

Peathan All

April 12-1920

My dear Mrs Williams
I was the happiest
mother in Peathan yesterday
for we got five letters
from our children
and some lovely snap
shots of them, really I
was so glad I was
silly. But dear little
Joyce said she had been
sick with her throat
and was real well when

she wrote, which was the 23rd of
Feb, But I know you have gotten
letters to, so we can both feel
happy to day. They seem to
be getting on nicely and
happy as two cats.

Well I do hope your
cold is better by now. But
I guess you will not get rid
of it until spring comes to
relieve you of it. It looks

like spring here, but awfully
cool. I know you want to
get out and breath some good
spring air. But I know you
will feel better after hearing
from our children, they both
look fine in the little snapshots

I am feeling better. My mouth
don't give me trouble now
like it use to, and I am very
thankful for it. Mr. K. is

is still suffering with
his feet but stays up
and going all the time

Bess is getting better
sunns her self sometimes
but not at all well. She
ask me to give you her
love. I know Plum
had a nice visit to New York
give them all my love
tell Nellie I would love
to have a picture of the
darling little junior.

Now please take care
of yourself and be good
with lots of love, from
your friend, J. H. K.
