequisite: Sociology Major, SOC 2275; junior/senior classification; 3.0 cumulative GPA, 3.5 major GPA; consultation with department Internship Coordinator.
- SOC 4490 Internship in Sociology (3)**
Applications of skills and knowledge of sociology in government agency, foundation, public service institution or similar situation under the supervision of a faculty member.
Prerequisite: Sociology Major, SOC 2275; junior/senior classification; 3.0 cumulative GPA, 3.5 major GPA; consultation with department Internship Coordinator.
- SOC 4491-92 Guided Independent Research (1 to 3 credit hours per course per semester)**
Undergraduate research with attention to critical evaluation of research techniques, methods and procedures.
Prerequisites: SOC 2275, Junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which the study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for “Independent Study and Research.”
- SOC 4493-94 Guided Independent Study (1 to 3 credit hours per course per semester)**
Supervised study through field and laboratory projects, guided readings, creative endeavors or achievement of specific skills.
Prerequisites: SOC 2275, Junior or senior standing, with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which the study is to be undertaken. May not be used to repeat a course for which a grade of

D or below has been earned. Application forms are available in the office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."

- SOC 4495 Selected Topics (3)**
Designed as a vehicle for the exploration of topics of current interest within the major discipline of sociology.
Prerequisite: SOC 2275.
- SOC 4498 Sociological Theory (3)**
A survey of the major theorists in sociology, emphasizing those who made critical contributions influencing the sociology discipline and beyond. In addition, the course will also explore contemporary theorists' contributions
Prerequisite: SOC 2275.
- SOC 4499 Professional Seminar in Sociology (3)**
In this course, the senior-level sociology student prepares for the transition to graduate school/career. The student explores himself/herself as a person and as a sociologist in an effort to choose a fulfilling career path. In addition to career exploration, students conduct a senior project in an area of interest consistent with their academic program.
Prerequisite: SOC 3375, SOC 3376, SOC 4498, Senior Status or permission from instructor.

**SPECIAL EDUCATION COURSES (SPE)
(COLLABORATIVE TEACHER)**

- SPE 3301 Advanced Topics in Disabilities (3)**
The course provides special education teacher candidates with a deeper understanding of the process in referring, testing, and identifying students with disabilities. Teacher candidates will learn and demonstrate how to develop an Individualized Education Plan (IEP) for qualifying students. Special Education teacher candidates will demonstrate data-based decision making concerning Least Restrictive Environments, minutes of service, appropriate accommodations, modifications, and curricular adjustments
- SPE 3302 Introduction to Moderate/Severe Disabilities (3)**
This course presents an overview of the social, emotional, physical, and learning characteristics of children and youth with moderate and severe disabilities. Emphasis is placed on information regarding the definition, prevalence, and etiology of moderate and severe disabilities as well as information pertaining to the classification, assessment, placement, instruction, and programming needs and services for individuals with moderate and severe disabilities.
Prerequisite: admission to TEP.
- SPE 3303 Teaching Students with Mild Disabilities (6-12) (3)**
This methods course for prospective special-ed 6-12 collaborative teachers emphasizes methods and materials for adolescents with mild disabilities and provides a cross-category focus. Moreover, methods such as cognitive learning strategies are examined in depth.
Prerequisites: SPE 3349 and admission to TEP.
- SPE 3304 Teaching Students with Moderate/Severe Disabilities (6-12) (3)**
This course emphasizes a variety of educational strategies for secondary students with moderate and severe disabilities. Special emphasis is placed on the post-secondary adjustment of students with complex needs.
Prerequisites: SPE 3302 and admission to TEP.

- SPE 3305 Vocation and Transition Planning for Secondary Students with Disabilities (3)**
This course emphasizes authentic, evidence-based practices related to vocation and transitional services a student with special education services will receive in the secondary school setting. Special education teacher candidates will learn to understand and explain the laws surrounding the requirements of transition planning within the IEP, along with writing vocation and transitional goals. Teacher candidates will demonstrate how to work with state vocational rehabilitation services, families, appropriate additional personnel, and the community.
Prerequisites: SPE 3303, 3304, 3340, and admission to TEP.

- SPE 3306 Teaching Students with High Incidence Disabilities (3)**
The course requires special education teacher candidates to learn about and demonstrate proficiency with specifically designed instruction for students with high incidence disabilities. Teacher candidates will demonstrate skills in writing specifically designed instruction specific to supporting IEP goals. The teacher candidates will then identify and develop key components of a functional behavior assessment (FBA) and a Behavior Intervention Plan (BIP) to support behavior struggles with identified students. The course must be completed with a special education field experience.
Prerequisite: Admission into TEP

- SPE 3307 Strategies Instruction (3)**
This course bridges the gap between research and practice and extends knowledge of specific methods for teaching students K-6 with mild disabilities. The premise of this course is that strategic learning is critical for many students with mild disabilities in order that they may achieve academic success and function at the level of their potential.
Prerequisite: admission to TEP.

- SPE 3309 Teaching Students with Low Incidence Disabilities (3)**
The course requires special education teacher candidates to demonstrate competence in the understanding and application of evidence-based, specifically designed instruction (SDI) for students with low incidence disabilities. Teacher candidates will engage with and demonstrate the use of augmentative communication devices to support communication and academic language skills. Special education teacher candidates will learn to teach and support socially-normed social behavior. The class also focuses on community-based instruction, which promotes generalization. Many students with Low Incidence Disabilities require medication support and teacher candidates will learn to identify and support medically fragile students. Teacher candidates will also acquire skills in planning and learning supports for paraprofessionals.
Prerequisite: admission to TEP.

