Troy University 2014-2015 Graduate Student Survey Report

Executive Summary

The purpose of this survey is to identify graduate student satisfaction with their experiences at Troy University, recognize student development as a result of their Troy University education, and identify areas that need to be improved. Data collected in this survey are used to help the University strengthen its graduate degree programs, better serve the needs of its students, and become more effective and efficient in accomplishing its mission and goals.

As an effort of institutional effectiveness, the Troy University Office of Institutional Research, Planning, and Effectiveness (IRPE) conducted the *Troy University Graduate Student Survey* on all campuses of the University from March 30, 2015 to May 30, 2015. During this time frame three invitations to participate emails were sent.

The questionnaire for the survey contained 42 questions and was adapted from the Senior Survey. The first 20 questions ask for information regarding students' demographics, academics, employment, and financial aid. Questions 21 – 36 of the survey, with a high reliability, focus on measuring students' perceptions about and satisfaction with their Troy experiences. Question 37 was an open-ended question allowing for additional comments. Questions 38-42 asked more specifically the student's plans upon graduation; these are in their second survey cycle as they were new additions to the 2013-2014 Graduate Student Survey. These same questions are also asked of the students during the exit process at the graduation ceremony on the Troy campus.

For data analysis, descriptive methods were used for the overall University as well as for each individual campus and college. Questions 21 to 36 were tabulated and items were presented in a cross tabulation by campus so that comparison, if necessary, could be made between campuses or between campus and the university overall. Questions 21 - 24, which contain measures in 61 areas, are analyzed based on the factors defined from the same measures in the previous year's survey. Importantly, a five year comparison was made between academic years 10-11, 11-12, 12-13, 13-14 and 14-15 responses to identify any possible improvement, as well as between campuses to explore in detail areas where improvement efforts can be focused. In the end, frequency tables for all survey questions are provided as appendices for the overall responses as well as for each of the campuses and colleges.

Major Findings

The 2014-2015 *Troy University Graduate Student Survey* was administered during spring 2015. During this time, students who were classified as graduate students in Datatel were emailed the link to the survey. By the time data collection was closed on May 30, 2015, 526 responses were received. 1,829 students were identified as graduate students and were sent the invitation to participate email which resulted in a 29% response rate. The initial invitation to participate email was sent on 3/30/2015. Reminder emails were sent to non-respondents on 4/09/2015 and 4/20/2015. The characteristics of the survey respondents were determined to be

similar to those of the total graduate students of the year although some variation existed. Therefore, the responses to the survey could be considered representative of the ideas and opinions of the graduate students who were attending in during the 2014-2015 Academic Year.

This is the sixth year that the *Graduate Student Survey* has been administered. The stability of an annual survey for Graduate students allows for multiple year comparisons and trend lines.

The individual questions within the survey were assigned into in eight major categories which provide factors for analyses. Each factor is measured on a scale with 1 being low satisfaction and 5 being high satisfaction. The overall mean ratings for each of these factors for the past five years are shown below in the table. The current year's data show improvements in four of the eight factors with Leadership Development rating the highest and Student Services rating the lowest.

Graduate Student Survey	AY 14-15	AY 13-14	AY 12-13	AY 11-12	AY 10-11

Demographic Information

Of the 526 respondents, 75% were female, 25% were male, 46% were White compared to 43% Black and 94% were aged 25 or older. While the majority (96%) were US citizens, the 4% international student participants represented 11 countries in various parts of the world. The largest percentage of respondents were from eTROY, 35%. About 16% of the respondents were graduating from Troy Campus, 14% were Global Campus students, and the remainder of the students were from Dothan (10%), Montgomery (13%) and Phenix City (12%). Additionally, Global Campus students responded from 13 different sites.

Academic Information

Academically, 98% of the respondents were expecting to receive a Master's degree and 2% were expecting to receive an Education Specialist degree. The largest population of graduate students (40%) represented the College of Education, followed by about 26% of the respondents planning to graduate from the College of Arts and Sciences, 16% from Business, 14% from the College of Health and Human Services and 3% from Communication and Fine Arts.

According to the responses, approximately 89% of the students did not transfer graduate credit hours from other institutions. For the 11% of students who did transfer graduate credit hours, 3% of them transferred from 16 to 30 credit hours and 7% transferred more than 30 credit hours. The majority of participating graduate students (55%) were unconditionally admitted graduate students and 41% were conditionally admitted. 1% were graduate transfer students and 3% were graduate transient or dually admitted.

While attending Troy University, 71% of the students had taken online courses. About 68% reported that their cumulative GPA's were between 3.5 and 4.0, and 27% had GPA's between 3.0 and 3.49.

Employment and Plan After Graduation

Approximately 82% of the respondents reported that they worked while attending Troy University with about 73% working full-time (40 hours or over). Upon graduation, about 56% were planning to work in areas related to their majors at Troy University, 39% would continue to work in the jobs they had already, and approximately 14% were going to continue their education. The survey also found that of those planning to continue their education about 67% hope to pursue a doctoral degree after they graduated, 20% would study for another masters degree, around 8% would seek an educational specialist degree, and another 5% would pursue a professional degree as their ultimate goal in education.

Financial Aid Information

While the financial aid options varied, over half of the respondents (62%) had received student loans, 4% obtained grants, 12% had scholarships or graduate assistantships, and about 13% received tuition assistance. Additionally, about 3% received a third party pay or other kind of financial aid, mostly from military or VA benefits.

