Troy University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, bachelor's, master's, and education specialist degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions regarding the accreditation status of the institution or if there is evidence that appears to support Troy University's significant non-compliance with a requirement or standard.

Troy University does not discriminate on the basis of sex, age, color, race, national origin, religion, handicap veteran status or sexual orientation in its admissions, education, employment, or access to its programs. The university fully complies with the following: Civil Right Act of 1964 and its amendments; Federal Executive Order 11246; Educational Amendments of 1972 and 1974; the Vietnam Era Veterans Readjustment Assistance Act of 1972; Age Discrimination Act of 1975; Family Educational Rights and Privacy Act of 1974; and the Uniformed Services Employment and Reemployment Rights Act of 1994.

## **PREFACE**

The *Troy University Fact Book 2010* includes data from the three merged campuses, Dothan, Montgomery, and Troy. The Fact Book is intended to be a reference with quantifiable data about students, faculty, staff, and financial and physical resources. It serves as a source of facts about Troy University and is used by administrators, faculty, staff, alumni, and others who may need information.

This edition of the Fact Book contains Troy University Quick Facts Fall 2009, a summary of information about Troy University including Dothan and Montgomery, and executive summaries of the surveys administered in 2009-2010 to Troy University students.

The efforts of numerous individuals throughout the University are reflected in the *2010 Fact Book*, including, but not limited to, Academic Division; Administration Division; Student Services Division; Institutional Advancement and External Relations Division; Institutional Research, Planning, & Effectiveness; and Chancellor's office.

A collection of tables and graphics such as this must be a relevant, functional tool; your suggestions for improving subsequent editions are welcome on the Troy University User's Comment Form at the back of this document.

## **Troy University Mission with Institutional Goals**

Troy University is a public institution comprised of a network of campuses throughout Alabama and worldwide. International in scope, Troy University provides a variety of educational programs at the undergraduate and graduate levels for a diverse student body in traditional, nontraditional, and emerging electronic formats. Academic programs are supported by a variety of student services which promote the welfare of the individual student. Troy University's dedicated faculty and staff promote discovery and exploration of knowledge and its application to life-long success through effective teaching, service, creative partnerships, scholarship and research.

### Institutional Goals

Institutional goals refer to the central themes of the mission. They enable the mission and stand as major areas for institutional development. As derived from the Troy University mission, below are the institutional goals of the University.

1. Provide an international scope to university programs and services.
2. Provide a variety of undergraduate and graduate programs in traditional, nontraditional, and electronic formats.
3. Maintain a diverse student population.
4. Provide services that promote the individual welfare of student.
5. Maintain a dedicated faculty and staff.
6. Promote discovery and exploration of knowledge dedicated to life-long learning success.
7. Ensure effective teaching.
8. Ensure the development of creative partnerships, scholarship, and research.
9. Ensure efficient and effective operations and provide resources as needed to implement institutional mission, goals, and objectives.

## HISTORICAL HIGHLIGHTS

---

Troy University traces its origin to the Troy State Normal School which was established on 26 February 1887, by an Act of the Alabama Legislature. Recognizing the growth of the School's programs, the State Board of Education in 1929 changed the name of the School to Troy State Teachers College, and in 1931, the College granted its first baccalaureate degree.

Continued growth in the College's programs prompted the Alabama legislature in 1957 to change the name to Troy State College, and in the same year, the State Board of Education authorized the master's degree program. On 14 December 1967, Troy State College was officially renamed Troy State University.

Responding to the needs of the people of the area, Troy State University established a center at Fort Rucker in 1961 and another center in Montgomery at Maxwell-Gunter Air Force Base in 1965. These centers became degree-granting branches of Troy State University in 1966. TSU at Montgomery in 1983 and TSU at Dothan in 1985 were accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award the associate degree, the bachelor's degree, the master's degree, and the educational specialist degree.

Since 1966, Troy State University has established a branch at Phenix City and under the aegis of Global Campus, offers degree programs at a number of locations in the United States and the world.

In August 2005, Troy State University officially became one University--Troy University—and consists of the merged campuses and sites related to Troy State University (TSU), Troy State University Dothan (TSUD), and Troy State University Montgomery (TSUM). This merger was approved by the Southern Association of Colleges and Schools Commission on Colleges (SACS-COC) in December 2004 and by the Alabama Commission on Higher Education (ACHE) and Board of Trustees (BOT) in 2005.

EXECUTIVE SUMMARY

The number of enrolled 2009-2010 ACT-tested freshmen ( 1202) represents ( 91%) of student score reports received by your campus. Enrolled counts shown in this report are limited to those students your institution identified as enrolled full-time and degree seeking. It is assumed that enrolled students for whom a full-time/degree seeking status was not provided are full-time/degree seeking.

The average ACT composite score for your ACT-tested enrolled freshmen was 20.7 (men = 20.8, women = 20.7). The national ACT composite for 2008-2009 high school graduates was 21.1.

The five-year pattern on selected statistics for freshmen at your institution follows:

Year	Nct	Avg ACT Comp	Pct with Core Courses	Pct Minority	Pct Scoring 28+	Pct in Top Qtr in HS	ACT 1st Choice College	ACT 2nd Choice College
2009-2010	1202	20.7	73	35	7	39	0	0

2005-2006	--	--	--	--	--	--	--	--

NOTE: Trend results are available only for participation years in which your institution provided enrollment data directly to ACT. These results may differ from previous report(s) if they included enrollment data from the National Student Clearinghouse.

Characteristics of ACT-tested freshmen for the most popular planned educational fields are:

Planned Educational Major	Nct	Avg ACT Comp	Pct with Core Courses	Pct Minority	Pct Scoring 28+	Pct in Top Qtr in HS	ACT 1st Choice College	ACT 2nd Choice College

**TROY UNIVERSITY  
GRADUATION RATES  
STUDENT BODY AND STUDENT ATHLETES  
FRESHMEN ENTERING FALL 1999 THROUGH FALL 2003**

The Federal Student-Right-To-Know law requires that institutions assess and report student retention and completion rates to the public. Monitoring retention and completion rates over time can help assess the effectiveness of both academic and student life programs as well as innovative programs such as the first year experience program aimed at increasing freshmen retention. The graduation rate as established by the United States Department of Education to meet current Student-Right-To-Know requirements calls for the Cohort group to be those first-time, full-time freshmen students who enrolled at the University during Summer or Fall six years prior to the reporting year and graduated before Fall of the reporting year.

## Troy University 2009-10 Senior Survey Report

### Executive Summary

The purpose of this survey is to identify student satisfaction with their experiences at Troy University, recognize student development as a result of their Troy University education, and identify areas that need to be improved. Data collected in this survey are used to help the University strengthen its academic programs, better serve the needs of its students, and become more effective and efficient in accomplishing its mission and goals.

As an annual effort of institutional effectiveness, the Troy University Office of Institutional Research, Planning, and Effectiveness (IRPE) conducted the *Troy University Senior Survey* on all campuses of the University from November 10, 2009 to January 15, 2010. In the spring of 2009 the leadership of IRPE discussed the problems encountered with getting email addresses for the *Graduating Student Survey*. Because the prior practice of emailing all persons who had expressed an intent to graduate was so labor intensive and because it did not always yield good results, the decision was made to change the methodology for the survey. Beginning with the 2009-2010 Academic Year, the Senior Survey was administered once, during October and November, and all persons classified as Seniors in Datatel were invited to participate. Due to this change the survey was longer be called the *Graduating Student Survey*, but the *Senior Survey*.

The questionnaire for the survey contained 45 questions. The first 27 questions ask for information regarding students' demographics, academics, employment, and financial aid. Questions 28 – 44 of the survey, with a high reliability, focus on measuring students' perceptions about and satisfaction with their Troy experiences. The final question was an open-ended question allowing for additional comments.

For data analysis, descriptive methods were used for the overall University as well as for each individual campus, site, college, and degree. Questions 28 to 44 were tabulated and items were presented in a cross tabulation by campus so that comparison, if necessary, could be made between campuses or between campus and the overall University. Questions 28 - 31, which contain measures in 69 areas, are analyzed based on the factors defined from the same measures in the previous year's survey. Importantly, comparison was made between academic years 05-06, 06-07, 07-08, 08-09, and 09-10 responses to identify any possible improvement, as well as between campuses to explore in detail areas where improvement efforts can be focused. In the end, frequency tables for all survey questions were provided as appendices for the overall responses as well as for each of the campuses and colleges.

### Major Findings

The *Troy University Senior Survey 2009 – 10* was administered from November 10, 2009 to January 15, 2010. During this time, students who were classified as seniors in Datatel were emailed the link to the survey. By the time data collection was closed on January 15, 2010, 1771 responses were received. This is down from the prior year's response rate of 2922 but up from that of two years ago of 1582. Part of the reason why the number of responses was lower this year is that in the prior year graduate students

were invited to participate in the survey. Without the 553 graduate students who participated in the survey last year the number of participants from last year would have been 2369. Graduate students were not considered as seniors and were not invited to participate in this year's survey. Even though the response rate was lower this year, the analysis of demographic factors was almost identical to the prior year. 7151 students were identified as seniors and were sent the invitation to participate email which resulted in a 25% response rate. The initial invitation to participate email was sent on 11/10/09. Reminder emails were sent to non-respondents on 11/16/09 and 12/1/09. Survey participation was submitted by hard copy from 71 students who classified themselves as Asian/Pacific Islander and were seniors at a Global Campus site. The characteristics of the survey respondents were determined to be similar to those of the total graduates of the year although some variation existed. Therefore, the responses to the survey could be considered representative of the ideas and opinions of the students who were graduating in during the 2009-2010 Academic Year.