- SPE 3340 Diverse Learners (3)**
The course provides general and special education teacher candidates with an overview of exceptional students found within current general and special education classrooms. Examples of exceptional students are 1) receiving services through IDEA, 2) identified as at-risk for academic and/or behavioral failure, 3) outside of the social majority, or 4) struggling with social and emotional risk factors. The class introduces teacher candidates to key

- terminology and procedures in IDEA and Civil Rights Laws.
- SPE 3362 Policies and Procedures in Special Education (3)**
This course is an advanced undergraduate course for prospective special education collaborative teachers K-6. This course outlines the legal responsibilities and role of the special education teacher in the procedures and services of special education. The assessment/program planning program is emphasized.
Prerequisite: admission to TEP.
- SPE 4407 Inclusive Strategies (3)**
The course teaches skills required for the creation of lessons using universal design, differentiated instruction, and specifically designed instruction. Teacher candidates also take an in-depth look into collaborative, coteaching practices between special and general education teacher candidates. Teacher candidates will demonstrate their understanding of writing co-taught lesson plans based on their field experience. To support collaborative success, teacher candidates will learn and practice conflict resolution skills.
Prerequisite: Admission to TEP.
- SPE 4445 Educational Evaluation of Exceptional Children (3)**
This course is designed to provide the pre-service teacher with knowledge and skills in the selections, evaluation, administration, scoring and interpretation of standardized instruments in the areas of academic achievement, diagnostic tests, adaptive behavior, and behavior rating scales. Students will demonstrate the utilization of test results for the development of an individualized education plan, individualized family service plan, and learning outcomes for the general education classroom.
Prerequisite: admission to TEP.
- SPE 4454 Internship Seminar (3)**
The course supports teacher candidates (K-6 and 6-12) as they engage in teacher preparation assessment, which can be evaluated either at the national or state level. Teacher candidates also, participate in interview readiness, job searches, and application for an Alabama Teaching License. Classroom management, internship, and other beginning teacher topics will be discussed in the class.
Corequisite: SPE 4465 or SPE 4474
- SPE 4465 Collaborative Teacher (6-12) Internship (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in grades 6-12 Special Education/Collaborative teaching field. The Professional Internship Program provides the teacher candidate with the opportunity to leader large and/or small group instruction while assuming the role of the lead teacher. Teacher candidates, while leading, receive coaching and supervision from the mentor teacher and university supervisor. The period of supervision lasts for one full semester. The teacher candidate must demonstrate skills in relationship to national, state, and local standards.
Prerequisite: Completion of all TEP required classes
Corequisite: SPE 4454
- SPE 4474 Collaborative Teacher K-6 Internship (9)**
The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in the K-6 Special Education/Collaborative teaching field. The Professional Internship Program provides the teacher candidate with the opportunity to leader large and/or small group instruction while assuming the role of the lead teacher. Teacher candidates, while leading, receive coaching and supervision from the mentor teacher and university supervisor. The period of supervision lasts for one full semester. The teacher candidate must demonstrate skills in relationship to national, state, and local standards.
Prerequisite: Completion of all TEP required classes
Corequisite: SPE 4454
- SPE 4491-92 Guided Independent Research (1 to 3 credit hours)**
Undergraduate research with attention to critical evaluation of research techniques, methods and procedures.
Prerequisites: Junior or senior standing with a minimum overall GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the Office of University Records. Guided independent research may be taken only in the applicant's major or minor field. Also see index for "Independent Study and Research."
- SPE 4493-94 Guided Independent Study (1 to 3 credit hours)**
Supervised study through field or laboratory projects, guided readings, creative endeavors or achievement of specific skills.
Prerequisites: Junior or senior status, permission of guiding professor, approval of department chair and the dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which study is to be undertaken. May not be used to repeat a course for which a grade of D or below has been earned. Also see index for "Independent Study and Research."

- SPANISH COURSES (SPN)**
- Note: For additional information, see Placement in Academic Courses.*
- SPN 1141 Introductory Spanish I (3)**
Introduction to the Spanish language and cultures.
- SPN 1142 Introductory Spanish II (3)**
Introduction to the Spanish language and cultures.
Prerequisite: SPN 1141 or permission of instructor.
- SPN 2241 Intermediate Spanish I (3)**
Development of basic language skills in Spanish.
Prerequisite: SPN 1142 or permission of instructor.
- SPN 2242 Intermediate Spanish II (3)**
Review of grammar concepts with introduction to the cultures of Spain, the Caribbean, Mexico and the United States
Prerequisite: SPN 1142 or permission of instructor.
- SPN 3328 Legal Spanish (3)**
Practical Spanish for the legal and law enforcement professions
Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.
- SPN 3330 Business Spanish (3)**
Practical Spanish for the business and public service professions
Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.