Student Satisfaction

- *Student self-rated development (Report 1 – Q21)*

Eighteen items related to knowledge, skills, and abilities were provided for the students to rate their development as a result of Troy University education. From the 18 items, two factors were identified - ***Intellectual Development*** and ***Leadership Development***. In comparison to the prior four academic years, respondents shared about the same opinions regarding their development in the areas measured, with an average rating for ***Intellectual Development*** as 4.16 for 14-15, 4.07 for 13-14, 4.06 for 12-13, 4.12 for 11-12, and 4.05 for 10-11; and an average rating for ***Leadership Development*** as 4.31 for 14-15, 4.22 for 13-14, 4.20 for 12-13, 4.28 for 11-12, and 4.22 for 10-11; all in a 5-point scale with 1 as "Poor" and 5 as "Excellent." What appeared in 2012-2013 as a declining trend seems to have turned upward in and has increased over the recent two years for each category.

As indicated in Table 1, the majority of the areas measured for student *Intellectual Development* were rated high above 4.00 (on a scale of 1 to 5) and the majority of the students rated their development in these areas as either “Excellent” or “Good.”

Similar to the ratings on *Intellectual Development*, ratings on *Leadership Development* were also strong as ratings in five of the seven areas increased in 2014-2015 from the previous academic year. As illustrated in Table 2, more than 80% of the students gave positive ratings of either “Excellent” or “Good” to their development in all seven areas related to *Leadership Development*. All mean ratings for items were 4.20 or higher, the factor mean was 4.31.

For detailed ratings on areas included in these two factors, please see Report 1.

- *Student ratings for quality of education and academic support services (Report 2 – Q22)*

Seventeen items were measured in terms of what students thought about the quality of education and academic support services at Troy University. Again a factor analysis identified two factors, which include *Academic Support Services* and *Instruction*. The factor *Instruction*, or *Academics*, includes areas related to instruction and faculty and had an average rating of 4.03 for 14-15, 4.14 for 13-14, 4.00 for 12-13, 4.10 for 11-12, and 3.92 for 10-11; all on a 5-point scale with 1 as “Poor” and 5 as “Excellent.” The factor average for 2014-2015 showed a marked decline from the previous year, however, over 75% or more of graduate students rated items as either Excellent or Good in seven of the ten categories.

Table 3. Ratings on areas of *Instruction*: 2010-2015:

	AY 14-15		AY 13-14		AY 12-13		AY 11-12		AY 10-11

Overall average ratings	4.03		4.14		4.00		4.10		3.92	

As indicated in the table above (Table 3), the majority of the students rated all of the areas related to *Instruction* as either “Excellent” or “Good,” which is about the same as found in the previous year’s survey. Individual item analysis showed the most notable ratings decline (7%) in the area of course availability in the major. Further examination by campus (Table 4) found that Montgomery and Dothan Campus students regularly ranked this item lower than the other campuses. In general, the Phenix City campus students ranked items in the factor of instruction higher than students from other campuses.

The *Academic Support Services* include Library, Computer labs, Writing Center, Reading Center, Center for International Programs, etc., and the average rating for this factor is 3.99 for 14-15, 3.96 for 13-14, 3.77 for 12-13, 3.98 for 11-12, and 3.73 for 10-11. The ratings on this factor have experienced slight fluctuations from year to year. There was a 11% overall rankings increase from the previous year in AY 13-14, followed by a 3% drop in 14-15; however, current year ratings still maintained a 8% increase over the 12-13 percentage rankings. Table 5 below provides a listing of all seven areas in *Academic Support Services*.

Further examination of *Academic Support Services* ratings by campus showed that ratings of students from different campuses varied (Table 6). It is important to note that only students who have used the services gave their ratings. The Natural Science Center, and Writing Center were

rated by mostly Troy Campus students and only international students rated the Center for International Programs. Ratings of NA or blank entries were omitted from means calculations.

- *Student satisfaction with services provided by Troy University (Report 3 – Q23)*

Sixteen offices and services of the University were measured in terms of student satisfaction. Two factors were identified. They were *Student Services* and *Administration*. *Student Services* includes such areas as Career Services, Placement Services, Student Health Services, etc, while *Administration* includes the Admissions Office, Registrar/Records Office, Business Office, Financial Aid Office, Trojan WebExpress, and so on. The overall average ratings for *Administration* were 4.01 for 14-15, 4.13 for 13-14, 4.05 for 12-13, 4.16 for 11-12, and 3.98 for 10-11, (on a 5-point scale with 1 as “Very Dissatisfied” and 5 as “Very Satisfied”).

As can be seen from Table 7, under *Administration*, Trojan Web Express, Registrar/Records Office, Admissions Office, and IT Services were rated the best, with 75% or more of the students feeling “Satisfied” or “Very Satisfied” with their services. Most areas in *Administration* had relatively low ratings, 4.01 and below (4.00 = Satisfied) on average, with the Veteran Services Office being rated the lowest and with only 70% of the students feeling satisfied with the services they provided. The areas which experienced the most significant drop in the mean from the previous 13-14 year to the current year were Veterans Services, Financial Aid Services, and IT Services with declines in the means of .18, .18, and .16 respectively.

Table 7. Ratings on areas related to *Administration*: 2010-2015:

Overall average ratings	4.01		4.13		4.05		4.16		3.98	

A breakdown by campus showed that students from Montgomery and Global Campus had the lowest level of satisfaction with the *Administration*. Dothan Campus graduate students were found to be most satisfied regarding services provided by the administration offices compared to students from other campuses.

Table 8. Average ratings on *Administration* by campus for AY 14-15:

Overall Average Ratings	4.14	3.94	4.09	3.96	4.02	3.91

The trend data from the most recent five years indicates that overall, students are least satisfied with *Student Services*. As shown in Table 9, none of the nine areas in *Student Services* received an average rating of 4.00 or higher, with Placement Services, Career Services, and Parking Facilities being the lowest. The overall average ratings for *Student Services* were 3.78 for 14-15, 3.87 for 13-14, 3.80 for 12-13, 3.87 for 11-12, and 3.70 for 10-11.