It should be noted that more data was received from Global Campus sites in Asia for this 2009/2010 Senior Survey than had been submitted in the past. For the 09/10 survey 5.2% of respondents indicated "Asian/Pacific Islander" as their ethnicity while for the 08/09 survey only 1.9% of respondents were of that ethnicity. Report Six in this document presents a comparison of intellectual development and leadership development items by ethnicity.

The *Senior Survey* has been administered consecutively for five years. The results are almost parallel from each year. Over the past five years students have consistently rated the factor of leadership development the highest and student services the lowest. The chart and table below presents the mean scores for each factor measured by the *Senior Survey*. Each factor is measured on a scale with 1 being low satisfaction and 5 being high satisfaction.

Demographic information

Of the 1771, respondents, 64% were female, 55% were White compared to 33% Black and 72% were aged 25 or older. While the majority (94%) was US citizens, the 6% international student participants represented 16 countries in various parts of the world. The largest percentage of respondents were from the eCampus, 35%. About 24% of the respondents were graduating from Troy Campus, 12% were Global Campus students, and the remainder of the seniors were from Dothan (10%), Montgomery (9%) and Phenix City (8%). Additionally, Global Campus students responded from 32 different sites.

### Academic information

Academically, 96% of the respondents were expecting to receive a Bachelor's degree and 4% were expecting to receive an Associate's degree. About 40% of the respondents were planning to graduate from the College of Arts and Sciences, 31% from Business, approximately 15% from Education, 10% from the College of Health and Human Services, and only about 3% from the College of Communication & Fine Arts.

According to the responses, approximately 83% of the students had transferred credit hours from other institutions and about 52% of them transferred more than 30 credit hours. The majority of participating seniors (65%) started Troy University as an undergraduate transfer student. About 29% started Troy University as a first-time freshman. While attending Troy University, 76% of the students had taken online courses. About 23% reported that their cumulative GPA's were between 3.5 and 4.0, and 38% had GPA's between 3.0 and 3.49. Of the 1771 respondents, about 81% indicated that they had studied at Troy University 4 years or less. About 9% reported 5 years and 3% six years, while the longest time a student studied at Troy University was over 10 years (1%) and the shortest was just 1 year (13%).

### Employment and plan after graduation

Approximately 82% of the respondents reported that they worked while attending Troy University with about 65% working full-time (40 hours or over). Upon graduation, about 41% were planning to work in areas related to their majors at Troy University, 12% would continue to work in the jobs they had already, and approximately 37% were going to continue their education. The survey also found that about 71% of the respondents would pursue a Master's degree after they graduated, 16% would study for a doctoral degree, around 2% would seek an educational specialist degree, and another 5% would pursue a professional degree as their ultimate goal in education.

### Financial aid information

While the financial aid options varied, over half of the respondents (54%) had received student loans, 38% obtained grants, 18% had scholarships or graduate assistantships, and about 16% received tuition assistance. Additionally, about 3% received a third party pay or other kind of financial aid, mostly from military or VA benefits.

### Student satisfaction

- Student self-rated development (Report 1 – Q28)

Eighteen items related to knowledge, skills, and abilities were provided for the students to rate their development as a result of Troy University education. From the 18 items, two factors were identified - **Intellectual Development** and **Leadership Development**. In comparison, the prior four academic years, respondents shared about the same opinions regarding their development in the areas measured, with an average rating for **Intellectual Development** as 4.06 for 09-10, 4.08 for 08-09, 4.09 for 07-08; 4.12 for 06-07; and 4.09 for 05-06 and a mean rating for **Leadership Development** as 4.21 for 09-10, 4.24 for 08-09, 4.26 for 07-08; 4.28 for 06-07; and 4.26 for 05-06, all

in a 5-point scale with 1 as “Poor” and 5 as “Excellent.” However, it should be noted that a declining trend is developing.

As indicated in Table 1, the majority of the areas measured for student *Intellectual Development* were rated high above 4.00 (on a scale of 1 to 5) and 75% or more of the students rated their development in these areas as either “Excellent” or “Good.” In addition, almost all ratings on areas related to *Intellectual Development* were almost parallel over the past three years.

Similar to the ratings on *Intellectual Development*, ratings on *Leadership Development* were also strong but were showing a declining trend over the past four years. As illustrated in Table 2, more than 80% of the students gave positive ratings of either “Excellent” or “Good” to their development in almost all of the areas related to *Leadership Development*. All mean ratings for items were higher than 4.10, the factor mean was 4.21.

- Student ratings for quality of education and academic support services (Report 2 – Q28)

Eighteen items were measured in terms of what students thought about the quality of education and academic support services at Troy University. Again a factor analysis identified two factors, which include **Academic Support Services** and **Instruction**. The factor **Instruction**, or **Academics**, includes areas relating to instruction and faculty and has an average rating of 3.93 for 09 – 10, 3.96 for 08 – 09, 3.97 for 07 – 08, 4.03 for 06-07 and 4.02 for 05-06 respondents on a 5-point scale with 1 as “Poor” and 5 as “Excellent.”

As indicated in the table above (Table 3), the majority of the students rated the areas related to **Instruction** as either “Excellent” or “Good,” which is about the same as found in the previous year’s survey. Two areas, however, were rated below 4.00 in 09-10, with the ratings on IMPACT/New Student Orientation Program and Academic Advising being the lowest. Further examination by campus (Table 4) found that eCampus students regularly ranked items in the factor of instruction higher than students from other campuses.

The **Academic Support Services** include Library, Computer labs, Writing Center, Reading Center, Center for International Programs, etc., and the average rating for this factor is 3.95 for 09 - 10, 3.84 for 08 – 09, 3.81 for 07 – 08, 3.85 for 06-07 and 3.85 for 05-06, relatively lower than expected. Overall, as indicated in Table 5, no areas in **Academic Support Services** had an average rating of 4.00 or higher nor did they have ratings of “Excellent” or “Good” for more than 75% of the respondents.

Table 5. Ratings on areas related to **Academic Support Services**: AY05 – 10:

However, further examination by campus showed that ratings of students from different campuses varied (Table 6). Please be aware that only students who have used the services gave their ratings. The Natural Science Center, and Writing Center were rated by mostly Troy Campus students and only international students rated the Center for International Programs.

- Student satisfaction with services provided by Troy University (Report 3 – Q30)

Twenty-four offices and services of the University were measured in terms of student satisfaction. Two factors were identified. They were **Student Services** and **Administration**. **Student Services** includes such areas as Career Services, Placement Services, Student Health Services, Recreational and Intramural Activities, Student Organizations, etc, while **Administration** includes the

Admissions Office, Registrar/Records Office, Business Office, Financial Aid Office, Trojan WebExpress, and so on. Comparisons found that the participants in the past year's surveys shared about the same level of satisfaction with **Student Services** and services provided by the **Administration** offices, with the overall average ratings for **Administration** being 3.92 in 09-10, 3.97 in 08-09, 3.90 in 07 – 08, 3.96 in 06-07 and 3.93 in 05-06 (on a 5-point scale with 1 as “Very Dissatisfied” and 5 as “Very Satisfied”).

As can be seen from Table 7, under **Administration**, Trojan Web Express, Admissions Office, and IT services were rated the best, with 75% or more of the students feeling “Satisfied” or “Very Satisfied” with their services. Several areas in **Administration** had relatively low ratings, below 4.00 (4.00 = Satisfied) on average, with the Financial Aid Office being rated the lowest and with less than 66% of the students feeling satisfied with the services they provided.

A breakdown by campus showed that students from Troy and Global Campus had the lowest level of satisfaction with the **Administration**. Phenix City students were found to be most satisfied regarding services provided by the administration offices compared to students from other campuses.

In the surveys from the past years, it seems that students were least satisfied with **Student Services**. As shown in Table 9, none of the areas in **Student Services** received an average rating of 4.00 or higher, with Parking Facilities, Housing and Residential Life, and Placement Service being the lowest. The overall average rating for AY 09-10 was 3.74, AY 08 – 09 was 3.77, AY 07 – 08 was 3.67, 3.79 for 06-07 and 3.84 for 05-06,

For Parking Facilities, approximately 38% of the students indicated that they were “Very Dissatisfied” or “Dissatisfied”. Further analysis found that Troy and Montgomery students were most dissatisfied with Parking Facilities. Table 10 shows mean ratings and counts on each of the areas related to *Student Services*. Further studies may be needed before actions are taken for improvement.

- Student perceptions about Troy University (Report 4 – Q31)

In this section, ten statements regarding the University in a broad sense were provided for the students to rate their agreement. As indicated in Table 11 (derived from Report 4), over 80% of the students “Agree” or “Strongly Agree” with the first 3 statements, indicating strong satisfaction with the academic programs and confirming the findings in Table 3 above (derived from Report 2).