SPN 3332	Spanish Grammar and Composition (3) Formal study of Spanish grammar and written composition. <i>Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.</i>	SS 3350	Social Science Study Abroad (1-3) Supervised investigation of relevant topics in social sciences through travel study abroad or within the interior of the United States. <i>Prerequisites: SS 2220 and permission of the instructor.</i>
SPN 3333	Spanish Comprehension and Conversation (3) Developing listening and speaking skills with emphasis on dialectical differences. <i>Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.</i>	SS 3375	Research Methods in the Social Sciences (3) Principles of pure and applied research for the social sciences. Special emphasis is given to the types of research methods employed by social scientists including survey techniques, field research, quasi-experimental designs and analytical procedures currently used in the social sciences. <i>Prerequisite: ENG 1102 or equivalent, SS 2220</i>
SPN 3335	Medical Spanish (3) Practical Spanish for the medical and health-related professions <i>Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.</i>	SS 3376	Social Science Statistics (3) A detailed description of what social scientists do with the information they gather. Particular attention is given to descriptive and inferential statistics, the relationship between research and policy, evaluation research, and research ethics. <i>Prerequisite: STAT 2210 or equivalent.</i>
SPN 3350	Spanish Culture on Location I (3-TBA) Local orientation followed by study in a Spanish-speaking environment. <i>Prerequisite: Permission of instructor.</i>	SS 4450	Selected Topics (3) Designed as a vehicle for the exploration of topics of current interest within the major discipline of social science. <i>Prerequisite: SS 2220</i>
SPN 3351	Spanish Culture on Location II (3-TBA) Local orientation followed by study in a Spanish-speaking environment. <i>Prerequisite: Permission of instructor.</i>	SS 4474	Internship in Secondary Social Science Education (9) The Professional Internship Program is the culminating clinical field-based experience for students seeking certification in a teaching field. The Professional Internship Program provides the student with the opportunity to conduct classes and assume the role of a teacher while receiving supervision from a classroom teacher and a university supervisor for a period of one full semester. The student will demonstrate skills of the informed, reflective decision maker throughout the internship experience. <i>Prerequisite: admission to TEP.</i> Co-requisite: SED 4454.
SPN 3370	Selected Topics in Spanish (3) Selected topics generally not covered in other Spanish courses. May be repeated for credit. <i>Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.</i>		
SPN 4448	Peninsular Spanish Literature (3) Selected authors, periods, or genres in the literature of Spain. <i>Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.</i>		
SPN 4449	Latin American Literature (3) Selected authors, periods, or genres in the literature of Latin America. <i>Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.</i>		
SPN 4451	Peninsular Spanish Civilization (3) Geography, history, cultural achievements, and institutions of Spain. <i>Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.</i>	SS 4481	Methods and Materials for the Secondary Teacher (3) A survey of teaching methods and materials appropriate for teaching in the content areas for grades 6-12. Topics addressed will include teacher evaluation in the public schools, collaboration with special education teachers, and lesson planning formats. In addition, teaching methods, selections organization and use of history/social science materials for grades 6-12 will be covered in detail. A professional laboratory experience is included in this course. <i>Prerequisite: admission to TEP.</i>
SPN 4452	Latin American Civilization (3) Geography, history, cultural achievements, and institutions of Latin America. <i>Prerequisite: SPN 2241 and SPN 2242 or permission of instructor.</i>

SOCIAL SCIENCE COURSES (SS)

SS 2220	Introduction to Social Science An introduction to the study of society approaches its study from a common-sense perspective, rather than a formalistic perspective more common in social science. Students will see how seemingly diverse disciplines intermingle and connect to one another—anthropology and economics, for example. The goal of this course is to teach students critical thinking and problem-solving skills that will allow them to approach social issues in an objective and informed way.	SS 4493-4494	Guided Independent Study (1-3) Supervised study through field and laboratory projects, guided readings, creative endeavors or achievement of specific fields. <i>Prerequisites: Junior or senior standing, with a minimum GPA of 3.0, permission of guiding professor, approval of department chair or dean. A written request is to be submitted to the department chair at least two weeks in advance of the term in which the study is to be undertaken. It may not be used to repeat a course for which a grade of D or below has been earned. Application forms are available in the Departmental Office. Guided</i>

independent study may be taken only in the applicant's major or minor field.

- SS 4498 Social Science Theory (3)**
A survey of the major theorists in the social sciences, emphasizing those who made critical contributions influencing the several social science disciplines and contemporary theorists whose works have an interdisciplinary element.
Prerequisite: SS 2220
- SS 4499 Professional Seminar in the Social Sciences (3)**
In this course, the senior-level social science student prepares for the transition to graduate school/career. The student explores himself/herself as a person and as a social scientists in an effort to choose a fulfilling career path. In addition to career exploration, students conduct a senior project in an area of interest consistent with their academic program.
Prerequisites: SS 3375, SS 3376, and either SS 4498, senior status or permission of the instructor

