Troy University 2007-08 Graduating Student Survey Report

Executive Summary

As an annual effort of institutional effectiveness, Troy University Office of Institutional Research, Planning, and Effectiveness conducted the *Troy University Graduating Student Survey* on all campuses of the University in Fall 2007 through Spring 2008**.** The purpose of this survey is to identify student satisfaction with their experiences at Troy University, recognize student developments as a result of Troy education, and find out areas that need to be improved. Data collected in this survey are used to help the University strengthen its academic programs, better serve the needs of its students, and become more effective and efficient in accomplishing its mission and goals.

Two important notes regarding the 2007 – 2008 Graduating Student Survey Report

1. In preceding years this survey was conducted after three terms within an academic year (fall, spring and summer). However, this year in an effort to provide data to the leadership prior to the beginning of the fall term, the data was analyzed after the end of the spring term.
2. Due to an administrative error, there was basically no data gathered from the Dothan Campus (N = 4) for this report.

On a continuous basis, data for the *Graduating Student Survey* is collected using an online survey program. The survey can be accessed either through a survey link sent to the students via email or from the IRPE website. The results are now reported annually after spring data collection is completed.

The questionnaire for the survey contained 33 questions. The first 22 questions ask for information regarding students' demographics, academics, employment, and financial aid. Question 32 is seeking information regarding student involvement in student organizations or social activities and Question 33 is encouraging respondents to give additional comments on the University. Questions 23 – 31 of the survey, with a high reliability, focus on measuring students' perceptions about and satisfaction with their Troy experiences.

For data analysis, descriptive methods were used for the overall University as well as for each individual campus and college. Questions 23 to 31 were tabulated and items were presented in a cross tabulation by campus so that comparison, if necessary, could be made between campuses or between campus and the overall university. Questions 23, 24, and 25, which contain measures in 60 areas, are analyzed based on the factors defined from the same measures in the previous survey. Importantly, comparison was made between academic years 05-06, 06-07, and 07-08 responses to identify any possible improvement, as well as between campuses to explore in detail areas where improvement efforts can be focused. In the end, frequency tables for all survey questions were provided as appendices for the overall responses as well as for each of the campuses and colleges.

Major Findings

The *Troy University Graduating Student Survey 2007 – 08* started in Fall 2007 and continued through Spring 2008. During this time, students who intended to graduate in Fall 2007 and Spring 2008 were emailed the link to the survey by term of graduation (three times). By the time data collection was closed in the middle of June 2008, 1,340 responses were received. The characteristics of the survey respondents were determined to be similar to those of the total graduates of the year although some variation existed. Therefore, the responses to the survey could be considered representative of the ideas and opinions of the students who were graduating in Fall 2007 and Spring 2008.

In the Fall and Spring Semesters of the 2007 – 08 academic year, Troy University awarded 4,302 degrees, with 2,098 in Fall 2007 and 2,204 in Spring 2008. The 1,340 respondents to the survey represented a 31% survey participation rate.

Demographic information

Of the 1,340 respondents, 66% were female, 50% were White vs. 35% Black (50% White vs. 35% Black of the Total), and 75% were aged 25 or older. While the majority (91%) were US citizens, the 9% international student participants represented 30 countries and regions in various parts of the world. Of all the respondents, 31% were residents of Alabama, 21% were from Georgia and 13% from Florida). On the other hand, about 22% of the respondents were graduating from Troy Campus, 30% were University College students, and students from Dothan, Phenix City, and Montgomery made up about .3%, 11%, and 11% of the respondents respectively. Additionally, University College students responded from 38 different sites.

Academic information

Academically, 51% of the respondents were expecting to receive a Bachelor's degree and 38% would be awarded a Master's degree, while the Associate and Education Specialist degree recipients making up around 8% and 2% of the respondents respectively. (Of all graduates for Fall 07 and Spring 08, 45% received Bachelor's degrees, 45% received Masters' degrees, 8% received Associate degrees, and 2% received Education Specialist degrees.) About 27% of the respondents were planning to graduate from the College of Arts and Sciences, 36% from Business, approximately 23% from Education, 5% from the College of Health and Human Services, and only about 3% from the College of Communication & Fine Arts.