(These were also the lowest rated areas in the previous four year’s surveys.) Course offerings and student intellectual caliber were rated low as well.

- Overall ratings of Troy University (Report 5 – Q39)

Students were asked to rate their Troy preparation for employment and further education as well as to give an overall rating of their college experiences at Troy University. Between 70% - 80% of the students gave a positive rating to their overall college experiences at Troy University, with an mean rating of 3.96, while 69% and 76% of the respondents gave a rating of either “Excellent” or “Good” to their Troy preparation for employment and for further education, with a mean = 3.82 and 4.00 respectively. The graduating students from the past four years shared about the same opinions in their overall ratings of the University.

Recommendation of Troy University (Report 6 – IF YOU WERE STARTING OVER, WOULD YOU ENROLL IN THE SAME PROGRAM?-WOULD YOU RECOMMEND TROY UNIVERSITY TO SOMEONE PLANNING TO GO TO COLLEGE?)

Important satisfaction indicators used by colleges and universities include whether students would re-enroll in the university, re-enroll in the same academic program, and recommend their university to others. The surveys over the past four years found that over 81% of the students indicated that they would enroll in the same academic programs and attend Troy University again if they could start all over. The most important finding, which indicates student satisfaction with Troy University and academic programs, is that about 90% of the respondents would recommend Troy University and their academic programs.

### Student Organization information

Seniors were asked to identify which student organizations they belong to while attending Troy University. The vast majority of seniors who participated in this survey (n=1122, 63%) reported that they did not participate in any student organizations. The Honor Society was reported as the student organization with the most participation. Further analysis by campus revealed that the Troy Campus has the highest number of students participating in student organizations.

## READING HABITS

As a measurement of the Quality Enhancement Plan of Troy University graduating seniors were asked to report factors about their reading habits. Seniors were asked about the degree to which their involvement in reading has: (1) Enhanced their ability to understand connections between the various materials they read, and (2) Enhanced their awareness of other people's political and social view points. As is shown in tables 17 and 18 the greatest level of enhancement from reading was reported from students of the Montgomery campus and the College of Arts and Sciences.

Regarding the types of literature read by seniors, The top four types of literature that seniors reported reading were: (1) books assigned for class, (2) newspapers, (3) books read outside of class for pleasure, and (4) online websites. Self help literature and sports magazines were reported as the least frequently read type of literature. Table 19 indicates the percentages of seniors who reported reading each type of literature.

Most seniors (53%) indicated that they do not have much time to read for pleasure, but they like to read when they get a chance. The most commonly cited reason (36%) for reading was to learn things on their own. Most students (74%) considered their reading level to be "advanced" or "above average." Not including school assignments about one-third of students reported reading less than one book per month and about one third of students reported discussing books with others only a few times per year. Additional data regarding readings habits is included in the appendix of this report.

## Troy University 2009-10 Graduate Student Survey Report

### Executive Summary

The purpose of this survey is to identify graduate student satisfaction with their experiences at Troy University, recognize student development as a result of their Troy University education, and identify areas that need to be improved. Data collected in this survey are used to help the University strengthen its graduate degree programs, better serve the needs of its students, and become more effective and efficient in accomplishing its mission and goals.

As an effort of institutional effectiveness, the Troy University Office of Institutional Research, Planning, and Effectiveness (IRPE) conducted the *Troy University Graduate Student Survey* on all campuses of the University from February 10, 2010 to March 10, 2010. During this month three invitation to participate emails were sent.

The questionnaire for the survey contained 43 questions and was adapted from the Senior Survey. The first 26 questions ask for information regarding students' demographics, academics, employment, and financial aid. Questions 27 – 42 of the survey, with a high reliability, focus on measuring students' perceptions about and satisfaction with their Troy experiences. The final question was an open-ended question allowing for additional comments.

For data analysis, descriptive methods were used for the overall University as well as for each individual campus, site, college, and degree. Questions 27 to 42 were tabulated and items were presented in a cross tabulation by campus so that comparison, if necessary, could be made between campuses or between campus and the overall University. In the end, frequency tables for all survey questions were provided as appendices for the overall responses as well as for each of the campuses and colleges.

### Major Findings

The *Troy University Graduate Student Survey 2009 – 10* was administered from February 10, 2010 to March 10, 2010. During this time, students who were classified as graduate students in Datatel were emailed the link to the survey. By the time data collection was closed on March 10, 2010, 1601 responses were received. 6060 students were identified as graduate students and were sent the invitation to participate email which resulted in a 26% response rate. The initial invitation to participate email was sent on 2/10/10. Reminder emails were sent to non-respondents on 2/16/10 and 2/24/10. The characteristics of the survey respondents were determined to be similar to those of the total graduate students of the year although some variation existed. Therefore, the responses to the survey could be considered representative of the ideas and opinions of the graduate students who were attending in during the 2009-2010 Academic Year.

This is the first year that the Graduate Student Survey has been administered. In some prior years some graduate students had submitted data on the Senior Survey. In academic year 09/10

graduate students were not invited to participate in the Senior Survey. For this reason the Senior Survey was adapted for use as a Graduate Student Survey.

Items in eight major categories were measured on a 5-point scale with 1 as “Poor” and 5 as “Excellent.” The mean ratings for each of these categories is shown below with Leadership Development rating the highest and Student Services the lowest.

	AY 09-10
<i>Intellectual Development</i>	4.01
<i>Leadership Development</i>	4.19
<i>Academic Support Services</i>	3.79
<i>Instruction</i>	3.93
<i>Administration</i>	3.93
<i>Student Services</i>	3.65
<i>Perceptions</i>	3.91
<i>Overall Ratings</i>	3.93

### Demographic information

Of the 1601, respondents, 69% were female, 48% were White compared to 41% Black and 90% were aged 25 or older. While the majority (95%) were US citizens, the 5% international student participants represented 23 countries in various parts of the world. The largest percentage of respondents were from the eCampus, 30%. About 13% of the respondents were graduating from Troy Campus, 29% were Global Campus students, and the remainder of the students were from Dothan (5%), Montgomery (11%) and Phenix City (9%). Additionally, Global Campus students responded from 25 different sites.

### Academic information

Academically, 99% of the respondents were expecting to receive a Master’s degree and 1% were expecting to receive an Education Specialist degree. About 29% of the respondents were planning to graduate from the College of Arts and Sciences, 33% from Business, approximately 26% from Education, 10% from the College of Health and Human Services.

According to the responses, approximately 89% of the students did not transfer graduate credit hours from other institutions. Of those who did transfer graduate credit hours 6% transferred from 3 to 6 credit hours and 4% transferred 7 – 12 credit hours. The majority of participating graduate students (55%) were conditionally admitted graduate students and 39% were unconditionally admitted. 2% were graduate transfer students and 1% were graduate transient or dually admitted.

While attending Troy University, 55% of the students had taken online courses. About 65% reported that their cumulative GPA’s were between 3.5 and 4.0, and 30% had GPA’s between 3.0 and 3.49. Of the 1601 respondents, about 60% indicated that they had been in pursuit of the graduate degree for one year or less and 27% for two years. Three students reported being in pursuit of the graduate degree for ten or more years.

Employment and plan after graduation

Approximately 85% of the respondents reported that they worked while attending Troy University with about 81% working full-time (40 hours or over). Upon graduation, about 52% were planning to work in areas related to their majors at Troy University, 22% would continue to work in the jobs they had already, and approximately 15% were going to continue their education. The survey also found that of those planning to continue their education about 59% would pursue a doctoral degree after they graduated, 26% would study for another masters degree, around 7% would seek an educational specialist degree, and another 6% would pursue a professional degree as their ultimate goal in education.

Financial aid information

While the financial aid options varied, over half of the respondents (59%) had received student loans, 3% obtained grants, 5% had scholarships or graduate assistantships, and about 12% received tuition assistance. Additionally, about 3% received a third party pay or other kind of financial aid, mostly from military or VA benefits.

Student satisfaction

- Student self-rated development (Report 1 – Q28)

Eighteen items related to knowledge, skills, and abilities were provided for the students to rate their development as a result of Troy University education. From the 18 items, two factors were identified - **Intellectual Development** and **Leadership Development**. an average rating for **Intellectual Development** was 4.01 for 09-10 and a mean rating for **Leadership Development** as 4.19 for 09-10 all in a 5-point scale with 1 as “Poor” and 5 as “Excellent.”

As indicated in Table 1, the majority of the areas measured for student **Intellectual Development** were rated high above 4.00 (on a scale of 1 to 5) and the majority of the students rated their development in these areas as either “Excellent” or “Good.”

Table 1. Ratings on areas related to **Intellectual Development**: AY09-10

	AY 09-10

Similar to the ratings on *Intellectual Development*, ratings on *Leadership Development* were also strong. As illustrated in Table 2, more than about 80% of the students gave positive ratings of either “Excellent” or “Good” to their development in almost all of the areas related to *Leadership Development*. All mean ratings for items were higher than 4.02, the factor mean was 4.19.

- Student ratings for quality of education and academic support services (Report 2 – Q28)

Eighteen items were measured in terms of what students thought about the quality of education and academic support services at Troy University. Again a factor analysis identified two factors, which include *Academic Support Services* and *Instruction*. The factor *Instruction*, or *Academics*, includes areas relating to instruction and faculty and has an average rating of 3.93 for 09 – 10 on a 5-point scale with 1 as “Poor” and 5 as “Excellent.”