- Student perceptions about Troy University (Report 4 – Q24)

In this section, ten statements regarding the University in a broad sense were provided for the students to rate their agreement on a scale with 1 being Strongly Disagree and 5 being Strongly Agree. As indicated in Table 11 (derived from Report 4), over 84% of the students “Agree” or “Strongly Agree” with the first four statements, indicating strong satisfaction with the academic programs and confirming the findings in Table 3 above (derived from Report 2).

- Overall ratings of Troy University (Report 5 – Q32)

Students were asked to rate their preparation for employment and further education as well as to give an overall rating of their college experiences at Troy University. A high majority (79%) of the students gave a positive rating to their overall college experiences at Troy University, with an mean rating of 4.08, while 69% and 76% of the respondents gave a rating of either “Excellent” or “Good” to their Troy “preparation for employment” and for “further education”, with mean ratings of 3.84 and 4.00 respectively. The graduate students from the past five years have shared about the same opinions in their overall ratings of the University. Table 13 shows an increase in the percentage of students who rated these questions as Excellent/Good in two of the three of the questions for the 14-15 survey.

- Recommendation of Troy University

Important satisfaction indicators used by colleges and universities include whether students would re-enroll in the university, re-enroll in the same academic program, and recommend their university to others. Table 14 shows the data broken down into individual categories of “Definitely Yes” and “Probably Yes”, while Table 15 combines the “Yes” categories together to look at the overall measure. The surveys over the past few years found that over 80% of the students indicated that they would enroll in the same academic programs and 83% would attend Troy University again if they could start all over. The most important finding, which indicates student satisfaction with Troy University and academic programs, is that nearly 90% of the respondents would recommend Troy University and their academic programs.

Implications

1. Overall, Troy University's graduate students were satisfied with their graduate school experience at TROY. In particular, the students were satisfied with their educational experiences at the University – instruction, the quality of education, and their academic programs, specifically. Furthermore, the students thought highly of their intellectual development and leadership development as a result of their education at Troy University.
2. The survey findings that about 83% of the graduate students would attend Troy University and enroll in the same programs again if they started over and that nearly 90% would recommend Troy University and their academic programs strongly suggest that Troy University was effective in offering quality education to its students.
3. However, the *Graduate Student Survey* satisfaction measures have identified areas that need to be improved, especially in the areas of *Academic Support Services* and *Student Services*.
4. Furthermore, based on survey responses, faculty should do more to help students in their career planning and the University should be more responsive to student needs.
5. While building plans for improvement for areas in which students are less satisfied, the reader needs to consider that various factors may contribute to the ratings; therefore, further studies should be conducted to look more closely into the areas of need before decisions for improvement are made or actions are taken.

<p>The arbitrary changes to the counseling program at the students expense will always be unforgivable and the way the administration was biased and unfair to SOME student is also unforgivable. I will never, ever endorse this institution.</p>
<p>1) When I mark "fair" for faculty use of technology, it should not be interpreted as "underusage." I marked it fair because I was unimpressed by the "virtual conversations" that are forced in the blackboard discussion rooms. These are anything but conversations. Every so often, someone might post something really provocative (in either a good or bad way) that a conversation might flow from. I wrote in several end of course reviews how I think the blackboard discussions can be improved by actually trying to tailor it to having discussions. Discussions are short bursts of thought, and not 300-400 word transmissions. Please either try to make the discussion board assignments such that they generate discussions by reducing the word count--or quit calling them discussion boards. 2) The course availability for my sub-specialty "Regional Affairs - Asia" was sub-par. Please either try to make the discussion board assignments such that they generate discussions by reducing the word count--or quit calling them discussion boards. 2) The course availability for my sub-specialty "Regional Affairs - sia" was sub-par. I was required to take 3 courses out of a supposed 9 possible in my graduate catalog (13-14). I never saw more than four of these courses ever offered (looking at the long-term schedule). There was a class offered at one of the globalcampuses in Korea on North Korea (I was a student in Japan), but this somehow did not count toward the Regional Affairs specialty. At least Troy seems to be getting a little better at expectation management as it seems there are only seven classes listed as possible choices for the sub-specialty. However, there are still only four that ever appear on the long term schedules. 3) The Troy price of tuition seems a bit high for a school that several people haven't heard of. Other schools that are more household names offer tuition that is far less than the almost \$500/hour that Troy charges. In all honesty, I wouldn't recommend this program to anyone who was only going to complete the program online. The one reason that I would absolutely pick Troy again and why I recommend it to others, is for the global campus on my base. You just can't beat having a professor stand up in front of you and tell personal stories about various Asian cultures. This leads into... 4) Some online professors seemed to only be reviewers (i.e. graders) and contributed very little extra to the course material. Some of the better online teachers I had: Dr. Taylor (good videos and excellent textbooks) and Dr. Kim (very extensive notes—including current events). All the professors I had in person in Korea/Japan were great. Overall, the Troy program was fairly challenging to complete while working full-time. Sometimes, I felt I really took on too much taking two classes at once. In hindsight, I grew from the adversity and really learned a lot in this program from several very educated and passionate professors. I will be proud to hang my diploma on the wall—which in the end is the true litmus test for Troy.</p>
<p>90 percent of my instructors were excellent and their priority was to teach and instruct versus just giving assignments and grading/critiquing. However, one bad instructor can sour the entire experience.</p>