According to the responses, approximately 56% of the students had transferred credit hours from other institutions and about 30% of them transferred more than 30 credit hours. While attending Troy University, 65% of the students had taken online courses, and 46% reported that their cumulative GPA's were between 3.5 and 4.0, and 31% had GPA's between 3.0 and 3.49. Of the 1,340 respondents, about 48% indicated that they had studied at Troy University for 2-3 years, while the longest time a student studied at Troy University was over 10 years (1%) and the shortest was just 1 year (17%), with an overall average of 3.01 years, 2.36 years for graduate students and 3.5 years for undergraduate students.

Employment and plan after graduation

Approximately 82% of the respondents reported that they worked while attending Troy University with about 65% working full-time (40 hours or over). Upon graduation, about 40% were planning to work in areas related to their majors at Troy University, 20% would continue to work in the jobs they had already, and approximately 29% were going to continue their education. The survey also found that about 40% of the respondents would pursue a Master's degree after they graduated, 25% would study for a doctoral degree, around 6% would seek an educational specialist degree, and another 5% would pursue a professional degree as their ultimate goal in education.

Financial aid information

The survey found that over 80% of the graduating students had received financial aid of one kind or another while going to school at Troy University. While the financial aid options varied, half of the respondents (50%) had received student loans, 21% obtained grants, 13% had scholarships or graduate assistantships, and about 18% received tuition assistance. Additionally, about 4% received a third party pay or other kind of financial aid, mostly from military or VA benefits. Approximately 20% of the respondents did not receive any financial aid.

Student satisfaction

- Student self-rated development (Report 1 – Q23)

Eighteen items related to knowledge, skills, and abilities were provided for the students to rate their development as a result of Troy University education. From the 18 items, two factors were identified - ***Intellectual Development*** and ***Leadership Development.*** In comparison, the 06-07 and 05-06 respondents shared about the same opinions regarding their development in the areas measured, with an average rating for ***Intellectual Development*** as 4.09 for 07-08; 4.12 for 06-07; and. 4.09 for 05-06 and a mean rating for ***Leadership Development*** as 4.26 for 07-08; 4.28 for 06-07; and 4.26 for 05-06, all in a 5-point scale with 1 as "Poor" and 5 as "Excellent."

As indicated in Table 1, the majority of the areas measured for student ***Intellectual Development*** were rated high above 4.00 (on a scale of 1 to 5) and 80% or more of the students rated their development in these areas as either "Excellent" or "Good." In addition, almost all ratings on areas related to ***Intellectual Development*** were almost parallel over the past three years.

Similar to the ratings on ***Intellectual Development***, ratings on ***Leadership Development*** were also excellent. As illustrated in Table 2, more than 80% of the students gave positive ratings of either "Excellent" or "Good" to their development in the areas related to ***Leadership Development.*** All mean ratings for items were higher than 4.00, the factor mean was 4.26.

For detailed ratings on areas included in these two factors, please see Report 1.

- Student ratings for quality of education and academic support services (Report 2 – Q24)

Eighteen items were measured in terms of what students thought about the quality of education and academic support services at Troy University. Again a factor analysis identified two factors, which include ***Academic Support Services*** and ***Instruction***. The factor ***Instruction***, or ***Academics***, includes areas relating to instruction and faculty and has an average rating of 3.97 for 07 – 08, 4.03 for 06-07 and 4.02 for 05-06 respondents on a 5-point scale with 1 as "Poor" and 5 as "Excellent."

Overall average ratings	3.97		4.03		4.02	

As indicated in the table above (Table 4), the majority of the students rated the areas related to ***Instruction*** as either "Excellent" or "Good," which is about the same as found in the previous two year's survey. Four areas, however, were rated blow 4.00 in 07-08, with the ratings on IMPACT/New Student Orientation Program and Academic Advising being the lowest. Further examination by campus (Table 4) found that eCampus students consistently ranked items in the factor of instruction higher than students from other campuses.