Table 3. Ratings on areas of *Instruction*: AY09 - 10

Course availability in your major	71%	3.84
Academic advising	65%	3.7
IMPACT/New Student Orientation Program	63%	3.64
Overall average ratings	3.93	

As indicated in the table above (Table 3), the majority of the students rated the areas related to *Instruction* as either "Excellent" or "Good.". Five areas, however, were rated below 4.00 in 09-10, with the ratings on IMPACT/New Student Orientation Program and Academic Advising being the lowest.

The **Academic Support Services** include Library, Computer labs, Writing Center, Reading Center, Center for International Programs, etc., and the average rating for this factor is 3.79 for 09 - 10, relatively lower than expected. Overall, as indicated in Table 5, no areas in **Academic Support Services** had an average rating of 4.00 or higher nor did they have ratings of “Excellent” or “Good” for more than 71% of the respondents.

Table 5. Ratings on areas related to **Academic Support Services**: AY09 – 10:

However, further examination by campus showed that ratings of students from different campuses varied (Table 6). Please be aware that only students who have used the services gave their ratings. The Natural Science Center, and Writing Center were rated by mostly Troy Campus students and only international students rated the Center for International Programs.

- Student satisfaction with services provided by Troy University (Report 3 – Q30)

Sixteen offices and services of the University were measured in terms of student satisfaction. Two factors were identified. They were **Student Services** and **Administration**. **Student Services** includes such areas as Career Services, Placement Services, Student Health Services, etc, while **Administration** includes the Admissions Office, Registrar/Records Office, Business Office, Financial Aid Office, Trojan WebExpress, and so on. The overall average ratings for **Administration** being 3.93 in 09-10 (on a 5-point scale with 1 as “Very Dissatisfied” and 5 as “Very Satisfied”).

As can be seen from Table 7, under **Administration**, Trojan Web Express, Admissions Office, IT services, and the Registrar/Records Office were rated the best, with 75% or more of the students feeling “Satisfied” or “Very Satisfied” with their services. Most areas in **Administration** had relatively low ratings, below 4.00 (4.00 = Satisfied) on average, with the Veteran Services Office being rated the lowest and with less than 63% of the students feeling satisfied with the services they provided.

Table 7. Ratings on areas related to **Administration**: AY 09 – 10

	AY 09 -10	
	Satisfied/Very Satis.	M
Trojan WebExpress	83%	4.14
Admissions Office	75%	3.95

Business Office	72%	3.91
Financial Aid Services	71%	3.83
Veteran Services	63%	3.84
Overall average ratings	3.93	

A breakdown by campus showed that students from Troy and Global Campus had the lowest level of satisfaction with the **Administration**. Global Campus students were found to be most satisfied regarding services provided by the administration offices compared to students from other campuses.

As shown in Table 9, none of the areas in **Student Services** received an average rating of 4.00 or higher, with Parking Facilities, and Career Services being the lowest. The overall average rating for AY 09-10 was 3.65.

Table 9. Ratings in *Student Services*: 09 - 10

	AY 09 -10

Parking Facilities	59%	3.48
Counseling Services	56%	3.61
Career Services	49%	3.46
Placement Services	45%	3.41
Overall average ratings	3.65	

For Parking Facilities, approximately 55% of the students indicated that they were “Very Dissatisfied” or “Dissatisfied”. Further analysis found that Troy and Montgomery students were most dissatisfied with Parking Facilities. Table 10 shows mean ratings and counts on each of the areas related to *Student Services*. Further studies may be needed before actions are taken for improvement.

- Student perceptions about Troy University (Report 4 – Q31)

In this section, ten statements regarding the University in a broad sense were provided for the students to rate their agreement on a scale with 1 being Strongly Disagree and 5 being Strongly Agree. As indicated in Table 11 (derived from Report 4), over 84% of the students “Agree” or “Strongly Agree” with the first 4 statements, indicating strong satisfaction with the academic programs and confirming the findings in Table 3 above (derived from Report 2).

The lowest ratings in this section were “The University faculty were helpful with my career plan” (57% Agree/Strongly Agree; M=3.57) and “Troy University is responsive to the needs of its students” (66% Agree/Strongly Agree; M=3.72). Course offerings and student intellectual caliber were rated low as well.

The following table (Table 12) shows a breakdown by campus for *Student Perceptions*.

- Overall ratings of Troy University (Report 5 – Q39)

Students were asked to rate their Troy preparation for employment and further education as well as to give an overall rating of their college experiences at Troy University. About three fourths of the students gave a positive rating to their overall college experiences at Troy University, with an mean rating of 4.03 on a scale of 1 to 5, while 66% and 74% of the respondents gave a rating of either “Excellent” or “Good” to their Troy preparation for employment and for further education, with a mean = 3.80 and 3.97 respectively.

Recommendation of Troy University (Report 6 – IF YOU WERE STARTING OVER, WOULD YOU ENROLL IN THE SAME PROGRAM?-WOULD YOU RECOMMEND TROY UNIVERSITY TO SOMEONE PLANNING TO GO TO COLLEGE?)

Important satisfaction indicators used by colleges and universities include whether students would re-enroll in the university, re-enroll in the same academic program, and recommend their university to others. The most important finding, which indicates student satisfaction with Troy University and academic programs, is that about 90% of the respondents would recommend Troy University and their academic programs.

## READING HABITS

As a measurement of the Quality Enhancement Plan of Troy University graduate students were asked to report factors about their reading habits. Students were asked about the degree to which their involvement in reading has: (1) Enhanced their ability to understand connections between the various materials they read, and (2) Enhanced their awareness of other people's political and social view points.

Regarding the types of literature read by graduate students, the top four types of literature that graduate students reported reading were: (1) books assigned for class, (2) books read outside of class for pleasure, (3) newspapers, and (4) online websites. Comic books and magazines about video games were reported as the least frequently read type of literature. Table 19 indicates the percentages of graduate students who reported reading each type of literature.

Most graduate students (54%) indicated that they do not have much time to read for pleasure, but they like to read when they get a chance. The most commonly cited reason (37%) for reading was to learn things on their own. Most students (81%) considered their reading level to be "advanced" or "above average." Not including school assignments about one-third of students reported reading less than one book per month and about one third of students reported discussing books with others only a few times per year. Additional data regarding readings habits is included in the appendix of this report.

## Troy University Fall 2009 New Student Survey Report

### Executive Summary

As an annual institutional effectiveness effort, the Office of Institutional Research, Planning, and Effectiveness (IRPE) conducted the *New Student Survey* in fall 2009. This was the fifth time that this survey has been conducted. The purpose of the *survey* was to identify the satisfaction of the fall 2009 new students with their experiences at Troy University and to determine how well the University served their needs as new students.

The *Survey* was administered through an online survey program. The target population was the new students who enrolled at the University for the first time in fall 2009. On September 10, 2009 the online survey was distributed via email to the group of 5,692 students who enrolled for the first time during the fall semester. After two follow up emails on September 22, 2009 and October 6, 2009, and a total of 1,789 responses were received, representing a 31% response rate. This is up from a response rate of 21% the prior year.

The descriptive method of data analysis was used to identify the areas with which students were most and least satisfied, based on campuses, colleges, and academic levels. Comparative analyses were also conducted to determine if significant differences existed in student satisfaction based on gender, ethnicity, age, and selection of Troy University as first choice. The major findings are reported in "Highlights of the Findings," and more detailed information, including frequencies of the responses, mean comparisons, demographic information and other related information can be found in the appendices.

### Highlights of the Findings

#### Demographic Information:

The majority of the respondents were female (73%), white (50%), and non-traditional students (25 years or older) (67%). This distribution reflected the distribution of the new students in Fall 2009; however, because the TROY campuses serve different types of students (Troy serves traditional students and other campuses serve predominantly non-traditional students), the generalization of survey findings should be made with caution. It should also be noted that 40% of the respondents to this survey were eCampus students followed by the Troy Campus at 23%, Global Campus at 15% and each of the Alabama campuses with less than 10% of the total respondents to this survey.

Of all the respondents, 67% were undergraduate students (30% first-time freshmen, 38% transfer students, and 2% transient students) and 33% were graduate students (22% new graduate students, 3% transfer, and 1% transient). Overall, 30% were business majors, 30% were Arts & Sciences students, 21% were College of Education students, 13% were Health and Human Services students, and 3% were Communication and Fine Arts students.

College Choice and reason for choosing Troy University:

Of all the new students who responded to the survey, 72% selected Troy University as first choice when applying for college admission and 21% had Troy University as their second choice. The most common reasons why new students selected Troy University was its location (57%) and good academic reputation (56%). Other common reasons included flexibility of schedule (53%) and affordability (48%). Additionally, approximately 46% of the respondents had visited the Troy campuses before they enrolled at Troy University.

Student Satisfaction - Strengths

As indicated in Appendix 1, overall, new students were satisfied with their experiences at Troy University. The majority of the students (86%) agreed or strongly agreed that they were receiving a quality education at Troy University; 85% indicated that they would recommend Troy University to a friend; and 83% responded that the semester/term format implemented at Troy University accommodated their learning.