A couple suggestions for eTroy: one, it would be helpful to have a course overview of the workload before we register. The workload varies so much that I'd really like to know what is expected beforehand so I can pick 2 courses that will not kill me in one term. Another thing for eTroy: the discussion boards do not fulfill their stated purpose. Their stated purpose is supposedly to mimic classroom discussion, since we are not in a classroom setting. The discussion happens and is beneficial. But the requirements are usually more like writing a paper every week, not discussion. Have you ever been in a classroom discussion where a student tries to make a point and stops to say "on page 14 of the text by John Smith, published in New York in 1985 by Harpe Collins" before making his point? No. Why do we have to fully cite references or cite anything at all if we can make an intellectual point on our own knowledge and experience? It improves our writing, yes. It is scholarly, yes. But it is not a discussion board that simulates classrooms. Either make this an informal discussion where we can actually go back and forth with our arguments without worrying about quoting a text or perfect spelling and grammar...or call it an "academic essay forum". Some people argue best when they shoot from the hip. I also think the current style encourages parroting from the work of others without any original ideas. Big sets of quotes that answer the question posed do not help anyone learn, because we've all read the same stuff. What do you THINK? Not what did you READ? You won't convince anybody if you do not have the knowledge to do so anyway and people can call others out if they are wrong. That is a discussion. Essays and papers are a separate requirement.

Although the education was good, the supportive services were horrible to include the financial aid office (the functions of this office are broken, inefficient and the customer is severely lacking), business office (since this is correlated with the financial aid office the same applies), admissions (unclear, never really knew what college I was registered to) and graduation (do not like the options available of either testing out during classes in order to graduate at the end of class or testing out at the end of class in order to graduate six months later, makes no sense).

As a conditionally approved student, I am great full for yhr opportunity to prove myself.

As a mature student furthering my education, it is both challenging and rewarding. The reward comes in the self satisfaction of achieving goals, maintaining one's personal standard of performance and staying within the delicate balance of work, school and life. When certain courses are not offered except once a year or changes in the academic requirements are made without grandfathering those in, then the stress levels are increased as well as a distaste for how things are done. While I understand and can adapt to changes, some changes really do need to be well thought out before they are implemented. For example, the change of terms to semesters, that related to the practicum and internships clinical mental health students did not take into consideration the added time that the change would make to a student's completion/graduation date. For me personally the added time means that my scholarship has run out of time and whatever requirements are left, are then paid for out of pocket. To add to this, because there are no courses available for me to take in conjunction with my practicum/internship my status as a student becomes drops to half time. VA does not pay a stipend for part time students. A double financial blow for my pocket. I made the choice not to work for the year I was doing my practicum and internship, so the financial hit is burdensome. To make a student take the practicum in a 16 semester is a waste of time, resources and money. The 150 hours were completed mid semester, the rest that is accumulated is wasted. As a clinician we cannot walk away from our clients because school does not give us credit for eight weeks of volunteer work. The simple solution would be to walk away from the site while not in school, yet as I stated there is some ethical concerns surrounding that. In addition, if this were the case, there would be no supervision sites willing to take on a student. In my case, I am left without the stipend that supports paying for the hour roundtrip to my site and the three hour round trip to my faculty supervision, two semesters out of pocket and doubts about Troy's practices for students well being. Troy really needed to have considered that before they made these changes. If you are concerned only about the majority and university image, you are bound to miss some important details.

Attending Troy has been a rewarding experience. I've learned what I need to for my career path but I have learned a lot about myself along the way. I have thoroughly enjoyed learning the material. The faculty members at Panama City are wonderful. They are filled with a wealth of knowledge and experience and genuinely try to share that with their students. They sincerely promote the welfare of their students. I did have to make the decision as to whether the graduate degree I'll earn is going to be worth the debt I've incurred. I decided yes and I still feel that it has been an excellent investment, not only for my future career but also for me personally. Thank you for the experience! Go Trojans!!

Comment on IT: I placed a ticket in Feb. and yesterday received a response.

2014-2015 Graduate Student Survey Report

<p>Communication between Troy campuses is lacking. I also felt that my academic advisor did not do a lot to help me. Sometimes I felt that the classes were too easy to be considered graduate level work.</p>
<p>Comos availability sucks. one semester it's available three times. This spring semester it is only available once. Now I will not have the opportunity to graduate on time and walk in may. It's not fair for my class who planned on graduating. Also it's har to find internship sites on your own.For the future help students like me find placement by having pre approved places.</p>
<p>Content for Terms are too concentrated and try to pack as much as possible in to a small period of time. Very hard for those who already have many full-time roles (parents, professionals, spouse, etc.) I would rather have quality material than quantity.</p>
<p>Dr. Forehand is the reason I gave any 5 & 4 ratings related to faculty, if he were not there I would rate it 2-3</p>
<p>During my time with Troy in the Master's program on e-Troy, I have found that I am not prepared for the graduation exam. Even taking the capstone has not helped except to make my stress level off the chart. The questions asked in capstone had I taken he test I would not have been able to answer. I have saved all my material from each of the core classes, and nothing has matched. The instructors (except a couple) have not interacted with us as students. They post DB questions you answer nothing deepr. I feel like I have borrowed money to pay this University to teach myself. I also feel the capstone is a waste of more money and time if I am not going to be able to have the same resources to answer these essay questions then why am I getting to use hem in the class. There is way too much information to try and learn and also having to remember where I got that information is in my opinion off the chain. Instead of having the requirement of these research papers that may or may not be about the clas is a waste of time. The instructor should be teaching us things that we are going to see on this exam. During the capstone course I have sat in front of my computer thinking if I was to take this exam and these questions were asked I would have to getup and leave the room because I could not answer them. I find this sad because I have worked very hard to maintain a good GPA the whole six years I have been at Troy and now I am sitting here thinking I will never pass this exam and that I have wasted mytime and lots of money for nothing. I will not even get a certificate of completion this is sad and really should be unacceptable. I am very displeased I went from my four years at Troy Dothan with instructors who never even had us open a book, one thatwas supposed to teach us things to prepare those who wanted to go for their Masters who would sit and tell us stories about themselves even one who was arrested. I feel those who take campus should be given a test similar to the undergrad. Questions withchoices and maybe some short answers just like the ones we take in these online classes. I feel this is why so many students are failing this exam. Your instructors are not teaching, they are not utilizing the resource they have to teach these classes. One of my undergrad classes online the instructor did videos and interacted with us it was great. But I must say he was the only one. I am so upset that if I could I would protest.</p>
<p>Excellent school.</p>
<p>For Menatl Health Counseling, I would love to have had more electives regarding specific areas of counseling technique. I feel that in order to pursue actual counseling, I have to leave the program and learn actual techniques on my own. We only had the ne Facilitation course, and that is a general overview, with a mostly Rogerian approach.</p>
<p>From my first phone call to Dr. Jonathan Taylor to arrange a meeting to this second to last term a year later, this program has been outstanding. Even the individuals behind the scenes that assisted with my enrollment and helping get my GI Bill processig taken care of have provided prompt and professional service. I tell my friends not only how easy it was to get started, but how wonderful Dr. Taylor and Dr. Reynolds are and how interested they are in our educational success. Thrilled to have been a prt of this program, thank you Troy!</p>
<p>Good Customer service in global campus has decreased. Seems somewhat disjointed, but have recently noticed slight improvements</p>
<p>Great School</p>
<p>Group project need to be closely monitored. The most dissatisfaction has come from group projects.</p>
<p>Having to take comp exams for The Masters in Criminal Justice in ridiculous. It is in no way beneficial to anyone in the workforce, unless you are going to become an instructor.</p>
<p>History and Social Science should be linked up together. Also the History program is very challenging and should be reviewed by the dean or counselor before the student starts.</p>