STATISTICS (STAT) COURSES

- STAT 2210 Introductory Statistics (3)**
A beginning course in statistics intended for students in a wide variety of fields of study. Course topics include descriptive statistics, normal distribution, correlation and regression, basic concepts of probability, binomial distribution, sampling distribution, confidence intervals and hypothesis testing for mean(s) and proportion(s). Students also have the opportunity to analyze data sets using Statistics software.
Prerequisite: Appropriate score on mathematics placement test, advanced placement, or a grade "C" or better in MTH 1105.
Note: Credit will not count toward any major or minor in mathematics.
- STAT 3350 Statistical Methods and Computations (3)**
This course is designed to provide students with a foundation in statistical methods, including data exploring and strategies in sample surveys, estimation and testing hypotheses of means and variances, analysis of variance, regression analysis, contingency tables. These concepts are taught with heavy emphasis on statistical computing software and real-world datasets. Students will learn basic skills of statistical packages that are widely used in business, industry, government, and research.
Prerequisite: A grade of "C" or better in MTH 1112.
- STAT 3355 Survey Sampling (3)**
Topics include sampling frames, questionnaire design, simple random, systematic, stratified, and cluster sampling, comparing domain means, contingency table analysis.
Prerequisite: STAT 2210.
- STAT 4451 Mathematical Statistics I (3)**
Probability theory, sample spaces, random variables, mutual exclusion, independence, conditional probability, permutations and combinations, common discrete and continuous distributions, expected value, mean, variance, multivariate distributions, covariance, Central Limit Theorem.
Prerequisite: MTH 1125 and STAT 2210.
- STAT 4452 Mathematical Statistics II (3)**
Fundamentals of the theory of statistics, the Central Limit Theorem, point estimation, sufficiency, consistency, hypothesis testing, sampling distributions, confidence intervals, linear regression models, interpretation of experimental results, Bayesian Estimation.
Prerequisite: STAT 4451.
- STAT 4456 Mathematics of Finance (3)**
The fundamental concepts of financial mathematics and how these concepts are applied in calculating present and accumulated values for various streams of cash flows as a basis for future use in the following: reserving, valuation, pricing, asset/liability management, investment income, capital budgeting, and valuing contingent flows.
- STAT 4459 Regression Analysis (3)**
Topics include simple linear regression, inferences in regression analysis, techniques of multiple regression and model building, ANOVA as regression analysis, analysis of covariance, model selection and diagnostic checking techniques, nonlinear regression, and logistic regression. Computations are an integral part of the course and will involve the use of SAS and R statistical software.
Prerequisite: STAT 3350.
- STAT 4464 Multivariate Analysis (3)**
Possible topics to be covered include multivariate descriptive statistics, multivariate normal distribution, analysis of covariance, MANOVA, multivariate regression, principal components, discriminant analysis, cluster analysis, factor analysis.
Some familiarity with R and SAS is expected.
Prerequisite: STAT 4451, and STAT 3350.
- STAT 4465 Categorical Data Analysis (3)**
In recent years, the use of specialized statistical methods for categorical data has increased dramatically, particularly for applications in the biomedical and social sciences. The course gives an introduction to analyzing categorical data. Principal topics include: contingency tables, generalized Linear Models, log-linear models, logistic regression, and models for matched pairs. Two statistical software packages SAS and R will be used appropriately throughout the course.
Prerequisite: STAT 3350.
- STAT 4466 Statistical Data Mining (3)**
Data Mining is a fast growing interdisciplinary field between Statistics and Computer Science due to the emergence of massive dataset. This course covers an information extraction activity whose goal is to discover hidden facts from large data warehouses. A number of data mining tasks including description, classification, selection, estimation, prediction, and affinity grouping and clustering will be discussed. Also, students will learn how to use data mining software to perform data mining functionalities.
Prerequisite STAT 3350.
- STAT 4467 Experimental Design (3)**
Fundamental principles of designing and analyzing experiments with application are considered. TROY UNIVERSITY COURSES (TROY)

- TROY 0095 The Learning Mindset (1 or 3)**
The purpose of this course is to educate and equip Troy University students with information, skills and experiences necessary for current and long-term success, both in college and in life. Students will be presented with practical application techniques for inclusion in other courses offered at Troy University, specifically within English and Mathematics courses. Growth Mindset Theory and metacognitive learning strategies will be introduced to students. Self-awareness, self-management, time management, goal setting, and other topics will be discussed.
Note: TROY 1103 is 3 credit hours for Troy Campus students and 1 credit hour for Dothan Campus students. This course is for institutional credit only and will not be used in meeting degree requirements. This course will not substitute for any general studies requirement.
- TROY 1101 The University Experience (1)**
The primary purpose of this course is to assist entering students in acquiring the necessary knowledge and skills to manage effectively the Troy University campus environment in order to maximize their potential for success at the University, in their careers, and throughout their lives.
- TROY 1102 Major Exploration and Planning (1)**
The primary purpose of this course is to assist students who are exploring their educational career paths to identify interests, skills and values, and to

develop goals. It also serves to assist non-traditional students considering a career change.
Note: TROY 1103 is 3 credit hours for Troy Campus students and 1 credit hour for Dothan Campus students. This course is for institutional credit only and will not be used in meeting degree requirements. This course will not substitute for any general studies requirement.

TROY 1104 Informed Citizenship (1)
 This course is designed to examine the role of academic scholarship and the intellectual, civic and interpersonal outcomes of higher education. Through the course, students will engage in a service learning project while studying and reflecting on readings and activities to promote critical thinking skills, civic engagement and student success.
Prerequisite and/or co-requisite: TROY 1101, Membership in First Year Studies Program Learning Community.

TROY 1120 Peer Mentor Training (1)
 Students seeking a position as a peer mentor must participate in the class seminar for each topic. This course involves student's active engagement in the delivery of peer education programs and services to the Troy campus community. The intent of this course is to provide students with the skills to facilitate one-on-one mentoring, health promotion among peers, and group presentations on health-related content to their peers. Students will learn about the programs and services at Troy University and will be able to articulate this to students in need of services. Students will also learn basic wellness, mental health and alcohol and other drug information in preparation for presentation to their peers.