Among the top items ranked by agreement level were “Troy University has a good reputation in my community” (83%), “The printed Schedule of Classes is informative and easy to follow” (82%), “Classes are offered at convenient times” (81%), “Troy personnel are knowledgeable and helpful” (81%),

“Registration dates, times, and procedures were made clear to me” (79%), “The classes I attend are well organized and well taught” (79%), and “The online Schedule of Classes is informative and easy to follow” (79%).

### Student Satisfaction – Weaknesses

Based on the student agreement levels, the survey identified some areas of weakness. These include the campus housing meeting expectations when needed, students getting the “run around” when seeking information, availability of student organizations, sufficiency of tutorial services, and the on-campus bookstore hours. In particular, 22% of the respondents disagreed that “Students seldom get the ‘run around’ when seeking information” (17% were neutral; and 59% agreed). These items were also rated low or ranked at the bottom in most locations and colleges. Other areas, such as the registration process, academic advising, and class times, were in need of improvement on some campuses. Special attention should be directed to these items and plans to improve should be developed and implemented. (See reports in Appendixes 1 – 12.)

### Comparison

Group means for students with different characteristics were compared to identify possible significant differences in student satisfaction for these groups. The analyses found that the satisfaction means for males and females were significantly different with males more satisfied for:

- Troy personnel are knowledgeable and helpful.
- Academic advising is adequate.
- Class information provided prior to enrollment was helpful.
- Registration dates, times and procedures were made clear to me prior to enrollment.
- Students seldom get the “run around” when seeking information.
- Class drop/add procedures are appropriate
- The University offers a variety of majors at my location.
- The University has a good reputation in my community.

(See Appendix 17)

Furthermore, the satisfaction means for students of Other Minorities/Blacks and Whites were significantly different, with Whites more satisfied for:

- Troy personnel are knowledgeable and helpful.
- Faculty care about students as individuals.
- I feel I can talk to faculty about my academic concerns.
- The University offers a variety of majors at my location.
- Student organizations are available for my participation.
- The semester/term format at my location accommodates by learning.
- Troy University has a good reputation in my community.

Additionally, the satisfaction means for non-traditional students (aged 25 or older) and traditional students (under age 25) were significantly different with traditional students more satisfied for:

- Troy personnel are knowledgeable and helpful.
- Faculty care about students as individuals.
- I feel I can talk to faculty about my academic concerns.
- Academic advising is adequate.
- The online registration process is user-friendly.
- Tutorial services are sufficient.
- On-campus bookstore hours are convenient for students.
- Student organizations are available for my participation.

Non-traditional students were more satisfied for:

- The tuition payment plan is beneficial for students.
- Registration dates, times, and procedures were made clear to me prior to enrollment.
- Students seldom get the “run around” when seeking information.
- Classes are offered at convenient times.
- The semester/term format at my location accommodates my learning.
- Troy University has a good reputation in my community.
- I am receiving a quality education at Troy University.
- Campus housing met my expectations upon arriving to campus.

Further analysis found that the satisfaction means for students who selected Troy University as their first choice were significantly different than the means of students who did not select Troy as their first choice for:

- Class information provided to me prior to enrollment was helpful.
- Purchasing textbooks through the Troy University bookstore is convenient.

Learning about Troy University: 48% of the new students indicated that they learned about Troy University through “Word of Mouth” (Question 12) while 55% learned about the registration dates and times via “Internet” (Question 13). (See Appendix 28)

Best way to advertise Troy University: 46% of the new students thought that “Word of Mouth” was the best way to advertise Troy University and 30% indicated that the best way was through “Internet” (Question 14). (See Appendix 28)

New Student Description of Troy University: 66% of the new students described Troy University as “Convenient,” 47% thought it was of a “Good Value for the price,” 44% considered it to be academically challenging, and 45% believed that the staff of the University were “Friendly” (Question 15). (Appendix 28)

## A Culture of Reading

Troy University is committed to fostering a culture of reading among its students. The Quality Enhancement Plan (QEP) of Troy University focuses on strengthening student literacy and learning by setting high expectations for reading and by supporting new initiatives that will enable students to become better readers. Detailed results of these questions are presented in Appendix 28.

**Frequency of reading:** When asked about their general frequency of reading, most students (52.1%) reported that “I don’t have much time to read for pleasure, but I like to when I get the chance.” However, 30.6% of students reported, “I read constantly for my own personal satisfaction, and I love it.” 15.0 percent of new students reported that “I only read what I am supposed to for school.” Only 2.3% of new students reported that “I basically don’t read books much at all.”

**Reason for reading:** The most frequently reported reason for reading (37%) was “Just for the pleasure of it.” 30% responded, “To learn new things on my own.” 26.8% of survey respondents reported that they read “Because I have to for school.” Less than 4% reported that they read for the following reasons: “I don’t really read much.” 2.6%, and “Because I get bored and have nothing else to do.” (2.1%). Only .3% (less than half of one percent) of new students reported that they read “Because my parents encourage me to.”

**Reading ability:** Almost all (98.3%) of new students reported that their reading level is Average (29.3%), Above Average (43.6%) or Advanced (25.4%). Less than three percent of new students reported that their reading ability is below average (1.4%) or Poor (.2%).

**Reading materials:** New students were asked what types of reading materials they read. The five most common responses were: Books assigned for class (90.9%), Books I read outside of class for pleasure (71.2%), Newspapers (67.2%), Online websites or webzines (59.5%), and Cereal boxes, instructional pamphlets and other product packaging (47.4%). The five types of resources which the lowest percentage of new students reported reading were: Magazines about video games (9.3%), Comic books or graphic novels (12.1%), Sports magazines (19.8%), Puzzles/Games/Humor magazines (22%) and Computer manuals or other electronic equipment manuals (21.6%).

**Volume of reading:** New students were asked “Not including school assignments, how much do you read?” Two responses both received 28.7 percent of responses – “Under one book per month,” and “One book per month.” 21.1% reported reading “2-3 books per month.” 8.5% of new students reported reading three or more books per month while 7.5% reported that outside of school assignments they do not read at all.

**Preferred genre:** New students were asked to report what types of books they like to read for pleasure. The five most common answers were: True stories (53.7%), Romance (41.5%), Biography/Autobiography (38.8%), Mystery (36.9%), and Adventure (36.9%). The five least favored types were: Sports (14.3%), Horror (16.8%), Science Fiction (17.3%), Books about hobbies or collecting (17.7%), and Factual books, like a book about dinosaurs or space (17.7%).

**Characters:** New students were asked which characters/people they liked to read about. The five most common answers were: Historical figures (43.4%), People or characters who are a lot different than me (41.0%), People or characters my age who have done some cool or amazing thing (38.6%), People or characters who are a lot like me (36.8%), People or characters my age wrestling with tough issues like crime, drug abuse or poverty (35.4%), and Celebrities (33.4%). The five least most common characters were: Sports figures (15.2%), Animals (18%), Fantasy characters – like super heroes, people from other worlds, or future (22.9%), Musicians (20.2%), and Characters from movies or television shows (26.4%).

**Discussing reading:** New students were asked to report how often they discuss books with others. The following percentages were reported: Daily (9%), Weekly (23%), Monthly (20.7%), A few times per year (29.4%), Once per year (5.1%) and Never (12.8%).

## 2010 Troy University Student Satisfaction Inventory

### Executive Summary

As an institutional effectiveness effort, the Office of Institutional Research, Planning, and Effectiveness (IRPE) contracted with a third party research firm, Noel Levitz, to conduct the 2010 Student Satisfaction Inventory. The Student Satisfaction Inventory is a nationally validated survey. The Noel-Levitz Satisfaction-Priorities Surveys have been taken by more than 3,000,000 students at 2,100 campuses. The benefit of partnering with Noel Levitz in the administration of the survey is that the results provide comparative data on the degree to which Troy University students are satisfied compared to the satisfaction levels of adult students at other institutions of higher education. The 2010 Student Satisfaction Inventory was administered to students on the Troy Campus who were 22 years of age or younger.

**In 59 of the 73 items (81%) measured by the survey Troy University students had higher satisfaction ratings than the national averages.**

Results from this survey are extremely encouraging because they document the fact that traditional aged students at Troy University are very pleased with their experiences as a student. In 59 of the 73 items measured by the survey Troy University students had higher satisfaction ratings than the national averages.

