

Walter. Ald.

June 9-1920

dear Mrs. Williams.

I have thought  
I would write you every  
day, but I have been  
so busy since I came  
home. But Mr. Keyster  
had such a painful accident  
got scalded from the  
radiators of one of his  
trucks exploding it  
burned his stomach

as he was standing in front  
of it. that happened last Friday  
and he has been laid up since  
and has been suffering red  
bad with it since. But the Doc.  
says he is doing nicely, and I  
hope he will soon get well. But  
you know it takes longer some  
time to heal. But we have  
such good news from my  
children that I am just happy  
for they are coming home  
this summer. and Mr. Moody  
told us that Arthur had been  
recommended for a health man  
in this place, and he was  
most sure he would get it  
if he would take it. We had  
a letter from Arthur, saying  
he did not know that he would  
take that work, that he had three  
things in view, and would  
come home and talk to his  
Dada about it before he made

in his mind as to what  
he would do. I know  
you and I will be two  
of the happiest mothers anywhere.

Mr. Keyton said tell you  
that you would better join  
them in New York and  
come on home with them  
for we could never let them  
leave to go see you. I wish  
you would we would be  
so happy to gather. But I  
know you will see them  
before we do. Take care of  
yourself and be well  
when they do come.  
With a heart aflame from  
your sincere friend, W.