2014-2015 Graduate Student Survey Report

<p>I am a standard deviation, as I am fully retired and pursue academic programs for intellectual stimulation and fulfillment. The MSIR program is challenging, but not all students are academically sufficient to meet the standards set by the faculty.</p>
<p>I am graduating with a TESOL degree and would NOT recommend the program if Dr. Feng takes over for Dr. Henderson. She makes that program and this semester bringing in Dr. Feng was a total nightmare. Several students dropped out of his classes and Dr. Figlano and Dr. Warren had to step in for him. Again I hate to see Dr. Henderson let go. As director, she created a new program and because of her and her alone the TESOL program has evolved. I will wait to see who they replace her with, but if it IS Dr. Feng I will NOT recommend Troy University's TESOL program to anyone.</p>
<p>I am very glad I chose Troy for my educational needs, I have not been disappointed.</p>
<p>I am very satisfy with Troy's program, I definitive recommend Troy University to future students.</p>
<p>I appreciated the fact it was military friendly and waived my internship due to prior experience. The other program I was considering had more name recognition but declined to waive my internship. That was the deciding factor for me. I appreciated the divrsity of the student body, but was disappointed with the overall writing ability of most of my classmates.</p>
<p>I dont agree with having to pay for a proctor each class. I purchased a proctor device for \$200 and now I can't use it. Also, I don't feel as though prerequisites courses should count against a persons GPA.</p>
<p>I enjoy attending Troy, however the time and effort for a counseling degree does not equate well with the Return on Investment.</p>
<p>I feel that Troy is a rip off when it comes to the graduate program</p>
<p>I felt that there were a lot of things lacking within my eTroy program and found this disappointing. The actual program and material covered was very interesting, however the caliber of my fellow students did not enhance our discussion topics. Being an onine program ALL of the class interaction is through discussion boards and I felt that in more cases than not, students lacked the ability to clearly express their personal opinion through acceptable, graduate level discussion.</p>
<p>I foresee Troy's competitive advantage in distance and online learning beginning to erode compared to other big name universities like John-Hopkins, Arizona State, and Northwestern. These schools are now offering similar online programs at competitive tuiion rates. If I were starting this program today, Troy's MPA would not be the only online, NASPAA accredited school with "veteran" tuition rates; but also several top-tier school as well. It will be interesting to see how the online education market playsout in the future.</p>
<p>I greatly enjoyed my experience with Troy. If I had to go over again I would probably go to a local university, which now has an online MPA program.</p>
<p>I have had the most rewarding experience at Troy University. I cannot imagine that having completed my degrees at any other institution would have been as rewarding and personable.</p>
<p>I have had the worst experience with this program and while some of the faculty is quite supportive and knowledgeable, my advisor and the program coordinators have been less that cooperative, forthcoming, and helpful throughout my academic tenure at Troy. I regret transferring in and if I had to do it over again, I would have chosen a different program at a different public university.</p>
<p>I have only one issue with Troy University Counseling program for graduate students and that is the C.P.C.E. All challenges faced, this was the most devastating. Knowing my intellectual abilities this form of testing left me with feeling of incompetency ad inadequacy. I truly feel that this test does not determine my competency as a skilled counselor.</p>
<p>I have thoroughly enjoyed my time at Troy, and the people within my department have been wonderful. However, the education department itself is a different story. I have had many negative encounters with the people over there and they are anything but helpful. Some faculty there are wonderful (such as Jennifer Hollis-she's wonderful!) but certain others treat you like you're an inconvenience. They blatantly do not care what happens to you. Regardless, I would recommend Troy to anyone and love my alma mate. I am thankful for my time here!</p>