TROY 1160 Public Issues First Year Seminar (2)
 Students will develop academic skills needed for college success while exploring civic and global issues faced in the 21st century. Students will develop an understanding of Troy University, career and scholastic development while engaging in critical thinking, readings and a service learning project focused on a public issue.

TROY 3300 College to Career (3)
 The primary purpose of this course is to aid students in making a successful transition from college to career. It also serves to aid non-traditional students in career transition.

UAS 2206 Human Factors in UAS Operations & Accidents (3)

The physical, emotional, and environmental aspects of military and civilian UAS operations will be analyzed. The impact of human error including workload, fatigue, poor situational awareness, inadequate training, lack of crew coordination and poor ergonomic design on increasing UAS accident rates will be discussed. The effects of the unique remote piloting environment on mental workload will be considered.

UAS 2208 Legal & Ethical Considerations for UAS Operations (3)

Discuss FAA guidelines and ethical issues, including international laws of war. Case studies on drone strikes, police surveillance, and other relevant topics.

UAS 2210 Real World Applications (3)

Using UAS technology in the real world, such as law enforcement, national security, public affairs, natural resources, forest fire detection, remote sensing, aerial surveillance, oil-gas exploration, transportation, conservation, and scientific research. Case studies in actual applications.

UAS 2212 UAS Piloting Familiarization (3)

This will be a laboratory split between UAS operations instruction and actual UAS piloting. The student will learn basic flight and mission planning techniques, and will be prepared to pass the FAA part 107 "Remote Pilot" certification. Students will participate in quadcopter and fixed wing drone setup, flight safety, mission programming, virtual practice, and "hands on" flight experience (fixed wing drone flight will be simulated using student input).

**UNMANNED AERIAL SYSTEMS COURSES
(UAS)**

UAS 2200 Unmanned Aerial Systems Overview (3)
 The purpose of this course is to provide the student with an overview of the Spectrum of UAS design, operations, and employment considerations. The student will study the developmental history of UAS systems. UAS operations within the National Airspace System and existing and proposed Federal Aviation Administration regulations will be extensively covered. Students will understand the basic physics of atmospheric flight.

UAS 2202 Principles of UAS Design (3)
 An in-depth look at military and civilian UAS designs. The Northrop-Grumman Global Hawk, General Atomics Predator, micro-UAVs and U.S. Army small reconnaissance vehicles will be featured.

UAS 2204 Principles of UAS Sensors & Sensing Systems (3)
 Course will cover the design considerations, packaging, and employment of various sensors and systems for UAS. Electro-optical, Forward Looking Infrared, low light, electronic sensing, and other remote sensors will be featured. Systems Integration Factors in Platform Selection is included.

APPENDICES

TROY UNIVERSITY POLICY ON HARASSMENT AND DISCRIMINATION

Harassment or discrimination by anyone, whether in the classroom, the office, at a University sponsored function, or within any university environment, will not be tolerated. Individuals found to participate in harassment or discrimination will be subject to disciplinary procedures up to and including termination.

Individuals Covered Under the Policy

Troy University's comprehensive harassment and discrimination policy covers all employees, students, applicants, vendors/contractors, visitors, and all others conducting official business with the University.

I. Definition of Harassment

All programs, policies, procedures and activities conducted by and through Troy University, its employees, students, contractors and subcontractors shall be conducted without regard to age, sex, mental or physical disability (except where age, mental or physical disability, or sex involves a bonafide occupational qualification), national origin, race, color, creed, sexual orientation, ancestry, genetic information/testing, marital status, pregnancy, disability or veteran's status, political or religious affiliations, beliefs or opinions.

This is inclusive of comments or conduct by a person in a position of authority that is intimidating, threatening or abusive. Harassment can also occur between people of similar authority. Harassment occurs when it is known or ought reasonably to be known that such comments or conduct would be unwelcome.

Examples of harassment include gestures, remarks, jokes, taunting, innuendo, display of offensive materials, threats, imposition of academic penalties, hazing, stalking, shunning or exclusion related to the discriminatory or harassment grounds. The victim should directly inform the harasser that the conduct is unwelcome and must stop. The victim should report any complaint as dictated by policy.

NOTE: In any case of harassment, the harasser can be the victim's supervisor, an agent of the employer, a supervisor in another area, a co-worker, or a non-employee to include students.

Sexual Harassment

Sexual harassment is defined by this policy includes 1) unwelcome sexual advances, 2) requests for sexual favors, and 3) any other verbal, graphic, or physical conduct of sexual nature constitutes sexual harassment when submission to, or rejection of this conduct explicitly or implicitly, affects an individual's employment or educational experience, unreasonably interfere with an individual's work performance or academic performance, or creates an intimidating, hostile, or offensive work or educational environment.

Sexual harassment can occur in a variety of circumstances, including but not limited to the following:

1. Demanding sexual favors in exchange for favorable evaluations, assignments, promotions, continued employment, grades, letters of recommendation or similar promises.
2. Subtle pressure for sexual activity.
3. Continued or repeated sexual jokes, kidding, teasing, epithets, flirtation, advances, or propositions.
4. Derogatory or demeaning comments about gender, whether sexual or not.
5. Harassment consistently targeted at only one sex, even if the content of the verbal abuse is not sexual.
6. Verbal abuse of a sexual nature.
7. Graphic verbal commentary about an individual's body, clothing, sexual process, or sexual deficiencies.
8. Sexually degrading or vulgar words to describe an individual.
9. Leering, whistling, touching, pinching, brushing the body, assault, coerced sexual acts, or suggestive, insulting, or obscene comments or gestures.
10. The display in the workplace or an academic environment of sexually suggestive objects, pictures, posters or cartoons.
11. Introduction or utilization of inappropriate sexual material in an academic setting.
12. Name calling, relating stories, gossip, comments, or jokes that may be derogatory toward a particular sex.
13. The display of sexually suggestive graffiti.
14. Asking questions about sexual conduct or sexual orientation or performances.
15. Offensive, repeated requests for dates, even if made after work.
16. Continued advances of a sexual nature which are rejected, even after the parties break off a consensual relationship.