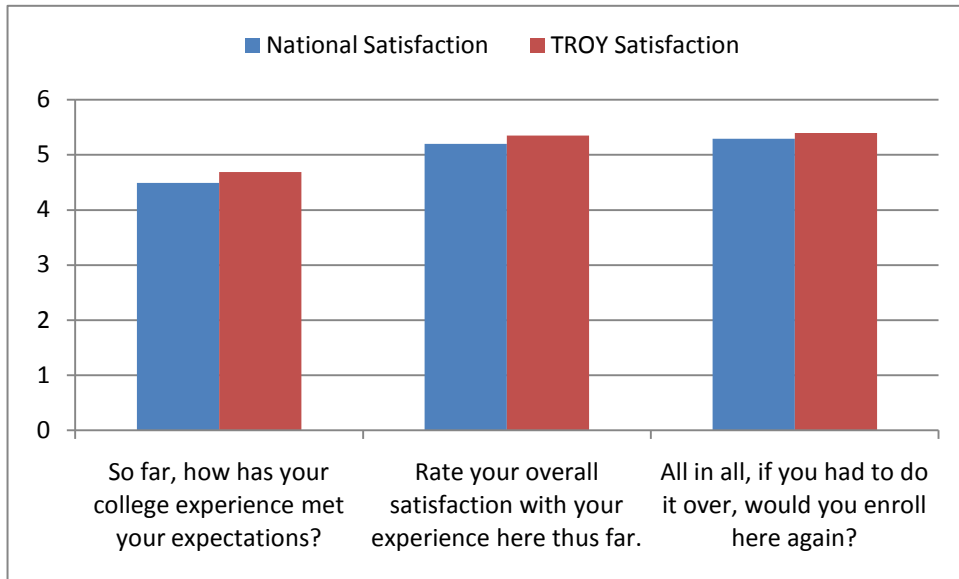

As is illustrated in Chart 1, in all 12 scales measured by the Adult Student Priorities Survey, Troy University students reported higher rates of satisfaction than the national averages. The scale on which the greatest difference existed between Troy University students and the national average was Responsiveness to Diverse Populations. The national group means are based on 84,638 records. The differences in Troy and national means was statistically significant at the .001 level on 6 of the 12 scales.

Chart 1

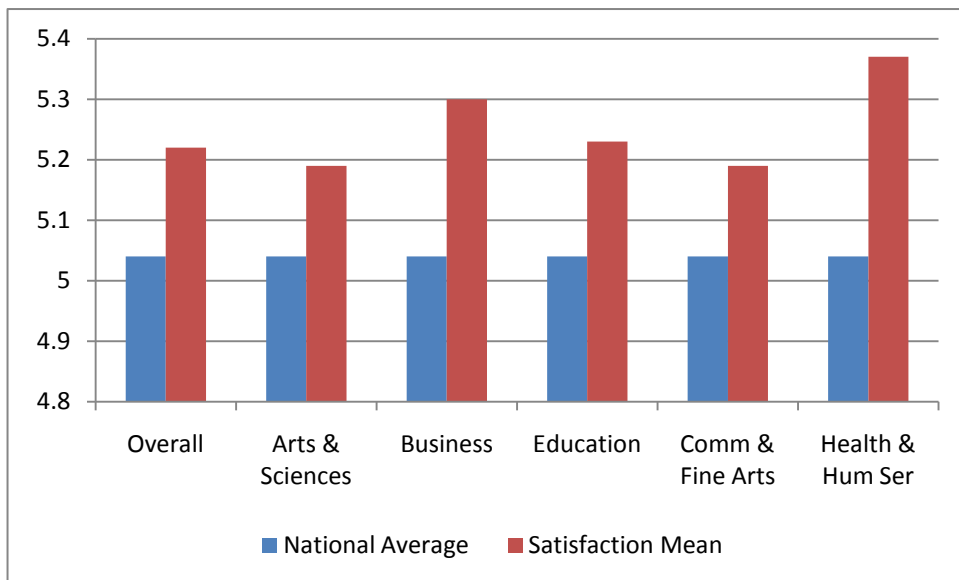

As is illustrated in Chart 2, the survey asked three general satisfaction questions and the mean of the responses from TROY students on each of these questions was higher than the national averages.

Chart 2

An average of the means of the satisfaction measures for the twelve scales on the survey was calculated for each college. As is shown in chart three below, the overall satisfaction mean for each college was higher than the national average.

Chart 3

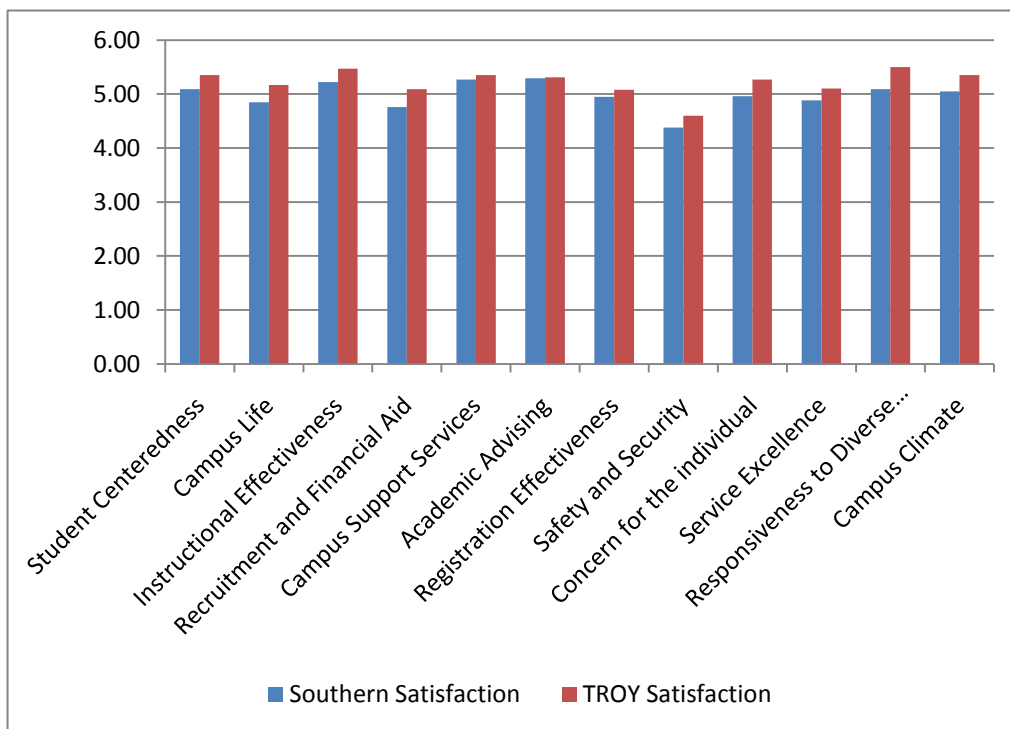

## Regional Comparison

A comparison was made between the satisfaction measures reported by traditional age college students at Troy University and similar students at other schools located in the southern states. The states included in the Southern comparison group are: Virginia, West Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas, Oklahoma, Texas.

Results from this comparison are even more encouraging because they document the fact that traditional aged students at Troy University are very pleased with their experiences as a student. In 62 of the 73 items measured by the survey Troy University students had higher satisfaction ratings than the national averages.

As is illustrated in Chart 4, in all 12 scales measured by the Adult Student Priorities Survey, Troy University students reported higher rates of satisfaction than the southern averages. The scale on which the greatest difference existed between Troy University students and the southern average was Responsiveness to Diverse Populations. The differences in Troy and Southern means was statistically significant at the .001 level on 8 of the 12 scales.

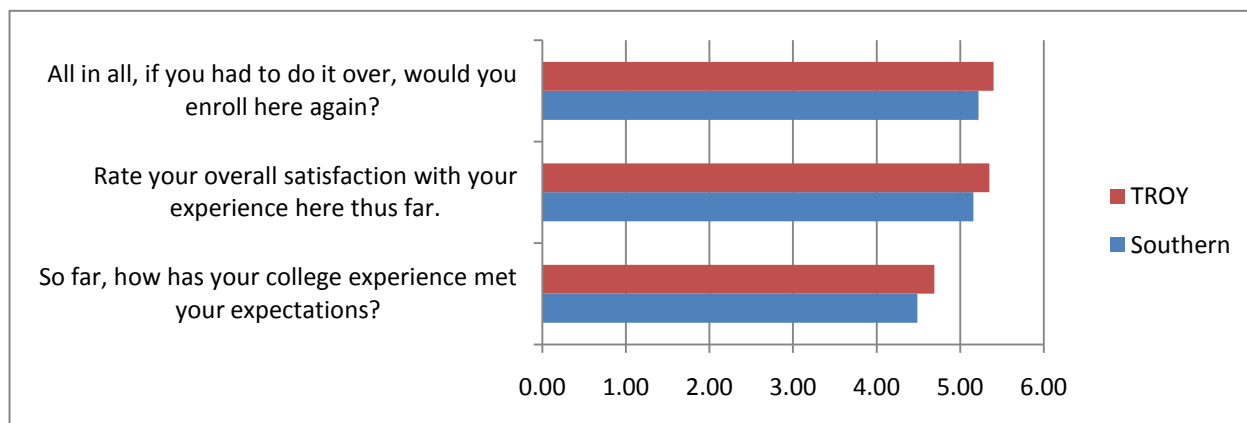

Chart 4

As is illustrated in Chart 5, the survey asked three general satisfaction questions and the mean of the responses from TROY students on each of these questions was higher than the national averages.

### Item Structure on the Adult Student Priority Survey

There are 73 standard items rated for importance and satisfaction on the Student Satisfaction Inventory. The survey includes nine items that assess pre-enrollment factors. These items only ask for an importance rating and do not include satisfaction or performance gap scores. Three summary items are included the survey. There are 13 standard demographic items on the Student Satisfaction Inventory.

The items on the Student Satisfaction Inventory have been analyzed statistically and conceptually to form comprehensive scales. Note that some items appear on more than one scale. A description of the scales follows.

### Description of Scales

**Academic Advising:** assesses the comprehensiveness of your academic advising program. Academic advisors (and counselors) are evaluated on the basis of their knowledge, competence, and personal concern for student success, as well as on their approachability.