The ***Academic Support Services*** include Library, Computer labs, Writing Center, Reading Center, Center for International Programs, etc., and the average rating for this factor is 3.81 for 07 – 08, 3.82 for 06-07 and 3.85 for 05-06, relatively lower than expected. Overall, as indicated in Table 5, no areas in ***Academic Support Services*** had an average rating of 4.00 or higher nor did they have ratings of "Excellent" or "Good" for more than 80% of the respondents.

However, further examination by campus showed that ratings of students from different campuses varied (Table 6). The average ratings from students in Phenix City and Montgomery were found more likely to be better than those from Troy Campus and University College. Please be aware that only students who have used the services gave their ratings. The Reading Center, Natural Science Center, and Writing Center were rated by mostly Troy Campus students and only international students rated the Center for International Programs.

- Student satisfaction with services provided by Troy University (Report 3 – Q25)

Twenty-four offices and services of the University were measured in terms of student satisfaction. Two factors were identified. They were ***Student Services*** and ***Administration***. ***Student Services*** includes such areas as Career Services, Placement Services, Student Health Services, Recreational and Intramural Activities, Student Organizations, etc, while ***Administration*** includes the Admissions Office, Registrar/Records Office, Business Office, Financial Aid Office, Trojan WebExpress, and so on. Comparisons found that the participants in the past three year's surveys shared about the same level of satisfaction with ***Student Services*** and services provided by the ***Administration*** offices, with the overall average ratings for ***Administration*** being 3.90 in 07 – 08, 3.96 in 06-07 and 3.93 in 05-06 (on a 5-point scale with 1 as "Very Dissatisfied" and 5 as "Very Satisfied").

As can be seen from Table 7, under ***Administration***, Trojan WebExpress and Admissions Office were rated the best, both averaging above 4.00 (4.00 = Satisfied), with around 80% of the students feeling "Satisfied" or "Very Satisfied" with their services. Other areas in ***Administration*** had relatively low ratings, below 4.00 (4.00 = Satisfied) on average, with the Financial Aid and Veteran Services offices being rated the lowest and with less than two-thirds of the students feeling satisfied with the services they provided.

Table 7. Ratings on areas related to ***Administration***: 05-06 through 07-08

Overall average ratings	3.90		3.96		3.93	

Note: "Satisfied" = "Strongly Satisfied" +" Satisfied"

A breakdown by campus showed that students from Phenix City, Troy, and Montgomery had the lowest level of satisfaction with the Financial Aid Services, and the Veteran Services

at Phenix City and Troy received lower ratings compared to other campuses. The findings also showed that Troy students tended to feel less satisfied with the services provided by the Registrar/Record Office, Business Office, Information Technology, and Admissions Office. eCampus students were found to be most satisfied regarding services provided by the administration offices compared to students from other campuses.

In the surveys from the past three years, it seems that students were least satisfied with ***Student Services***. As shown in Table 9, none of the areas in ***Student Services*** received an average rating of 4.00 or higher, with Parking Facilities, Housing and Residential Life, and Placement Service being the lowest. The overall average rating for AY 07 – 08 was 3.67, 3.79 for 06-07 and 3.84 for 05-06,

For Parking Facilities, approximately 30% of the students indicated that they were "Very Dissatisfied" or "Dissatisfied" for the past three years. Further analysis found that Troy and Montgomery students were very dissatisfied with Parking Facilities and their satisfaction ratings were well below 3.00. Table 10 shows mean ratings on each of the areas related to ***Student Services***. Further studies may be needed before actions are taken for improvement.

- Student perceptions about Troy University (Report 4 – Q26)

In this section, 10 statements regarding the University in a broad sense were provided for the students to rate their agreement. As indicated in Table 11 (derived from Report 4), over 80% of the students "Agree" or "Strongly Agree" with the first 4 statements, indicating strong satisfaction with the academic programs and confirming the findings in Table 3 above (derived from Report 2).