II. Definition of Discrimination

All programs, policies, procedures and activities conducted by and through Troy University, its employees, students, contractors and subcontractors shall be conducted without regard to age, sex, mental or physical disability (except where age, mental or physical disability, or sex involves a bonafide occupational qualification), national origin, race, color, creed, sexual orientation, ancestry, genetic information/testing, marital status, pregnancy, disability or veteran's status, political or religious affiliations, beliefs or opinions.

III. Procedures

A. Reporting a Complaint

Troy University encourages anyone that believes he or she is being harassed or discriminated against should report the incident within 180 days. An incident should be reported in one of the following ways:

- Directly inform the harasser that the conduct/comments are unwelcome and must stop. If the conduct and/or comments do not cease immediately, the accuser should report the complaint to the accused's superior or the Department of Human Resources.
- If the accuser does not desire to confront the alleged harasser directly, he/she should report the incident to the alleged harasser's superior (the individual to whom the alleged harasser reports) who will report the complaint to the Department of Human Resources.
- If the complainant is not comfortable reporting the incident to the accused's superior, he/she can report the complaint directly to the Department of Human Resources.

Once the complaint is received by the Department of Human Resources, the complainant can choose to proceed informally; where the superior of the alleged harasser, in conjunction with Human Resources, will assist in resolving the matter. If the matter is not resolved informally to the satisfaction of the reporting party, the complainant may request to begin a formal investigation process. The complainant may request to begin the process with a formal investigation rather than an informal procedure if warranted. To begin a formal investigation, the complaint must be submitted to Human Resources in writing and signed by the complainant.

NOTE: Anyone witnessing an act of harassment and/or dis-

crimination may report the incident directly to the Human Resources Department.

B. Investigation

Human Resources will coordinate the investigation of the complaint and file a report with a subcommittee of the Personal Advisory Committee. The subcommittee and the appropriate Senior Vice Chancellor will determine whether there is a reasonable basis for believing the alleged violations of the harassment and discrimination policy has occurred. The investigation may include oral interviews and/or written statements from the complainant, the alleged harasser, any witnesses who may be able to provide pertinent information about the facts of the case, and review of any documentation of previous allegations and/or disciplinary actions related to harassment or discrimination. In the course of the investigation, the alleged harasser will be informed of the allegations and the facts surrounding the allegations and will be afforded a full opportunity to respond.

In general, the investigation process will consist of the following procedures:

1. Interview complainant.
2. Have complainant read, approve, and sign a written report of the incident.
3. Notify accused of complaint. Interview and obtain written report from accused.
4. Interview and obtain written reports from witnesses to the incident of harassment or discrimination.

The University is committed to investigating and resolving any complaint of harassment or discrimination brought to the attention of the University. The investigation process will be completed in an appropriate and timely manner.

An individual who believes he or she is a victim of harassment or discrimination or retaliation is encouraged to keep a record of the objectionable conduct. However, the complainant should be aware that a record kept at the direction of the University may be considered privileged, to any extent possible.

C. Committee Review and Resolution

The results of the investigation will be reviewed by an appropriate subcommittee of the Personnel Advisory Committee and the appropriate Senior Vice Chancellor.

<u>Individual Accused</u>	<u>Appropriate Committee to Hear Claim</u>
Student	· Student Services Committee
Faculty	· Executive Vice Chancellor · Dean of college or school · One faculty member · Human Resources Director
Staff or Administrator	· Senior Vice Chancellor of the employee's division · Two staff employee members from the Personnel Advisory Committee · Human Resources Director
Others associated with	· Vary depending on circumstances the University

If a member of the appropriate body is involved in the incident or asked to be recused from the review, another appropriate representative will be appointed to the review committee by the Senior Director of Human Resources.

The results of the investigation may fall into two categories:

- **No Merit** - If the appropriate committee determines the complaint is without merit, the complaint will be regarded as resolved with no further action.
- **Merit**- If after review by the appropriate committee, the complaint is determined to have merit, appropriate sanc-

tions and/or disciplinary action will be taken. The harasser's supervisor, in conjunction with the appropriate Senior Vice Chancellor and the Office of Human Resources, will coordinate the disciplinary action which may include (but not be limited to) counseling or education about discrimination or harassment, verbal or written reprimands, reassignment, suspension or termination. Disciplinary procedures will vary as a result of the parties involved, i.e., the complainant and the accused. A recommendation of disciplinary action will be forwarded to the Chancellor for approval.

In all cases, The Senior Director of Human Resources will provide a written response to the complainant and the accused following conclusion of the process. The procedures outlined in this policy do not deny the right of any individual to pursue other avenues of recourse which may include filing charges with the Equal Employment Opportunity Commission (EEOC), initiating civil action, or redress under state, civil, or criminal statutes and/or federal law.