I LOVE TROY!
I love Troy. My Clinical Mental Health Counseling professors are excellent. I think the cost is a bit outrageous, in general and for parking decals.
i pursued troy because it was the only college in my area that i could afford and work while attending school. i have been dissatisfied overall with the teaching staff at my campus. throughout my year there, there are only two teachers that i actually enjoy and learn something from. the others maintain a very egotistical mentality, talk about only themselves during a lecture, read from a powerpoint, and/or are judgmental and subjective. additionally, most of the students in my program can barely speak english. many others are learning basic facets that should be required coming into a masters level counseling program (i.e. APA format). most of my classes are for those who do not know material that i was required to know just as an undergrad student. thus, sowing me (and others) down. not once have i been challenged in this program. the only knowledge i have gained is practical knowledge given from the two instructors that i do like. i mainly feel like going to class is a complete waste of my time. i have ye to had to open a textbook for any of my classes. that speaks for itself. i know other students share the same opinions as i do and many others complain about other concerns and issues. overall, i take becoming a counselor seriously as i can have a major ffect on others lives either in a positive light or a negative. i do not feel like this program or most of the professors i have had are preparing me to become a successful counselor. i am still at troy because i am already a year deep, halfway to graduatng. and as a single female working full time, making barely over minimum wage, this is the only school i can afford. i do not think it is Troy that is the problem. i dont think its the school or the program, i think its the professors that i have been stuk with. thank you for your consideration.
I think someone needs to take into account not everyone takes just main campus classes (even though they are enrolled on the main campus). When preparing for graduate comps, student should only be responsible for the teacher/class the were enrolled in (al class material/books should be the same for both online and main campus classes). Please try to offer all graduate classes at 4:30 in the afternoon, because some students work fulltime.
I was dissatisfied with the Economics and Budgeting courses. While they were easy, the process of memorizing multiple pages of questions and answers for a midterm and final did NOT help me in the long term learn anything about those subjects and it made i difficult when I got to the capstone course.
I was in the last corses of my program and Troy decides to make changes. I understand changes but I believe for those of us who were ninety-five percent done with their program should have been grandfathered to stay in the schedule we started. Instead o graduating in December 2014, I am now graduating in May 2015.
I was lucky with the people I dealt with and that handled my paperwork. Others had academic advisors that didn't care or wouldn't return emails and calls. My academic advisors (I think there were 3) were prompt in handling any issues I had and responding o me usually the same day.
I would choose another school because you do not have a Doctoral program for educators and the other colleges in Alabama will not accept all of my EDS hours.
I would have loved to have met a girl in school and have a relationship, but the few i tried just wasn't working. LOL.
I would like to change one thing, give graduate students the right to drop a class towards the end of the semester or term like other graduate programs. Graduate students can stay in the class up until a week before grades are due to see if they will havea passing grade in the class. If that cannot be done a graduate student should have the right to do a course repeat and drop the lowest grade from their overall GPA. I believe that is fair, that was my only downside of troy university.
Iam a proud graduate of Troy University. However, I would love to receive curriculum delivery from a wide variety of Professors and Instructors in the Gifted Education Program. I feel this would support a wide-range of learning strategies & teaching mehods.
If I had to do it over, I would have applied into a Doctorial Program from the start.
In an online program, the professors need to be more involved in the course and more interactive.

2014-2015 Graduate Student Survey Report

<p>In the future, do not change the class proctoring requirements from one term to the next. A student in Term 1 may not have required a proctored in a specific class, and now another student in Term 2, 3, 4 is required. There appears to be a lack of transparency at Troy University.</p>
<p>International admissions and the College of Education should inform international students wanting to enroll in the 60-credit hour courses the right minimum years it'll take to complete the course. This helps in securing a visa that spans the duration of the program instead of having to go home to renew a visa. I understand that the I-20 (if extended) keeps one in status but that turns into a whole other issue once you go home after your visa expires. I was told on my I-20 and through my online registration process that the course is 2 years only to get here and realize it's not possible as an international student to finish the clinical mental health counseling program in 2 years considering the nature of the program and the caps (9 credits per semester) put in place by the international office. Also, considering the nature of course schedules and arrangement within the program, international students are coerced to take additional classes during internship semesters or risk being out of status for not having the right amount of credit hours per semester. Maria (former international student advisor) did help me with this problem but just so others don't experience this frustration, addressing this issue will be a great addition and help students focus on studies.</p>
<p>It is a wonderful university that caters to its students and wants its students to succeed.</p>
<p>It is criminal how long it takes to receive grading results from the comprehensive exams. Professors should get off their ass and provide students with detailed, unbiased results within days, not 7-8 weeks later!</p>
<p>It takes a LOT for me to ever say "poor" or "definitely not" on a survey, but my experience at Troy for my specialist degree has been COMPLETELY different than that of my Master's Degree there and it was a horrible experience from beginning to end. I have so many problems with the advisement and program that are too much to list here. Feel free to contact me at ANY time because I do plan to contact the Dean, or whomever else needs to get my voice heard after this experience.</p>
<p>Kertina Berry was very helpful in my journey. She provided excellent customer service. Also, Dr. Voss was very understanding of my situation when I fell ill during one of my terms and allowed me to make up assignments so I would not fail the course.</p>
<p>Love the professors, but some of the students make me facepalm.</p>
<p>Most of my instructors were very helpful. They were people oriented with the exception of one.</p>
<p>My answers and comments are because I received the Chancellors Fellowship from the University and had to ask them to rescind 900.00 dollars which I could have used because Dean Gossett and her staff sent me to cut T's for a home coming cape. I also told the Dean I was under disability services and have bilateral carpal tunnel. My education is important to me. Furthermore, I am a student in good standing with a 3.875 to 4.0 GPA. I try everything I could and it seemed to me that my dilemma was not important to any one but where the scholarship. And to add further insult administrative assistants and students were delegated to handle things.</p>
<p>My entire experience at Troy has been very rewarding and I believe most professors were genuinely concerned about our career as Mental Health Counselors. The only time that was less than appealing was my interaction with the admission office. There were multiple issues with my letter of recommendation due to two circulations of instructions for submitting the referrals. In the end, every thing was resolved and my time with Troy was delightful.</p>
<p>My experience at Troy has been great.</p>
<p>My experience at Troy has been wonderful and the staff goes above and beyond for its students. I am grateful to have had this experience.</p>