**Campus Climate:** assesses the extent to which your institution provides experiences that promote a sense of campus pride and feelings of belonging. This scale also assess the effectiveness of your institution's channels of communication for students.

**Campus Life:** assesses the effectiveness of student life programs offered by your institution, covering issues ranging from athletics to residence life. This scale also assesses campus policies and procedures to determine students' perception of their rights and responsibilities.

**Campus Support Services:** assess the quality of your support programs and services which students utilize to make their educational experiences more meaningful and productive. This scale covers a

variety of areas.

**Concern for the Individual:** assesses your institution's commitment to treating each student as an individual. Those groups who frequently deal with students on a personal level (e.g., faculty, advisors, etc.) are included in this assessment.

**Instructional Effectiveness:** assesses your students' academic experience, the curriculum, and the campus's overriding commitment to academic excellence. This comprehensive scale covers areas such as the effectiveness of your faculty in and out of the classroom, content of the courses, and sufficient course offerings.

**Recruitment and Financial Aid Effectiveness:** assesses your institution's ability to enroll students in an effective manner. This scale covers issues such as competence and knowledge of admissions counselors, as well as the effectiveness and availability of financial aid programs.

**Registration Effectiveness:** assesses issues associated with registration and billing. This scale also measures your institution's commitment to making this process as smooth and effective as possible.

**Responsiveness to Diverse Populations:** assesses your institution's commitment to specific groups of students enrolled at your institution, e.g., under-represented populations; students with disabilities; commuters; part-time students; and older, returning learners.

**Safety and Security:** assesses your institution's responsiveness to students' personal safety and security on your campus. This scale measures the effectiveness of both security personnel and campus facilities.

**Service Excellence:** assesses the perceived attitude of your staff, especially front-line staff, toward students. This scale pinpoints the areas of your campus where quality service and personal concern for students are rated most and least favorably.

**Student Centeredness:** assesses your campus's efforts to convey to students that they are important to your institution. This scale measures the extent to which students feel welcome and valued.

## Demographic Variables

The Student Satisfaction Inventory includes the following thirteen demographic variables: gender, age, ethnicity, enrollment status, class load, class level, GPA, educational goal, employment, residence, classification, disabilities, and choice of institution.

In addition to these demographic variables we were able to numerically code each degree program so that the data could be sorted by degree program and college.

## Reliability and Validity

The Adult Student Priorities Survey has high reliability. Cronbach's coefficient alpha for the importance score was .97 and .98 for the satisfaction items. It also demonstrates good score reliability over time; the three-week, test-retest reliability coefficient is .85 for importance scores and .84 for

satisfaction scores.

### Administration of the Survey

In March of 2010 the Office of Institutional Research, Planning and Effectiveness requested that the Office of Information Technology identify all students on the Troy Campus who were 22 years old or younger. Of the 4569 invitation to participate emails distributed, 327 students participated in the study for a 7% response rate. Three invitations to participate emails were sent. The graphic below illustrates survey participation by date.

Completed Surveys	327	7%
Incomplete Surveys	4242	93%
Out of a possible	4569	100%
Opt Outs	0	0%

### Participation by College

Students from each of the five colleges within Troy University participated in the survey with participation by college being roughly parallel to the enrollment in each college. Arts and Sciences, N=98, 33%; Business, N=62, 21%, Communication and Fine Arts, N=43, 14%, Education, N=52, 17%, Health and Human Services, N=46, 15%.

Based on the comparing responses from adult students at Troy University to adult students at other universities, the following survey items were classified as strengths or challenges for Troy University.

<b>Strengths and Challenges</b>
<b>Strengths</b>
7. The campus is safe and secure for all students.
16. The instruction in my major field is excellent.
33. My academic advisor is knowledgeable about requirements in my major.
8. The content of the courses within my major is valuable.
68. Nearly all of the faculty are knowledgeable in their field.
39. I am able to experience intellectual growth here.
69. There is a good variety of courses provided on this campus.
29. It is an enjoyable experience to be a student on this campus.
65. Faculty are usually available after class and during office hours.
41. There is a commitment to academic excellence on this campus.
45. Students are made to feel welcome on this campus.
72. On the whole, the campus is well-maintained.
<b>Challenges</b>
34. I am able to register for classes I need with few conflicts.
17. Adequate financial aid is available for most students.
25. Faculty are fair and unbiased in their treatment of individual students.
5. Financial aid counselors are helpful.
57. I seldom get the "run-around" when seeking information on this campus.
23. Living conditions in the residence halls are comfortable (adequate space, lighting, heat, air, etc.)
4. Admissions staff are knowledgeable.
12. Financial aid awards are announced to students in time to be helpful in college planning.
21. The amount of student parking space on campus is adequate.
73. Student activities fees are put to good use.
28. Parking lots are well-lighted and secure.
53. Faculty take into consideration student differences as they teach a course.
<b>Benchmarks</b>
<b>Higher Satisfaction vs. National Four-Year Publics</b>
7. The campus is safe and secure for all students.
16. The instruction in my major field is excellent.
8. The content of the courses within my major is valuable.
17. Adequate financial aid is available for most students.
58. The quality of instruction I receive in most of my classes is excellent.
39. I am able to experience intellectual growth here.
36. Security staff respond quickly in emergencies.
66. Tuition paid is a worthwhile investment.
69. There is a good variety of courses provided on this campus.
29. It is an enjoyable experience to be a student on this campus.
59. This institution shows concern for students as individuals.
41. There is a commitment to academic excellence on this campus.
23. Living conditions in the residence halls are comfortable (adequate space, lighting, heat, air, etc.)
47. Faculty provide timely feedback about student progress in a course.
45. Students are made to feel welcome on this campus.
72. On the whole, the campus is well-maintained.

15. The staff in the health services area are competent.
35. The assessment and course placement procedures are reasonable.
<b>Lower Satisfaction vs. National Four-Year Publics</b>
21. The amount of student parking space on campus is adequate.
<b>Higher Importance vs. National Four-Year Publics</b>
7. The campus is safe and secure for all students.
17. Adequate financial aid is available for most students.
36. Security staff respond quickly in emergencies.
14. My academic advisor is concerned about my success as an individual.
5. Financial aid counselors are helpful.
59. This institution shows concern for students as individuals.
57. I seldom get the "run-around" when seeking information on this campus.
23. Living conditions in the residence halls are comfortable (adequate space, lighting, heat, air, etc.)
4. Admissions staff are knowledgeable.
73. Student activities fees are put to good use.
27. The personnel involved in registration are helpful.
15. The staff in the health services area are competent.

### Overall Survey Results by Scale

The table below presents a comparison of responses from traditional age students at Troy University to the national averages of traditional aged students at other colleges and universities. The column labeled "Import" is the mean of the importance measure. The column labeled "Satis" is the satisfaction measure. "SD" is an abbreviation of the standard deviation and applies to the satisfaction measure. The column labeled "Gap" is the gap or the difference in the importance and satisfaction means. The column labeled "Mean Difference" is the difference in the means between Troy University students and the national averages. A higher mean indicates a more desired result as is illustrated in the scales below.

For importance scores, the values are as follows:

- 1 - not important at all
- 2 - not very important
- 3 - somewhat unimportant
- 4 – neutral
- 5 - somewhat important
- 6 – important
- 7 - very important
- 0 - does not apply

For satisfaction scores, the values are as follows:

- 1 - not satisfied at all  
 2 - not very satisfied  
 3 - somewhat dissatisfied  
 4 – neutral  
 5 - somewhat satisfied  
 6 – satisfied  
 7 - very satisfied  
 0 - not available / not used

The asterisks in the mean difference column indicate statistical significance. The key is as follows:

\* Difference statistically significant at the .05 level

\*\* Difference statistically significant at the .01 level

\*\*\* Difference statistically significant at the .001 level

## Troy University 2009 Alumni Survey Report: Executive Summary

As an annual institutional effectiveness effort, the Troy University Institutional Research, Planning, and Effectiveness (IRPE) Office conducted an alumni survey in summer 2009. The purpose of the survey was to determine the outcomes of Troy University education by examining the employment information of TROY graduates and their satisfaction with the educational experiences at Troy University. Additionally, the survey attempted to establish contact between Troy University and students who graduated from the University.

On July 8, 2009, the survey was first sent out to 13,479 alumni who graduated during the years 2003 and 2008 from the different campuses of Troy University. 12,811 persons were identified through a query of Datatel for persons graduating in years 2003 or 2008. In addition to the Datatel query, 668 non @troy.edu email addresses were identified by the Alumni Affairs Office as persons graduating in these two years. Reminder emails to non-respondents were sent on July 22<sup>nd</sup>, August 5<sup>th</sup> and August 17<sup>th</sup>. Since the @troy.edu email address for some of these alumni had not been used in a long period of time, a large number of the emails bounced – 10,391. Subtracting the bounced emails that were never delivered, the total number of valid invitation to participate emails was 3088. 577 persons opened the invitation to participate email. The survey was closed on August 31, 2009 with a total participation of 390. Of the valid (non-bounced) emails this is a participation rate of 13%. A response rate of 13% had also been achieved in the 2008 New Student Survey.