D. Confidentiality

Harassment or Discrimination is a particularly sensitive issue that may affect any member of the University community. The University recognizes the privacy rights of both the complainant and the accused in a harassment situation. The University and its employees will take care to provide confidentiality to all parties involved in a discrimination or harassment charge. However, it will be necessary to investigate the complaint and to respond to any legal and/or administrative proceedings, which may arise out of or relate to the harassment complaint. The need to include individuals in the investigation will obligate sharing of information in the process.

E. Non-Retaliation

Retaliation is a very serious violation of this policy and should be reported immediately. Any attempt to penalize or retaliate in any way against a person bringing, investigating, or cooperating with an investigation of a harassment or discrimination charge is prohibited and will be treated as a separate incident to be reviewed on its own merit.

F. Protection of the Alleged Harasser

In the event the allegations are not substantiated, all reasonable steps will be taken to restore the reputation of the alleged harasser if it was damaged by the proceeding.

G. False claims

A complainant found to have been intentionally dishonest in making the allegations or to have made them maliciously is subject to the full range of the University's disciplinary procedures from official reprimand to dismissal.

IV. Sanctions

Sanctions will be determined based on the severity and/or number of incidents. Prior issues related to harassment and discrimination will be taken into account in determining the appropriate disciplinary level.

A. Employees

Potential sanctions for harassment include the following:

- Disciplinary warning/reprimand
- Referral to appropriate counseling
- Reassignment
- Temporary suspension
- Termination

B. Students

Potential sanctions for harassment include the following:

- Disciplinary warning/ reprimand
- Disciplinary probation
- Suspension
- Expulsion

STUDENT RECORDS POLICY

The Family Educational Rights and Privacy Act (Buckley Amendment, 20 U.S.C. 1230, 1232g). Effective Date, April 8, 1976

Troy University compiles and maintains information about students which facilitates educational development of the student and effective administration of the university. To better guarantee the rights and privacy and access as provided by the Family Educational Rights and Privacy Act of 1974, (Buckley Amendment, 20 U.S.C. 1230, 1232g) Troy University has adopted the following policies and procedures:

1. GENERAL POLICY.

Troy University shall not permit access to or the release of education records of personally identifiable information contained therein, other than directory information as defined in paragraph 4 herein, without the written consent of the student, to any party other than the following:

A. Other school officials and teachers of this university who have been determined by the university to have legitimate educational interests. A school official is:

- A person employed by the university in an administrative, supervisory, academic or research, or support staff position.
- A person elected to the Board of Trustees.
- A person employed by or under contract to the university to perform a special task, such as the attorney or auditor.

A school official has a legitimate educational interest if the official is:

- Performing a task that is specified in his or her position description or by a contract agreement.
- Performing a task related to a student's education.
- Performing a task related to the discipline of a student.
- Providing a service or benefit relating to the student or student's family, such as health care, counseling, job placement or financial aid;

B. Officials of other schools or school systems in which the student seeks or intends to enroll, upon condition that the student may receive a copy of the record if desired, and have an opportunity for a hearing to challenge the content of the record;

C. Certain authorized representatives of federal departments or agencies or state educational authorities for purposes of audits, evaluative studies, etc. Data collected will be protected in a way which prevents personal identification except when specifically authorized by federal law. The data will be destroyed when no longer needed for such purposes;

D. In connection with a student's application for, or receipt of, financial aid;

· State and local officials or authorities to which such information is specifically required to be reported or disclosed pursuant to state statute adopted prior to Nov. 19, 1974;

E. Organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted;

F. Accrediting organizations in order to carry out their accrediting functions;

G. Parents of a student who is a dependent for income tax purposes;

H. Pursuant to a lawful subpoena or court order;

I. Other appropriate persons in an emergency to protect the health or safety of the student or others. Students shall have access to all such information in accordance with the procedure outlined in this statement with the exceptions specified in paragraph "2" herein.

2. DEFINITION OF EDUCATIONAL RECORDS.

Student educational records are defined as those records,

files, documents, and other materials which contain information directly related to a student and are maintained by the university or by a person acting for the university. Specifically excluded from the definition of "educational records" and not open to student inspection are the following materials:

A. Records of instructional, supervisory and administrative personnel which are in the sole possession of the maker and accessible only to the maker or a designated assistant to the maker;

B. Records of campus security, except in those instances where they have been transmitted within the university for administrative purposes;

C. Records which are created or maintained by a physician, psychiatrist, psychologist, or other recognized professional or para professional acting in a professional or para professional capacity, or assisting in that capacity, and which are created, maintained, or used only in connection with the provision of treatment to the student, and are not available to anyone other than persons providing such treatment or who could not be involved officially within the university, but such records are available to a physician or appropriate professional of the student's choice, if requested by the student.

3. DEFINITION OF STUDENT.

For the purpose of this policy, "student" means any person who has been enrolled in and is attending or has attended any course offering of Troy University. It does not include prospective students.

4. DIRECTORY INFORMATION.

The following categories of information with respect to each student have been designated by the university as directory information which may be made available to the public, absent a student's request that any such information should not be released without the student's prior consent:

- A. Student's name and email address
- B. Dates of attendance
- C. Major and minor fields of study, degree desired, classification (freshman, sophomore, junior, senior) and full-time or part-time status
- D. Participation in officially recognized activities
- E. Degrees and awards received (i.e. Dean's List, Who's Who, etc.).