2014-2015 Graduate Student Survey Report

<p>My instructors at the 3 campuses I attended were excellent! I really felt like they cared about me as a person and me as a student. Financial aid caused me a 2 semester delay in starting my graduate classes because they did not inform me of vital information regarding TEP classes. In addition, having to take classes at other campuses caused me not to be able to take needed classes at my home campus causing me another semester delay. These delays turned my 2-3 year graduate school term into 4 years by the time I graduate. These delays cost me precious time and money that I really do not have as a single female! I have had to work two and three jobs to make ends meet. The demands of nine week terms on top of work has almost done me in! I have come very close to quitting three times!</p>
<p>My one complaint would be that the library is not open on Saturday.</p>
<p>My professor, Dr. Tonya Conner, has been so supportive of me and my fellow Teacher-Leader cohort members throughout the entire educational process. Additionally, she has been a very effective instructor, providing relevant information in an organized and logical fashion and offering timely feedback as to our progress. One matter about which I feel I must express my dissatisfaction is the fact some of the students in my Teacher-Leader cohort do not appear to be acceptable candidates for an Education Specialist degree. In my opinion, their work has not met the required standards (being less than proficient) and their writing and grammar skills have been greatly lacking. I am both concerned and bothered by the fact these students will be receiving the same certification and diploma I am receiving (and have truly earned).</p>
<p>N/A</p>
<p>na</p>
<p>None</p>
<p>none at the moment</p>
<p>Nothing against the University as a whole, but the Troy program has some things to work out. Some suggestions: -require professors to give 1 weekly presentation for the course -have a standard set-up for courses in Blackboard -do not allow professors to have a course under re-design; I'm paying money for a fully designed course, so I expect to receive just that.</p>
<p>NSG6612-6613: out of numerous online courses I have taken, these two courses are unbearably the most disorganized chaos I have ever witnessed. No instructors are on the same page & all give different answers, whether it's about a specific question or simply a due date for an assignment. Just to get an email response or a DB posting response, we might wait an entire week for a reply. Some of the lecture modules are directly from the text book with no further education or explaining; some lecture material is a "xerox'd" copy of a page out of a book. Furthermore, the reference pages given for our assigned reading are not even out of the same texts we were assigned to get for this class; it might give us page numbers from a text we have never even heard of it is not from the required or recommended book lists. This program is difficult enough without having to fight faculty for easy, simple responses; for an actual due date on an assignment that isn't changed two or three times; for an assignment where LL faculty go by the same grading rubric; and for an assignment's grading criteria that is not completely changed midway through us working on an assignment. I am not a "complainer." I have been very much satisfied with the MSN program up until this point of NSG 6612 & 6613 (Farrell) and I understand this first clinical semester is where the tar meets the road, but the sheer apathy and disorganized structure of this class is not only completely unacceptable, it's counterproductive to our education. After these two courses, I will never refer anyone to Troy's MSN program.</p>
<p>Of note- The MBA program is not a cohesive, build on learning program. It is simply a series of classes in separate fields of study. I wish there had been a collective learning event. The Capstone class was a good experience, but the overall program lacks cohesiveness. That said, due to work requirements (military), it took over three years for me to complete the program- so a Cohort class would not have worked either.</p>
<p>On-line courses are awful. Group projects are unfair.</p>
<p>online MBA program is challenging and I've learned to discipline to the hours needed for study</p>

2014-2015 Graduate Student Survey Report

<p>Overall, I do not feel academically prepared to practice when I graduate.... I feel that I was not educated on major key points needed upon graduation for my major. I am not the only one that feels this way. Other students graduating with me feel this way as well.</p>
<p>Overall, I have enjoyed my time at Troy. However, I have had some issues with continuity in the quality of my education. Some professors were detached and seemed to care very little about the quality of their classes. Also, Troy advertises that it is friendly for parents going back to school due to the offering of night classes. While this does help, no mention is made of the classes having strict attendance policies that result in significant point loss if you must miss a class. It would be nice if the Draonian attendance policy was rethought.</p>
<p>Please stop the half helmet advertising campaign. The original campaign with the full helmet was great, but the half helmet is just stupid.</p>
<p>So far its been great. If I were not learning I would not have a 4.0 GPA</p>
<p>The amount of my ney spent in getting the Music dept with all those Piano's could. Have been used for getting a Graduate Assistant in the CS dept. The computer science dept. is completely neglected by the university. We do not have proper labs also.</p>
<p>The Augusta campus had a lot of problems during my time in school. But I love Troy thank God they cleaned house it was just to late for me and some others.</p>
<p>The availability of most of the classes I was interested in taking was what really helped me to complete my degree within 6 terms, which I greatly appreciate.</p>
<p>The changes in the counseling program caused so many problems, was poorly thought out, and poorly executed. I wanted to quit but was too far along to transfer. The College of Education has ruined the counseling program. The research papers required by he College of Education were terribly planned and elementary in requirements. The number of sources contrasted with the number of pages required was absolutely ridiculous. Further, the quality of the research did not matter, only the number of pages was considered for the majority of the grade. All that mattered to the College of Education was 7 to 10 pages, really? My 10th grade public school students were required to write more than that and were required to write thoughtful papers, not just to fill n the correct number of pages. The program changes were insulting, confusing, and caused the professors and students a great deal of confusion resulting in bad attitudes on all sides. I seriously tried to find a place to transfer my work to, but I was to far along. I loved Troy. I loved my counseling program. Then the College of Education took over with horrible results. I just want to finish and forget Troy.</p>
<p>The Department of Education needs to be more organized and communicate needed information to it's students. Dealing with the Department of Education has been the WORST part about my experience at Troy. The faculty can never be reached and the administratin knows very little and is rude to students needed information.</p>
<p>The established program for Counseling & Psychology is a solid program but it appears to this writer that the main campus is not providing as much support and interest to the Global campus as it could or should. Troy university seems to be like most univesities in that they feel the "brick and mortar" aspect of the university is paramount and are not giving enough interest and support to the reality of the reach and success of the Global campus. This is evident by the lack of faculty support and audio-visal maintenance present in Tampa. When a major program (c&p) is supported by only two staff it speaks for itself. This is not the same support from the "for profit" schools in the area. The university has a horrible marketing plan and execution again as evidenced by comparison with the for profit in the area. If this is an important program it is not displayed in its execution!</p>
<p>The graduate advisors are not very helpful at all with guidance. It would be beneficial to the students if they improved in this area.</p>