In prior years this survey had been administered to alumni across a five year period, but in 2008 the decision was made to administer the survey only to alumni one year and five years out from graduation. In prior years a hard copy invitation to participate was mailed to Alumni. Due to budget constraints this survey was administered totally electronically in 2009.

Respondents: Of the 390 respondents, the majority were females (N=265, 68.8%) and White (N=193, 50.7%). While 70% (N=268) of the respondents enrolled primarily full-time when attending Troy University, over half of the graduate students (60.7%) completed their degree programs between 1-2 years and 75.5% of the undergraduate students finished their studies in 2-4 years. About one-quarter (26.9%) of the respondents were alumni five years out and three-quarters (73.1%) graduated one year prior. Furthermore, of the five campuses, Troy and University College graduated most of the respondents, 21.8% and 44.8% respectively, with eCampus providing 24.1% of the respondents and The Southeast Region 15%. While the respondents graduated from over 50 different programs, the two most common degree programs were the Criminal Justice (N = 27) and Psychology (N = 24). 43.6% of the respondents graduated with a Master's degree, 48.3% with a Bachelor's degree, and a small percentage completed their programs with an Education Specialist degree (.5%) or an Associate degree (7.6%).

### Highlights of the Findings

Overall, the TROY alumni who participated in the survey held their Troy University education in high regard and were satisfied with their experiences at the University. The highlights of the survey findings are as follows:

1. 93% of the Troy University alumni indicated that they would recommend Troy University to a potential student.
2. 84% of the alumni would choose Troy University again if they could start all over. However, only about two thirds (68%) would choose the same majors again.
3. Only 56% of alumni surveyed believed that their Troy University degrees had helped increase their job security. This is down from 70% the prior year. This may be an indicator of the impact of the current economic situation.
4. Around 55% of the alumni indicated that their Troy University degrees had helped them advance in their careers. This was down from 65% the prior year. Of all those who had advanced their careers as a result of their Troy University degrees, 24% had a salary increase, 14% got a promotion, 35% got both a salary increase and a promotion, and the other 26% indicated that they had got other advancement.
5. About 81% of the alumni indicated that their Troy University education had improved the quality of their life.
6. 91% percent of the Troy University alumni were currently employed, mostly working full-time. This was down from 94% the prior year.
7. Upon graduation, about 90% of Health and Human Services majors obtained their first full-time employment within 6 months of graduation and it took alumni with graduate degrees less time to get their first full-time jobs upon or even before graduation.
8. About 80% of the alumni were currently working in jobs related to their major fields of study at Troy University, with 44% being directly related and 35% somewhat related. It is especially true for females and White, Education majors, and alumni with graduate degrees. Additionally, 50% or less of the graduates from Montgomery, Troy and eCampus were working in fields directly related to their majors.
9. Around 75% of the alumni currently employed indicated that Troy University had prepared them "Very well" or "Well" for their current employment.
10. Sixty-two percent (62%) of the alumni continued to attend graduate school, professional school, or other educational programs after they graduated from Troy University. Most of them (75%) rated their TROY preparation for further/advanced education as "Very Well" or "Well."
11. The majority of the alumni were currently making between \$30,000 and \$60,000 annually, while only about 25% were making less than \$30,000 and 18% earned \$60,000 or more a year. This was down from 32% the prior year. Gender and degrees had substantial impact on the annual income of the alumni - males and alumni with graduate degrees making more than their counterparts.
12. According to the findings, approximately two-thirds of the Troy University alumni had their annual income higher than the average personal income in Alabama, which was \$29,623 in 2005 and \$31,295 in 2006 and \$32,401 in 2007 and 33,643 in 2008; and also about two-thirds had their annual income higher than the national average, \$34,471 in 2005 and \$36,276 in 2006 and \$38,564 in 2007.
13. Educational institutions and government agencies were the two major employers of TROY graduates. About 26% of the alumni worked with schools or school district offices, and local, state, and federal governments hired about 20% of our students.

14. On a scale of 1 – 4 with 4 being high and 1 being low the mean ratings for student services were around 2.0 for all campuses and the ratings for educational experiences were at or above 3.0 for all campuses.
15. Troy University alumni thought highly of their “Educational experiences” at the University. A mean of 3.04 on a scale of 1 to 4 with four being “Excellent” was reported by the alumni who rated their educational experiences either “Excellent” or “Good.” This factor has been a strength of the University.
16. Troy University did an adequate job in assisting students in the development of practical knowledge, skills, and abilities, specifically in writing competency, critical and creative thinking skills, oral communication skills, problem-solving skills, reading comprehension, listening skills, and ability to work with others. College of Education alumni seemed to be more satisfied with their practical knowledge, skills, and abilities development, while Global Campus and eCampus alumni gave the lowest ratings in these areas.
17. “Basic knowledge, concepts, and skills” and “Student services” were the two major weaknesses of the University. eCampus, and University College alumni thought lowest of their development in basic knowledge, concepts, and skills.
18. In spite of the weaknesses, improvement was witnessed in some of the service areas over the years. Strong improvement has been shown in computer services which ranked the highest at 83.5% of alumni reporting the factor as “Excellent” or “Good.” Library services also scored high with 81.3%. Career Services rated the lowest at 58.6%.
19. Compared to graduate degree holders, alumni with undergraduate degrees had better opinions of and were more satisfied with their “Practical skills and abilities.”
20. 68% of the survey respondents showed their interest in a doctoral program if Troy University could offer it.
21. Twenty-seven percent of the alumni wished to be contacted by the Troy University Alumni Association.
22. “Troy University Magazine” is the information alumni would like most to receive.
23. “Taking classes for more credits” and “Educational sessions/lecture series” were the most important reasons that TROY graduates may return to Troy University.
24. Substantial improvement has been noted in the area of “Global cultural differences and diversity” over a five year time period with the percentage of alumni reporting “Very Much” or “Quite A Bit” increasing seven percentage points from 63.5% to 70%.
25. Educational experiences: The alumni rated their educational (academic) experiences at Troy University as the best, with an overall average rating of 3.04, in a 4-point scale with 4 = “Excellent” and 1 = “Poor.” Except “Academic advising/counseling” 84% or more of the alumni gave a rating of “Excellent” or “Good” to the areas relating their educational or academic experiences:
  - Class size (94.1%)
  - Professors (90.9%)
  - Academic/educational experiences (90.1%)
  - Courses (89.0%)
  - Quality of instruction (88.0%)
  - Grading procedures (86.7%)
  - Availability of classes (84.0%)

“Social experiences” was also categorized under “Educational experiences” and 77.5% of the alumni rated it “Excellent” or “Good.” “Academic advising/counseling” was rated the lowest in this category, where 62.4% of the alumni thought it was “Excellent” or “Good.”

26. Student services: Student services had an overall average rating of 1.79, in the same 4-point scale with 4 = “Excellent” and 1 = “Poor.” 11 areas were measured under this category, with “Computer services,” “Instructional support services,” “Business office services” and “Library services” being rated the highest, receiving the ratings of “Excellent” or “Good” from 73% or more of the respondents:

- Computer services (83.5%)
- Library services (81.3%)
- Instructional support services (77.8%)
- Dining facilities (75.0%)
- On-campus residence halls/apartments (75.0%)
- Business Office services (71.8%)
- Financial aid services (71.6%)
- Health services (71.1%)
- Recreational/intramural activities (66.5%)
- Personal counseling services (64.0%)
- Career services (58.6%)

Attention should be drawn to the last three items “Career services” and “Personal counseling services.” Respectively 41% and 36% of the alumni that used the services rated “Career services” and “Personal counseling services” as “Fair” or “Poor.”

27. Practical knowledge, skills, and abilities: Around 70% of the alumni agreed that the Troy University education had added “Very Much” or “Quite a Bit” to their practical knowledge, skills, and abilities, which had an overall average rating of 2.65, in a 4-point scale with 4 = “Very Much” and 1 = “Very Little.” Though moderately rated, the highest ratings in this category are “Writing competency” and “Critical and Creative Thinking skills,” as illustrated below:

- Critical and creative thinking skills (81%)
- Writing competency (80%)
- Problem solving skills (77%)
- Reading comprehension (76%)
- Oral communication (73%)
- Ability to work with others (73%)
- Ability to adjust to new job demands and situations (72%)
- Listening skills (72%)
- Planning and project management (71%)
- Understanding global cultural differences and diversity (70%)
- Leadership skills (69%)

The lowest rating under this category is “Leadership Skills.” Around 30% of the respondents thought their Troy University did not do enough to help them develop in this area.

28. Basic knowledge, concepts, and skills: Basic knowledge, concepts, and skills had an overall average rating of 2.94 in the same 4-point scale with 4 = “Very Much” and 1 = “Very Little.” Five areas were measured under this category and only 57-66% of the respondents thought Troy University education had added “Very Much” or “Quite a Bit” to their development in these 5 areas:

- Multi-media presentation skills (66.8%)
- Information technology/computer skills (65.4%)
- Scientific principles and methods (61.7%)
- Mathematical skills and concepts (55.2%)
- Understanding and appreciating the arts (57.2%)

Special attention should be directed to the ratings on the last 2 areas in the list: just below 50% of the respondents thought that Troy University education had added “Very Little” or “Some” to their “understanding and appreciating the arts,” and “mathematical skills and concepts.’