- Overall ratings of Troy University (Report 5 – Q27)

  In Question 27, students were asked to rate their Troy preparation for employment and further education as well as to give an overall rating of their college experiences at Troy University. Over 80% of the students gave a positive rating to their overall college experiences at Troy University, with an mean rating of 4.08, while 73% of the respondents gave a rating of either "Excellent" or "Good" to their Troy preparation for employment and for further education, with a mean = 3.88 and 4.00 respectively. The graduating students from the past two years shared about the same opinions in their overall ratings of the University.

Recommendation of Troy University (Report 6 – IF YOU WERE STARTING OVER, WOULD YOU ENROLL IN THE SAME PROGRAM?-WOULD YOU RECOMMEND TROY UNIVERSITY TO SOMEONE PLANNING TO GO TO COLLEGE?)

Important satisfaction indicators used by colleges and universities include whether students would re-enroll in the university, re-enroll in the same academic program, and recommend their university to others. The surveys over the past three years found that over 85% of the students indicated that they would enroll in the same academic programs and attend Troy University again if they could start all over. The most important finding, which indicates student satisfaction with Troy University and academic programs, is that 90% of the respondents would recommend Troy University and their academic programs.

Implications

1. Overall, Troy University's graduating students were satisfied with their college experiences over the years they studied at TROY. In particular, the students were satisfied with their educational experiences at the University – instruction, the quality of education, and their academic programs, specifically. Furthermore, the students thought highly of their intellectual development and leadership development as a result of their education at Troy University.

2. The survey findings that for the past three years over 85% of the graduating students would attend Troy University and enroll in the same programs again if they started over and that more than 90% would recommend Troy University and their academic programs strongly suggest that Troy University was effective in offering quality education to its students.

3. However, the *Graduating Student Survey's* satisfaction measures have identified areas that need to be improved, especially in the areas of ***Academic Support Services*** and ***Student Services***. Because many of the weak areas found in the previous two year's results still remain the same in the 07-08 survey results, University personnel (administrators, faculty, and staff) need to pay more attention to assessment information and use assessment results to improve University services.

4. Furthermore, based on survey responses, faculty should do more to help students in their career planning, the University should be more responsive to student needs, efforts should be made to raise student intellectual caliber, and more courses should be offered each term so that students can graduate as they have planned.

5. While building plans for improvement for areas in which students are less satisfied, University personnel need to be aware that different factors may contribute to the ratings; therefore, further studies should be conducted to look more closely into the areas of need before decisions for improvement are made or actions are taken.

International Putra college is a potential university. To achieve this goal or vision, those facilities that provided must be satisfied students, like computer lab's computer and speed of internet. If music room can be modified a bit and make it as an entertainment place, students will not feel bored during their college life. To attract more students to study in IPC, these things are very important. Add more extra curriculum activities to students, music room can operate as a place like a real bar(no alcoholic), so that students can relax there.	1	.9	.9	93.9

	Troy office workers do not work for students but for themselves. Most workers does nor have responsibilities when some problems are happen.They always say 'I Don't Know'. A few international workers do not have professionla information that concerne with their own jobs, so they do mistakes always. It is so funny. We know what is worng with them exactly.But, because of English, we cannot explain fully. I only met a few instructors who have good personalities. I like only Troy University's Environment and weather. I miss Troy University already.	1	.9	.9	100.0

Appendix Twenty
Comparison of Means between International Students and U.S. Citizens
2007 – 2008
International Student N = 114 (9%)

Survey participants were asked to categorize themselves as being a U.S. Citizen or not. 1216 classified themselves as U.S. citizens (90.75) and 114 (9%) declared that they were not U.S. Citizens.

The measurements of student perceptions of Troy University by non-citizens were typically marginally lower than that of U.S. citizens. Non-citizens had a higher mean rating in only three categories: mathematical skills, academic advising, and parking facilities.
