HEADQUARTERS: 12, RUE D'AGUESSEAU, PARIS

1918

Miss Grace Peck  
 just a few lines to let  
 to you as I was about to  
 write I thought I had a  
 letter for you from God  
 some words like we have  
 from you some times I am  
 in good health hope you  
 are the same I sometimes  
 get very weary here as  
 part of the boys that I  
 know with me hope I can  
 to the army I have heard  
 like being through the line  
 of them and have had  
 a letter from you and  
 from I felt I am glad  
 from us, sorry they had  
 to you can just imagine

that by this time I feel that  
I'm in that by my self  
not any of the boys but any  
I do one thing there is not  
any part time for them as  
any where they about home  
any thing as business there  
or any thing of that kind of  
thing any here every body  
work no men and all there  
are but of me men any place.  
only talking in some of the  
part all of the work some  
many old men no young ones  
at all and lots of things  
that you people in the  
States can but that many  
want boys here for things  
don't have it to sell the  
it is great pleasure to see  
this country over here and  
all but the best treatment the  
any can have as no one  
could expect to be at home  
here or about the other

to be born by Spring any  
way the Alms are coming  
Navy fast now as a best all  
of the boys get to be done  
by Spring I know you think  
what little I do write you is  
real silly the I dont know  
any thing to say at all we  
can write just as much as  
we wish but not so many  
different letters as I could not  
show every one to write all  
of they if youd know me  
since that at world I never let  
them tell Ethel I would  
like to see her her  
some times would like to  
see her soon all of my friends  
of I could tell them to write  
me if any of them will all  
then know any body will  
be so badly pleased when  
you I had letters like for  
this time I hope you are  
are waiting me of you  
may I visit her at