5. LOCATION OF RECORDS.

The university has designated the following officials or their equivalents at the branches as responsible for student records within their respective areas of responsibility:

- A. Senior Vice Chancellor, Academic Affairs
- B. Senior Vice Chancellor, Student Services and Administration
- C. Senior Vice Chancellor, Finance and Business Affairs
- D. University Registrar
- E. Deans of various schools within the university

These officials shall hereinafter be referred to as "records officials." Each official is responsible for maintaining a listing of student records within such records official's area of responsibility, which listing shall indicate the location and general content of the records. Any student request concerning his or her records or files, including requests that information not be disclosed to the public, requests for disclosure to third parties, and requests for access by the student shall be directed to the appropriate records official. Forms for all such requests may be obtained from these officials. The appropriate records official will also attempt to resolve any challenges to the records at an informal hearing with the student and, if an agreeable solution is not reached, the records official will refer the student and his or her challenge to the University Hearing Officer, who shall set a hearing within 10 days thereafter for final decision.

6. ACCESS OF STUDENT RECORDS TO STUDENT.

The student is accorded the right to inspect and review, in the presence of a university staff member, any records, files and data directly related to the student. To inspect his or her personal folder or file, a student shall submit a written request to the appropriate records official, which request shall be signed by the student and, if not personally submitted by the student, then the student's signature shall be acknowledged by the affidavit of a Notary Public. The request for inspection shall be acted upon within 45 days from the date such request is received. If, in the opinion of the appropriate records official, inspection can reasonably be accomplished by providing copies of documents, such copies shall be made and provided to the student.

7. LIMITATIONS ON ACCESS.

The right of inspection of personal information described in paragraph "6" above does not include:

A. Financial records of the parents of the student or any information contained therein;

B. Confidential letters and statements of recommendation, which were placed in the education records prior to January 1, 1975, if such letters or statements are not used for purposes other than those for which they were specifically intended;

C. Other confidential records, access to which has been waived by the student in accordance with policy concerning waivers.

8. CHALLENGING THE CONTENTS OF THE RECORD.

If, after inspecting the record, a student wishes an explanation or to challenge any part of the contents of such record, then the student shall submit a written request for a hearing in the same manner and under the same procedures as provided by paragraph "5."

The request for hearing should identify the item or items in the file to be challenged and state the grounds for the challenge, e.g., inaccuracy, misleading nature, inappropriateness, etc. The records official shall examine the contested item, shall hear the person responsible for placing the item in the file if appropriate and possible, and shall examine any documents or hear any testimony the student wishes to present. The records official may decide that the contested item should be retained, that it should be deleted or revised or referred to the Hearing Officer who shall set a hearing within 10 days thereafter for final decision. In the event any part of the challenged item is retained, the student shall be allowed to place a written examination thereof in the file. A written decision shall be delivered or mailed to the student within 10 days from the date such hearing is concluded, either by the records official or the Hearing Officer.

9. WAIVER OF ACCESS.

A student or a person applying for admission may waive their right of access to confidential statements concerning application for admission, financial aid, employment, honorary recognition, or any other benefit made available by Troy University.

The student may sign and return the waiver or may request a list of the names of persons who will be asked for recommendations as to such application prior to signing and returning such waiver or the student may decline to waive the right of access. No such application shall be conditioned upon or prejudiced by the student's failure or refusal to sign such waiver.

10. PROVIDING RECORDS TO THIRD PARTIES -- CONTENT OF CONSENT.

The policy of Troy University is to refuse access to student records to third parties without the written consent of the student except as provided in paragraphs 1 and 4. Any records pertaining to a student, which are not excluded by the provisions of paragraph 2, shall be released upon receipt of that student's written request, directed to the proper records official, specifying the records to be released, the reason for such release, the person to whom the records are to be released, and whether a copy thereof is also to be furnished the student.

11. PARENTAL NOTIFICATION LETTER

In accordance with (FERPA) Family Educational Rights and Privacy Act, the university must have parental and student consent to allow the university to release student information to the parents and/or legal guardians. This information includes grades, billing information, schedules and judicial files.

12. TRANSFER OF INFORMATION BY THIRD PARTIES.

Any information released under paragraph "10" shall be expressly conditioned upon the understanding that the party to which the information is being transferred will not permit any other party to have access to such information without the consent of the student. Such conditional understanding shall be in writing, and included in or attached to each release of information.

13. RECORD ACCESS.

Troy University shall maintain a record, kept with the education records of each student which will indicate all parties (other than those specified in paragraph "1a") which have requested or obtained access to a student's education records. This record will indicate specifically the legitimate interest that each such party has in obtaining this information. Such record of access shall be available only to the student, to the school official, and his or her assistants who are responsible for the custody of such records, and to persons or organizations authorized in, and under the conditions of paragraph 1a and 1c, as a means of auditing the operation of the system.

14. DESTRUCTION OF RECORDS.

Troy University retains the right, if not otherwise precluded by law, to destroy records as a matter of policy. However, upon written request, a student shall be granted access to and copies of his or her records, which are not excluded by the provisions of paragraph "2," prior to the destruction of such records. Without such a request on file prior to destruction, no copy of records to be destroyed need be furnished the student.

15. COST OF COPIES.

Any copies of records furnished at the request of a student shall be subject to the payment of a reasonable fee, to be established by the university from time to time, for such service.
