**Alive or Living**

Life. The definition of life is  
For something to live and to be  
Alive. However, to live  
And to be alive are  
Completely different states.  
Every person is alive, not  
Every person lives.

To live means to enjoy  
Every new day as it comes.  
To live means to eat that  
Chocolate cake, even  
Though your diet says no.  
To live means to wear  
Shorts in winter, even  
Though your parents say no.

To live means to chase the  
Things that you desire, to  
Chase the thrill and the  
Highs.

So the question is,  
Are you alive or are you living?
