

Coblenz, Germany,
June 2, 1920.

Dearest Mother,

Yesterday I went to Bonn to get my hat and I surely was pleased when I saw it, it is a white ribbon hat and mighty pretty.

I also got charmeuse (white) for a skirt and Matilda has it already to put the hem in by hand. Some class to me with a maid who can dressmake.

It is real warm here just like summer and it makes me begin to plan

a Summer wardrobe,

Of course I don't want you to send me that hat, especially now since I have another one.

You see for a while it looked as though I just couldn't get any kind of a hat for thin dresses but now I am fixed up O. K. I do realize Ruth and Charles have done a great deal for me and I appreciate it all very much. Aunt Louise too has been of both yours and mine and I have a pair of kid gloves for her and a bottle of perfume.

3, We are getting a few things gradually now to take home so in case we go this Summer we won't have to buy everything at one time.

One of my friends have just had a baby girl, it was only 7 months and weighs a little over ~~2~~ 3 pounds. I haven't been out to see her as she isn't well enough to have any ^{visitors} ~~one~~ as yet but I guess the baby will live.

Mrs. Heird's is about next and I hope she will be soon because they have their

orders to go home in August,

It is quite a trip across the
pond with 2 babies.

Hon is just as saucy as
ever and eats like a pig. I
wish you could see us eating
cherries. They have them here
by the wholesale.

Well I will kiss you Bye
Bye for to-day so with
heaps of love from Hon and I,
and prayers for your safe-
keeping, I am
Your loving daughter,
Joyce.