2014-2015 Graduate Student Survey Report

<p>The Graduate program, particularly the eTroy experience, was actually fairly disappointing. I rarely felt challenged by the material or coursework, and truly expected more from the program. I feel that many (granted, not all) of the eTroy professors graded easier and made the class simpler than what I expect their in-person classes were like, at least I hope so. I am glad to have gotten a degree, but I doubt I will be able to use much of anything that I learned here at Troy.</p>
<p>The Instructional Leadership and Administration program provided me an opportunity to achieve job related goals even before graduation.</p>
<p>The MPA program was outstanding. However, I would like for Troy University to lower graduate school tuition for Active Duty Military to equal Tuition Assistance rates. It was difficult to pay \$700+ out of pocket every course. If you could lower Graduate School Tuition so that Military TA covers the full rate, you will have a significant amount more military graduate students.</p>
<p>The Phenix City campus has no career placement services, Columbus State University and CVCC offer these services to their students</p>
<p>The price tag of tuition at Troy University is not worth the level of education you receive. Troy University is a sub-part university and with an average tuition price in the state. The classes do nothing to help students become more well-rounded educated individuals.</p>
<p>The professors were top notch!! No complaints at all. Very professional, and cared about my individual success.</p>
<p>The school provides easy and affordable access to graduate level education. Most of the courses were relevant, and it is up to the students to make the best out of it. The instructors generally encouraged critical thinking skills and were motivating. I consider myself a lifelong learner and do not need anyone or anything to motivate me to continue my education. Troy is useful in the sense that there is sufficient support if needed but enough liberty for self development. The only issue I encountered was with the financial office; Critical information was often not conveyed or with delay. The customer service there could be improved. Graduate students should be treated like paying customers and not like new students. Additionally, the school could make more efforts to provide different venues of financing;</p>
<p>The support I received as a member of the active duty Air Force was excellent. Faculty was generally very accommodating when it came to work taking my time away from class, thus affording me flexibility to complete assignments well before or after they were due.</p>
<p>There's work to be done wrt the VA concerning what is considered as being a "full-time" student during practicum and internship (3 hrs -vs.- 6hrs)</p>
<p>These last 5 years have been quite a growing experience. Since being in my graduate program I have grown so much, learned so much and seen many things I wish to improve with the world. Our counseling program has made great strides in the community and I am so grateful to have been a big part of those changes. I hope it continues to grow and flourish and for Troy university as a whole to continue to open your mind to new ideas, beliefs, concepts and diversity.</p>
<p>They should really consider organizing internship and practicum opportunities for clinical mental health students.</p>
<p>This has been a very positive experience and I can say that I worked very hard to get to this point.</p>
<p>To better serve students in the master program at Augusta campus, Troy needs an instructor who can teach Research Methods effectively. The Instructor that's teaching this class is not effective and costing students money because this class is not taught to the standards the university is looking for.</p>
<p>Troy is a good school for a working adult. There are issues with faculty just like any other school, I am sure.</p>
<p>Troy is a great University. However, the lack of urgency concerning the staff and faculty makes it extremely difficult to believe that the faculty and staff actually care about the well being of the students</p>

2014-2015 Graduate Student Survey Report

Troy needs to work on class availability for working adults. There are not many courses available each semester during times that are convenient for those who may get off work after 430pm.
Troy University have great instructors on campus and online, Dr. Voss being the highest rated professor for me.
Troy was great when I started the program but MBA is math intensive. There are no classrooms available in Hampton Roads for students who can learn math better in a classroom setting, which is a large part of the population.
Tuition has went up every year. The MBA program should be revamped. There is no more operations class. You guys have people who refuse to do their job right such as the person in charge of doing grade changes. One of my professors gave me a B for an incomplete class over three weeks ago and is still had not fixed my transcript. The smartest thing you guys should do is let us pick a concentration such as finance, human resources, organizational leadership to specialize in. Also you should reward studens who go to your college and let them get two masters degree and use all credits that could apply. For example I would like to do my mba and human resource degree and I was told that only two class would count even though I took four classes already. Unike most northern university that have the highest accreditation, troy needs to still get there.
With the exception of one professor, I have had very positive experiences at Troy in academic, social, and administrative areas.

Troy University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate, baccalaureate, master's, education specialist and doctoral degrees. As part of the accreditation process Troy University reports job placement rates as one measure of student achievement. GRADUATE STUDENT SATISFACTION SURVEY

We are asking all Graduate students to fill out a brief survey regarding their experience during the graduate program. The information you provide on this survey will help Troy University improve and enhance its programs and services so that the University can better serve the educational needs of its students. Your responses will be kept strictly confidential and only group data will be reported. We thank you in advance for your participation in this survey. All students who are classified as graduate students with an anticipated completion date of Spring/Summer/Fall 2015 were sent an email inviting them to participate in this survey. If you plan on graduating later than the Fall Semester of 2015, do not complete this survey. You will be offered another chance during the next academic year.
